

Remarks of Suzette Zablit  
RCOUA Treasurer  
8360 Greensboro Drive, #508  
McLean VA 22102

1- I stated my name, residence, I am a high school teacher, I serve as the Treasurer on the RCOUA and I am speaking on behalf of several hundred residents who are quite concerned about the possibility of having some of their land taken away to widen Greensboro Drive.

2- I bought at the Rotonda several years ago so that my sons can have a park like setting and I agreed with the goals as previously stated by Parks and Fields in Tysons, and the Rotonda has that.

3- I asked the planning commission: Do you keep the 23 acres gated community with the mature tree canopy OR reduce the canopy for streets, sidewalks, bike paths on a hill that is incline and challenging at best.

I stressed the human aspect from the perspective of every owner who resides at the Rotonda and does not wish to have his residence altered in any way shape or form or its trees decimated for a possible bike path that could hardly be used.

I also reiterated that no one at the Rotonda is opposed to change and development however, it should not be done by altering our way of life nor our property line.
