Bias Crime Incident Summary Report

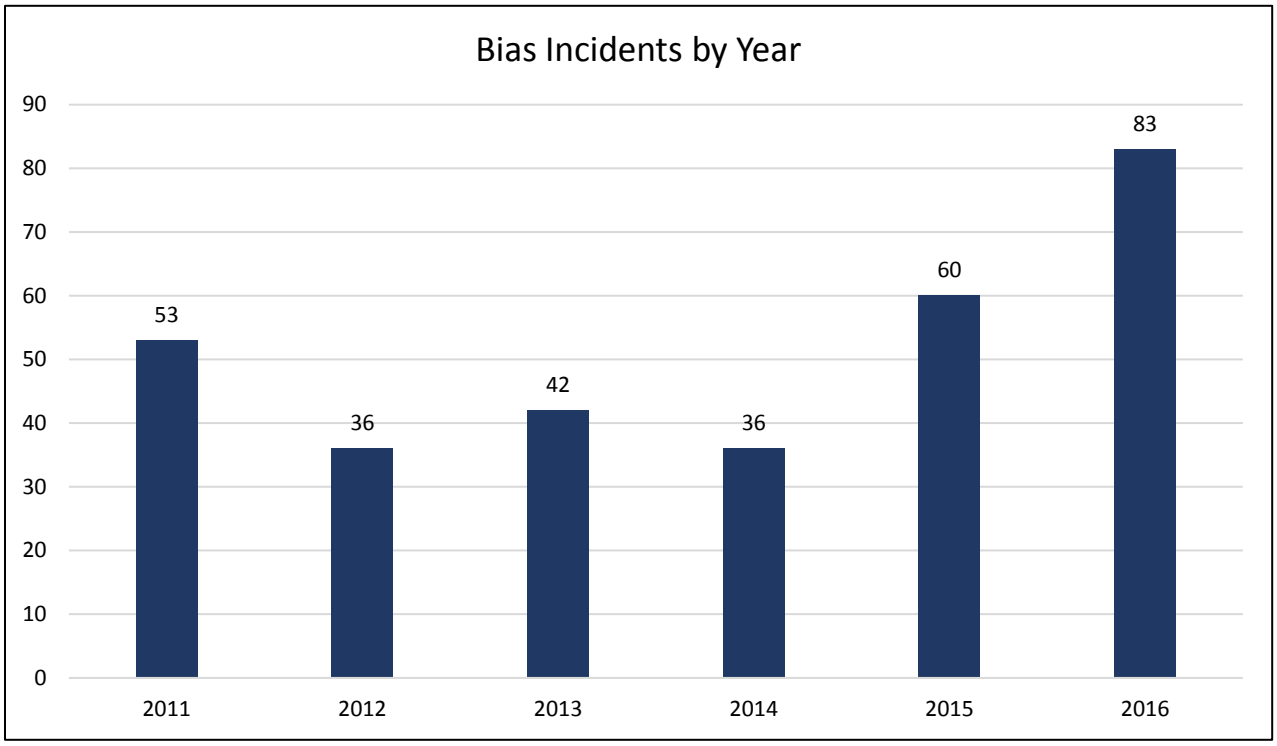
A comprehensive data review of bias incidents has been conducted for calendar years January 1, 2011, through December 31, 2016. This is an updated summary to include the full 2016 calendar year. For the purpose of this summary report, the data source was the Fairfax County Police Department's (FCPD) Records Management System (RMS) via Tableau. The categories of bias crimes or incidents included the following:

Anti-Arab
Anti-Asian/Pacific Islander
Anti-Black
Anti-Catholic
Anti-Female Homosexual (Lesbian)
Anti-Hispanic
Anti-Homosexual (Gay and Lesbian)
Anti-Islamic (Moslem)
Anti-Jewish
Anti-Male Homosexual (Gay)
Anti-Multi Racial Group
Anti-Multi Religious Group
Anti-Other Ethnicity/National Origin
Anti-Other Religion (Buddhism, Hinduism)
Anti-Physical Disability
Anti-Protestant
Anti-White

Recorded information was based on what was reported to FCPD. In many instances the offenders' motives were unknown, and those incidents were captured under the "unknown motivation" category.

Bias Crime Incidents Aggregate Total

The summary information in this report will reflect tables, graphs, and statistics specifically related to the categories identified on page one. Some of the data reflect aggregate totals as well as individual bias incidents for the specified time period.



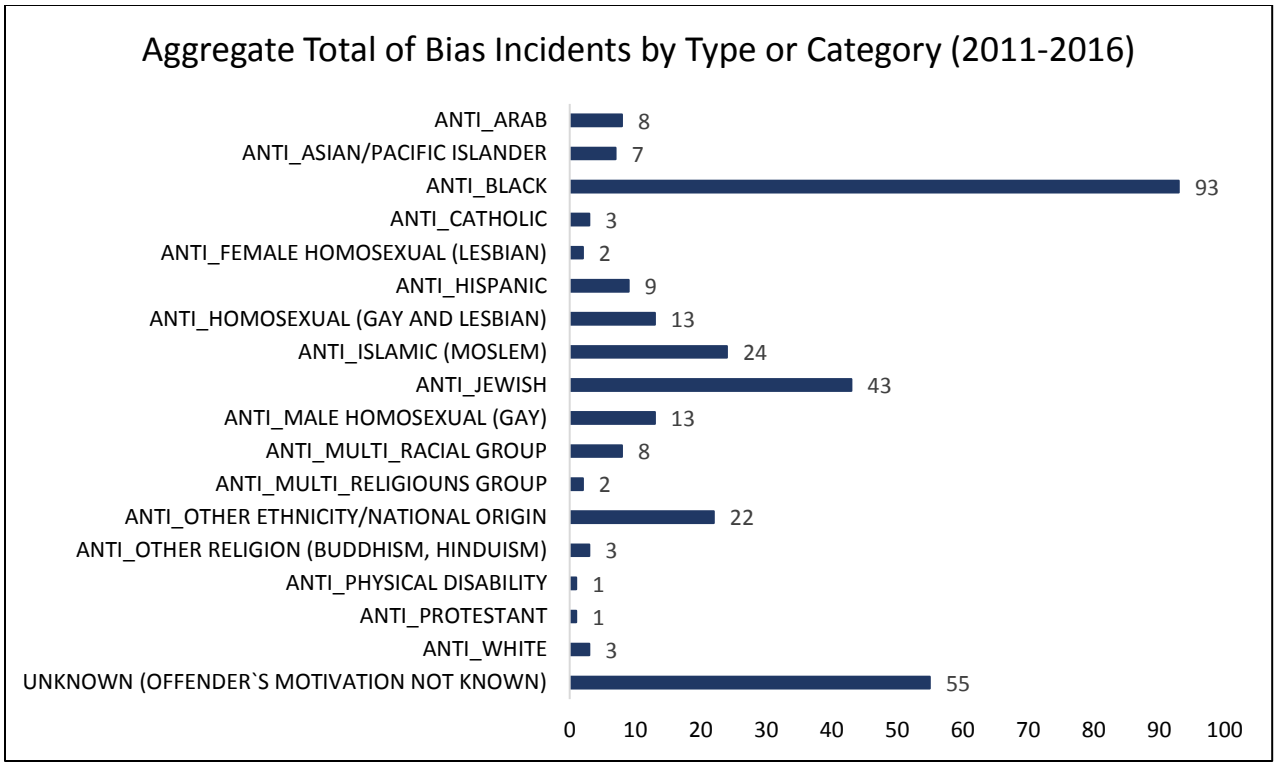
Data Source: FCPD I/LEADS RMS via Tableau

Highlights to note:

- The aggregate total of all bias crime incidents was 310. The 2016 calendar year incidents represent 27% of the aggregate total.

Bias Crime Incidents by Type or Category

The following tables and charts represent a breakdown of bias crime motivation by bias type, monthly totals per year, aggregate totals by month and district station, individual breakdown per year, and aggregate crime/event data for each calendar year.



Data Source: FCPD I/LEADS RMS via Tableau

Highlights to note reference aggregate bias incidents by type or category:

- The most prevalent bias incident type or category was Anti-Black representing 30% of the aggregate total.
- Unfortunately the second most prevalent bias incident type or category was unknown. This indicates there was no known motivation for the suspect's actions or one was not provided for tracking purposes. The unknown motivation category accounted for 18% of the aggregate total.
- With consideration of the unknown motivation category, the next prevalent type of category was Anti-Jewish accounting for 14% of the aggregate total.

Bias Crime Incidents by Month and Year
