FICPD AVERAGE RESPONSE TIMES

RESPONSE TIMES BY PRIORITY AND STATION

Response Time indicates the length of time elapsed (in minutes) from the time a call was entered by DPSC to the arrival of the (first) officer on scene.

Priority 1:

A life threatening event is occurring or has occurred.

Priority 2:

An event of serious threat to property or public order or the possibility of escalating to life threatening exists.

Priority 3:

An event presents a threat to public safety or convenience.

Response times have been filtered to exclude those responses with indicated values equal to or greater than 65 minutes. This exclusion accounts for outlier values created when the first responding officer's time of arrival on scene has not been captured in a given event.

NOTE: Priority 4-9 events are not included in this data because the call nature may be associated with on-line reporting. This can create a skewed data representation of a longer response time.
