

Our homes were designed as if our needs would never change. But our needs do change. And not just when we get older. At any time, we could need immediate modifications to our bathrooms, kitchen or doorways .  
*So why not make these changes during everyday repairs or major upgrades?*

Spend a morning with us. Learn how to change your home so it will always work for you, your family and your friends *even as your needs may change.*

*Reinventing Your Home....*
