

[Community Feedback Sought on Prioritizing Proposed Fairfax County Transportation Projects for Funding](#)

FOR IMMEDIATE RELEASE

October 2, 2017

The Fairfax County Board of Supervisors and Fairfax County Department of Transportation (FCDOT) are seeking feedback from the community to help prioritize [unfunded transportation projects in the county](#). The results of this outreach will assist the Board of Supervisors in selecting transportation priorities that can be implemented with existing revenue sources through Fiscal Year 2023, and with additional funding that may become available in the future.

The county has identified more than 100 unfunded capital and operating projects important for improving the efficiency and safety of the county's transportation network. **These projects are *in addition to the* [approximately 300 projects](#) that are already funded and underway** (in the amount of approximately \$3 billion).

These unfunded projects would provide new capacity, and include interchange improvements, roadway extensions, spot improvements, roadway widening projects, transit, and pedestrian and bicycle improvements. **With very limited amount of funding available for these proposed projects (approximately \$100 million), the Fairfax County Board of Supervisors would like to know which of these projects are most important to you.** Below are some resources on the proposed unfunded projects as well as projects already funded and currently underway:
