

Fairfax Green Initiatives Implementation Matrix

On February 5, 2019, the Board of Supervisors (Board) unanimously approved the [Fairfax Green Initiatives Board Matter](#), introduced by Supervisors Storck, Foust and (now Chairman) McKay to expedite consideration and implementation of energy-related initiatives. On June 14, 2019, staff provided the Board with an Implementation Matrix, identifying, for each action item in the Board Matter, the lead department(s) charged with implementation, whether the action item was complete or ongoing, whether an action item would be addressed in the CECAP planning process and whether consideration for action items not yet addressed was anticipated in CY 2019 or CY 2020. Quarterly updates to the Implementation Matrix are provided to the Board of Supervisors. Included in the Implementation Matrix below are just those action items completed since the last quarterly update to the Board in February 2020.

Action Item	Lead Dept.	Complete	Ongoing	CECAP	Anticipated Consideration	
					CY2020	CY2021
4. Refer to the Environmental Committee for discussion and consideration the following:						
4d. Complete Committee and staff work for C-PACE adoption by July 2019 with implementation by the end of 2019.	OEEC	X				
4f. Identify timeframe for developing a County-specific Climate Resiliency and Adaptation Plan.	OEEC, DPWES, OEM, DPD, LDS, FCHD	X				
6. Direct the County Executive to report to the Board no later than September 2019 the following:						
6a. Report on strengthening Green Building Policies for County Facilities.	DPWES, FMD, FCPA, FCHRA, OEEC	X
