Supervisor Frey stated that on October 13, 1995 the Board approved authorizing the
County Executive to execute a covenant on the County owned property to satisfy the requirement of one of the Development Conditions dealing with conservation easements.

Residents are convinced that this problem is only getting worse, including finding dumped trash on lawns and witnessing car repair performed during lunch hours.

Supervisor Gross stated that she has forwarded to the Office of Transportation petitions signed by the residents of Sixth Street South, asking for implementation of a Residential Permit Parking District (RPPD). Supervisor Gross moved that the Board direct staff to expedite this request. (BACs)

Supervisor Kauffman explained that this past week he became aware of efforts by the Transportation Advisory Commission (TAC) to develop a quantifiable method to review transit route efficiency and effectiveness. The suggestion would also incorporate actions to enhance a failing route’s chances of survival. The current method is based solely on ridership and subsidy levels without regard for applying short term incentives. The TAC noted that the present analysis is very limited, a snapshot in time, and does not recommend corrective measures. Noting the importance of public transit to the County’s well-being, Supervisor Kauffman asked unanimous consent that the Board direct the:
Staff of the Office of Transportation (OT) to work aggressively with the TAC upon this endeavor; and

TAC and OT Transit Work Group to provide a timely, not to exceed 90 days, progress report to the Board’s Transportation Subcommittee for review and further direction.

Supervisor Kauffman stated that he had received a number of constituent complaints regarding zoning violations, specifically "junk" or inoperable vehicles, as well as vehicles without tags or County decals. He noted that many of these cases overlap enforcement by the Police Department and the Zoning Enforcement Branch (ZEB) of the Zoning Administration Division (ZAD), Office of Comprehensive Planning (OCP). He cited the cumbersome necessity of calling both offices, the perceived lack of follow-up, and the lack of investigation status updates.

Accordingly, Supervisor Kauffman asked unanimous consent that the Board direct staff to provide the Board with an Information Item with a coordinated “one-stop shopping” approach to handling zoning enforcement investigations of junk and inoperable vehicles as well as reports on missing tags and County decals. Without objection, it was so ordered.
