---	--	-------------------

[Amend] (19105844D-H1) - Amend to remove provisions pertaining to the local Independent Redistricting Commission, due to concerns that the bill would override the more robust process the County has used in the past.
Summary: Constitutional amendment (first resolution); apportionment; state and local independent redistricting commissions; criteria. Requires the establishment of independent redistricting commissions by the General Assembly and the governing bodies of each county, city, or town in which members of the governing body are elected from districts. The Virginia Independent Redistricting Commission is required to be convened for the purpose of proposing districts for the United States House of Representatives and for the Senate and House of Delegates. The Commission shall consist of twelve commissioners, four to be appointed by the Governor, four to be appointed by the Speaker of the House of Delegates, and four to be appointed by the Senate Committee on Rules. Equal representation shall be given to the two major political parties. Congressional district plans must receive an affirmative vote of eight of the twelve commissioners in order to be submitted to the General Assembly for a vote. Senate district plans must receive an affirmative vote of three of the four commissioners appointed by the Senate Committee on Rules in order to be submitted to the Senate for a vote. House of Delegates district plans must receive an affirmative vote of three of the four commissioners appointed by the Speaker of the House of Delegates in order to be submitted to the House of Delegates for a vote. Plans may not be amended by the General Assembly or the respective body and are not subject to amendment, approval, or veto by the Governor. If a plan is rejected by the General Assembly or the respective body, the Commission is required to submit a new plan for consideration and if that plan is rejected, the districts shall be established by the Supreme Court of Virginia. Congressional and legislative districts are to be established in accordance with certain criteria set out in the amendment.

Requires the general registrars to verify that the name, date of birth, and social security number provided by an applicant on the voter registration application match the information on file in the Social Security Administration database or other database approved by the State Board of Elections (State Board) before registering such applicant. <p>Support with Amendment (19104713D) - Support with amendment to allow the use of power purchase agreements in the pilot program, which is essential for Fairfax County to pursue net metering projects. Summary: Directs the State Corporation Commission to establish a pilot program that affords the opportunity for any locality to participate in net energy metering if it is a retail customer of a certain type of investor-owned electric utility. In order to qualify for the program, the locality is required to own and operate a renewable generating facility with a generating capacity of not more than two megawatts that is located on the municipality's premises and is intended primarily to offset all or part of the locality's own electricity requirements. Under the pilot program, a municipal customer-generator that generates electricity in amounts that exceed the amount of electricity consumed by the municipal customer-generator, determined annually, to credit one or more of the municipality's target metered accounts in order that the generation energy charges on the electric bills of the target's metered accounts are reduced by the amount of excess generation kilowatt hours apportioned to the metered account multiplied by the applicable generation energy rate of the target's accounts. In Appalachian Power's service territory, metered accounts of the public school division of a locality may be target accounts. The amount of generating capacity of all generating facilities that are the subject of a pilot program are limited to (i) five megawatts if Appalachian Power is the pilot program utility, though the utility may increase the amount to up to 10 megawatts or (ii) 25 megawatts if Dominion Power is the pilot program utility. Such aggregated capacities of the generation facilities that are the subject of a pilot program constitute a portion of the existing limit of the utility's adjusted Virginia peak-load forecast of the previous year that is available to municipal customer-generators, eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators in the utility's service area. The duration of the pilot program is six years.</p>

Summary: Conditional rezoning proffers. Makes extensive changes to conditional zoning provisions first enacted in 2016. Specific amendments include the addition of provisions stating that no local governing body shall require any unreasonable proffer, as described in current law. Under current law, no locality may request or accept any unreasonable proffer. Other changes (i) allow an applicant to submit any onsite or offsite proffer that the applicant deems reasonable and appropriate, as conclusively evidenced by the signed proffers, and (ii) state that nothing in the bill shall be deemed or interpreted to prohibit communications between an applicant or owner and the locality or to prohibit presentation, analysis, or discussion of the potential impacts of new residential development or other new residential use on the locality's public facilities. The provisions of the bill are effective as to any application for a rezoning filed on or after July 1, 2019, or for a proffer condition amendment amending a rezoning that was filed on or after July 1, 2019, or to certain other pending applications. The bill also provides that an applicant with a pending rezoning application for a rezoning or proffer condition amendment that was filed prior to July 1, 2016, may continue to proceed under the law as it existed prior to that date, and an applicant with a pending rezoning application filed on or after July 1, 2016, but before July 1, 2019, or proffer condition amendment application amending a rezoning for which the application was filed on or after July 1, 2016, but before July 1, 2019, may continue to proceed under the law as it existed during that period.
