

# Tree Action Plan

Update on Final Draft

Brian Keightley, Director, Urban Forest Management Division

February 4, 2020

# Objectives

- Return the Tree Action Plan to the Environmental Committee per October 2, 2018 directive
- Briefly review background of Tree Action Plan
- No net loss canopy goal
- Tree Commission recommends approval at next full meeting of the Board of Supervisors

# Tree Action Plan – Timeline

Year	Progress
2006	Current Tree Action Plan approved by Board of Supervisors
2017	Tree Commission and Urban Forestry staff begins update process
2017 - 2018	Stakeholder reviews and community input
2018	Text finalized by Tree Commission and Urban Forestry staff
2018	Endorsement of Tree Action Plan by Tree Commission
October 2018	Presentation at Board of Supervisors Environmental Committee (BOSEC) ➤ Several comments from Supervisors needed to be addressed
October 2019	Tree Commission sends revisions of Tree Action Plan back to BOSEC

# Tree Action Plan - Summary

- Both a strategic plan and management plan
- Plan is not a regulatory document or ordinance
- Defines the Urban Forest and its community benefits
- Defines threats and stressors to the Urban Forest
- Establishes goals and recommendations
- Implementation of plan by the Community of Practice

## Tree Canopy Goal

“No net loss of tree canopy to maintain our County’s overall tree canopy of 57 percent based on the March 2017 analysis.”

# Community of Practice

“A group of people who share an interest or objective and exercise their ability to work together towards that objective.”

# Tree Commission recommendation

Tree Commission recommends the Board of Supervisors approve the Tree Action Plan at the next full meeting.

Urban Forest Management Division staff concurs with this recommendation.
