

Joint Environmental Task Force Recommendations

Update

Supervisor Storck, Environmental Committee Chair

April 6, 2021

JET Recommendations

- **Waste Management**

- Fairfax County government and schools should set an aspirational goal to be at zero waste by 2030.

- **Transportation**

- **Bus Fleet Replacement:** The Fairfax Connector diesel bus fleet will be transitioned to electric alternatives by 2030, and the FCPS fleet by 2035. Appropriate benchmarks will be determined to help measure progress toward achieving these goals.
- **Non-Bus Fleet Replacement:** Determine which vehicles have electric (or other non-carbon emitting) alternatives and transition them by 2035. Develop a plan for mitigating the carbon footprint of others. Appropriate benchmarks will be determined to help measure progress toward achieving these goals.
- **Charging Infrastructure:** Necessary charging infrastructure will be installed to scale as fleets grow. Wherever possible, charging infrastructure will serve FCPS and the County.
- **Pedestrian, bicycle, trail** connections improvements.

- **Workforce Development**

- Fairfax County government and schools should provide additional resources for students and adult learners to know about and pursue “green” career paths.
