<p><b>Support</b> (21101608D-E)  <b>Summary:</b> Absentee voting; procedural and process reforms; availability and accessibility reforms; penalty. Makes various reforms to absentee voting processes and procedures, including those related to availability and accessibility. The bill requires certain actions to be taken to process absentee ballots returned before the day of an election, including verifying the correct completion of the voter affirmation statement, and provides for an opportunity for an absentee voter to make corrections to the statement in certain circumstances. The bill requires the establishment of drop-off locations for the return of voted absentee ballots. Additionally, a central absentee voter precinct is required to be established in each locality; currently, establishment is optional. On the day of the election, officers of election are required to begin processing absentee ballots in the central absentee voter precincts prior to the close of polls, but no ballot vote counts are permitted to be transmitted outside of the central absentee voter precinct before the close of polls; a violation of such prohibition is a Class 1 misdemeanor. When reporting election results to the Department of Elections, the general registrars are required to report absentee ballots cast early in person separately from all other absentee ballots. Additionally, a voter who has applied for and received an absentee ballot may choose to instead vote at his polling place on election day, and such voter shall be entitled to cast a provisional ballot. The bill requires a ballot marking tool with screen reader assistive technology to be made available for absentee voters with a print disability. Restrictions on the availability of absentee voting for first-time voters who registered by mail are repealed. The bill contains technical amendments for organizational and readability purposes.</p>

**Support with Amendment** (21100967D) - Support with amendments to remove the requirement to establish the locations of satellite voter offices through local ordinances. **Staff Recommendation: Support. The bill was amended to conform with HB 1888, which the County supports.**

**Summary:** Absentee voting; establishment of drop-off locations; ballot defects; cure process. Requires the establishment of a drop-off location for the return of marked absentee ballots at the office of the general registrar and each voter satellite office. On the day of any election, a drop-off location shall be available at each polling place in operation for such election. The bill allows the general registrar of any county or city to establish additional drop-off locations within the county or city as he deems necessary. The Department of Elections is required to set standards related to the establishment and operation of drop-off locations, including security requirements. The bill also requires general registrars to take certain actions to preprocess absentee ballots returned before election day and to notify an absentee voter of any errors or issues with the completion or return of his absentee ballot that would render the ballot void. The general registrars are required to enter into the voter's record in the registration system that the voter's absentee ballot has an issue requiring correction and to notify the voter in writing or by email of the error or failure, in addition to providing information on how to correct the issue. The absentee voter then has until noon on the third day following the election to make necessary corrections so that his ballot may be counted. This ballot cure process applies only to those absentee ballots received by the Friday immediately preceding the day of the election. The bill contains technical amendments for organizational purposes.

[Monitor] (21200042D-S1) - The bill has been amended to minimize the County's concerns and provide new options to use CSA funding. Language establishing a workgroup has been further improved. See also SB 1313 (Mason).

~~**Amend** (21103572D-H1) - Support provisions that allow CSA funding for transitional services from private special education schools to public schools, and requirements that private special education schools be licensed to receive CSA funds. Also support retaining language in the legislation requiring a comprehensive study prior to moving administration of CSA funds from OCS to DOE, as that could potentially impact state sum sufficiency funding for CSA, which is a top County priority. See also SB 1313 (Mason).~~

**Summary:** Children's Services Act; special education programs. Requires that funds expended for private special education services under the Children's Services Act only be expended on educational programs that are licensed by the Board of Education or an equivalent out-of-state licensing agency. The bill also provides that as of July 1, 2022, such funds may only be expended for programs that the Office of Children's Services certify as having reported their tuition rates. The bill adds children and youth previously placed in approved private school educational programs for at least six months who will receive transitional services in a public school setting to the target population for eligibility for the state pool of funds. The bill provides that state funds shall be allocated for no longer than 12 months for transitional services. **Monitor** (21103648D-S1) - See also HB 1890 (Price).

**Summary:** Elections; prohibited discrimination in voting and elections administration; required process for enacting certain covered practices; civil causes of action. Prohibits any voting qualification or any standard, practice, or procedure related to voting from being imposed or applied in a manner that results in the denial or abridgment of the right of any United States citizen to vote based on his race or color or membership in a language minority group. The bill further prohibits at-large methods of election from being imposed or applied in a locality in a manner that impairs the ability of a protected class, defined in the bill, to elect candidates of its choice or to influence the outcome of an election, by diluting or abridging the rights of voters who are members of a protected class. Prior to enacting or administering a covered practice, defined in the bill, the governing body of a locality is required to publish the proposed covered practice and accept public comment for a minimum of 30 days on the proposed covered practice; after the public comment period, a 30-day waiting period is required. During this period, any person who will be subject to or affected by the covered practice may challenge the covered practice as (i) having the purpose or effect of denying or abridging the right to vote on the basis of race or color or membership in a language minority group or (ii) resulting in the retrogression in the position of members of a racial or ethnic group with respect to their effective exercise of the electoral franchise. The bill permits the local governing body to instead submit the proposed covered practice to the Office of the Attorney General for issuance of a certification of no objection and, once such certification is issued, to enact or administer the covered practice. Certain unlawful actions, including knowingly communicating false information to voters, that are currently subject to criminal penalties will create civil causes of action under the bill. The bill authorizes the Attorney General to commence civil actions when there is reasonable cause to believe that a violation of an election law has occurred and the rights of any voter or group of voters have been affected by the violation. Civil penalties assessed as a result of such action are payable to the Voter Education and Outreach Fund, established by the bill. Current provisions related to language minority accessibility are moved to a newly created chapter relating to the rights of voters.

<p><b>Monitor</b> (21102510D) <b>Summary:</b> Illegal gambling; skill games; temporary exemption for truck stops and alcoholic beverage control retail licensees. Delays by one additional year, from July 1, 2021, to July 1, 2022, the prohibition on the play or offering for play of skill games that was instituted in the 2020 Regular Session. The bill extends the one-year phase-out of existing skill games by one additional year to July 1, 2022, but decreases to 90 percent the total number of machines that a distributor may provide for play to truck stops and Virginia Alcoholic Beverage Control Authority retail licensees (ABC retail licensees) relative to the number of machines such distributor previously reported to the Virginia Alcoholic Beverage Control Authority (the Authority) on July 1, 2020. The bill caps the total number of skill games that persons operating truck stops and ABC retail licensees may make available for play to no more than 20 and six, respectively. The bill extends the prohibition on distributors offering new skill games for play. The bill keeps oversight authority over skill games with the Authority. The bill extends the requirement that each distributor pay a monthly tax of \$1,200 for each skill game provided for play during the previous month. Revenues will accrue one percent to the Problem Gambling Treatment and Support Fund, three percent to the Authority for the purposes of implementing the bill, 33 percent to the localities in which the skill games are located, one percent to the Family and Children's Trust Fund, two percent to the Virginia Breeders Fund, and 60 percent to the Commonwealth Transportation Fund. The bill extends the requirement that distributors report monthly to the Authority the number of skill games provided for play. Finally, the bill prohibits persons younger than 21 years of age from playing skill games or redeeming the evidence of winnings for them.</p>

Requires every public body, prior to requiring bidders, offerors, contractors, subcontractors, or operators on contracts for the design or construction of a road, highway, bridge, or similar transportation improvement to enter into, become or remain signatories to, or adhere to project labor agreements, to make a written determination that requiring such bidders, offerors, contractors, subcontractors, or operators to enter into, become or remain signatories to, or adhere to such project labor agreements advances the public's interests based on objective criteria established by the public body by regulation or ordinance, such as cost, efficiency, quality, safety, timeliness, maintenance of a skilled labor force, labor stability, or advancing minority-owned and women-owned business participation in the project.</p>		
<p><a href="#">HB 2239</a> - Robinson (27) Absentee voting; ballots to be processed before election day and sorted and counted.</p>	<p>1/13/2021 House: Referred to Committee on Privileges and Elections 1/26/2021 House: Subcommittee recommends laying on the table (4-Y 2-N) 2/5/2021 House: Left in Privileges and Elections</p>	<p><b>1/26/2021</b></p>
<p><b>Oppose</b> (21101712D) - The bill creates a substantial workload and logistical challenges. <b>Summary:</b> Elections; absentee voting; ballots to be processed before election day and sorted and counted by precinct. Requires certain actions to be taken to process absentee ballots that are returned by mail before election day. The general registrar is required to examine the ballot envelopes to verify completion of the required voter affirmation; mark the pollbook, or the absentee voter applicant list if the pollbook is not available, that the voter has voted; and open the sealed ballot envelopes and insert the ballots in optical scan counting equipment or other secure ballot container without initiating any ballot count totals. Current law requires only that the general registrar undertake at least one such activity before election day. So that ballots can be separated from ballot envelopes and scanned, the bill requires that the office of the general registrar be used as a central absentee voter precinct. The bill requires that absentee ballots processed at any central absentee voter precinct be sorted by the precinct to which the voter who cast the absentee ballot is assigned and that the resulting vote totals from such ballots be reported separately for each voter precinct.</p>
