¹ This fund is supported by a Transfer In from Fund 69000, Sewer Revenue.

² A Transfer In from Fund 69310, Sewer Bond Construction, is necessary in FY 2024 as this reflects the Underwriter's Discount expense associated with the planned 2024 Sewer Revenue Bonds to be paid from bond proceeds, which are reported as revenue in Fund 69310, Sewer Bond Construction.

³ The bond principal and interest payments are shown as expenditures. However, for accounting purposes, the Annual Comprehensive Financial Report will show these disbursements as "Construction in Progress" to be capitalized.

⁴ The Wastewater Management Program maintains fund balances at adequate levels relative to projected debt service requirements. Fund balances fluctuate from year to year based on actual debt requirements.

⁵ The FY 2023 Adopted Budget Plan Ending Balance was projected to be negative due to year-end accruals on the 2014 Sewer Refunding Bonds, 2016 Sewer Refunding Bonds, 2017 Sewer Revenue Bonds, 2021A Sewer Revenue Bonds and 2021B Sewer Refunding Bonds, as the impact of these accruals carried over into FY 2023. The resulting negative balance was addressed as part of the *FY 2022 Carryover Review*.
