<sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$20,096 has been reflected as an increase to FY 2007 revenues to reflect the actual interest on investments. The audit adjustment has been included in the FY 2007 Comprehensive Annual Financial Report (CAFR).

<sup>2</sup> On September 10, 2007 the Board of Supervisors approved the sale of 3.0 mgd in Fairfax County unused capacity at the UOSA treatment plant; 2.0 mgd to Prince William County and 1.0 mgd to the City of Manassas at \$16,855,000 per mgd of capacity.

<sup>3</sup> The Wastewater Management Program maintains fund balances at adequate levels relative to projected debt service requirements, operation and maintenance expenses and capital improvements. These costs change annually and funding for sewer projects is carried forward each fiscal year; therefore, ending balances fluctuate, reflecting the carryover of these funds.

<sup>4</sup> The Operating and Maintenance Reserve was established to provide funding to offset expenses associated with sewer system emergencies occurring within Fund 401, Sewer Operation and Maintenance.

<sup>5</sup> The Virginia Resource Authority (VRA) Reserve was established in anticipation of debt service reserve requirements for VRA loans related to future treatment plant costs.
