

Response to Questions on the FY 2010 Advertised Budget Plan

Request By: Supervisor McKay

Question: Does the \$106.5 million total cited in a recent Q&A response reflect all County investments for affordable housing from all sources?

Response: The \$106.5 million total previously cited that is provided through the Department of Housing and Community Development is the total County investment for affordable housing. In addition, the County receives funding for related programs like the County's Continuum of Care Homeless Assistance Program, which is aligned with the County's Plan to Prevent and End Homelessness.
