

**Response to Questions on the FY 2010  
County's Line of Business & Schools Program Review Processes  
Fall 2008**

**Request By:** Chairman Bulova and Supervisor Herrity

**Question:** Is there a specific staff to participant ratio required for the Adult Day Health Care program? Is it viable to propose changing the ratio to lower program costs?

**Response:** The staff to participant ration is currently 1:6. This ratio for Adult Day Health Center (ADHC) is set by the Virginia Department of Social Services, through state licensing regulations. Because this ratio is set by the state, the Fairfax County Department of Health can not change it.
