

Response to Questions on the FY 2010 County's Line of Business & Schools Program Review Processes Fall 2008

Request By: Supervisor Hyland

Question: Please provide the average number of prisoners in the Adult Detention Center (ADC) transported to the emergency room on a monthly basis by the Office of the Sheriff.

Response: The following table includes the number of emergency room visits, in-house emergencies and in-patient hospitalizations by month for FY 2008. It should be noted that many of the individuals with sustained injuries prior to their arrest that visited the emergency room and were consequentially hospitalized were booked directly into the local hospital rather than the ADC. These individuals are considered within the responsibility and custody of the Office of Sheriff and are included in the following table.

**Table:
