

**Response to Questions on the FY 2010
County's Line of Business & Schools Program Review Processes
Fall 2008**

Request By: Chairman Connolly, Supervisor Frey, Supervisor Smyth

Question: Please provide the unfunded mandates data broken out between Federal and State.

Response: The estimated net cost to the County to comply with mandates in FY 2008 was approximately \$751 million for all funds (federal mandates account for approximately \$313 million while state mandates account for approximately \$438 million). For your review, Attachment A – FY 2008 Federal and State Mandates details all mandates included in the FY 2008 study.

This involves estimating the market value of an estimated 341,000 taxable residential properties. The appraisal and assessment program is augmented by computer assistance. Cities and counties must reassess real estate at certain intervals. The intervals are determined by the locality type and the population of the locality. Local governments must assess real estate at 100 percent fair market value.</p> <p>County, city, or town assessing officers must make and maintain an inventory and assessment of all taxable and tax-exempt real property. A total of assessed valuations and a computation of the percentage of all property assessed must be published annually and data given to the State Department of Taxation, to include an annual assessment-to-sales ratio study.</p> <p>Localities must provide notice by mail to each property owner of any reassessment of real estate, or of any change in the assessed of any real estate. Every taxpayer shall be provided the opportunity to appeal their assessment to the Commissioner of Revenue or other Official for correction for the current and up to three prior years; or, taxpayers may appeal directly to the Circuit Court (BOE stated as separate mandate).</p>	\$0	\$4,802,069	\$4,802,069	\$0	\$529,331	\$0	\$4,272,738	11 %	71

			Effective December 1, 2006, a number of substantive revisions were made to the Federal Rules of Civil Procedure (FRCP). Some of the most significant changes appear in Rule 26, which governs the production of evidence in most federal court cases, and in particular as the rule applies to electronic stored information (ESI). ESI covers any and all information that can be stored electronically – including email, instant messaging threads, Skype chats and other forms of electronic communication. The changes to the FRCP require organizations to manage their data in such a way that this data can be produced in a timely and complete manner when necessary during legal discovery proceedings.

All establish mandates and guidelines for the accepted practices for Sheriff's Offices with, but not limited to jurisdiction with local jails, lockups and detention/correctional facility. Incorporates all functions within the inmate intake and classification branch. In addition to current state mandates, the Code of Virginia has established new mandates for Central Criminal Records Exchange and new penalties for driving while intoxicated. Code 19.2-390 Previously violations of title code 18.2-266 (DUI) were not reportable. New law effective July 1, 2004 makes arrests under this code reportable and requires that fingerprints be sent electronically via Live Scan resulting in an estimated 5000 additional fingerprints. A second law effective July 1, 2004 established mandatory minimum sentencing for DUI convictions in which no good time is earned. The new lower DUI BAC threshold will result in five day mandatory minimum sentences. This is projected to result in an increase in inmate ADP of 89.6 inmates per day based on DMB projections using ASAP statistics of individuals tested in prior years. The additional workload for these increases in inmate processes will be performed as much as possible within current funding adopted for this service area until additional staffing is approved.	\$0	\$6,317,113	\$6,317,113	\$0	\$1,514,003	\$15,973	\$4,787,137	24 %	57

10040 County Transit Systems												
	County Transit System	Federal	Fairfax County operates the Fairfax Connector, which has federal mandate requirements. These mandates are primarily ADA requirements, such as wheel chair lifts and PA announcements, and EPA mandates, which require ULSD and particulate filters. Clean Air act 1990 Amendments require the Washington Metropolitan region meet emission standards for NOX and VOC. As part of that effort, Fairfax County is contributing by converting the Fairfax Connector bus fleet to use Ultra Low Sulfur Diesel 1. EPA has enacted stronger emission standards requiring all diesel engines to utilize ULSD by 2006, and stronger NOX emission standards to be phased in starting in 2007 through 2010. It should be noted that although this program is mandated at the federal level, state funding is received through reimbursement for express service in the Dulles Corridor and service expansions in the Route 1 corridor. The service expansion in the Route 1 corridor is in conjunction with Washington Area Metropolitan Area Transit Authority (WMATA), which is operating the Bus Rapid Transit (BRT) system named REX.	\$44,820,360	\$0	\$44,820,360	\$0	\$7,445,000	\$5,758,447	\$31,616,913	29 %	13
