

Response to Questions on the FY 2012 Budget

Request By: Supervisor Gross

Question: Please provide the process and a timeline for getting the L step back in the queue for Police officers.

Response: When the Board of Supervisors authorizes the resumption of step and longevity increases for public safety employees, on the effective date of that action, all employees who are eligible at that time for a longevity increment will be advanced to the appropriate L Step. There will be employees who reached that eligibility as early as July 2009 and as late as the effective date of the resumption of pay increases. It is anticipated that step and longevity increases will be resumed when they can be afforded in the budget.
