

Response to Questions on the FY 2013 Budget

Request By: Supervisor McKay

Question: When did the County start charging \$10 for police incident reports and was it in response to budget pressures?

Response: The fee for police incident reports (burglary, larceny, etc.) was raised from \$3 to \$10 effective July 1, 2009. This fee was included in a review of user fees and other charges conducted as part of the Lines of Business Review during the development of the FY 2010 budget. Prior to this increase, the incident report fee had not been adjusted since 1991.

It should be noted that the County does not charge persons involved in motor vehicle accidents for an accident report. Insurance companies and attorneys are charged \$5 for such reports.
