<sup>1</sup> In order to account for revenues and expenditures in the proper fiscal year, an audit adjustment in the amount of \$433.58 has been reflected as an increase to FY 2012 Interest on Investments revenue, an audit adjustment in the amount of \$1,915.00 has been reflected as a decrease to FY 2012 Miscellaneous revenue, and an audit adjustment in the amount of \$1,032,855.25 has been reflected as an increase to FY 2012 Operating Expenses expenditures. These audit adjustments have been included in the FY 2012 Comprehensive Annual Financial Report (CAFR). Details of the audit adjustments are included in the FY 2013 Third Quarter package.

<sup>2</sup> Miscellaneous Revenue is generated by the excess amount that Covanta Fairfax, Inc. (CFI) charges for the disposal of Supplemental Waste.

<sup>3</sup> Ending balance fluctuations are a result of operating and revenue requirements that change annually. Funding is carried forward each fiscal year to provide flexibility given the uncertainty of market conditions, tipping fee negotiations, and expenditure requirements.

<sup>4</sup> The Tipping Fee Reserve is used to buffer against sharp annual changes in tip fees. Potential changes could result from issues such as tax changes regarding energy sales, power deregulation, state or EPA environmental fees, and/or contract changes.

<sup>5</sup> The Rate Stabilization Reserve (RSR) is used to buffer against long term adjustments to tip fees. Although tipping fees are maintained at the current rate, future disposal needs are undetermined, therefore, this reserve continues to rise to prevent sharp rate increases in the future.

<sup>6</sup> The Operations and Maintenance Reserve is maintained for ongoing improvements and enhancements to the E/RRF including emissions control efforts. Future projects may include additional retrofits to the air pollution control systems for reductions in nitrogen oxides. The reserve will fund the County's share of the initial capital expenditures on the improvements.
