## Department of Vehicle Services

---

### Mission

To establish efficient and effective delivery of fleet services by providing customer agencies with safe, reliable, economical, and environmentally-sound transportation and related support services that are responsive to the needs of customer departments, and which conserve the value of the vehicle and equipment investment.

### Focus

Fund 60010, Department of Vehicle Services (DVS), provides management and maintenance services to the County's vehicle fleet and maintenance support to the Fairfax County Public Schools (FCPS). At the end of FY 2017, there was a combined County and School fleet of 6,220 units, of which 6,034 are maintained by DVS. Of the total DVS-maintained units, 2,523 units belong to FCPS. The remaining 3,511 County units consist of approximately 1,022 vehicles more than one half ton (i.e. specialized equipment, dump trucks, wreckers); 913 police package vehicles (includes motorcycles); 975 light vehicles (one half ton or less in capacity); and 601 off-road and miscellaneous equipment (i.e., loaders, dozers, trailers, mowers, snow plow blades). Not included in the County fleet count are Fairfax Connector buses and vehicles owned by Fairfax County Water Authority. DVS maintains the largest municipal fleet in Virginia and the seventh largest school bus fleet in the nation. In 2017, DVS was named as one of the top 50 Leading Fleets by Government Fleet. The Leading Fleets award recognizes operations that are performing at a high level in fleet innovation and leadership. Also, DVS has been in the top 100 of the 100 Best Fleets in the Americas for two years.

The department has four maintenance facilities. The Jermantown and West Ox facilities are located in the central part of the County, and the Newington and Alban facilities are located on the southeast end of the County. These facilities provide timely, responsive and efficient vehicle repairs and services for a broad range of equipment from small engines to large and complex fire apparatus. Road services are also provided at competitive prices ensuring a quick and effective response. Two body shops, located within the Newington and West Ox facilities, provide efficient and timely minor repairs, which reduce the time vehicles are out of service. New vehicle configuration and detail up fit for the Police Department and Sheriff are performed at the Jermantown facility. All four maintenance facilities have been awarded the Blue Seal of Excellence by meeting the standards established by the National Institute for Automotive Service Excellence (ASE). DVS met the Blue Seal requirement that at least 75 percent of technicians performing diagnosis and repairs are ASE certified. In 2013, construction was completed on the rebuild of the Newington maintenance facility. The remaining balance from the recent Newington facility renovation will be used to address infrastructure replacement and upgrades, safety and code compliance upgrades,

# Fund 60010

## Department of Vehicle Services

and operational efficiency improvements of the remaining three DVS maintenance facilities (Jermantown, West Ox, and Alban).

DVS manages the County's Vehicle Replacement Fund, which accumulates funding over a vehicle's life to pay for the replacement of that vehicle when it reaches the end of its service life. The current replacement criteria includes the age, mileage, and condition of the vehicle. This fund is intended primarily for General Fund agencies. As of July 2017, 33 agencies participate in the fund, which includes approximately 2,376 units. Additionally, DVS manages funds for Helicopter, Boat, and Police Specialty Vehicle Replacement for the Police Department; an Ambulance and a Large Apparatus Replacement Fund for the Fire and Rescue Department; a Park Equipment Replacement Fund for the Park Authority; and a FASTRAN Bus Replacement Fund for the Department of Neighborhood and Community Services. These funds allow the Police Department, Fire and Rescue Department, and Department of Neighborhood and Community Services to make fixed annual payments to ensure the availability of future funds for a stable replacement program.

DVS manages the County's highway vehicle fuel program, including maintenance of the County's 53 fuel sites. These sites are located at police stations, fire stations, schools, DVS maintenance facilities, Public Works facilities and Park Authority maintenance centers. DVS coordinates with Agency Directors to maintain tight controls over fuel, ensure agencies charge fuel directly to their agency vehicle codes, and minimize the use of miscellaneous fuel codes.

Other services provided by DVS include: emergency roadside repair; oversight and records maintenance, including security administration for the County's Fleet Maintenance Information System (MIS); analysis of current fleet usage; evaluation of new technologies and products; operation of the County's motor pool; technical support/review of vehicle and equipment specifications; and initiation of purchase requests for certain County vehicles and related equipment.

DVS uses a commercially available Maintenance Information System known as M5. M5 tracks all parts issued, commercial charges and labor charges to vehicles and equipment, provides customer departments a regular preventive maintenance schedule, and provides for management of the motor pool. Most reports for data analysis and billing of user agencies are generated directly in M5. M5 also provides the ability to write "ad hoc" reports tailored to specific data or analysis needs. DVS provides training on all relevant modules of M5 to staff and to customer agencies. In FY 2018, DVS completed a system upgrade that will enable staff and customers to better manage all aspects of fleet vehicles, parts, and workforce production.

DVS works to ensure that departments and agencies have the fleet means to support their missions while maintaining fleet levels that are appropriate to actual program and service requirements. As part of this responsibility, the Fleet Utilization Management Committee (FUMC) will continue meeting to review the vehicle and equipment fleet to ensure that fleet size, configuration, and usage are consistent with best

### The Department of Vehicle Services supports the following County Vision Elements:

***Maintaining Safe and Caring Communities***

***Connecting People and Places***

***Practicing Environmental Stewardship***

***Exercising Corporate Stewardship***

# Fund 60010

## Department of Vehicle Services

practices and in compliance with established policy. Also, the FUMC will continue to review and approve requests for fleet additions to ensure there is a legitimate need for fleet growth.

DVS continues to strive for economically-responsible environmental stewardship by working increased fuel efficiency and reduced emissions and petroleum consumption characteristics into vehicle specifications. Specifications for new, heavy duty trucks favor the cleanest diesel engines. As plug-in hybrids and electric vehicles continue to come to market, the department will continue its practice to procure them when practical. In FY 2017, DVS renewed participation in the Virginia Environmental Excellence Program (VEEP). As a facility-based participant, DVS uses environmental management systems and pollution prevention systems to maintain strong environmental records above and beyond legal requirements.

On an annual basis, the County reviews current usage and fuel pricing to analyze and project fuel prices. The FY 2019 budget estimates a user price of \$1.54 per gallon for unleaded and \$1.63 per gallon for diesel. While these figures are consistent with FY 2018 adopted user prices, actual FY 2018 user prices trended higher. As fuel prices fluctuate, County staff will continue to review price data on a monthly basis to ensure prices remain within a reasonable level. If prices increase significantly, an adjustment may be required as part of a quarterly review to ensure that user agencies have sufficient funding to cover fuel related costs.

### FY 2019 Funding Adjustments

The following funding adjustments from the FY 2018 Adopted Budget Plan are necessary to support the FY 2019 program. Included are all adjustments recommended by the County Executive that were approved by the Board of Supervisors, as well as any additional Board of Supervisors' actions, as approved in the adoption of the Budget on May 1, 2018.

- ◆ **Employee Compensation** **\$925,359**  
An increase of \$925,359 in Personnel Services includes \$503,370 for a 2.25 percent market rate adjustment (MRA) for all employees and \$421,989 for performance-based and longevity increases for non-uniformed merit employees, both effective July 2018.
  
- ◆ **Operating Expenses** **\$659,554**  
An increase of \$659,554 is associated with increases in commercial repair and parts.

# Fund 60010

## Department of Vehicle Services

---

- ◆ **Capital Equipment** **\$18,698,498**

Capital Equipment funding of \$18,698,498 includes the following: \$7,559,585 to replace vehicles that meet criteria; \$7,805,561 to purchase twelve vehicles from the Large Apparatus Fund; \$2,329,092 for the purchase of six vehicles for the Fire and Rescue Department; \$556,875 to purchase nine passenger vans from the FASTRAN replacement fund for the Department of Neighborhood and Community Services; \$193,963 to purchase seven trailers for the Police Department; \$72,785 to purchase one heavy duty on vehicle brake lathe for West OX maintenance facility, one set of mobile column lifts for the Alban maintenance facility, and one refrigerant recovery and recycling machine for the Jermantown maintenance facility; \$100,637 to replace a single walled tank at the Clifton Fire Station; and, \$80,000 to purchase and install one Diesel Exhaust Fluid (DEF) station at the North County fuel site.

### **Changes to FY 2018 Adopted Budget Plan**

*The following funding adjustments reflect all approved changes in the FY 2018 Revised Budget Plan since passage of the FY 2018 Adopted Budget Plan. Included are all adjustments made as part of the FY 2017 Carryover Review, FY 2018 Third Quarter Review, and all other approved changes through April 30, 2018.*

- ◆ **Carryover Adjustments** **\$7,915,863**

As part of the *FY 2017 Carryover Review*, the Board of Supervisors approved funding of \$7,915,863 due primarily to encumbered carryover of \$4,861,803. In addition, an increase of \$1,100,000 from available funds in the Helicopter Replacement Reserve is included to upgrade and modernize the cameras and related equipment on the County's two helicopters to enhance mission capabilities. The cameras are utilized on more than 1,000 police missions each year to search for criminal suspects and missing people, and to provide aerial support during pursuits and other critical incidents. An increase of \$889,352 from available funds in the Large Apparatus Replacement Reserve (LARR) is included to replace a fire truck that was significantly damaged in a fire on May 14, 2017 and declared a total loss. Insurance funds have already been received and posted to the LARR to partially defray this cost. An increase of \$652,000 from funds available in the Police In-Car Video Reserve is included to continue the multi-year process of replacing in-car video cameras in the County Police fleet. An increase of \$200,000 in funds available in the Parks Equipment Reserve is required for capital equipment purchases by the Park Authority to begin replacing old equipment and improve the appearance of County parks. An increase of \$120,000 in funds available in the Vehicle Replacement Reserve is required to purchase vehicles supporting operations of the Facilities Management Department (FMD) pending additional analysis on the required need. Finally, an increase of \$92,708, including 1/1.0 FTE position, is included to support increased workload associated with maintaining Fairfax County Public School (FCPS) vehicles. This position is required to ensure that FCPS vehicles are maintained and repaired in accordance with federal and state mandated timelines and to ensure an effective and efficient business operation. Without additional staff, the maintenance backlog will likely cause operational issues for both departments. The costs associated with this position are anticipated to be fully offset by additional revenue associated with increased billings to FCPS.
- ◆ **Fueling Operations** **\$3,000,000**

As part of the *FY 2018 Third Quarter Review*, the Board of Supervisors approved funding of \$3,000,000 due to higher than budgeted expenses as a result of an increase in fuel prices.

# Fund 60010

## Department of Vehicle Services

### Cost Centers

The Department of Vehicle Services provides services in support of the County's fleet in three distinct cost centers: Maintenance and Operations Management, Vehicle Replacement Programs, and Fueling Operations. The majority of the agency's positions and funding are centered in Maintenance and Operations Management.

#### Maintenance and Operations Management

The Maintenance and Operations Management cost center provides centralized maintenance and repair services and performs required special tasks on vehicles and equipment owned by County agencies and Fairfax County Public Schools (FCPS) through the use of County staff and contractors. DVS ensures that these vehicles and equipment are maintained in safe operational condition and are in accordance with all federal, state, and county policies, procedures and regulations, and ensure that vehicles are maintained as efficiently and cost-effectively as possible with consideration to the customer's requirements.

## Department of Vehicle Services

### Vehicle Replacement Programs

The Vehicle Replacement Programs cost center manages the Vehicle Replacement Reserve which accumulates funding over the life of a vehicle (or equipment) in order to pay for the replacement of the vehicle at such time as the vehicle meets replacement criteria. This reserve is intended primarily for General Fund agencies. In addition, the cost center manages six other specialty vehicle replacement funds for the Police Department, Fire and Rescue Department and the Department of Neighborhood and Community Services. These reserves ensure the systematic replacement of vehicles which have completed their cost-effective life cycles.

### Fueling Operations

The Fueling Operations cost center manages the County's highway vehicle fuel program by purchasing over 10.5 million gallons of fuel annually at a significant cost savings to agencies. In addition, the cost center is responsible for managing the automated fuel system and maintaining the County's 53 fuel sites while ensuring compliance with federal and state underground storage tank regulations.

### Key Performance Measures

Indicator	Prior Year Actuals			Current Estimate	Future Estimate
	FY 2015 Actual	FY 2016 Actual	FY 2017 Estimate/Actual	FY 2018	FY 2019
<b>Maintenance and Operations Management</b>					
Vehicle availability rate	96.9%	98.0%	96.0%/98.0%	96.0%	96.0%
Percent of days vehicle availability rate target was achieved	100.0%	100.0%	90.0%/100.0%	90.0%	90.0%
<b>Vehicle Replacement Programs</b>					
Percent of vehicles meeting criteria that are replaced	100.0%	100.0%	100.0%/100.0%	100.0%	100.0%
<b>Fueling Operations</b>					
Price savings between in-house and commercial stations: unleaded gasoline	\$0.203	\$0.209	\$0.100/\$0.280	\$0.100	\$0.100
Price savings between in-house and commercial stations: diesel	\$0.443	\$0.457	\$0.100/\$0.330	\$0.100	\$0.100

A complete list of performance measures can be viewed at  
<https://www.fairfaxcounty.gov/budget/fy-2019-adopted-performance-measures-pm>

### Performance Measurement Results

A total of 6,034 County and School units (motorized and non-motorized) were maintained in FY 2017. It should be noted that “units maintained” in any given year may include vehicles authorized as additions in a previous year, but not received until the indicated year.

The number of vehicles in the Vehicle Replacement Reserve (VRR) increased in FY 2017 primarily due to normal fluctuations in the number of vehicles in the VRR at different points in time. DVS replaced 100 percent of VRR vehicles that met the established criteria in FY 2017.

Fueling Operations measures examine the cost savings between County contracts and private providers, as well as how satisfied County vehicle drivers are with fueling operations. In FY 2017, the average cost per gallon of \$1.66 increased significantly from the FY 2016 average cost of \$1.45. Given the amount of fuel gallons used by the County, the savings associated with purchasing unleaded and diesel gasoline in-house were significant.

# Fund 60010

## Department of Vehicle Services

---

<sup>1</sup> In order to account for expenditures in the proper fiscal year, an audit adjustment in the amount of \$397,760.66 has been reflected as a decrease to the FY 2017 expenditures to accurately record expenditures. This adjustment was included in the FY 2017 Comprehensive Annual Financial Report (CAFR). Details of the audit adjustments were included in the FY 2018 Third Quarter Package.

<sup>2</sup> The Ending Balance in Fund 60010, Department of Vehicle Services, fluctuates based on vehicle replacement requirements in a given year. Except in rare cases, vehicles are not replaced until they have met both established age and mileage criteria. In years where more vehicles meet their criteria and are replaced, the ending balance will be lower (and vice versa).
