Public Housing Projects Under Management

Mission

To ensure that all tenants of Fairfax County Redevelopment and Housing Authority's (FCRHA) owned and operated public housing units are provided with decent, safe, and adequate housing; maintenance and management; social services referrals; and housing counseling.

Focus

Due to the conversion of public housing units to Rental Assistance Demonstration (RAD), Fund 81520, Public Housing Projects Under Management, was consolidated into Fund 81300, RAD – Project-Based Voucher (PBV) in FY 2018. RAD provides a new subsidy platform using project-based vouchers issued as part of the Housing Choice Voucher (HCV) Program. For more information about the HCV Program, see Fund 81510, HCV Program.

One of the advantages of converting public housing units to RAD is that the FCRHA can leverage private equity for critical capital improvements. Under the traditional public housing model this was not possible, and the funding made available through Fund 81530, Public Housing Projects Under Modernization, was insufficient to address all of the FCRHA's critical capital needs for public housing units. Since the units are no longer considered public housing under RAD, the FCRHA can secure capital for property improvements. Additionally, residents are provided increased mobility under RAD. If they choose to move from a RAD-PBV unit, they can be issued a tenant-based voucher, provided they meet the HCV criteria and vouchers are available.

In FY 2017, Phase I of the conversion to RAD included 299 units, and in FY 2018, the remaining 766 units successfully converted. One unit in Phase I and four units in Phase II are used for office or community room space per U.S. Department of Housing and Urban Development (HUD) guidelines, and are not considered rentable. While these units are counted in the total converted number of 1,065, there is no voucher attached to these five units. Fund 81520 was closed in FY 2018 as all public housing units are now RAD units and have been moved to Fund 81300.

Fund 81520

Public Housing Projects Under Management

Although Fund 81520 was closed in FY 2018, the following narrative describes the program. The Federal Public Housing Program is administered by HUD to provide funds for rental housing serving low-income households owned and operated by local housing authorities such as the FCRHA. The program has two components:

Program Component/Fund	Description
Fund 81520, Public Housing Projects Under Management	<p>Provided for the management, operating and routine maintenance of public housing properties.</p> <p>HUD provided annual operating subsidy.</p>
Fund 81530, Public Housing Projects Under Modernization	Provided funds for capital improvements and repairs of existing public housing through an annual grant award.

For the rental portion of the program, revenues are derived from dwelling rents, HUD contributions and subsidies and payments for utilities exceeding FCRHA-established standards, investment income, and maintenance charges. HUD required the FCRHA to comply with project-based accounting and budgeting standards which required separate reporting for the County's public housing properties. The public housing properties were grouped into 11 Asset Management Projects (AMPs) for HUD reporting purposes. In addition to the project reporting requirement, public housing authorities are also required to track and report activities of the central office for various types of expenses including indirect administrative costs, which are covered by HUD prescribed management fees.

Admissions and Occupancy policies for public housing are governed by the Quality Housing and Work Responsibility Act of 1998 (which amended the United States Housing Act of 1937) and are consistent with the objectives of Title VI of the Civil Rights Act of 1964. Eligibility for admission and occupancy to Low-Income Housing requires the applicants to fulfill the following general criteria:

- qualify as a family,
- earn income within the income limits for admission to a designated development, and
- qualify under the Local Preference if head of household or spouse is employed, attending school or participating in a job training program, a combination thereof at least 30 hours per week; or is 62 or older; or is a primary caretaker of a disabled dependent; or meets HUD's definition of being disabled.

In addition, the FCRHA approved a new income policy on May 1, 2008 supporting its mission to serve households with low incomes. Income eligibility was set at below 50 percent of the Area Median Income (AMI); however, eligible applicants for public housing who lived or worked in Fairfax County, City of Fairfax, City of Falls Church or Town of Herndon could have household income above 50 percent AMI if they paid more than 35 percent of gross income for rent and utilities for the past 90 days (excluding telephone and cable costs).

In FY 2014, the FCRHA was designated by HUD as a Moving to Work (MTW) agency. This designation included most of the Housing Choice Voucher program and the public housing program. Under the MTW designation, funds between the programs were fungible. However, there were benchmarks within each program that had to have been met for program compliance and performance evaluation. Therefore, a decision to use the fungible nature of this program was only to be considered once each program had met its annual benchmarks. The FCRHA MTW Plan was designed to ensure that individuals and families were provided not only affordable and attractive housing, but were connected to services and support that helped them succeed and become self-sufficient. The public housing program served extremely and very low-income households that needed assistance in attaining an intermediate self-sufficiency skill set, provided individual job-skill development, addressed transportation needs, and ensured ongoing participation in health care services.

¹ Fund 81520, Public Housing Projects Under Management, was consolidated into Fund 81300, RAD – Project-Based Voucher as a result of the remaining 766 public housing units converting to RAD in FY 2018. This consolidation was planned for FY 2019. However, subsequent to the *FY 2018 Third Quarter Review*, it was determined that the consolidation needed to occur in FY 2018 in order to meet HUD reporting requirements. As a result, Fund 81520 was closed in FY 2018, and all assets, liabilities and equity were moved to Fund 81300.
