

# Police Department

## Mission

The mission of the Fairfax County Police Department is to prevent and fight crime. The vision of the Fairfax County Police Department is to provide ethical leadership through engagement with the community to:

- Prevent and fight crime,
- Improve the culture of safety at work and within the community to preserve the sanctity of all human life, and
- Keep pace with urbanization.

## Focus

As Fairfax County continues to experience robust changes in population growth, increasing urbanization, significant language and cultural diversity, and other demographic changes, the Police Department is committed to providing the highest quality law enforcement and public safety services to the community. Fairfax County has one of the lowest rates of violent crime nationwide compared to other jurisdictions with populations in excess of one million. This exceptionally safe jurisdiction is maintained through the co-production of policing, which allows the department to partner with community stakeholders to ensure the department meets the needs of those we serve. Transparency is the cornerstone of the great public trust bestowed upon us which is supplemented by public accountability through the County's Police Civilian Review Panel and Independent Police Auditor.

The Office of the Chief uses sustainable transformational change practices to ensure all policing initiatives meet the needs of the County. The transformational change strategies include the concepts of One Fairfax, the department's strategic plan, and the pillars of professional policing objectives. In CY 2019, the department realigned several organizational components to leverage efficiencies to better serve the victims of crimes and to mentor and coach emerging leaders to ensure the stewardship of the agency for the next few decades in alignment with our vision statement.

The Internal Affairs Bureau (IAB) performs administrative investigations related to violations of policy, ethics, and integrity. Additionally, IAB provides liaison activities with the Police Civilian Review Panel and the Independent Police Auditor. The IAB has increased transparency of its investigations both internally and to the community, as can be evidenced on the department's public web site. The IAB is a direct report to the Chief of Police.

The Planning and Research Bureau (PRB), in collaboration with the Patrol Bureau Aide, provides analysis of all data related to crime, traffic, and strategic planning metrics. The PRB oversees the supervision of de-centralized crime analysts tasked with the analysis and reporting of all department data for decision making. Both state and national accreditation management is housed in the PRB; these processes ensure policies and procedures are nationally benchmarked resulting in leading-edge top practices to better serve the community. The PRB manages all incident command systems and related training for major events. The PRB also manages all legislative matters, community outreach, and assists in all communications from the Office of the Chief of Police.

In 2019, the department completed a realignment of the Incident Support Services (ISS) division. The ISS division is led by a civilian director reporting directly to the Chief of Police. The goal of ISS is to enhance the overall wellness of employees, volunteers, retirees, and community members through the delivery of certified wellness practices.

The department has strategically realigned the organization through the creation of two new bureaus designed to handle all major crimes, including cybercrimes. The ever-evolving expansion of digital evidence and computer forensic investigations, coupled with violent crimes, resulted in the Major Crimes Bureau (MCB) and the Cyber and Forensics Bureau (CFB).

Beyond the traditional metrics of service delivery, the department is committed to expanding community engagement through innovative outreach efforts. The following are examples of the department's effort to enhance engagement with the community:

- Reporting of all bias/hate crimes and events,
- The Chief's Diversity Council strategic plan and scorecard,
- Expansion of social media footprint utilizing Twitter, Facebook, YouTube, and Instagram,
- Developing an intranet Community Engagement Calendar to better coordinate and track department-wide event planning and participation, and
- Deploying a Mobile Recruiting Unit staffed collaboratively with the Fairfax County Department of Human Resources to enhance community-focused employment outreach.

The Fairfax County Police Department (FCPD) is nationally accredited and holds a certificate of advanced accreditation from the Commission on Accreditation for Law Enforcement Agencies (CALEA). CALEA accreditation ensures the FCPD can be benchmarked favorably relative to the largest law enforcement agencies in the United States located in comparable urban settings. The department also achieved reaccreditation through the Virginia Law Enforcement Professional Standards Commission (VLEPSC) in September of 2018.

The co-production of policing methodology used in making policy changes is a factor that establishes the department as a national leader in police reform. Co-production of policing includes stakeholders in the process of policy change from inception through implementation. Stakeholders include representatives from the community (i.e., Communities of Trust, National Association for the Advancement of Colored People (NAACP), Ad-Hoc Commission, Chief's Council on Diversity Recruitment, Chief's Citizens' Advisory Council), the County Attorney's Office, the Office of the Commonwealth's Attorney, the Board of Supervisors, agency subject matter experts, Police Executive Research Forum (PERF) consultants, and employee group leaders.

The Police Department also engages the community through the Communities of Trust Committee (COT), which is composed of diverse community advocates and representatives from all public safety agencies. The COT aims to build trust with youth and the community by engaging in positive experiences. Several forums have been held throughout the community and numerous initiatives are in development to increase public safety engagement with the community to build mutual trust. COT has been supportive in the expansion of the department's Police Explorer Posts, from one unit to a total of three. The COT develops private sector funding sources to both expand the number of Explorer Posts and to increase other community engagement programs and activities offered to youth in our diverse communities.

The department continues to improve its culture of safety, internally and externally, by declaring its value of the preservation of the sanctity of all human life. The department's de-escalation training initiatives ensure all police officer recruits and patrol officers receive training in dealing with those suffering episodes of mental crisis. Additionally, the department continues to train recruits and incumbents in Crisis Intervention Team Training (CIT) to achieve a goal of 100 percent sworn officer

certifications. This nationally recognized best practice significantly increases cooperation and understanding between officers and persons experiencing a mental health crisis.

The department is an active participant in the County's Diversion First Program designed to reduce the number of people with mental illness in the County jail. Diversions are intended for non-violent, misdemeanor-level crimes. In FY 2021, an increase of 1/1.0 FTE new position is included to support the fifth year of the County's successful Diversion First initiative. This position, when combined with those included in previous year budgets, will allow the Police Department to support diversion services at the Merrifield Crisis Response Center on a 24 hour per day, seven days per week basis which is a foundational aspect of Diversion First and is recognized as a best practice in crisis intervention.

The Fairfax County Alternative Accountability Program (AAP) is a unique, collaborative, and community-oriented response to juvenile crime and wrongdoing in the community. Fairfax County Police Department School Resource Officers (SRO), as well as patrol officers, refer youth who commit select crimes to this program. The AAP represents a joint effort between the Fairfax County Police Department, Fairfax County Public Schools, Juvenile and Domestic Relations Court, Neighborhood and Community Services, and Northern Virginia Mediation Services. The program is designed to address critical issues affecting our youth by decreasing recidivism rates amongst youth offenders, addressing minority overrepresentation in discipline and justice proceedings, and focusing on victim and community stakeholder impact. The program uses restorative justice principles to reduce the number of court-involved youth by holding youth accountable for their actions without exposing them to risk factors associated with a criminal record. Also, AAP seeks to create appropriate and incident-specific responses for each referral by including support for families, victims, and community stakeholders, not just the offender.

The FCPD's Information Technology Bureau (ITB) issued a Request for Proposal (RFP) for the next generation Records Management System (RMS) in January 2020. The RFP phase is anticipated to be completed by spring of 2020. The new RMS will employ the latest technology currently available to the law enforcement community. It will have the capability to assimilate seamlessly the current RMS data, which will allow for enhanced analysis, identify emerging patterns of criminal activity, calculate performance measures included in the department's strategic plan, and prepare specific accountability measures relevant to commanders, directors, and executive rank officers. Further, it will enhance the transparency of police service delivery by ensuring aggregated information is accurate and timely with the ability to provide detailed crime statistics, advanced analytics, calls for service data, arrest statistics, demographics, and crime trend analysis through a wide range of indices and a robust case management platform for investigators.

The department actively leads regional traffic safety programs to combat aggressive driving, drunk driving, speeding, racing, gridlock, distracted driving, and fatal/injury crashes. The Traffic Division of the Operations Support Bureau provides traffic enforcement, mitigation, management, and investigation for all of Fairfax County.

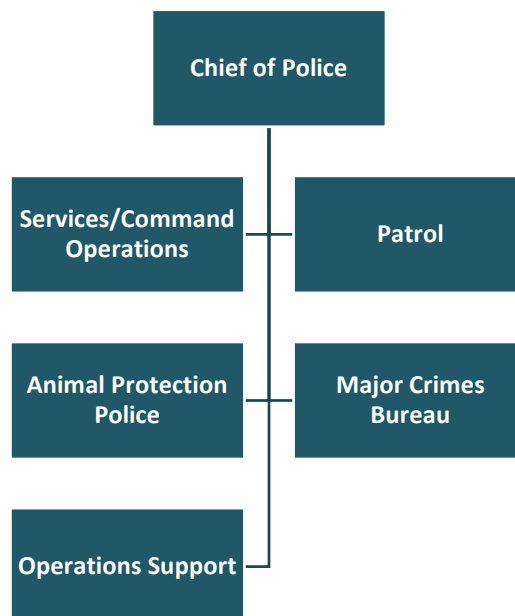

The grant-funded Driving While Intoxicated (DWI) Squad continues to be effective in apprehending a large number of impaired drivers, and the Motor Squad's enforcement of traffic violations remains successful since the implementation of the E-summons system. The Traffic Safety Division's strategic plan continues to place importance on a primary goal to combat the highly dangerous distracted driving epidemic, which includes educational awareness and enforcement components. The DWI squad will increase their enforcement efforts and implement innovative techniques including drug recognition expert training.

The department continues to work with the Office of Emergency Management, agency partners, and communities across the region to be prepared for any natural and human-made threats or disasters. These collaborative partnerships will ensure the community is prepared to address all hazards in a safe and expedient manner to prevent injury, death, and destruction.

Keeping pace with urbanization to include Tysons, the Metro Silver Line extension, Springfield Town Center, South County development, and other micro-urban development countywide, will continue to challenge the department for decades to come. Providing basic police service in urbanized areas requires different policing modes and resources than traditional methods in the suburban model the department has been using for many decades. The department's Five-Year Strategic Staffing Plan thoroughly depicts the staffing needs desired to meet current urbanization demands including the future addition of a South County Police District Station, expanded animal enforcement services, and expanding police services in the Tysons area. As part of the effort to address these issues, the FY 2021 Advertised Budget Plan includes 8/8.0 FTE positions to continue the efforts associated with staffing the South County Police Station. These positions are in addition to 54/54.0 FTE positions that were included in previous year budgets. A redistricting project is underway that will illustrate the new station's boundaries and the positive impact to the existing eight police stations and the community.

On September 24, 2019, the Fairfax County Board of Supervisors approved the implementation of the Body-Worn Camera (BWC) Program which consists of 1,210 cameras issued to all district stations and other key operational staff. The BWC is a phased-in project with funding approved for FY 2020, FY 2021 and FY 2022. Phase I was implemented in FY 2020 and deployed 416 cameras at the Mason, Mount Vernon and Reston Stations, as well as officers assigned to K-9, Motors and DWI Squad at the Operations Support Bureau. Phase II continues to deploy 338 cameras to patrol officers at the Sully Station, McLean Station and West Springfield Station. Phase III completes the project with 456 cameras deployed at the Fair Oaks and Franconia District Stations, Animal Protection Police, CIT/Diversion First, Parking Enforcement and future staffing for South County. Funding was also identified for infrastructure upgrades at the police stations to coincide with the phased implementation.

## FY 2021 Funding Adjustments

The following funding adjustments from the FY 2020 Adopted Budget Plan are necessary to support the FY 2021 program:

### Employee Compensation \$7,183,674

An increase of \$7,183,674 in Personnel Services includes \$3,799,301 for a 2.06 percent market rate adjustment (MRA) for all employees and \$196,998 for performance-based and longevity increases for non-uniformed merit employees, both effective July 2020, as well as \$3,139,175 for FY 2021 merit and longevity increases (including the full-year impact of FY 2020 increases) for uniformed employees awarded on the employees' anniversary dates, and \$48,200 to increase the night shift rate for Police staff by 5 cents to \$1.40.

### Body-Worn Camera Program \$2,025,386

An increase of \$2,025,386 is required to support the workload resulting from the implementation of a Body-Worn Camera Program. Funding of \$183,629 is required to support 2/2.0 FTE new positions proposed as part of the FY 2021 Advertised Budget Plan. As part of the FY 2019 Carryover Review, 3/3.0 FTE positions were approved and require \$247,920 in ongoing baseline funding in the FY 2021 budget along with \$1,593,837 in ongoing baseline funding for equipment. It should be noted that an increase of \$199,988 in Fringe Benefits funding is included in Agency 89, Employee Benefits, for a total cost of \$2,225,374 in FY 2021. For further information on Fringe Benefits, please refer to the Agency 89, Employee Benefits, narrative in the Nondepartmental program area section of Volume 1.

**South County Positions** **\$1,163,410**

An increase of \$1,163,410 is required to support 8/8.0 FTE new positions to continue the process of staffing the South County Police Station. These positions, which are in addition to 54/54.0 FTE positions added in previous year budgets, are required to staff a new police station located in South County. Current estimates indicate that eight additional uniformed positions will be required in FY 2022 to fully staff this station. Based on the large number of staff required, and the significant lead time associated with hiring and training new recruits, additional staff are being provided over a multi-year period. This phased-in approach will allow the department to gradually hire and train new recruits and will allow for continued analysis to ensure that current staffing estimates are accurate. It should be noted that an increase of \$331,129 in Fringe Benefits funding is included in Agency 89, Employee Benefits, for a total cost of \$1,494,539 in FY 2021. For further information on Fringe Benefits, please refer to the Agency 89, Employee Benefits, narrative in the Nondepartmental program area section of Volume 1.

**Department of Vehicle Services Charges** **\$502,983**

An increase of \$502,983 in Department of Vehicle Services charges is based on anticipated billings for maintenance and operating-related charges.

**Detectives Supporting the Opioid Task Force** **\$241,371**

An increase of \$241,371 is required to support 2/2.0 FTE new positions to establish detectives to investigate fatal overdoses and deaths related to drug use. These positions will specifically support efforts recommended by the Opioid Task Force. It should be noted that an increase of \$82,782 in Fringe Benefits funding is included in Agency 89, Employee Benefits, for a total cost of \$324,371 in FY 2021. For further information on Fringe Benefits, please refer to the Agency 89, Employee Benefits, narrative in the Nondepartmental program area section of Volume 1.

**Electronic Control Weapons** **\$200,000**

An increase of \$200,000 is included for Electronic Control Weapons, or Tasers, based on recommendations by the Ad-Hoc Police Practices Review Commission. Tasers are a tool for de-escalation tactics to allow officers more time to assess a situation and summon assistance and reduce the need for use of force.

**Diversion First** **\$130,848**

An increase of \$130,848 and 1/1.0 FTE new position is required to support the County's Diversion First initiative. Diversion First aims to reduce the number of people with mental illness in the County jail by diverting low-risk offenders experiencing a mental health crisis to treatment rather than bring them to jail. This position will allow the Police Department to support the crisis intervention team. It should be noted that an increase of \$47,207 in Fringe Benefits funding is included in Agency 89, Employee Benefits, for a total cost of \$178,055 in FY 2021. For further information on Fringe Benefits, please refer to the Agency 89, Employee Benefits, narrative in the Nondepartmental program area section of Volume 1.

**Compensation Adjustments** **(\$923,812)**

A decrease of \$923,812 is associated with recommendations made following a review of the department's organizational structure and pay plan. This adjustment transfers funding from Agency 90, Police Department, to Agency 89, Fringe Benefits, to account for the fringe benefit impact of compensation adjustments. Recommendations include a 1.5 percent increase across the O-scale pay plan; decompressing ranks by moving Sergeant and Second Lieutenant ranks up one step to O-21 and O-22, respectively; and transitioning Animal Protection Police Officers from the P-scale pay plan to the O-scale pay plan as sworn law enforcement officers.

**Changes to  
FY 2020  
Adopted  
Budget Plan**

*The following funding adjustments reflect all approved changes in the FY 2020 Revised Budget Plan since passage of the FY 2020 Adopted Budget Plan. Included are all adjustments made as part of the FY 2019 Carryover Review, and all other approved changes through December 31, 2019.*

**Carryover Adjustments** **\$3,390,814**  
 As part of the *FY 2019 Carryover Review*, the Board of Supervisors approved funding of \$3,390,814 in encumbered carryover including \$2,528,075 in Operating Expenses and \$862,739 in Capital Equipment.

**Body-Worn Cameras** **\$2,815,996**  
 As part of the *FY 2019 Carryover Review*, the Board of Supervisors approved funding of \$2,815,996 and 3/3.0 FTE positions for the Body-Worn Camera Program. It should be noted that an increase of \$123,132 in Fringe Benefits funding was included in Agency 89, Employee Benefits.

**Reclassification of Non-Merit Benefits Eligible Positions to Merit** **\$0**  
 As part of an ongoing Board-directed review of the County's use of limited-term staffing, 5/5.0 FTE new merit positions are included due to the reclassification of non-merit benefits-eligible positions to merit status. These are part of a total of 235 positions that were identified in the *FY 2019 Carryover Review* across all County agencies as candidates for possible conversion based on the tasked performed by each position and the hours worked by incumbents. No additional funding has been included as the work hours of these positions are expected to remain largely unchanged.

**Compensation Adjustments** **(\$659,362)**  
 As part of the *FY 2019 Carryover Review*, funding of \$659,362 was transferred from Agency 90, Police Department, to Agency 89, Employee Benefits, to account for the fringe benefit impact of compensation changes resulting from a review of the department's organizational structure and pay plan in 2016. Recommendations from the study have been implemented over a multi-year period, and as part of the approved budget guidance, the Police Department was encouraged to look at options to implement recommendations within current appropriation levels.

**Cost Centers**

The five cost centers of the Police Department include Services/Command Operations, the Major Crimes Bureau, Patrol, Animal Protection Police, and Operations Support. The cost centers work together to fulfill the mission of the department.

**Services/Command Operations**

The Services/Command Operations cost center provides managerial direction and administrative support for all organizational entities in the department. Services/Command Operations includes the Office of the Chief, Public Information, Financial Resources, Personnel Resources, Resource Management, Information Technology, and the Criminal Justice Academy. The cost center is responsible for providing leadership and direction, research and analysis, public relations, budgeting and financial management, human resources, and logistical and technical support, as well as recruit and in-service officer training compliant with Virginia State Department of Criminal Justice standards.

158	Police Officers I	5	Crime Analysts I
40	Police Citizen Aides II		
ANIMAL PROTECTION POLICE - 39 Positions			
1	Director of Animal Protection	12	Animal Protection Officers I
2	Police Second Lieutenants	1	Naturalist IV
5	Animal Protection Sergeants	1	Naturalist II
8	Animal Protection Officers III	1	Naturalist I
6	Animal Protection Officers II	2	Administrative Assistants II
OPERATIONS SUPPORT - 138 Positions			
1	Police Major	1	Helicopter Pilot II
3	Police Captains	5	Helicopter Pilots
2	Police Lieutenants	1	Aircraft/Power Plant Tech. II
8	Police Second Lieutenants	1	Aircraft/Power Plant Tech. I
8	Police Sergeants	1	Senior Alcohol Testing Unit Tech.
33	Police Officers III	2	Alcohol Testing Unit Techs.
57	Police Officers II	1	Crime Analyst II
1	Traffic Enforcement Supervisor	1	Vehicle Main. Coordinator
10	Traffic Enforcement Officers	2	Administrative Assistants III
<b>1,503 Sworn Positions/331 Civilian Positions</b>			
	+ Denotes New Position(s)		

## Performance Measurement Results

It continues to be necessary to fill larger basic training classes in the Criminal Justice Academy in response to an increase in the number of annual retirements and growth in sworn positions. Despite many competing opportunities within the regional labor market, the department continues to attract, recruit, and hire new officers of exceptionally high quality by positioning itself as an employer of choice.

The overall rate of serious crime in Fairfax County continues to be exceptionally low. Through a variety of efforts and methods, especially active investigation, crime prevention, and community policing initiatives, the members of the Patrol Bureau and Major Crimes Bureau work comprehensively to address and reduce criminal activity. The department continues efforts to re-engineer the practice of law enforcement in Fairfax County through engagement with the County's culturally diverse communities to improve communications and information sharing, additional officer training, and the implementation of recommendations made by the Police Executive Research Forum (PERF) and the Ad-Hoc Police Policy and Practices Commission.

The Operations Support Bureau continues to implement traffic safety initiatives and traffic safety education strategies with the goal of reducing the number of alcohol and drug-related crashes.
