Question: What capacity is there at Braddock Glen Assisted Living to accommodate the current Lincolnia Center assisted living residents?

Response: The Braddock Glen facility is currently at full capacity. Additionally, it is unlikely that any of the residents in the Lincolnia Center assisted care facility would move to Braddock Glen if there was capacity. The monthly income of the assisted living residents at Lincolnia Center is largely from a state auxiliary grant, and is significantly lower than the income needed to sustain the monthly fees at Braddock Glen.
