

# County of Fairfax, Virginia

## MEMORANDUM

**DATE:** April 20, 2018  
**TO:** Board of Supervisors  
**FROM:** Joseph M. Mondoro, Chief Financial Officer  
**SUBJECT:** Responses to BOS Budget Questions – Package 10

Attached for your review is Package 10 of responses to Board questions on the FY 2019 budget. If you have any questions or need additional information, please do not hesitate to contact me. The following responses are included in this package:

Question Number	Question	Supervisor	Pages
57	What are the standard criteria for ADA compliance for renovations – what is the normal operating procedure? Please provide information for Providence Community Center and Public Safety HQ.	McKay	151
58	Schools: Please provide a schedule of overtime by employee (withholding their name) including their title, salary overtime amount, and total compensation.	Herrity	152-223
59	Schools: How many busses have a ridership of less than 20? Of these how many are because they are split feeder busses? (Facilities and Transportation Services)	Herrity	224
60	Schools: What is the corresponding increase in staff required for the projected additional 444 students in the Fall? What is the corresponding increase in staff required for an additional 702 students and associated costs for each. (Financial Services)	Smyth	225
61	Schools: Provide full explanation on how the schools address increasing student projections - for example when absorbed in classroom and when additional staff is required. Provide data points used to determine enrollment projections. How do offsetting decreases factor into the formula? (Financial Services)	McKay	226
62	Schools: Please provide a comparison of projected FRM and actual FRM enrollment in total and the percentages for each elementary, middle and high school over the past 5 years. (Financial Services)	Herrity	227-233
63	Schools: Please provide an explanation for the additional \$16.8 million in unspecified "salary supplements," which increased from \$15 million to \$32.4 million. (Financial Services)	Herrity	234
64	Schools: Please provide an explanation for the additional \$4.1 million in "materials and supplies." (Financial Services)	Herrity	235
65	Schools: Please provide an explanation for the additional \$0.5 million for "hourly technical" workers. (Financial Services)	Herrity	236

It should be noted, the estimated time to compile this response was 18 hours. If you have any questions, please let me know.

## **Response to Questions on the FY 2019 Budget**

**Request By:** Supervisor McKay

**Question:** What are the standard criteria for ADA compliance for renovations – what is the normal operating procedure? Please provide information for Providence Community Center and Public Safety HQ.

**Response:**

Based upon guidance from the County Attorney's Office, the design and construction contracts for all capital building projects managed by DPWES Building Design and Construction Division (BDCD) are required to comply with the 28 Code of Federal Regulations Part 35.151, as detailed in the Department of Justice Title II ADA Regulations and the 2010 ADA Standards for Accessible Design. Established BDCD operating procedures provide for design and construction phase quality assurance specifically directed at compliance with this requirement. BDCD Project Managers and Construction Managers are trained in these ADA Standards, and are responsible to review/inspect design and construction work to assure compliance with the ADA Standards. Design plans are specifically reviewed for ADA compliance, and specific excerpts reflecting the most common ADA standards and details are included in the design plans and specifications. Preconstruction meetings are required during the construction phase, and specific recurring ADA inspections are implemented during the construction phase. Prior to completion of construction, a specific ADA inspection is implemented to assure compliance. In addition to trained BDCD staff members, BDCD also regularly utilizes consultant ADA specialists to review plans and inspect construction work to assure compliance with ADA Standards.

BDCD implemented these ADA processes during the design and construction of the Providence Community Center and the Public Safety Headquarters projects that were completed in December 2014 and August 2017, respectively. Final construction for both projects was inspected by a consultant ADA specialist, and all related punch list items were addressed. DPWES is not aware of any specific ADA issues at either of these projects that do not meet the ADA standards.

In the event that any ADA non-compliance related to the original capital construction of a project is brought to the attention of BDCD-DPWES, BDCD's policy is to investigate and resolve the issue, promptly. It should be noted that subsequent to occupancy of a completed, capital construction project, ADA issues may arise as the result of operations, maintenances procedures in the facility in which case remedial action is the responsibility of Facilities Management Division or the operating agency.

## Response to Questions on the FY 2019 Budget

**Request By:** Supervisor McKay

**Question:**

Please provide a schedule of overtime by employee (withholding their name) including their title, salary overtime amount, and total compensation.

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

Below is a report that shows overtime earnings, regular salaries and a total. It should be noted that a significant portion of the overtime is in the trades area as those positions have been reduced in prior years resulting in greater overtime to meet the needs of schools. Additionally, some of the outliers are a result of employees who are on call and regularly work weekend hours to maintain school buildings. Overall overtime costs are 0.4% of total FCPS full-time position salaries—the Bureau of Labor Statistics reports state and local government overtime costs as a percentage of total salaries at 1.3%.

Position Title	Overtime	Salary	Total Salary with OT
Accounting Technician I/II/III	272	64,534	64,807

## **Response to Questions on the FY 2019 Budget**

**Request By:** Supervisor Herrity

**Question:** How many busses have a ridership of less than 20? Of these how many are because they are split feeder busses? (Facilities and Transportation Services)

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

One bus can serve up to 4 schools (routes). Of the 5,006 general education routes, 4.2 percent or 212 (routes) have less than 20 students assigned. Two of which are split feeder bus routes. This is necessary due to the multiple out of boundary student placements and programs. Transportation's practice is to stay within a 60-minute bus ride, whenever possible.

## Response to Questions on the FY 2019 Budget

**Request By:** Supervisor Smyth

**Question:** What is the corresponding increase in staff required for the projected additional 444 students in the Fall? What is the corresponding increase in staff required for an additional 702 students and associated costs for each. (Financial Services)

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

Please see the chart below for a breakdown of the cost and positions for enrollment growth and demographic adjustments throughout the FY 2019 budget process.

	FY 2018 Approved Budget	FY 2019 Proposed Budget	FY 2019 Approved Budget	FY 2019 Proposed - FY 2018 Approved	FY 2019 Approved - FY 2019 Proposed	FY 2019 Approved - FY 2018 Approved
Enrollment	189,022	189,724	190,168	702	444	1,146
Cost of Growth and Demographic Adjustments (in M)				\$15.8	\$4.2	\$20.0
Additional Positions				203.2	61.0	264.2

The cost of growth is much more than simply the raw number of additional students. Embedded in each cost of growth are projected changes in free and reduced-price meals eligibility, special education services, and English for speakers of other languages services. The changes in these demographic areas from the FY 2018 Approved to the FY 2019 Proposed are more pronounced than the changes from the FY 2019 Proposed to the FY 2019 Approved resulting in a more substantial cost of growth relative to the number of students at the proposed.

## Response to Questions on the FY 2019 Budget

**Request By:** Supervisor McKay

**Question:** Provide full explanation on how the schools address increasing student projections - for example when absorbed in classroom and when additional staff is required. Provide data points used to determine enrollment projections. How do offsetting decreases factor into the formula? (Financial Services)

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

FCPS produces two projection sets each school year. Once the school year begins, a five-year school-by-school projection set is produced. The last year of this set is used for the annual Capital Improvement Program. Additionally, FCPS produces a six-month projection set each spring for the upcoming school year. Page 28 of the Capital Improvement Program (CIP) FY 2019-23 provides a detailed step-by-step process for the student membership projection. FCPS analyzes the following factors for student membership projection at the school system level, pyramid level, and school level: Historical patterns of student membership; birth to kindergarten ratios; kindergarten class membership to the previous school year's exiting 12th grade class; cohort progression; past cohort survival ratios; population and housing forecasts and trends; migration patterns; boundary phasing decisions. Modifications and adjustments are made, as needed, to account for other relevant information unique to a specific school or group of schools. Special program student membership projections are factored into projections as they may impact school specific membership.

The majority of positions (teachers, classroom assistants, office staff, custodians, etc.) allocated to schools are based on School Board staffing formulas detailed in the appendix of each budget volume. In general, schools with increasing enrollment, free or reduced-price meal (FRM) eligibility, English for Speakers of Other Languages (ESOL) services, or special education services may see budget increases while schools with declining figures may see reductions in budgeted staff. However, in some instances, growth may be able to be absorbed and conversely, declines may not result in savings.

Consider an extremely simplified example of a low poverty school with 104 kindergarten students projected and 4 teachers budgeted in SY 2017-18. Assuming no other demographic changes impacting the staffing formula (e.g. increased eligibility for FRM), this school would be able to accommodate anywhere from 85 to 112 projected kindergarten students in SY 2018-19 without any change in kindergarten staffing. So, a decline of up to 19 kindergarten students projected would not result in any kindergarten savings while an increase of up to 8 kindergarten students projected would not result in any kindergarten cost. Expand the above example to each of the School Board formulas at each school and account for all of the changes that may impact the various formulas (e.g. projected enrollment, FRM, ESOL, building square footage in the case of custodians, etc.) and the result is the cost/savings that results from enrollment and demographic growth/declines.

Broadly speaking, the FY 2019 proposed projections resulted in a budget that accommodated an estimated increase of 702 students, significant special education and FRM growth, and moderate ESOL growth. Revisions to the projected number of students, as of spring, result in a budget that will accommodate 1,146 (an increase of 444 from the proposed) additional students without requiring significant adjustments for special education, FRM, or ESOL because the initial projections did not require as much updating in those areas.

## Response to Questions on the FY 2019 Budget

**Request By:** Supervisor Herrity

**Question:** Schools: Please provide a comparison of projected FRM and actual FRM enrollment in total and the percentages for each elementary, middle and high school over the past 5 years. (Financial Services)

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

The chart below provides the divisionwide projections and actuals for students eligible for free or reduced-price meals (FRM). Attached are five years of school by school actual percentages which can also be found on the Virginia Department of Education website and is available at the link below. FCPS does not project FRM percentages at each school. School staffing formulas rely on FRM percentage data that is lagged by a year.

## **Response to Questions on the FY 2019 Budget**

**Request By:** Supervisor Herrity

**Question:** Please provide an explanation for the additional \$16.8 million in unspecified "salary supplements," which increased from \$15 million to \$32.4 million. (Financial Services)

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

The FY 2019 Advertised Budget for salary supplements increased by \$17.9 million over the FY 2018 Approved Budget due to placeholder funding to implement new nonteacher salary scales for school-based administrators and other unified scale employees including the impact of market adjustment, offset by savings from the Adult High School redesign of \$1.1 million for a net increase of \$16.8 million. Employees on the unified scale include school-based administrators, clerical, custodians, psychologists, social workers, central office, etc.

Funding was budgeted in a placeholder since the scales were still being developed at the time the budget was proposed.

## Response to Questions on the FY 2019 Budget

**Request By:** Supervisor Herrity

**Question:** Please provide an explanation for the additional \$4.1 million in "materials and supplies." (Financial Services)

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

The materials and supplies budget is \$97.4 million, which is a \$4.7 million, or 5.1 percent, increase over the FY 2018 Approved Budget. This category includes major expenditures for instructional materials and supplies, textbooks, other non-capital equipment, tests and maintenance supplies, and inventory/other materials and supplies. The following is a breakdown of the net changes for FY 2019:

- **Instructional Supplies:** The budget for FY 2019 is \$16.5 million, which is a \$0.4 million, or 2.8 percent, increase over the FY 2018 Approved Budget, primarily due to department budget realignments to other materials and supplies and an increase in student enrollment.
- **Textbooks:** The budget for FY 2019 is \$26.4 million, which represents a \$3.6 million, or 15.6 percent, increase over the FY 2018 Approved Budget, primarily due to the replacement of math and grade 4 social studies instructional resources.
- **Other Noncapital Equipment:** The budget for FY 2019 is \$15.1 million, which is a \$58,736, or 0.4 percent, decrease from the FY 2018 Approved Budget, primarily due to a decrease in state allocation for the Career and Technical Education Office offset by department budget realignments.
- **Tests:** The budget for FY 2019 is \$7.9 million, which is an increase of \$0.1 million, or 1.5 percent, over the FY 2018 Approved Budget, primarily due to contractual increases and department budget realignments. The contractual increases of \$0.1 million include funding for industry credentials to ensure every student have an industry certification at graduation, and PSAT test fees for 9<sup>th</sup> and 10<sup>th</sup> graders to expose them to the SAT exams format.
- **Maintenance Supplies:** The budget for FY 2019 is \$7.0 million, which is an increase of \$0.2 million, or 3.2 percent, over the FY 2018 Approved, primarily due to department budget realignments.
- **Inventory/Other Materials and Supplies:** The budget for FY 2019 is \$24.4 million, which is a \$0.4 million, or 1.7 percent, increase over the FY 2018 Approved Budget, primarily due to contractual increases and department budget realignments. The contractual increases of \$0.4 million include funding for enterprise hardware and repair due to anticipated usage increases division wide.

## **Response to Questions on the FY 2019 Budget**

**Request By:** Supervisor Herrity

**Question:** Please provide an explanation for the additional \$0.5 million for "hourly technical" workers. (Financial Services)

**Response:** The following response was prepared by Fairfax County Public Schools (FCPS):

The additional \$0.5 million in the hourly technical account for FY 2019 is primarily due to department realignments based on prior year trends for the student registration interpreters program and to better reflect planned expenditures for the Family and School Partnership Early Literature and Home Instruction for Parents of Preschool Youngsters instructors and assistants. As part of the budget development process, department program managers may realign budgets to incorporate changes based on prior year actuals, estimated current-year expenditures, and to reflect future planned activities. Realignments for department budgets cannot result in an overall increase for the department.
