# Welcoming Inclusion Network (WIN)

### ***What is the Welcoming Inclusion Network?***

---

Members of the **Welcoming Inclusion Network (WIN)** work together to advance employment and day services for individuals with developmental (and intellectual) disabilities.

As the disability population in Fairfax County has grown, both in size and differing interests and support needs, the county recognizes the challenges in building equity and efficiency within available resources. The CSB recognizes the need, and the community's desire, for more dialogue and participation from stakeholders and the broader community.

In a search for solutions that will help meet the needs for inclusion, accessibility and community support, the WIN was launched on February 26, 2018.

### ***What are the goals of the WIN?***

---

The goals of the WIN include:

- **NETWORK:** Build opportunities for increased information and resource sharing.
- **DESIGN:** Ensure service equity and efficiency through community-designed services.
- **EMPLOYMENT:** Boost employment opportunities through existing and new service models.
- **INCLUSION:** Identify and address other challenges to full community inclusion.

WIN attendees select which issues they would like to address and work on these committees. Projects are intended to identify gaps in current service areas, training needed to help further inclusion efforts, identification of barriers for people with developmental/intellectual disabilities to social opportunities, as well as job, career and volunteer opportunities, and to develop long-term strategies and solutions.

Examples include: ramping up successful existing programs such as Best Buddies that integrate people with differing abilities into everyday activities at the elementary, middle and high school levels; creating an ongoing resource list of social opportunities; how-to's on building peer support; increasing real-world ideas to help prepare individuals to live independent lives; and many more.
