所有疫苗接種數據都來自“Virginia Department of Health（衛生部）”的 Virginia Immunization Information System（維珍尼亞州免疫資訊系統）。數據包括 Fairfax 縣以及 Fairfax 和 Falls Church 市。數據與 Virginia 衛生部的控制面板有所不同，因為這些轄區的數據分開顯示。

控制面板第二頁顯示按年齡組劃分的疫苗接種進展情況，並包括至少接種一劑疫苗的居民數量。數據將 12 – 17 歲的青少年作為其中的一個年齡組，以顯示青少年人群的疫苗接種情況，因為 Pfizer 最近批准用於 12 歲以上青少年。

(The Fairfax Health District includes Fairfax County and the cities of Fairfax and Falls Church)

Last Updated : 5/25/2021 3:25:14 PM

Race and ethnicity data are not currently available for all individuals vaccinated in the Fairfax Health District. The data shown here are from clinics that use the Vaccination Administration Management Systems (VAMS) system for scheduling and registration and includes Fairfax County Health Department clinics, the Tysons Community Vaccination Center, George Mason University/Eagle Bank Arena, and several outreach clinics.

VAMS data are available for approximately 30% of all people vaccinated in the Fairfax Health district and may not be representative of the entire vaccinated population. As a result, caution should be used when interpreting these results.

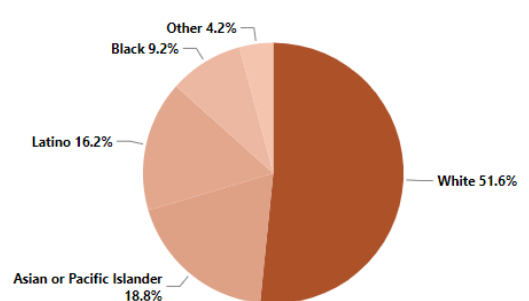

The pie charts show a side-by-side percent comparison. The left chart shows the racial and ethnic group percentage among Fairfax Health District residents who have received one or more doses of COVID-19 vaccine and have data reported in VAMS. The right chart shows the racial and ethnic group percentage among all Fairfax Health District residents.
