7.8 E PC Peripheral Support	
7.8 F Service Desk/ NOC Support	

2. Special Provisions, paragraph 7.8, B.3. Network Analyst III has been updated to read:

Network Analyst III

Minimum/General Experience: Microsoft or Industry Certified System Engineer. Must be certified in the appropriate Microsoft products and have experience in designing complex systems and producing formal implementation plans. Acts as systems architect/team leader in multi-engineer teams, working on networking and communications projects. Assumes primary responsibility for system design and implementation; consults with FCPS project leadership to determine needs and meets with FCPS customers on an on-going basis. Performs task analyses to determine resources needed and supervises network and communications engineers and other personnel participating on the systems team. Integrates networking technologies as required. Minimum eight years' experience in the field.

JO
12-1-17

Functional Responsibilities: Works closely with the Systems Architect, Program Manager or FCPS customer and shares major responsibility in managing the systems team and scheduling assignments. May act as the sole Project Manager, as needed.

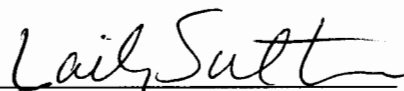

Minimum Education: Bachelor's degree in related fields or industry equivalent experience.

RFP CLARIFICATIONS:

The following are responses to questions received via e-mail.

- Q1.** A question posed during the conference. I believe some asked how many bios were needed per labor category.
- A1.** Minimum of two resumes for each position listed under each category.
- Q2.** If we suggest an additional labor category, Should we provide a description of the category as well as a bio?
- A2.** Only positions within a labor category may be added. Please provide a description of the position as well as resumes.

All other terms and conditions remain unchanged.

Laila Sultan
Supervisor, Contract Administration
