Question and Answer

- Q1) We are submitting a bid using batteries manufactured by EastPenn, based on the manufacturers listed ratings there are some minor discrepancies. Example: BCI 4D has a Min. requirement of 1000CCA and RC295 Min @ 25A. Our product, SLI4DA has a listed rating 1050CCA and RC290 @25A. The fact is that all new lead acid batteries will actually test much higher than the listed rating by a significant margin. Such results vary due to variables such as core temperature and open circuit voltage. Will products manufactured by EastPenn be disqualified if some of the listed specifications are slightly more conservative than the source of the minimum requirements listed on the bid table?
- A1) **Refer to Paragraph 1.5 of the Special Provisions.**
- Q2) We noted that BCI 58 and BCI 58R have different minimum specification requirements. We assume that these batteries should be exactly the same except for the opposite position of the positive terminal. Is this an error?
- A2) **Our current batteries have different specs on group size 58 and 58R. This is not an error on the bid tab.**
- Q3) Can Fairfax County provide multiple years of sales data?
- A3) **Please refer to Attachment B for sales data from 8-16-2018 until 4-18-2023.**
- Q4) Can Fairfax County estimate weekly or monthly sales quantities?
- A4) **Attachment B has all sales data from 8-16-2018 until 4-18-2023.**
- Q5) Does this bid opportunity provide a preference for micro, small, or veteran owned business?
- A5) **No.**
