ADDENDUM NO. 2

DATE: October 25, 2022
TO: ALL PROSPECTIVE OFFERORS
REFERENCE: RFP#2000003581
FOR: Telecommunications and Internet Services
CLOSING DATE/TIME: November 3, 2022, 12:00 PM ET

RFP CLARIFICATIONS:

The following are responses to questions received via e-mail since the publication of Addendum 1, published on October 14, 2022:

Q1. If we were to provide you all with a 1gig or 10g circuit at the 8115 Gatehouse RD, Falls Church, VA location, would your Network team be responsible for dispersing the bandwidth to the various locations listed or would the expectation that if we were chosen, we disperse the bandwidth to the locations (Herndon, Springfield, Fairfax and Alexandria)?

A1. Currently, there are 1gig and 10gig circuits at 8115 Gatehouse Road. They are dedicated only to the Gatehouse building, configured for load-balancing, and fully redundant. The successful offeror will disperse bandwidth to other locations.

Q2. I have question on the FCPS critical site list (As of 08/04/2022) Appendix E. With each VoIP location in the list there is a modem number provided. What the purpose of these modems at these locations?

A2. They are modems for FCPS to use in case the fiber line was cut.

Q3. Can we use DocuSign instead of a wet signature?

A3. Yes.

All other terms and conditions remain unchanged.

Delphine Lambert
Manager, Contracts

THIS ADDENDUM IS ACKNOWLEDGED AND IS CONSIDERED A PART OF THE SUBJECT
REQUEST FOR PROPOSAL:

Name of Firm

(Signature)

(Date)

**ALL OFFERORS MUST RETURN A SIGNED ORIGINAL OF THIS ADDENDUM AND ANY
