JUN 19 2017

ADDENDUM NO. 2

TO: ALL PROSPECTIVE OFFERORS
REFERENCE: RFP 2000002294
FOR: Refuse and Recycling Services
CLOSING DATE/TIME: **June 29, 2017 @ 2:00 p.m.**

The referenced Request for Proposal is amended as follows:

- A. The RFP closing date has been extended from June 22, 2017 to **June 29, 2017**
- B. Revisions - For purposes of consistency the following two paragraphs from Special Provisions, have been updated to match the Attachment 1 information as follows:
 - 5.2. FCPS' current container inventory list consists of **407** pieces and includes 2,4,6, and 8 cubic yard front load containers and four (4) 40 CY open top roll off containers.
 - 5.3. On a yearly basis FCPS has an estimated yearly amount of **63,868** pick-ups for refuse and recyclables. There has been a yearly average of 50 purchased containers. FCPS has rented a yearly average of 100 containers for an average of 1 months per rental.
- C. Revisions – Attached to this addendum, there is an updated Exhibit A with updated locations.
- D. Additions – The following paragraph from the Technical Specifications has been updated as follows:
 - 1.3 Holidays - The Contractor shall provide collection services on all legal holidays except New Year's Day, **Memorial Day, Fourth of July, Labor Day**, Thanksgiving, and Christmas Day. However, these days shall be made up before or after the holidays so that no school or facility skips service. FCPS may change the holiday collection schedule at its sole discretion with 10 business days advance notice.
- E. Additions – Technical Specifications, has added the following paragraph:
 - 2.3 This is an all-inclusive contract where pick-up price includes pick-up, hauling and disposal service.
- F. Revisions – Pricing Schedule Section 3 has been revised and attached to this Addendum.

JO
6-19-17

G. Revisions – Special Provisions, paragraph 10 has been revised as follows:

- 10.1. The subsequent contract will be a firm-fixed price agreement. The fee(s) will remain firm and will include all charges that may be incurred in fulfilling the requirements of the contract during the first 365 days. Changes in cost for any subsequent contract years may be based on the water sewer trash, Consumer Price Index (CPI-U), Table 10, U.S. City Averages, or other relevant indices.
- 10.2. If labor rates are requested, the rates specified by the bidder shall include all direct and indirect overhead costs including but not limited to transportation, general and administrative cost, etc. Labor rates will be paid based on hours spent at each site.
- 10.3. If the successful offeror is required to provide parts/materials to fulfill the requirements of the contract, the compensation will be based on the actual costs of the materials with a mark-up equal to the percentages shown below. No additional costs of any kind will be allowed.

Materials mark-up: 15%

Equipment Rental: 10%

- 10.4. The Contractor shall make every attempt to obtain the lowest price for the materials to which the percentage mark-up will be applied. Invoices, which include material cost, over \$25.00, shall be accompanied by copies of the supplier's invoices to substantiate cost to the Contractor.
- 10.5. The request for a change in the unit price shall include as a minimum, (1) the cause for the adjustment; (2) proposed effective date; and, (3) the amount of the change requested with documentation to support the requested adjustment (i.e., appropriate Bureau of Labor Statistics, Consumer Price Index (CPI-U), change in manufacturer's price, etc.).
- 10.6. Price decreases shall be made in accordance with paragraph 43 of the General Conditions & Instructions to Offerors. (Appendix A)

H. Additions – The following paragraph has been added to the Technical Specifications:

- 7.4. Purchased compactors must be delivered within eight weeks, after notification from FCPS, or mutually agreed timeframe. (Reference Pricing Schedule, Section 3)

The following are responses to questions received during the mandatory pre-proposal conference and via e-mail prior to June 13, 2017.

Q1. Please provide addresses for the following locations:

- a. FCPS Bus Lot
- b. FCPS Imp Facility-Industrial
- c. Food Service Warehouse
- d. Gatehouse Administration Building
- e. Pickett Annex Building
- f. Springfield Construction Site
- g. West Ox School Bus Lot

A1. **These have been updated in the revised Exhibit A as attached to addendum 2.**

- Q2. Please provide the School year and Summer service schedules for trash and recycling service for the following sites (these sites do not appear to have been included in "Attachment 1" provided by Fairfax County):
- a. Central
 - b. Fort Belvoir Primary Elem
 - c. Fort Belvoir Upper Elem
- A2. The Exhibit 1 provides the schedule for all FCPS locations. If a school/center does not appear on the summer schedule, then their regular schedule remains the same all year. The Fort Belvoir locations have been deleted from Exhibit A since they are handled by the base and are not part of this contract.**
- Q3. Please confirm the service level for Woodson High School at 9525 Main St, Fairfax, VA 22031. Currently this site is listed as having no trash service but two 8yd containers for recycling serviced 5x/week (each).
- A3. Service level confirmed. If a site doesn't have a trash dumpster (typically high schools), it means they have a compactor which is serviced by a separate contract.**
- Q4. Where does the incumbent hauler take recyclable material?
- A4. There are multiple recycling facilities throughout the county which the contractor can choose to use.**
- Q5. Are disposal costs covered by the incumbent hauler or does Fairfax County cover those costs themselves? How will disposal be covered in the new contract? i.e. should disposal be built into the cost of providing Front End Load (FEL) service?
- A5. All disposal costs are currently covered by the hauler. All disposal costs are part of this solicitation. This is an all-inclusive contract.**
- Q6. Is the contractor allowed to intermix FCPS sites with non-FCPS sites along trash and recycling routes? If so, is the contractor still required to verbally inform the scale house operator that FCPS is the originating jurisdiction?
- A6. The contractor is allowed to intermix FCPS sites with non-FCPS sites. All refuse and recycling for FCPS must be weighed and recorded at the point of pick-up. Please refer to Fairfax County's Division of Solid Waste concerning "originating jurisdiction" reporting requirements.**
- Q7. Is the contractor allowed to charge for delivery/removal of containers?
- A7. The price for the purchase of a new container should include the delivery of the new container as well as the disposal of the old container, if applicable.**
- Q8. What are the current rates?
- A8. Pricing will be provided as part of Addendum 2.**
- Q9. Page 18 – Special Collections – How are these items currently being serviced? Can you provide a breakdown of what has been collected in the past 12 months?
- A9. FCPS will contact the vendor to arrange for a special pick-up for any of the items listed. A breakdown of past special collections is not tracked therefore not available.**

Q10. Does your current hauler provide you with a recycling coordinator? if so how many hours per week/days per week does this coordinator work at the schools?

A10. Yes the current vendor does provide a recycling coordinator. This should be part of the contractor's plan of work. The coordinator will be flexible and attend meetings with schools and FCPS administration. It is difficult to determine the number of meetings/site visits this will require. After contract award, it is the company's responsibility to conduct site audits to determine the frequency of recycling services per site. A snap shot of these needs can be seen at the Get2Green website. http://get2green.fcps.edu/recycle_db.html

Q11. For the next contract are you looking to have a full time recycling coordinator?

A11. It is the contractor's responsibility to determine the need of a full-time coordinator. The Offeror can provide the services as a line item for a year of service, include their service as part of the vendor's overhead costs or provide a proposal that would show efficiency and cost effectiveness to FCPS.

Q12. What is your current diversion rate?

A12. Our current YTD conversion rate is approximately 18%.

Q13. What percentage of bags are in your Recycling Waste Stream?

A13. This information is not available.

Q14. In the Event that Covanta of Fairfax, is under repair, what Disposal facility will be designated for the FCPS waste?

A14. Please review the Fairfax County Division of Solid Waste and Recycling for an answer to this question

Q15. What were the tonnage amounts in 2016 for MSW, and Single Stream Recycling?

A15. This data is available at Get2Green Website. http://get2green.fcps.edu/recycle_db.html

Q16. What is the projected start date of the agreement

A16. FCPS intends that this contract will start on September 1, 2017.

Q17. How much trash and recycle were disposed of last year.

A17. Trash and recycling data can be found at: http://get2green.fcps.edu/recycle_db.html

Q18. Can we get a copy of their current recycle plan?

A18. This is a new requirement for the new contract which the successful offeror must provide. FCPS currently requires the recycling of all cardboard, mixed paper, bottles, cans, plastics covered by the single stream recycling process. [Regulation 8541](#).

Q19. Under the recycling tab the Woodson High location shows up twice. Does this mean they have two containers or is this a duplicate?

A19. Each container has its own line. If a school has more than one line item for either trash or recycling, then it means they have multiple cans at that location.

- Q20. Please clarify if Bidders are to install any Compactors that are ordered under this contract.
- A20. The purchase price of the compactors should include the delivery, power unit and the compactor. Installation service will be quoted case by case. Reference the above modification #F, #G and the revised Pricing Schedule attached to this addendum.**
- Q21. Compactors generally take 4-8 weeks for delivery from the time of order. Please clarify how bidders are to comply with the (3) business day delivery requirement.
- A21. Reference the above modification #G, #H and the revised Pricing Schedule attached to this addendum.**
- Q22. Please clarify what the requirement is to submit for Sample Reports as indicated under the Minimum Qualifications Section 2.1 (d). Are bidders to confirm that the supplied Attachment 2 can be adhered to, or is the County looking for something else?
- A22. Please provide a sample of the report that your organization is able to provide to FCPS. At a minimum the report should include the site name, the weight of the trash removed from the site, the weight of the recyclables removed from the site, the percentage of recyclables vs refuse.**
- Q23. Please clarify if bidders are to fill out the Other Information Section of the References Appendix B document or is this for County Use Only?
- A23. All appendix B needs to be completed as requested.**
- Q24. Please clarify if FCPS can be used as a Reference.
- A24. If your organization is currently or have done business with FCPS in the past, then FCPS may be used as one of the references for the purpose of this RFP.**
- Q25. Please confirm that bidders are to supply Reference information in both the Technical Proposal and Cost Proposal.
- A25. Please provide at least one set of references.**
- Q26. Please confirm that the County would like both originals and copies of the proposal to be in separate 3-ring binders, which would be a total of 10 individual 3-ring binders to be supplied.
- A26. As per Special provisions paragraph 14.1 we require 1 original and 5 copies, which would make a total of twelve (12) 3-ring binders.**
- Q27. Please clarify Section 9.1. Per contract, pricing is based on volume. Is the invoice supposed to be based on per lift?
- A27. The invoice should match the per lift price. FCPS has provided the prospective offerors the volume for purposes of determining a per lift cost.**
- Q28. Please clarify Section 10.12. Is the county paying for disposal?
- A28. The per-dump charge should include all disposal fees.**
- Q29. Section 10.5 Calibration Certificates – If Scale Vendors can't provide certificates, can this requirement be removed? If not, can the Bidders documented internal process be submitted?
- A29. The Certificate requirement cannot be removed, however in lieu of availability of certificate, Offeror must provide, with their proposal, documented internal process, FCPS will review and determine if it is acceptable.**

- Q30. Due to the large collection of accurate data that is necessary for this Solicitation submittal, Waste Management of Northern Virginia respectfully requests an extension for bid submittals of one week, to Thursday June 22nd.
- A30. Addendum 2 has been issued to allow offerors additional time to complete their proposals.**
- Q31. On the RFP Fairfax County indicated that they have 584 pieces of equipment but their bid sheets indicate only 407 containers between trash and recycling; please reconcile these figures.
- A31. This information has been updated in Addendum 2. Keep in mind that the schedules and container quantities may change based on the needs of each school.**
- Q32. On the RFP Fairfax County indicated that they estimate 83,760 pick-ups for refuse and recyclables, but assuming 45 weeks on the regular schedule and 7 weeks on the summer schedule that only equates to 63,868 pick-ups. Please reconcile these figures.
- A32. This information has been updated in Addendum 2. Keep in mind that the schedules and container quantities may change based on the needs of each school.**
- Q33. Does Fairfax County require pick-ups on Memorial Day, Fourth of July (if it falls between Monday and Friday), and Labor Day? The RFP indicated that only New Year's Day, Thanksgiving, and Christmas are excused.
- A33. This information has been updated in Addendum 2.**
- Q34. Does the incumbent hauler service FCPS exclusive routes or do they intermingle other customers?
- A34. It is assumed that the incumbent intermixes FCPS refuse and/or recyclables with other customers on their routes. However all refuse and recycling for FCPS must be weighed and recorded at the point of pick-up.**
- Q35. Does the incumbent hauler satisfy all of the RFP's requirements in section 10 (Scales on Vehicles)? If so, what tools are the utilizing to meet these requirements?
- A35. Yes, they have scales on their vehicles and they provide FCPS with a monthly raw data report certifying these weights.**
- Q36. Does Fairfax County have suggestions for how the contractor could meet the requirements in section 10 of the RFP?
- A36. The contractor needs to provide this information as part of the RFP using best practices etc.**
- Q37. In order to comply with section 10 of the RFP the contractor would have to purchase and install new hardware and software but may not have the new system implemented between the date of the award and start of the contract. Would Fairfax County terminate the contract if the requirements in section 10 are not implemented by the start date of the contract?
- A37. The contractor must be able to comply on day one of the contract.**
- Q38. Will FCPS increase service at locations that have overflowing containers?
- A38. Service levels are always subject to change up or down, depending on need.**

Q39. Due to the large collection of accurate data that is necessary for this Solicitation submittal, Waste Management of Northern Virginia respectfully requests an extension for bid submittals to Friday June 23rd.

A39. Addendum 2 has been issued to allow offerors additional time to complete their proposals.

Q40. Does the current hauler use scales to weigh the containers under the current contract?

2a. If so, please provide an example of your weight reports.

2b. What are the pounds per yard for trash? Recycle?

A40. Yes, the incumbent hauler uses scales to weight the containers under this contract. A sample report was provided as Attachment 2 with the original solicitation. The weight information can be found at: http://get2green.fcps.edu/recycle_db.html

Q41. Does the recycling coordinator need to be dedicated to FCPS only?

A41. This should be part of the contractor's plan of work. The coordinator will need to be flexible and able to attend meetings with schools and FCPS administration. It is difficult to determine the number of meetings/site visits this will require. After contract award, it is the company's responsibility to conduct site audits to determine the frequency of recycling services per site. A snap shot of these needs can be seen by viewing the data on the Get2Green website. http://get2green.fcps.edu/recycle_db.html

Q42. When will the award notice be issued?

A42. This depends on the proposals received, the negotiations and implementation of the final agreement. FPCS intends to have a contract award prior to September 1, 2017.

Q43. The RFP asks for a unit price. Is this the price/pickup and does it include disposal.

A43. Price per pick-up with disposal included. Reference Addendum 1, modifications.

Q44. Can you please supply a sample current scale report with weights for both trash and recycle

A44. A sample scale report has been included in the RFP as Attachment 2. Here is the link of the location under "[Electronic Documents](#)":

Q45. Can other trash/recycle customers be mixed with the trash/recycle collected from the schools (i.e. do we have to run a dedicated truck just for the schools)

A45. You do not need dedicated trucks, however all materials must be weighed at the point of pick-up to display accurate weights for FCPS refuse and recycling data.

Q46. How many hours/ PTA meetings expected for the recycle coordinator.

A46. There are no set number of PTA meetings to attend, this will be determined by the needs of the schools.

Q47. Can you please change the price adjustment language from the CPI Urban Consumers to Water Sewer Trash (Page 5 Section 10.1)?

A47. The language on paragraph 10.1 allows for flexibility as it states that it "may" be based on the CPI-U index or other relevant indices.

Q48. Can you please remove the Termination for Convenience section 32 on page 28? This contract requires a lot of capital for trucks and scales.

A48. This is a standard clause for public entities. Funds are appropriate on a yearly basis and based on critical needs certain programs/services may be reduced or terminated.

Q49. Is there a bid or performance bond required?

A49. There is no performance bond required for this contract.

Q50. Where is the trash and recycle currently being disposed? Can you take this material elsewhere?

A50. Refuse picked up in Fairfax County must be brought to county Covanta plant or transfer station. There are a number of recycling options throughout the county.

Q51. What is the current pricing?

A51. Pricing will be provided as part of Addendum 2.

Q52. Do you currently have a recycle coordinator under this contract?

A52. Yes, the current vendor does utilize a recycling coordinator.

Q53. What is the approximate number of PTA meetings per year?

A53. The number of PTA meetings vary by each school. The attendance of a recycling coordinator at each school PTA meeting is not required. However a school may request the attendance of a coordinator, should the need arise.

Q54. Can you please provide the address for the following locations:

- a. FCPS Bus Lot
- b. FCPS Imp Facility-Industrial
- c. Food Service Warehouse
- d. Picket Annex Bldg.
- e. Springfield Construction Site
- f. West Ox School Bus Lot

A54. These addresses have been updated in the Exhibit A as attached to addendum 2.

Q55. Do we have to submit both the Pricing Schedule in the RFP (Pages 37 to 39) and Attachment 1? Some of this appears to be duplicates.

A55. Yes submit both the pricing schedule and Attachment 1. Only Section 1 is part of the Attachment 1. All other sections are only in Appendix B of the solicitation.

Q56. Please clarify if the yearly CPI-U increases will be for all items on the bid sheet.

A56. The vendor may request a price increase after one year of continuous service as long as there is documented justification of such price request. Request can be of any or all items within the contracted items or services.

- Q57. Please clarify if the Recycling Coordinator is required to be a dedicated employee solely for the FCPS project, or can the employee work on other assigned company projects?
- A57. **It is up to the vendor, based on their knowledge and expertise to make a business decision on how a recycling coordinator will be implemented to their proposal. The Offeror can provide the services as a line item for a year of service, imbed their service as part of the vendor's overhead costs or provide a proposal that would show efficiency and cost effectiveness to FCPS.**
- Q58. Please clarify the last day/time for questions to be submitted.
- A58. **This date may change. Based on Addendum 2, the last day for questions is June 20, 2017 (Seven business days prior to the closing of the RFP).**

All other terms and conditions remain unchanged.

Laila Sultan
Contracts Supervisor

THIS ADDENDUM IS ACKNOWLEDGED AND IS CONSIDERED A PART OF THE SUBJECT REQUEST FOR PROPOSAL:
