By mutual agreement, Contract 4400008187 is amended to add the following language to the "Responsibility for Content, Transmitting Messages, and Accounts" paragraph:

"The Federal Communications Commission ruled that robocalls made by an educational organization for emergency purposes, those affecting the health and safety of students and faculty, do not require prior express consent. Further, in the case of non-emergency messages, when a parent/guardian or student provides their wireless number to a school as a contact, they have given consent to be contacted at that number for communications closely related to the school mission. (FCC 16-88, August 2016). FCPS intended use of the Notification Services fall into these two cases."
