

ADDENDUM NO. 2

DATE: November 30, 2021
TO: ALL PROSPECTIVE OFFERORS
REFERENCE: RFP# 2000003432
FOR: K-6 Language Arts Basal Resources (SY 2022-2023 Adoption)
CLOSING DATE/TIME: December 6, 2021 @ 12:00 p.m. (noon)

RFP CLARIFICATIONS:

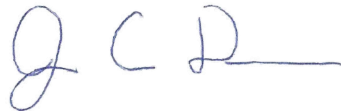

The following are responses to questions received via Bonfire and/or e-mail:

- Q1.** Are you able to let us know the changes that were made to this as compared to RFP2000003329?
- A1.** No, RFP 2000003432 is a new RFP and the Special Provisions provide details regarding proposal submission. Please review/complete/submit all requested documents.
- Q2.** Will schools be able to purchase Tier 2 and Tier 3 Intervention Programs that have not responded to RFP 2000003432 - K-6 Language Arts Basal Resources (SY 2022-2023 Adoption)?
- A2.** Tier 2 and Tier 3 Intervention Programs that do not respond to the RFP will not be considered for division purchase.
- Q3.** 1. Appendix E Requirement: "Vendor content must work on mobile devices."
Does "Mobile Device" include phones or is it acceptable if the software works only on mobile tablets?
2. Appendix E Requirement: Offeror must provide the user the ability to specify a preferred gender. Could you elaborate on this requirement to specify gender? Does this refer to student accounts or teacher accounts? For example, is it acceptable if only teachers have the option for choosing gender? Or, is it acceptable for the students to only have the option for choosing their own avatar for the program? Also, is the requirement asking for more than two gender options?
3. Appendix E Requirement: Does the proposed solution follow WCAG and section 508 guidelines? Is it acceptable if a software does not meet all of the accessibility requirements?
- A3.** The Offeror is generally expected to meet WCAG and section 508 guidelines. If some or all functionality within the proposed solution cannot meet those guidelines, the Offeror should describe very specifically what functionality does not meet the guidelines and if there are any alternatives or accommodations in place that would enable students with disabilities to use the proposed solution. Please keep in mind that FCPS serves students with a broad range of disabilities.
- Q4.** We have the following technical question from Appendix F:
- Requirement: The vendor is required to provide detailed documentation including diagrams of how an authenticated user accesses information.
- Vendor must support role-based access control.
 - The vendor must detail how role assignments can be automated within the platform.

Authentication flow depends on SSO integration used by FCPS. What SSO preference does FCPS have (LTI, OAuth, Clever, SAML)?

- A4** FCPS prefers to have applications authenticate with an SSO provider using either Login with Google (which is connected with SAML/OAuth) or Clever. Login with Google is the preferred method. ADFS is possible if the others are not available, but not preferred.

All other terms and conditions remain unchanged.

Jon Damron
Manager, Contracts

THIS ADDENDUM IS ACKNOWLEDGED AND IS CONSIDERED A PART OF THE SUBJECT REQUEST FOR PROPOSAL:

Name of Firm

(Signature)

(Date)

RETURN A SIGNED ORIGINAL AND COPIES AS REQUESTED IN THE SOLICITATION.
