Additional Services								
CPSUPPORT-SITEVALID	Customer works with their own contractor to perform all construction and station installation services. ChargePoint will then engage an authorized ChargePoint Partner to perform Site Validation of electrical capacity, transformers, panels, breakers, wiring, cellular coverage and that the station installation meets all ChargePoint published requirements and local codes. Upon successful Site Validation, the customer will be eligible to obtain warranty coverage under a ChargePoint Maintenance plan, sold separately. Note, a failed Site Validation will incur a second validation fee to repeat the validation after the site deficiencies are corrected. Priced per AC station.	$599	$ 539.00	10%		No longer available	No longer available	No longer available

CPE250-NEW-PAIRED-INSTALLVALID	For a new CPE250 paired installation, the CPE250-NEW-PAIRED-INSTALLVALID will have a ChargePoint O&M partner install both CPE250 stations for pairing and, if needed, the CPE250-PAIRINGKIT-F. The CPE250-PAIRINGKIT-F is purchased separately. CPE250-NEW-PAIRED-INSTALLVALID assumes that the customer has prepped the site for the paired CPE250 installation as defined in the site prep guide and to all the local codes and is priced for 1 paired installation (2 stations).				No longer available	Replaced by CPE250-INSTALL-COMMISSIONING X2	0%
CPE250-ENABLED-PAIRED-INSTALLVALID	For an existing site, where two installed CPE250 stations are to be paired, the CPE250-ENABLE-PAIRED-INSTALLVALID will have a ChargePoint O&M partner install the CPE250-PAIRINGKIT-F (purchased separately), update firmware required for pairing and will connect the appropriate cables for communication and DC power sharing. CPE250-ENABLE-PAIRED-INSTALLVALID assumes that the two stations are already installed (they will not be moved) and that the conduit required for paring is in place as specified by the site design guide and is priced for 1 paired installation (2 stations).				No longer available	No longer available	0%
CPE250-INSTALLVALID	Customer works with their own contractor to perform the all construction to the point where the stations can be bolted down and connected. ChargePoint will engage one of their O&M Partners to install the station on the prepared site and validation of electrical capacity, transformers, panels, breakers, wiring, cellular coverage and that station installation meets all ChargePoint published requirements and local codes. A successful Site Validation is a prerequisite to purchase ChargePoint Assure. CPE250-INSTALLVALID is priced per CPE250 station (Not applicable for Express Plus installations).				Replaced by CPE250-INSTALL-COMMISSIONING	Replaced by CPE250-INSTALL-COMMISSIONING	0%
CPE250-INSTALL-COMMISSIONING	This service includes both the Installation and Commissioning of the Express CPE250 charging station. Customers must work with their contractor to perform all construction (the "make ready") up to the point where stations can be bolted down and connected. ChargePoint or its partner will then perform the on-site validation of electrical capacity, transformers, panels, breakers, wiring, cellular coverage so that they meet all ChargePoint and local code requirements, then install and commission the station. Before installation can begin, ChargePoint requires the customer's "make ready" contractor to submit evidence of adherence to ChargePoint?s standards and specifications. In addition to verifying and testing the installation, Commissioning also ensures the station is connected to the ChargePoint network, completing software updates and pairing configuration if applicable. In parallel, the ChargePoint Activations team will configure the station and apply policies according to the customer's specifications. A final Commissioning Report will be provided to the customer. Note that if Commissioning cannot be performed due to site or installation deficiencies for which ChargePoint is not responsible, the customer will incur a rescheduling fee to cover redeployment costs. Priced per Express CPE250 station.				$ 4,600	$ 4,370	5%

CPE280-PAIRED-INSTALL-COMMISSIONING	This service includes both the Installation and Commissioning of the paired Express CPE280 charging stations. Customers must work with their contractor to perform all construction (the ?make ready?) up to the point where stations can be bolted down and connected. ChargePoint will then perform the on-site validation of electrical capacity, transformers, panels, breakers, wiring, cellular coverage so that they meet all ChargePoint and local code requirements, then install and commission the paired stations. Before installation can begin, ChargePoint requires the customer?s ?make ready? contractor to submit evidence of adherence to ChargePoint?s standards and specifications. In addition to verifying and testing the installation, Commissioning also ensures the station is connected to the ChargePoint network, completing software updates and pairing configuration if applicable. In parallel, the ChargePoint Activations team will configure the station and apply policies according to the customer?s specifications. A final Commissioning Report will be provided to the customer. Note that if Commissioning cannot be performed due to site or installation deficiencies for which ChargePoint is not responsible, the customer will incur a rescheduling fee to cover redeployment costs.Priced per Express 280 unit.				$ 4,530	$ 4,077	10%
CPE250-NACS-CABLE-REPLACEMENT-AND-KIT	North American Charging Standard (NACS) cable replacement for CPE250. Includes all parts (cable and holster) and labor to replace an existing CHAdeMO cable with a 4.5m 200A NACS cable.				$ 2,950	$ 2,655	10%

EXPP-PL1000-COMMISSIONING	The Commissioning service includes on-site validation of electrical capacity, transformers, panels, breakers, wiring, cellular coverage and that the station installation meets all ChargePoint published requirements and local codes. In addition to verifying and testing the installation, the Commissioning service includes ensuring the ChargePoint station is connected to the ChargePoint network, to properly establish communications, ensure the software is up to date, and perform pairing configuration, if required. In conjunction with Commissioning, the ChargePoint Activations team will configure the station and apply policies according to the customer's specifications. A final Commissioning Report will be provided to the customer. Note that if Commissioning cannot be performed to customer due to site or installation deficiencies, the customer will incur a rescheduling fee to repeat the service after site deficiencies are corrected.	$ 810	$ 753	7%	$ 790	$ 735	7%
EXPP-PL2000-COMMISSIONING	This service includes on-site validation of electrical capacity, customer-side transformers, panels, breakers, wiring, cellular coverage so that the station meets all ChargePoint and local code requirements. In addition to verifying and testing the installation, Commissioning also ensures the station is connected to the ChargePoint network, completing software updates and pairing configuration if applicable. In parallel, the ChargePoint Activations team will configure the station and apply policies according to the customer's specifications. A final Commissioning Report will be provided to the customer. Note that if Commissioning cannot be performed due to site or installation deficiencies for which ChargePoint is not responsible, the customer will incur a rescheduling fee to cover redeployment costs. Priced per Express Plus Power Link station.				$ 790	$ 735	7%
EXPP-PL1000-INSTALL-COMMISSIONING	This service includes both the Installation and Commissioning of the Express Plus Power Link charging station. Customers must work with their contractor to perform all construction (the "make ready") up to the point where the station can be bolted down and connected. ChargePoint will then perform the on-site validation of electrical capacity, transformers, panels, breakers, wiring, cellular coverage so that they meet all ChargePoint and local code requirements, then install and commission the station. Before installation can begin, ChargePoint requires the customer?s ?make ready? contractor to submit evidence of adherence to ChargePoint?s standards and specifications. In addition to verifying and testing the installation, Commissioning also ensures the station is connected to the ChargePoint network, completing software updates and pairing configuration if applicable. In parallel, ChargePoint Activations team will configure the station and apply policies according to the customer?s specifications. A final Commissioning Report will be provided to the customer. Note that if Commissioning cannot be performed due to site or installation deficiencies for which ChargePoint is not responsible, the customer will incur a rescheduling fee to cover redeployment costs. Priced per ExpressPlus PowerLink.				$ 1,800	$ 1,674	7%
