Description

1863 Ventures is a Washington DC based accelerator and venture capital fund for founders from historically marginalized and underrepresented socio-economic groups. Through corporate and philanthropic partnerships, the organization provides capital investment, course curriculum, and grant funding. 1863's Venture Fund has been developed to remedy the inequities in capital access experienced by historically marginalized and underrepresented socio-economic groups. ABS Capital provides capital and guidance to scale software and tech enabled business to business (B2B) businesses. The firm uses its multi-generational expertise to help businesses develop their financial, legal, and operational strategies. The Accelerate Investor Conference is a conference that is convened to connect the DMV's (DC, Maryland, and Virginia) innovation, start up, and investor ecosystems. The annual conference features a pitch competition, panels, and networking. To compete, companies must demonstrate tech readiness and market fit. Accolade Partners is a venture capital fund and growth equity fund of funds focused on funding software technology and health-care focused companies. Accolade targets emerging seed and series A fund raising. Bethesda Green describes itself as a sustainable urban ecosystem that creates opportunities for environmental civic engagement, education, government partnership, and innovative business development. Black Girl Ventures is a venture capital firm focused on funding tech-enabled, revenue generating businesses founded by people who identify as a black or brown women. The firm's mission is to provide black and brown founders with access to community capital and capacity building. Black Girl Ventures's BGV Pitch Program gives business access to capital through live crowd-funded pitch competitions. Successful Pitches may win up to \$10,000. The firm also offers a training program to create ecosystems for founders. Booz Allen Ventures is the investment branch of Booz Allen Hamilton. The Booz Allen Ventures fund invests in early-stage technology companies seeking to introduce disruptive technologies to the public sector. The fund has a particular interest in supporting technologies that align with the Department of Defense. Camber Creek is a strategic venture capital firm focused on funding real estate tech companies. Its portfolio includes digital energy, workforce intelligence, contracting, and property management technology. Centerpoint Capital is a Washington DC based investment firm that incorporates microtrend and analysis into its investment process. As an angel investment membership group, Citrine Angels has created a platform for early-stage investment opportunities for female-founded companies. The organization sources potential investments for their angel investors and provides investor-focused training and education. Entrepreneurs are connected to the Citrine Angel network through pitch competitions. Citrine Angels also offers mentorship and local government. The start-up program offers participants access to a network of key stakeholders, mentorships, consulting, communications support, and in-kind corporate expertise, products, and platforms. CivStart's services are cost based and startups incur a \$10,000 fee for participation. Start-ups of all stages may apply for the accelerator program, as long as they have proven solutions and teams. Big Idea's Connectpreneur is a global community of 25,000 entrepreneurs, venture capitalists, chief executive officers (CEOs), and chief experience officers (CXOs).
