

Student Member Testimonial

Joseph Tso served as the EQAC Student Representative for the July 2024 - June 2025 term. He prepared the following testimonial regarding his time on EQAC:

Serving as the student representative to EQAC is one of the most educational and unique experiences a high school student can achieve. Through my year-long term, I learned about the diverse array of environmental issues faced by our county, their real-world impacts on my fellow county residents, and how I, as a student, was able to directly contribute to finding a solution for these problems.

The most valuable part of my experience was seeing that my input contributed to discussions that could improve the county's environmental future. Stepping out of my first meeting, I felt personally responsible for our county, rather than just living as a part of it. I believe this sense of ownership is exactly what builds stronger communities and is critical for all students and residents to understand.

To any student considering this opportunity: apply! As a member of EQAC, you'll gain insights, skills, and connections that will benefit you no matter what path you take.
