AE.2c: Urban Reforestation	<div style="width: 35%;"></div>
AE.2d: Living Shorelines	<div style="width: 0%;"></div>
AE.2e: Wetland and Floodplain Restorations	<div style="width: 35%;"></div>
AE.2f: Regenerative Agriculture	<div style="width: 0%;"></div>

The status bars shown here are based on the number of implementation actions complete for each strategy. For example, if there are 5 implementation actions for a strategy, and 1 is complete, the status bar is at 20%. Some actions are much larger than others. **Action status bars are not a measurement of outcomes or results.** For example, completing 50% of implementation actions from the plan for “Green Infrastructure” does not mean that 50% of the county has adequate green infrastructure. A detailed progress report for 2023 will be available in early 2024. Please email ResilientFairfax@fairfaxcounty.gov with any questions.
