Introductory Section

The Introductory Section contains the letter of transmittal, which provides an overview of the County of Fairfax's finances, economic prospects, and achievements. Also, included in this section is the Certificate of Achievement for Excellence in Financial Reporting awarded by the Government Finance Officers Association. It is the highest form of recognition in governmental financial reporting.

County of Fairfax, Virginia

To protect and enrich the quality of life for the people, neighborhoods and diverse communities of Fairfax County

November 16, 2015

Honorable Chairman, Members of the Board, and Residents of the County of Fairfax:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the County of Fairfax, Virginia (the County) for Fiscal Year (FY) 2015 (July 1, 2014 - June 30, 2015) in accordance with the Code of Virginia. The financial statements included in this report conform to generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position and results of operations of the various funds and component units of the County. Extensive disclosures have been included to enable the reader to gain the maximum understanding of the County's financial affairs.

The following subjects are discussed in this letter:

- Economic Condition and Outlook
- Major Initiatives and Accomplishments
- About Fairfax County
- Financial Information
- Independent Audit
- Awards
- Acknowledgements

Important information regarding the financial statements and audit is discussed under the Financial Information heading located on page XX.

ECONOMIC CONDITION AND OUTLOOK

The Local Economy

At the local level, consumers spent more and FY 2015 Sales Tax receipts grew 6.6 percent after falling 0.9 percent in FY 2014. Transient Occupancy Tax increased 9.3 percent after falling in the previous two fiscal years. However, the County's economy is still very much impacted by constrained federal spending. After growing an average of 16.2 percent per year from FY 2007 through FY 2010, FY 2015 Business, Professional, and Occupational License (BPOL) tax receipts increased only 0.4 percent over the FY 2014 level which

Department of Finance

Suite 214
Fairfax, Virginia 22035
703-324-3120, TTY 711
www.fairfaxcounty.gov

had fallen 2.7 percent primarily due to federal sequestration cuts. In FY 2015, the combined Consultant and Business Service Occupations categories, which represent 43 percent of total BPOL receipts, decreased 1.9 percent from the FY 2014 level. The remaining BPOL categories rose a combined 2.2 percent. The Retail category, which represents 20 percent of total BPOL receipts, rose 4.1 percent in FY 2015.

The chart reflects the County unemployment rate of 4.0 percent for June 2015 in relation to both the Commonwealth of Virginia (4.9 percent) and the United States (5.3 percent). The unemployment rate in the County as of August 2015 was 3.4 percent, down from 4.4 percent from the prior August.

During the first eight months of 2015, the number of home sales increased 10.7 percent. However, the average price of homes sold was up only 1.1 percent through August.

Economic Development

Economic development promotes a vibrant, diversified business community, enhancing the commercial tax base. Economic development activities of the County are carried out through the Fairfax County Economic Development Authority (FCEDA), which promotes Fairfax County as a preferred location for business start-up, expansion, relocation, and capital investment. FCEDA commissioners are appointed by the Board of Supervisors. Working with new and existing businesses, FCEDA helps identify facility needs, offers business development support, and assists in resolving County and state related issues. Recent highlights include:

Jobs

In FY 2015, the FCEDA worked with 216 businesses that will add more than 7,900 jobs to Fairfax County's primary economy. Companies such as Agilex, Bechtel, CACI, Carahsoft, Navy Federal Credit Union and TEK systems announced expansions in or relocations to Fairfax County.

Office Space

The total inventory of office space in the County was more than 116.5 million square feet as of June 30, 2015, making Fairfax County the second-largest suburban office market in the nation. It is also the largest office market in the Commonwealth of Virginia. Industrial/flex inventory in the County is estimated at 38.9 million square feet. As of June 30, 2015, the vacancy rates (including vacant sublet space) for the office market and industrial/flex markets were 17.5 percent and 11.7 percent, respectively.

Foreign Companies

The FCEDA maintains marketing offices in seven important global business centers: Bangalore, India; Boston; London; Los Angeles; Munich, Germany; Seoul, South Korea; and Tel Aviv, Israel. In FY 2015, the FCEDA assisted 40 foreign-owned businesses with their decision to locate or expand in Fairfax County. **More than 400 foreign-owned firms from 47 countries have a presence in the County.**

MAJOR INITIATIVES AND ACCOMPLISHMENTS

Development Initiatives

Tysons

The Silverline Metro opened July 2014. Metro reports ridership numbers to date have been strong. Wiehle-Reston East continues to be the Silver Line's commuting powerhouse, **surpassing first-year ridership projections with nearly 9,200 train boardings**, or 18,400 weekday entries and exits in the month of June 2015.

The Silver Line is a new 23-mile Metrorail extension connecting the Tysons, Reston, Herndon, and Dulles Airport areas of Fairfax County to the regional Metrorail system. Phase 1 included these stations:

- ⇒ McLean Station
- ⇒ Tysons Corner Station
- ⇒ Greensboro Station
- ⇒ Spring Hill Station
- ⇒ Wiehle-Reston East Station

Phase 2, which is tentatively scheduled to open in 2018, will extend the Silver Line through Reston, Herndon, and Dulles Airport and into Loudoun County. Phase 2 Silver Line stations in Fairfax County, from east to west are:

- ⇒ Reston Town Center Station
- ⇒ Herndon Station
- ⇒ Innovation Center Station

By 2050, Tysons will be transformed into a walkable, urban center, home to up to 100,000 residents and 200,000 jobs. The County has approved a Comprehensive Plan for the redevelopment of Tysons into a major residential and commercial center.

Tysons is envisioned as Fairfax County's "downtown," a 24-hour urban center where people live, work and play. Three-quarters of future growth will be within a half-mile of the Metro stations. Many offices and homes will be less than a six-minute walk from the stations, allowing people to get around on foot, bicycle, bus or rail.

Inova Translational Medicine Institute and Center for Personalized Health

Northern Virginia's largest hospital system, Inova, announced in February 2015 that it planned to acquire Exxon Mobil's 117-acre campus in Merrifield to create a complex dedicated to genomics and personalized medicine. Inova plans to use the property's four office buildings, in a wooded area just off the Capital Beltway, to house a long-planned cancer center and a new research hub that would combine a medical school with laboratories and Inova's Translational Medicine Institute (ITMI). ITMI is an important economic

development opportunity for the County, bringing personalized medicine to Northern Virginia. It is designed to lead the transformation of healthcare from a reactive to a predictive model using technological innovation, pioneering research and sophisticated information management. The goal is to provide the right treatment for the right patient at the right time, and ultimately prevent disease in the first place. The long term work of ITMI will enable Inova to successfully and quickly translate advances from genomics (the study of genes and their function) and the molecular sciences to patients, optimizing individual health and well-being.

Online Resource: <http://www.fairfaxcountygva.org/ebird/inova-health-system-2>
<http://www.inova.org/inova-center-for-personalized-health>

Arbor Row Athletic Fields

May 2015 marked the opening of Jones Branch Fields and Arbor Row Stream Valley Park – the first of many new recreational facilities that will help redefine Tysons. Since the plan to transform Tysons was adopted in 2010, Fairfax County has approved 15 redevelopment proposals, including Arbor Row, which will collectively add about 29 million square feet to the growing urban center and more than 30 acres of publicly accessible park space. The Arbor Row development includes an eight-acre vacant parcel of land that was improved with two new athletic fields and a restored stream valley. An asphalt trail, pedestrian bridge, and hundreds of plantings were also added.

Providence Community Center

The Providence Community Center opened January 2015. The new **32,000 square-foot community center** is the new location for the Providence District Supervisor’s office and the designated polling place for the local voting precinct. The facility will also host numerous events, activities and programs for individuals of all ages and abilities offering programs which include: adaptive programming for individuals with special needs; fitness, educational and technology classes; afterschool programming; summer camps; senior programming; and family programming.

Merrifield Center

The Fairfax-Falls Church Community Services Board’s (CSB) new Merrifield Center, is now open for business. The new building includes all programs previously offered at the Woodburn Center in Annandale and other locations. This centrally located facility offers community-based services and support to prevent crises and help people with behavioral health challenges integrate successfully into the community.

North Park of Mosaic Revitalization Project

A number of new local streets have been constructed as part of the development of the Mosaic Town Center in the Merrifield Commercial Revitalization Area. The streets form pedestrian-scaled, walkable blocks designed to encourage pedestrian and bicycle activity. The streets were designed to be low speed with high-quality streetscape, wayfinding, and seating areas to enhance the pedestrian environment. A public circulator bus with two stops in the Mosaic District transports residents, office workers and retail patrons to and from the Dunn Loring-Merrifield Metro Station.

Online Resource: <http://www.fcerevit.org/publications/download/MerrifieldAnnualReport.pdf>

Public Safety Headquarters

In August 2014, construction began on a **new Public Safety Headquarters building located along Government Center Parkway**, adjacent to the Herrity Building. This building is to replace the Massey building in the City of Fairfax. The building will be the administrative home to the Police and the Fire and

Rescue departments. A budget of \$176 million has been approved for this project; \$14 million of which is for the demolition of the aging Massey Building, and \$162 million for the construction of the new facility, with occupancy projected for Spring/Summer 2017.

Online Resource: <http://www.fairfaxcounty.gov/dpwes/publicsafetyheadquarters/>

World Police and Fire Games

Seven-plus years in the making, Fairfax County won a very competitive bid process for the honor of hosting the 2015 World Police and Fire Games. For 10 days from late June to early July, over 10,000 athletes from 70 countries participated in more than 60 sporting events with 1,600 medal events. These athletes brought approximately 15,000 friends and family members who stayed at hotels and patronized restaurants and other businesses in the region.

Transportation Improvements

In April 2015, the Northern Virginia Transportation Authority (NVTA) approved \$90.9 million in funding for nine Fairfax County projects. The FY2015-FY2016 program provides funding for key transportation priorities in Fairfax County and throughout Northern Virginia which will improve congestion and travel options on major corridors.

NVTA's Two-Year (FY 2015-2016) Program includes the following projects the County requested:

- Fairfax County Parkway Improvements (Study) - \$10 million
 - Frontier Drive Extension & Braided Ramps - \$2 million
 - Rolling Road Widening from Old Keene Mill Road to Franconia Springfield Pkwy - \$5 million
 - Route 7 Widening over the Dulles Toll Road Bridge - \$13.9 million
 - Route 28 Widening from the Prince William County Line to Route 29 - \$5 million
 - Connector Bus Service Expansion – \$6 million
 - West Ox Bus Garage - \$20 million
 - Innovation Center Metrorail Station - \$28 million
 - Route 1 Richmond Highway from Mt. Vernon Memorial Highway to Napper Road - \$1 million.
- This is in addition to the \$9 million in federal funding approved for the project by the Authority in January 2015.

In addition to the projects requested by the County, funding was approved for several projects requested by other agencies that will benefit the County, including:

- East Elden Street Improvements & Widening Project (Town of Herndon) - \$10.4 million
- Franconia-Springfield Platform Expansion (VRE) - \$13 million
- 8-Car Train Traction Power Upgrades to the Metrorail system (WMATA) - \$8.99 million

In January 2014, the Board of Supervisors approved over \$1.4 billion in new transportation projects as part of Fairfax County's Transportation Priorities Plan (TPP). The plan covers FY 2015 through FY 2020 and includes about 220 projects, including new roads, transit projects, sidewalks, and bike lanes.

These newly funded projects in addition to the Silver Line improvements discussed previously, will reduce congestion and improve mobility for those who live, work, do business or travel in Fairfax County, while facilitating economic development and providing broader transportation options including bus and rail transit.

Online Resources: http://www.fairfaxcounty.gov/fcdot/6yr_priorities.htm
<http://www.fairfaxcounty.gov/fcdot/silverline>;
<http://www.thenovaauthority.org/>

Lorton Road Widening Project

A major element of the Fairfax County Transportation Plan is the improvement and realignment of Lorton Road through the Laurel Hill area, in conjunction with the improvement of Furnace Road west to Route 123. The planned improvements to these existing roads, which link Route 123, I-95, and Richmond Highway, are needed to accommodate both through-travel demand as well as traffic within the Laurel Hill area.

The project is partially funded from \$20 million that was approved by Fairfax County voters as part of the November 2007 Transportation Bond Referendum. Additional project funding is from developer contributions and the commercial and industrial tax. The construction is anticipated to be completed by mid-2016.

Route 29 Widening Project, Phase 3

This project will provide a continuous third travel lane and pedestrian walkway on north bound Lee Highway from Legato Road to Shirley Gate Road. In addition to other improvements to transportation and stormwater elements within the Route 29 corridor. Project completion is scheduled for the fall of 2017.

The Route 1 Widening Project

Route 1 is being expanded from four to six lanes from Old Mill Road to Telegraph Road, through the Fort Belvoir area. **Supported by \$180 million in federal funding**, this project includes sidewalks, trails, and a wide median to accommodate future transit. Construction on this project being managed by the Federal Highway Administration is expected to be completed in the summer of 2016.

The Route 7 Widening Project

Route 7 is being widened from four to six lanes from Rolling Holly Avenue to Reston Avenue in the northwest part of Fairfax County. The project will include 10-foot wide trails on both sides of Route 7. Construction is expected to be complete in December 2015.

Online Resource (for links to these projects and other transportation information):

www.fairfaxcounty.gov/living/transportation

Route 28 Widening Project

In 2015, Fairfax, Loudoun, and Prince William Counties jointly began construction on Route 28 in an effort to relieve traffic congestion. **Funding for this project comes from the state transportation tax through the Northern Virginia Transportation Authority and provides \$200 million** to this regional project over the next several years. In Fairfax County, the road is being widened on the northbound lanes of Route 28 from McLearen Road to the Dulles Toll Road; while the southbound lanes of Route 28 will be widened from the Dulles Toll Road to Route 50. Additional lanes are to be added in both directions from the Prince William County boarder to Route 29.

Online Resource: http://www.virginiadot.org/projects/northernvirginia/rt_28_spot_widening.asp

Technology Initiatives

The Board of Supervisors and County Executive are committed to providing the resources necessary to keep pace with emerging trends in information technology; providing citizens, the business community, and employees' timely and convenient access to information and services through the use of technology; and using current technologies to create new business processes and improve government efficiency.

Digital Government/e-Government

The e-Government (e-Gov) initiative is a program supporting the County's goal of a "government without walls, doors, or clocks." The comprehensive strategy is the foundation for the County's Open Government,

Transparency, Customer Service, and Public Engagement strategies, as well as enabling County agencies' operational effectiveness goals, such as a mobile workforce and Continuity of Operations.

The County had made mobile applications (apps) available in the areas of tax transactions and reporting, land-use information, permits and inspections, social services resources, and customer services in public works. A mobile app was developed for the location of voting precincts. Mobile initiatives have transformed 'office' work to 'anywhere' work, increasing productivity and have made government more accessible to citizens. Information about the county's Mobile Apps can be accessed on the county's website: <http://www.fairfaxcounty.gov/news/mobile/>.

Electronic Plan Submission and Review Project - Land Development Services (LDS)

The Land Use Information Advisory Council appointed by the Board of Supervisors (BOS) issued several guiding principles that included more robust use of technology to facilitate **the electronic submission and review of land use applications**. The Land Development Services division of the Department of Public Works and Environmental Services (DPWES) plans implementation of electronic plan submission and review to enable architects, engineers and construction professionals to submit changes online by marking up or editing drawings 24 hours a day, 7 days a week, from anywhere in the world. The electronic process enables constant communication where clients are able to collaborate with one another for real time editing. Users are also able to track progress and organize plans in an inexpensive manner. The ease of use of electronic plan review makes the transition from paper based to digital plan review extremely valuable.

Online Resource: www.fairfaxcounty.gov/DIT/ITplan

Environmental Stewardship

In Fairfax County, environmental stewardship and prudent management of our natural environment and resources are essential and fundamental responsibilities. Decisions with environmental impacts are guided by the strategic and policy framework described in the Board's Environmental Agenda, titled Environmental Excellence for Fairfax County: A 20-year Vision. The plan addresses six core areas for protecting the environment, including: growth and land use; air quality and transportation; water quality; solid waste; parks, trails, and open space; and environmental stewardship. Implementing this long-term strategic planning requires cooperation and coordination between County residents, government leadership and County agencies.

Promoting Sustainable County Operations

Fairfax County's Sustainability Initiatives document the County's efforts to promote sustainability, environmental stewardship and protecting the environment.

This report consolidates information into a single, go-to resource, a first for Fairfax County. It gives an overview of the County's many environmental sustainability and stewardship projects and programs.

In 2008, the Board of Supervisors adopted the Sustainable Development policy, which requires **County buildings of 10,000 or more square feet to be constructed to meet or exceed minimum green building standards**. The new public safety headquarters building currently under construction is designed to achieve LEED Silver certification. It will be the county's first building constructed to use energy efficient LED lighting throughout. Other design features include green roofs, low-flow plumbing fixtures and permeable pavements.

Online Resource: <http://www.fairfaxcounty.gov/living/environment/sustainability/>

Affordable Housing

The County's affordable housing policy, known as the Housing Blueprint, has **four goals: to end homelessness in ten years; to provide affordable housing options to those with special needs; to meet the affordable housing needs of low-income working families; and, to produce workforce housing.** Current Housing Blueprint initiatives include:

Bridging Affordability Program

The Bridging Affordability program is intended to provide local rental subsidies to individuals and families experiencing homelessness as well as households currently on Fairfax County's affordable housing waiting lists, including those managed by the Fairfax County Redevelopment and Housing Authority (FCRHA), the Fairfax-Falls Church Community Services Board, the Office to Prevent and End Homelessness and the homeless shelters. Through a competitive request for proposal (RFP) process, an award of \$12.8 million has been made to Northern Virginia Family Service (NVFS) to provide long-term rental subsidies to homeless individuals and families and those on the County's waiting lists over a three-year period. As of June 2015, a total of **443 households have been served by the Bridging Affordability program** since its inception.

Affordable Dwelling Unit Program

The Affordable Dwelling Unit (ADU) Ordinance requires developers of certain housing developments to set aside up to 12.5 percent of new units as affordable housing (6.25 percent for multifamily rentals) in return for the grant of additional density. The FCRHA has the right to acquire one-third of the ADUs offered for sale and to lease up to one-third of the rental units. The remaining units are sold or rented to moderate income households. As of September 2015, a total of 2,624 units (1,245 rentals and 1,379 for-sale units) have been produced under the ADU program; the FCRHA has acquired 141 of the for-sale units, which are maintained as permanent affordable rental housing.

Workforce Housing Policy

The County's Workforce Housing Policy is a proffer-based incentive system designed to encourage the voluntary development of new housing, affordable to a range of moderate-income workers in Fairfax County's high-rise/high density areas. The Comprehensive Plan provides for a density bonus of up to one unit for every workforce unit provided by a developer, with the expectation that at least 12 percent of units in new developments be affordable or workforce housing. **As of September 2015, a total of 5,134 Workforce Dwelling Units (WDU)** have been committed by private developers in rezoning actions approved by the Board of Supervisors, and 447 WDUs have been constructed.

Residences at the Government Center

The Residences at the Government Center is a workforce housing development created by a unique public-private partnership between the County of Fairfax, FCRHA, Jefferson Apartment Group, and Stratford Capital Group. The project is the first of its kind in the state to employ a financing structure that will use a creative hybrid mixture of tax credit allocations from the Virginia Housing Development Authority, as well as tax-exempt bonds from the FCRHA and other financing sources, to create a socially responsible and economically viable housing option for the low and moderate workforce in Fairfax County. The project will provide 270 apartments to be leased to households earning 50 to 60 percent of the area median income. Construction began in April 2015, with completion anticipated December 2016.

The Residences at the Government Center has been awarded joint recognition by the Washington Smart Growth Alliance and the ULI Terwilliger Center for its innovative approach to providing affordable housing. The project was commended for its unique public-private partnership that creates a private development

consisting entirely of affordable workforce housing units. The location of the apartments is within walking distance to jobs and everyday shopping opportunities, satisfying one of the most critical tenants of smart growth.

Quality Communities

Fairfax County prides itself on its cultural assets, as well as parks and diverse recreational opportunities, including:

Destinations

In addition to Fairfax County's rich history associated with the beginning of the United States including sites such as Mount Vernon and Gunston Hall, the homes of founding fathers, George Washington and George Mason, respectively, the County and region also contain many important Civil War sites. For those seeking more recent developments, the Smithsonian's National Air and Space Museum's Steven F. Udvar-Hazy Center located near Dulles International Airport is a highlight for both visitors to Fairfax County as well as residents. A wide range of performing arts and entertainment is available through the Wolf Trap Farm Park for the Performing Arts, the only national park dedicated to the performing arts. Additionally, Fairfax County has collaborated with the Lorton Arts Foundation for the Workhouse Arts Center, a creative re-use of what was previously a medium-security prison.

Parks

The Fairfax County Park Authority manages **23,346 acres of park land, including 268 athletic fields and 35 synthetic turf fields, 210 playgrounds, 324 miles of trails, 9 recreation centers, 9 golf courses (two at Twin Lakes)**, several lakes and historic sites, thus offering diverse recreational options. The Park Authority is in the process of updating its needs assessment which was last completed in 2004. Information is being gathered through surveys and public outreach. The final report is anticipated to be delivered by winter of 2015 and will set the stage for future capital improvement programs and prioritize projects for the upcoming 2016 bond sale.

Library

Approximately **12 million items** were borrowed from the Library's collection of nearly 3 million books, CDs, DVDs, magazines, and other items. There were 4.8 million visits to the branches and 4.7 million visits to the Library's website. In addition, the Library has computers for access to the Internet, the catalog, e-books, downloadable audio books and databases. The Library sponsors various programs: national and local author readings and book signings, music concerts, and a wide variety of other events for the County's diverse population.

Shopping

With more than 200 shopping centers and over 7,000 restaurants, Fairfax County offers one of the best shopping and dining experiences on the East Coast. Tysons, the "downtown" of Fairfax County, is home to several malls that feature such retailers as Macy's, Neiman Marcus, Nordstrom, Saks Fifth Avenue, Tiffany and Company and Bloomingdale's. The Reston Town Center offers more than fifty retail shops and thirty restaurants in the County's first and largest mixed-use development. Fairfax Corner, the Mosaic District, and Springfield Towncenter are other mixed-use developments, offering main street style shopping at both national chains and local boutiques.

Farmers Markets

With 11 farmers markets operated by the Fairfax County Park Authority, residents have even more sources of **freshly picked fruits, vegetables and flowers, as well as meats, eggs and cheese locally produced** within 125 miles of the County. Operating from early May through October, November or mid-December, depending on the market, volunteer Market Masters staff each location to keep overhead costs low. Four of the markets that offer SNAP (Supplemental Nutrition Assistance Program) benefits also offer regular cooking and nutrition demonstrations and in April 2015, the program received a grant from the U.S. Department of Agriculture to increase access to fresh fruits and vegetables for food-insecure shoppers, while also benefitting small and mid-sized farmers.

ABOUT FAIRFAX COUNTY

GOVERNMENTAL STRUCTURE

Fairfax County is located in the northeastern corner of Virginia and encompasses an area of 407 square miles, including land and water. The County is part of the Washington, D.C. metropolitan area, which includes jurisdictions in Maryland, Northern Virginia and the District of Columbia.

The County government is organized under the Urban County Executive form of government (as defined under Virginia law). The governing body of the County is the Board of Supervisors, which sets policy for the administration of the County. The Board of Supervisors consists of 10 members: a chairman, elected at-large for a four-year term and one member from each of nine districts, elected for a four-year term by the voters of the district in which each member resides. The Board of Supervisors appoints a County Executive to act as the administrative head of the County. The County Executive serves at the pleasure of the Board of Supervisors, carries out the policies established by the Board of Supervisors, directs business and administrative procedures, and recommends officers and personnel to be appointed by the Board of Supervisors.

Cities and counties in Virginia are discrete units of government that under Virginia law may not be overlapping districts. Fairfax County surrounds the City of Fairfax and is adjacent to the City of Falls Church and the City of Alexandria. Properties within these cities are not subject to taxation by Fairfax County, and the County generally is not required to provide governmental services to their residents. The County does, however, provide certain services to these cities' residents pursuant to intermunicipal agreements.

The incorporated towns of Clifton, Herndon and Vienna are underlying units of government within the County. The ordinances and regulations of the County, with certain limitations prescribed by state law, are in effect. Properties in these towns are subject to County taxation, and the County provides certain services to their residents. These towns may incur general obligation bonded indebtedness without the approval of the County.

Employment

More than 34,000 payroll businesses, including corporate and regional headquarters, information technology firms, sales and marketing offices, and business services are located in the County. Local businesses create employment in such diverse areas as computer software development and systems integration, telecommunications, Internet-related services, wholesale and retail trade, defense and homeland security, and financial services. **A high proportion of jobs in the County are in the high-wage, highly skilled information technology and professional services sectors.** Recent achievements and highlights include:

Fairfax County companies annually appear on a number of prestigious regional and national "best of business" lists in an array of categories that reflect the diversity and strength of Fairfax County's vibrant

business community. One-hundred thirty Fairfax County firms, most of them in technology and professional services fields are on the 2015 **Inc. 5000** list. Produced by Inc. magazine, this list highlights the **fastest-growing companies in the nation**.

Fairfax County is home to eight companies on the 2015 Fortune 500 list: Freddie Mac, General Dynamics, Northrop Grumman, Capital One, CSC, Hilton Worldwide, Booz Allen, and Gannett.

Other interesting notes about Fairfax County's Fortune 500 companies:

- Fairfax County **has more Fortune 500 headquarters than 30 states** and Washington D.C.
- Fairfax County is home to more than half of the 15 Fortune 500 companies in the Washington, D.C., region.
- Eight of the 19 Fortune 500 companies in Virginia have headquarters in Fairfax County, including **four of the five largest Virginia companies**.

Demographic Information

Based on the latest U.S. Census Bureau data for 2015, the County's **estimated population was 1,137,538**.

In 1980, Fairfax County was the third most populous jurisdiction in the Washington, D.C. metropolitan area, as defined by the U.S. Census Bureau, with a population of 596,900. **Since 1990, Fairfax County has been the most populous jurisdiction in the metropolitan area.**

The population of Fairfax is anticipated to grow to 1.2 million by the year 2025.

As reported in the American Community Survey, Fairfax County had an **estimated annual median household income of \$110,674** in 2014, compared with \$64,902 in the Commonwealth of Virginia and \$53,657 in the United States.

In 2015, approximately **39.1 percent of the population was 45 years of age or older**, while about 26.1 percent of the population was under 20 years old. More than 36.4 percent of the County's population consisted of ethnic minorities, and more than 36 percent of all County residents five years or older speak a language other than English at home.

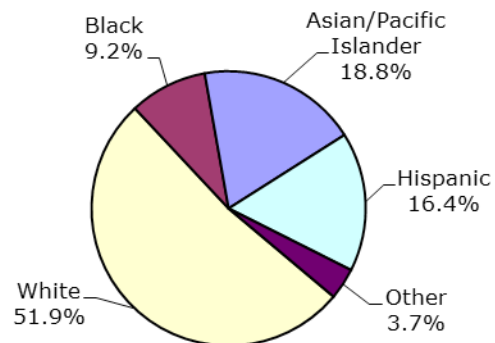

Public Schools

Fairfax County Public Schools (FCPS), with a **student population of 188,545**, is the largest educational system in the Commonwealth of Virginia. The operating costs of FCPS are funded primarily by payments from the County's general fund to FCPS; additional funds are provided by the federal government and the Commonwealth of

Population Age Distribution

Racial/Ethnic Composition

Source: U.S. Census Bureau, 2014 American Community Survey

Virginia. Capital funding for public school facilities is provided primarily by the sale of general obligation bonds by the County.

A fleet of **1,610 school buses** is maintained by Fairfax County's Department of Vehicle Services to transport Fairfax County Public Schools students. This ranks second in the country (behind New York City) in the number of students transported by school bus, with a fleet larger than Greyhound's entire fleet.

In the 2015 U.S. News and World Report ranking of America's Best High Schools, Thomas Jefferson High School for Science and Technology is ranked as the number three gold medal school in the nation and was ranked number two for the best school for science, technology engineering and mathematics. In total, FCPS received a total of eleven gold medals, two silver medals, and one bronze medal.

Colleges and Universities

Higher education plays a critical role in developing a highly skilled and competitive workforce. The County is home to campuses of five major universities; more than 40 colleges and universities offer graduate and undergraduate programs throughout the area.

Among the larger institutions are George Mason University (GMU), one of the top 150 national universities in the United States, according to the 2015 ranking released by U.S. News & World Report, and Northern Virginia Community College (NVCC). **Combined, GMU and NVCC serve approximately 90,000 students and offer 223 programs of study across 6 campuses.** Additionally, the County is home to satellite campuses for the University of Virginia, Virginia Tech and the Commonwealth Graduate Engineering Program.

Online Resource: www.fairfaxcounty.gov/government/about

FINANCIAL INFORMATION

All the financial activities of the reporting entity are included within this report. As used here, the reporting entity comprises the primary government (County of Fairfax, as legally defined) and its component units. Under GASB pronouncements, component units are legally separate entities for which the primary government is financially accountable. The component units of the County include both blended component units and discretely presented component units. Blended component units, although legally separate entities, are in substance part of the primary government's operations and are included as part of the primary government. Accordingly, the Solid Waste Authority of Fairfax County, the Small District One, the Small District Five and the Mosaic Community Development Authority are reported as part of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, changes in financial position, and cash flows from those of the primary government. The Fairfax County Public Schools, the Fairfax County Redevelopment and Housing Authority, the Fairfax County Park Authority, and the Fairfax County Economic Development Authority are reported as discretely presented component units. For additional information regarding the basic financial statements and the County's financial position, please refer to Management's Discussion and Analysis.

INDEPENDENT AUDIT

The County's financial statements have been audited as required by the Code of Virginia and received an unmodified opinion by the accounting firm of KPMG LLP. In addition to meeting the requirements of the state statutes, the audit was designed to meet the requirements of in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. The report of the independent auditors on the basic financial statements can be found in the financial section of this annual report. The Single Audit

Report, issued separately, contains the independent auditor's reports related specifically to the single audit.

Ten Principles of Sound Financial Management

The keystone of the County's maintenance of fiscal integrity and sound financial management is the continuing commitment of the Board of Supervisors. This commitment is evidenced by the Board's rigorous adherence to County-developed policies, collectively known as the Ten Principles of Sound Financial Management. These principles, the policy context in which financial decisions are considered and taken, relate primarily to the integration of capital planning, debt planning, cash management, and productivity as a means of ensuring prudent and responsible allocation of the County's resources. In April 2015, the principles were reviewed by the Board and have been revised to place additional emphasis on building and maintaining reserves to increase flexibility to deal with both expected and unanticipated events.

The County maintains a self-managed investment program under the direction and oversight of an Investment Committee. The committee is composed of the Chief Financial Officer, the Director of the Department of Finance, the Director of the Department of Tax Administration, and certain employees within the Department of Finance. Guided by a formal investment policy, the committee monitors daily investment activity and evaluates investment strategies monthly. The County's investment policies are thoroughly reviewed on a quarterly basis by the Investment Committee and subjected to annual peer review by the Association of Public Treasurers of the United States and Canada.

Budgetary and Accounting Controls

The Code of Virginia requires that the County adopt a balanced budget. The County maintains extensive budgetary controls at certain legal, managerial and administrative levels. The adopted Fiscal Planning Resolution places legal restrictions on expenditures at the agency or fund level. Managerial budgetary control is maintained and controlled at the fund, department, superior commitment item grouping or project level. Any revisions that alter the total expenditures of any agency or fund must be approved by the Board of Supervisors.

The County's budget is adopted by May 1 for the coming fiscal year, which commences on July 1. Two budget reviews during the year, the Carryover Review and the Third Quarter Review, serve as the primary mechanisms for revising appropriations. A synopsis of proposed changes is advertised and a public hearing is held prior to the adoption of amendments to the current year budget when adjustments exceed one percent of total expenditures.

Since 1999, the County has maintained a Revenue Stabilization Fund, included in the General Fund for reporting purposes, to provide a mechanism for maintaining a balanced budget without resorting to tax increases and expenditure reductions that aggravate the stresses imposed by the cyclical nature of the economy. The Board established the fund with the condition that it will not be used as a method of addressing the demand for new or expanded services, but will be used as a financial tool only in the event of an economic downturn, and then within strict parameters. The Revenue Stabilization Fund has a targeted balance of five percent of General Fund disbursements and is separate and distinct from the County's four percent Managed Reserve, which was established initially in fiscal year 1983. The aggregate of both reserves will not exceed five percent. As of June 30, 2015, the Revenue Stabilization Fund and Managed Reserve balances were \$121,140,662 and \$76,702,689 respectively. A new economic opportunity reserve was created, totaling 1 percent of General Fund Disbursements. This fund will act as a revolving reserve to address opportunities that are identified as priorities of the Board.

The County's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the U.S. The internal control structure is designed to provide

reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived. The evaluation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the County also is responsible for maintaining an adequate internal control structure to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management, and the Internal Audit Office staff.

Debt Administration

Fairfax County borrows money by issuing general obligation bonds to finance major capital projects. Bond financing spreads the cost of land acquisition and building construction over a period of many years, rather than charging the full cost to current taxpayers. By law, general obligation bonds must be approved in advance by County voters in a referendum. The County continues to maintain its status as a top-rated issuer of tax-exempt securities. The County has the highest credit ratings possible for a local government for its general obligation bonds: Aaa from Moody's Investors Service, Inc., AAA from Standard and Poor's Corporation, and AAA from Fitch Investor Service. The County has had an Aaa rating since October 1975, when it first received a rating from Moody's. Standard and Poor's Corporation first gave Fairfax County an AAA rating in October 1978, and Fairfax County has maintained that rating. The Fitch Investor Service rating was first received in the spring of 1997 and has been maintained since then.

Factors contributing to Fairfax County's high credit rating include recognized excellence in financial management, superior tax collection rates, low debt ratios, and high income levels. As of May 2015, only 10 of 50 states, 40 of 3,143 counties, and 30 of 19,429 cities in the U.S. had such high bond ratings from all three rating agencies. These high credit ratings enable Fairfax County to sell bonds at interest rates significantly lower than those of most municipalities, resulting in substantial savings for County taxpayers throughout the life of the bonds.

The details of bonds outstanding and bonds authorized-but-not-issued are shown in Note K to the financial statements. Tables 3.1 through 3.5 of the Statistical Section provide detailed historical information regarding the debt position and debt service requirements of the County.

AWARDS

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its Comprehensive Annual Financial Report (CAFR) for FY 2014. To be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. The County has received a Certificate of Achievement since 1977. Management believes that the current CAFR meets the Certificate of Achievement Program's requirements, and it will be submitted to the GFOA to determine its eligibility for another certificate.

Distinguished Budget Presentation Award

The GFOA has presented the Award for Distinguished Budget Presentation to Fairfax County for its annual budget for each year since FY 1985. To receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, operations guide, financial plan, and communications device.

International City/County Management Association (ICMA) Award for Performance Measurement

Since 2002, Fairfax County has received ICMA's highest award for performance management. In 2015, the County was one of only 33 jurisdictions nationwide to earn this level of recognition for measuring performance and using that data to improve programs and services.

Investment Policy Award

The Association of Public Treasurers of the United States and Canada has awarded the County certification for its investment policy, confirming that the County meets the high public investment standards set forth by the Association. This award has been received since 1999.

National Association of Clean Water Agencies Award

In fiscal year 2015, the County's Noman M. Cole, Jr. Pollution Control Plant received the Platinum Peak Performance Award from the National Association of Clean Water Agencies. The award recognizes plants that met 100 percent of federal standards for preventing pollution. The Noman M. Cole Jr. Plant has met this standard for more than 17 consecutive years. The plant's achievement helps protect the water quality of the County's streams and watersheds, and the Chesapeake Bay.

National Association of Counties (NACo) 2015 Achievement Awards:

The NACo Achievement Awards are national recognition of significant innovative programs and activities that improve the organization, management or service of county governments. NACo recognized three County programs and projects with 2015 Achievement Awards.

- **Stream Crime Investigation (SCI)**
SCI is a high school laboratory activity that blends presentations with lab exercises. The program opens with an introductory presentation on stormwater, watersheds and the need for water quality monitoring. The lab exercise replicates aspects of stormwater science, creating the opportunity for high school students to learn how stormwater ecologists identify and track the sources of pollutants in a storm drainage network.
- **Healthy Strides Community**
The Fairfax County Park Authority's Healthy Strides Community 5k/10k race and Healthy Strides Expo are signature events for the larger 12 Steps for Health which encourages manageable lifestyle changes to produce measurable health benefits, encouraging one healthy goal per month.
- **In-Car Police Video-Department of Information Technology**
The Police Department in Fairfax County, Virginia is implementing an in-car video solution for 625 patrol cars with automatic download and archiving of incident videos, improving access to evidence for the apprehension and conviction of offenders. This technology captures a 360 degree view, which will help mitigate risks increasing the safety and security of community members and officers.

Digital Counties Survey

The County was ranked first in the Center for Digital Government's 2015 Digital Counties Survey, as a technological innovator, in the category of jurisdictions with populations greater than 500,000. Fairfax County has been selected to the top ten for the past 13 years, placing first four times and among the top five for nine years.

ACKNOWLEDGMENTS

We express our sincere appreciation to all staff who contributed to this report, especially the members of the CAFR Project Team in the Financial Reporting and Financial Operations Divisions of the Department of Finance, who prepared and compiled this report. We commend them for their professionalism, hard work, and continued efforts to improve this report. In addition, we acknowledge the cooperation and assistance of each County department throughout the year in the efficient administration of the County's financial operations.

This CAFR reflects our commitment to the residents and businesses of Fairfax County, the Board of Supervisors, and all interested readers of this report to provide information in conformance with the highest standards of financial reporting.

Respectfully,

Edward L. Long Jr.

AWARD**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its CAFR for the fiscal year ended June 30, 2014. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. The County has received a Certificate of Achievement for every year since 1977.

Washington, DC 20006

Independent Auditors' Report

The Board of Supervisors
County of Fairfax, Virginia:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Fairfax, Virginia (the County), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Fairfax County Redevelopment and Housing Authority (FCRHA), a discretely presented component unit of the County which represents 7% and 13%, respectively, of total assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion on the County's aggregate discretely presented component financial statements, insofar as it relates to the amounts included for FCRHA, is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and *the Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia (Specifications). Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Fairfax County Board of Supervisors

November 16, 2015

Page 2 of 3

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion based on our audit and the report of another auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2015, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discussed in Note N to the financial statements, in fiscal year 2015, the County implemented the Governmental Accounting Standards Board Statement No. 68 *Accounting and Financial Reporting for Pensions –an amendment of GASB Statement No.27*, and GASB Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 5 through 20 and the required supplementary information and the notes to the other required supplementary information on pages 115 through 128 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, other supplementary information and the statistical section, as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information on pages 129 through 244 is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the

Fairfax County Board of Supervisors

November 16, 2015

Page 3 of 3

basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section on pages IX through XXIV and the statistical section on pages 245 through 280 have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2015 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

KPMG LLP

Management's Discussion and Analysis

The Management's Discussion and Analysis subsection provides a narrative introduction to and overview and analysis of the basic financial statements. It includes a description of the government-wide and fund financial statements, as well as an analysis of the County of Fairfax's overall financial position and results of operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS (*UNAUDITED*)

This section of the County of Fairfax, Virginia's (the County) Comprehensive Annual Financial Report (CAFR) presents our discussion and analysis of the County's financial performance during the fiscal year that ended on June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Letter of Transmittal, located in the Introductory Section of the CAFR.

FINANCIAL HIGHLIGHTS

Highlights for Government-wide Financial Statements

The government-wide financial statements report information about the County as a whole using the economic resources measurement focus and accrual basis of accounting, net of special items.

- The County's assets and deferred outflow of resources exceeded liabilities and deferred inflow of resources by \$417.0 million on a government-wide basis at June 30, 2015.
- For the fiscal year, taxes and other revenues of the County's governmental activities amounted to \$4,379.5 million. Expenses amounted to \$4,174.6 million.
- For the fiscal year, revenues of the County's business-type activities were \$213.2 million, and expenses were \$174.9 million.

Highlights for Fund Financial Statements

The fund financial statements provide detailed information about the County's most significant funds using the current financial resources measurement focus and modified accrual basis of accounting.

- The County's governmental funds reported an increase in fund balance of \$60.3 million for fiscal year 2015, compared to an increase of \$188.7 million for fiscal year 2014.
- The County's General Fund reported a fund balance of \$325.9 million, an increase of \$23.1 million, or 7.6 percent, from June 30, 2014.

General Financial Highlights

- In November 2014, the County issued \$202.2 million of Series 2014B General Obligation Public Improvement Refunding Bonds to advance refund multiple outstanding series in order to save \$17.3 million in future debt service payments, with a \$15.5 million net present value.
- In February 2015, the County entered into a direct loan agreement with Bank of America, N.A. in a principal amount of \$18.3 million, which together with other County funds refinanced the Fairfax County Redevelopment and Housing Authority 2013A Bond Anticipation Notes.
- In March 2015, the County issued \$227.3 million of Series 2015A of General Obligation Public Improvement Bonds to finance school, park, road, and other general County improvements. The County also issued \$57.1 million of Series 2015B General Obligation Refunding bonds to advance refund multiple outstanding Series bonds in order to save \$4.4 million in future debt service payments, with a \$3.4 million net present value.

- In March 2015, the County received an additional \$10 million from TD Bank, N.A., pursuant to loan agreement with TD Bank, N.A.. dated December 2013, to finance additional County building improvements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of this annual report consists of four parts: (1) management's discussion and analysis (presented here), (2) basic financial statements, (3) required supplementary information, and (4) other supplementary information.

The County's basic financial statements consist of two kinds of statements, each with a different view of the County's finances. The government-wide financial statements provide both long- and short-term information about the County's overall financial status. The fund financial

statements focus on major aspects of the County's operations, reporting those operations in more detail than the government-wide statements. The basic financial statements also include notes to explain information in the financial statements and provide more detailed data.

Components of the Financial Section

The statements and notes are followed by required supplementary information that contains the budgetary comparison schedule for the General Fund and trend data pertaining to the retirement systems. In addition to these required elements, the County includes other supplementary information with combining and individual fund statements to provide details about the governmental, internal service, fiduciary funds, and component units.

Government-wide Financial Statements

The government-wide financial statements report information about the County as a whole using accounting methods similar to those used by private-sector businesses. In addition, they report the County's net position and how they have changed during the fiscal year.

The first government-wide statement—the statement of net position—presents information on all of the County's assets and deferred outflow of resources less liabilities and deferred inflow of resources, resulting in the net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial health of the County is improving or deteriorating. Additionally, non-financial factors, such as a change in the County's property tax base or the condition of County facilities, should be considered to assess the overall health of the County.

The second statement—the statement of activities—presents information showing how the County's net position changed during the fiscal year. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The government-wide financial statements are divided into three categories:

Governmental Activities – Most of the County's basic services are reported here, including: public safety, public works, judicial administration, health and welfare services, community development, parks, recreation, and cultural programs, education, and general administration. These activities are financed primarily by property taxes, other local taxes, and federal and state grants. Included in the governmental activities are the governmental funds and internal service funds.

Business-type Activities – The County's only business-type activity, the Integrated Sewer System (Sewer System), is reported here.

Discretely Presented Component Units – The County includes four other entities in its annual financial report: Fairfax County Public Schools (Public Schools), Fairfax County Redevelopment and Housing Authority (FCRHA), Fairfax County Park Authority (Park Authority), and Fairfax County Economic Development Authority (EDA). Although legally separate, these component units are included because the County is financially accountable for them.

The County's governmental and business-type activities are collectively referred to as the primary government. Together, the primary government and its discretely presented component units are referred to as the reporting entity.

Fund Financial Statements

The fund financial statements provide detailed information about the County's most significant funds. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The County has the following three types of funds:

Governmental Funds – Most of the County's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances remaining at year-end that are available for spending. The governmental funds financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the governmental activities in the government-wide financial statements, additional information is provided to explain the relationship (or differences). The General Fund accounts for the main operating activities of the County; it is the largest of the governmental funds. All other governmental funds, that is, special revenue funds, debt service funds, and capital projects funds, are collectively referred to as nonmajor governmental funds.

Proprietary Funds – Proprietary funds, which consist of enterprise funds and internal service funds, are used to account for operations that are financed and operated in a manner similar to private business enterprises in which costs are recovered primarily through user charges. Proprietary fund financial statements, like the government-wide financial statements, provide both long- and short-term financial information. The County's only enterprise fund, the Sewer System, is reported as the County's business-type activity in the government-wide statements. The fund financial statements provide additional information, such as cash flows, for the Sewer System. The internal service funds are used to account for the provision of general liability, malpractice, and workers' compensation insurance, health benefits for employees and retirees, vehicle services, document services, and technology infrastructure support to County departments on a cost reimbursement basis.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's programs. The County's fiduciary funds consist of pension trust funds, an OPEB trust fund and agency funds. The pension trust funds are used to account for the assets held in trust by the County for the employees and beneficiaries of its defined benefit pension plans—the Employees' Retirement System, the Police Officers Retirement System, and the Uniformed Retirement System. The OPEB trust fund is used to account for the assets held in trust by the County for other post employment benefits. The agency funds are used to account for monies received, held, and disbursed on behalf of developers, welfare recipients, the Commonwealth of Virginia, the recipients of certain bond proceeds, and certain other local governments.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Statement of Net Position

The table below and on the following page present a Summary of Net Position for the reporting entity as of June 30, 2015 and 2014:

Summary of Net Position As of June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government

Net position	\$ 417.0	173.7	\$ 12.0	(98.9)	\$ -	-	\$ 429.0	74.8

*Fiscal Year 2014 amounts restated due to the implementation of GASB statement 68 and 71. See Note N for more information.

**Reclassification represents County issued debt for Schools and Parks facilities. See Note A - 12 for more information.

The Commonwealth of Virginia requires that counties, as well as their financially dependent component units, be financed under a single taxing structure. This results in counties issuing general obligation debt to finance capital assets, such as public schools, for their component units. The component units are then responsible to account for and maintain the assets purchased or constructed with the debt proceeds. The Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, requires that the primary government and its component units, which make up the total financial reporting entity, be accounted for separately on the face of the basic financial statements. The result is that debt financed assets are presented on the books for the component units while the associated debt resides on the books of the primary government. The reclassification column represents the matching of the primary government's outstanding debt to the component units' related capital assets from a financial reporting entity perspective. Consequently, the net position of the total financial reporting entity best represent the financial position.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the reporting entity, assets and deferred outflow of resources exceeded liabilities and deferred inflow of resources by \$429.0 million at the end of fiscal year 2015, representing an increase of \$354.2 million from the net position at June 30, 2014, as shown on the following page.

Composition of Net Position of the Reporting Entity
As of June 30
(\$ in millions)

As shown below, the largest portion of net position is the net investment in capital assets (e.g., land, buildings, infrastructure, and equipment, net of depreciation and amortization), less the outstanding debt that was used to acquire those assets. The restricted net position portion represents resources that are subject to external restrictions on how they may be used. Net position of the reporting entity are restricted for various uses, some of which include grant programs (\$63.0 million), community centers (\$16.1 million), and sewer improvements (\$51.5 million). The balance of net position that are neither related to capital assets nor restricted for specific uses is represented as unrestricted net position.

Composition of Net Position of the Reporting Entity
As of June 30

Statement of Activities

The following table summarizes the changes in Net Position for the primary government for the fiscal years ended June 30, 2015 and 2014:

Summary of Changes in Net Position For the Fiscal Years Ended June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2015	2014	2015	2014	2015	2014

GASB 68 Adjustment for FY14 restatement**	-	(1,157.5)	-	(25.1)	-	(1,182.6)
Ending net position	\$ (608.1)	(813.0)	\$ 1,025.1	986.8	\$ 417.0	173.8

* For business-type activities, interest on long-term debt is included in the functional expense category.

**Fiscal Year 2014 amounts restated due to the implementation of GASB statement 68 and 71. See Note N for more information.

Governmental Activities

Revenue for the County's governmental activities were \$4,379.5 million for fiscal year 2015, representing an increase of \$177.9 million over fiscal year 2014. Sources of revenue for fiscal years 2015 and 2014 are shown below:

Governmental Activities - Revenues by Source
For the Fiscal Years Ended June 30, 2015 and 2014

Taxes constitute the largest source of County revenues, amounting to \$3,285.4 million for fiscal year 2015, an increase of \$161.0 million over fiscal year 2014, primarily due to real property taxes. Real property taxes (\$2,356.4 million) represent 71.7 percent of total taxes and over half of all revenues combined. Unrestricted

Governmental Activities - Expenses by Function
For the Fiscal Years Ended June 30, 2015 and 2014

grants and contributions include \$211.4 million in revenue from the Commonwealth of Virginia to reimburse Fairfax County as part of the Personal Property Tax Relief Act (see Note C to the financial statements).

The total cost of all of the County's governmental activities for fiscal year 2015 was \$4,174.6 million, representing an increase of \$23.1 million over fiscal year 2014. As the chart below indicates, education continues to be the County's largest program. Education expense totaled about \$1.94 billion in fiscal year 2015, supporting school operations and to service debt for bond-funded projects to build new schools and renew older facilities. Public Safety expenses represent the second largest expense category, totaling \$670.5 million in fiscal year 2015, down \$25.2 million compared to fiscal year 2014. This decrease was more than offset by other programs in the County's Governmental Activities as shown in the table below. Public Works expenditures rose by \$9.1 million year over year, primarily attributable to the Merrifield Human Services Center operating costs, and costs for new and expanded facilities such as the Reston Police Station Renovation/Expansion and Fire and Rescue Training Academy - Main Academy Building Phase II.

Additionally, expenses which are accounted for on full accrual basis were impacted due to the implementation of GASB 68 causing liability expense to decrease.

The table to the right shows the total cost of each of the County's six

largest programs—education, public safety, health and welfare, community development, public works, and general government administration—and the net cost of each program (total cost less fees generated by the programs and program-specific intergovernmental aid).

Net Cost of County's Governmental Activities For the Fiscal Years Ended June 30 (\$ in millions)				
Functions/Programs	Total Cost of Services		Net Cost of Services	
	2015	2014	2015	2014
Education	\$ 1,936.7	1,883.0	\$ 1,936.6	1,883.0
Public safety	670.5	695.7	535.6	579.6
Health and welfare	557.3	551.5	339.6	360.7
Community development	353.0	352.8	63.1	51.7
Public works	204.1	195.0	47.7	47.5
General government administration	183.6	201.2	149.9	168.7
Other	269.4	272.3	230.4	222.6
Total	\$ 4,174.6	4,151.5	\$ 3,302.9	3,313.8

\$594.1 million of the cost of governmental activities was paid by those who directly benefited from the programs. Other governments and organizations subsidized certain programs with grants and contributions totaling \$277.7 million. Of the \$3,302.9 million net cost of services, the amount that taxpayers paid for these programs through County taxes was \$3,127.2 million.

Business-type Activities

The Sewer System recovers its costs primarily through user service charges and availability fees. For fiscal year 2015, the Sewer System reported an increase in net position of \$38.3 million. Total revenues of the Sewer System decreased \$3.4 million over fiscal year 2014. This decrease was primarily the result of a decrease in the sewer service base availability charges. Lack of rain and the accompanying lack of water flow caused the decrease in need from the jurisdictions served by the Sewer System.

Total expenses of the Sewer System for fiscal year 2015 were \$174.9 million, decreasing by \$0.1 million over fiscal year 2014. This decrease resulted primarily from decreases in interest expense.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's

financing requirements. Fund balance classifications are reported by purpose within these classifications; nonspendable, restricted, committed, assigned, and unassigned as defined by GASB 54.

As of June 30, 2015, the County's governmental funds had a combined fund balance of \$1,294.1 million, compared with \$1,233.8 million at June 30, 2014. Of the fiscal year 2015 fund balance, \$33.3 million is assigned in the General Fund, indicating that it is not available for new spending because it has already been committed for items such as existing purchase orders, construction contracts and loan repayments. Approximately 16.6 percent (\$54.1 million) of the total 2015 General fund balance is unassigned, representing resources not associated with a specified purpose. Of the total nonmajor fund balance, 74.7 percent (\$967.8 million) has been restricted or committed in the special revenue, capital projects, and debt service funds to meet the program needs. Nonspendable prepaid expenditures are 0.1 percent (\$1.3 million) of the total fund balance. At June 30, 2015, \$197.8 million of the General Fund's committed fund balance of \$237.7 million is designated for the managed reserve and revenue stabilization fund based on Fiscal Year 2015 actuals.

For the fiscal year ended June 30, 2015, fund balances for all governmental funds increased by \$60.3 million, compared with the \$188.7 million increase for fiscal year ended June 30, 2014. Total revenues, other financing sources were \$5,560.0 million, total expenditures and other financing uses were \$5,499.7 million, resulting in the increase to the fund balances.

The General Fund is the main operating fund of the County. At the end of the current fiscal year, the unassigned fund balance was \$54.1 million, which represents approximately 1.7 percent of the General Fund's total expenditures. Revenues of \$3,740.3 million, less expenditures of \$3,214.0 million and other financing uses of \$503.2 million, resulted in a net increase in fund balance of \$23.1 million. This increase was based on FY 2015 spending requirements and a small variance between projected and actual revenues primarily attributed to progress made in increasing reserves funding as a result of the initial implementation of the County's updated reserve policy approved by the Board of Supervisors on April 21, 2015, as well as based on spending requirements for information technology. It should be noted that some utilization of fund balance is generally expected each year as the County uses savings from prior years held in fund balance to offset disbursement requirements.

In addition to Revenue stabilization, managed reserve and other reserves specifically identified in the General Fund, the County has, as a result of policy decisions, established reserves in other funds which are available to allow the County to respond to both anticipated or unforeseen events. The practice of identifying these reserves in multiple funds has been in place for many years. These reserves are identified in the County's Internal Service Funds and certain Special Revenue Funds, for example, Fairfax-Falls Church Community Services Board and Elderly Housing Program (a Special Revenue Fund), that receive the majority of their funding from the General Fund. These balances total approximately 13.4 percent of total General Fund receipts (including revenues and transfers from other funds) as shown in the table on the following page.

Fund Reserves	
For the Fiscal Years Ended June 30	
(\$ in millions)	
General fund committed reserves (1):	
Revenue stabilization fund reserve	\$ 121.1
Managed reserve	76.7
Information Technology and others	39.9
Total committed	<u>237.7</u>
General fund assigned reserves (encumbrances)	33.3
General fund unassigned reserves	54.1
General fund supported reserves (2):	
Community services board	11.4
Internal service fund reserves (3):	
Vehicle related reserves	38.6
Technology related reserves	9.8
Self insurance reserves	117.0
Total reserves funded by and available to the general fund	<u>501.9</u>
General fund revenues and transfers in (4)	
General fund revenues	3,740.3
Transfers in	12.5
Total general fund revenues and transfers in	<u>\$ 3,752.8</u>
Total available reserves as % of general fund revenues	13.4%
(1) Exhibit A-2	(3) Exhibit G
(2) Exhibit D	(4) Exhibit A-3

The County's enterprise fund provides the same type of information found in the government-wide financial statements, as the basis of accounting is the same. Factors relating to the financial results of the Sewer System have been addressed in the discussion of the County's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The final amended budget appropriations, which include expenditures and transfers out, were more than the original budget amounts by \$70.1 million or 1.9 percent. This increase is due primarily to the carryover of prior-year commitments. The final amended budget revenues and transfers were less than the original budget by a net of \$1.4 million or 0.04 percent, primarily due to lower than projected Business Licenses, taxes and Charges for Services, partially offset by higher Recovered Costs and transfers.

Actual revenues exceeded final budget amounts by \$34.3 million, while actual expenditures were \$54.3 million less than final budget amounts. Highlights of the comparison of final budget to actual figures for the fiscal year ended June 30, 2015, include the following:

- Tax revenues exceeded budgeted amounts by \$29.4 million. The increase is primarily the result of increases in Real Estate and Personal Property Tax receipts, business licenses taxes, Local Sales and Use tax, and Recordation tax.
- Permits, privilege fees, and regulatory licenses were \$3.6 million more than budgeted amount primarily due to higher than projected receipts for Building and Inspection fees.
- Intergovernmental revenue was \$2.6 million more than budgeted amounts primarily associated with reimbursable expenditures for public assistance programs.
- General government administration expenditures were \$7.3 million, or 6.6 percent less, than budgeted amounts as a result of managing position vacancies and encumbrances carried forward to the next fiscal year.

- Public safety expenditures were \$15.4 million, or 3.4 percent, less than budgeted amounts mainly as a result of savings associated with managing position vacancies and encumbrances carried forward to the next fiscal year.
- Health and welfare expenditures were \$16.2 million, or 5.4 percent, less than budgeted amounts due to managing position vacancies, lower than anticipated costs in the Department of Family Services and the Health Department, and encumbrances carried forward to the next fiscal year.
- Nondepartmental expenditures were \$5.1 million, or 1.6 percent, less than budgeted amounts primarily due to savings in contributions to the three County Retirement Systems.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The County's investment in capital assets as of June 30, 2015, amounted to \$4.1 billion, which represents an increase of \$128.7 million, or 3.2 percent, over last year. Capital assets as of June 30, 2015 and 2014, are summarized below:

Capital Assets As of June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2015	2014	2015	2014	2015	2014
Land and easements	\$ 418.2	417.3	\$ 17.9	17.8	\$ 436.1	435.1
Buildings, improvements, and infrastructure	2,485.9	2,299.8	1,248.3	1,191.2	3,734.2	3,491.0
Software	96.3	93.2	-	-	96.3	93.2

Total capital assets	3,781.8	3,593.8	2,367.4	2,272.4	6,149.2	5,866.2
Less: Accumulated depreciation and amortization	(1,146.4)	(1,049.7)	(910.5)	(852.9)	(2,056.9)	(1,902.6)
Total capital assets, net	\$ 2,635.4	2,544.1	\$ 1,456.9	1,419.5	\$ 4,092.3	3,963.6

The major capital asset activities for fiscal year 2015 included the following:

- Developers' contributions of sewer lines and manholes totaled \$2.4 million.
- The purchase of library books and audio/video materials totaled \$4.2 million, funded through general operating revenues.
- Expenditures related to construction of the Merrifield Human Service Center were \$16.8 million in fiscal year 2015.
- Improvements to transportation, including bus and rail service, totaled \$10.9 million.

- Expenditures related to construction of the Public Safety Headquarters were \$25.3 million in fiscal year 2015.
- The Sewer System's share of the upgrade and operating costs of the Arlington County, City of Alexandria, and the District of Columbia's wastewater treatment facilities, which provide service to certain County residents, was \$1.0 million, \$23.5 million, and \$26.2 million, respectively.

Additional information related to the County's capital assets can be found in Note F to the financial statements.

Long-term Debt

There is no legal limit on the amount of long-term indebtedness that the County can at any time incur or have outstanding. However, all general obligation bonded indebtedness must be approved by voter referendum prior to issuance. The Board of Supervisors has established the following self-imposed limits with respect to long-term debt:

- A limit of \$1.375 billion of general obligation bond sales over a five-year period, for an average of \$275 million annually, with a maximum of \$300 million in any given year, excluding refunding bonds.
- A limitation that total long-term debt (excluding capital leases for equipment and sewer revenue bonds) not exceed 3 percent of the total market value of taxable real and personal property in the County and that annual debt service payments not exceed 10 percent of annual General Fund expenditures and transfers out. For fiscal year 2015, these percentages were 1.21 percent and 8.42 percent, respectively.
- In November 2014, the County issued \$202.2 million of Series 2014B General Obligation Refunding Bonds to advance refund multiple outstanding Series bonds, thereby taking advantage of lower interest rates to reduce the County's debt service payments by \$17.3 million over the next twelve years with a \$15.5 million net present value.
- In February 2015, the County entered into loan agreement with Bank of America, N.A. in a principal amount of \$18.3 million, which together with other County funds refinanced the FCRHA 2013A bond anticipation notes.
- In March 2015, the County issued \$227.3 million of Series 2015A General Obligation Public Improvement Bonds with a true interest cost of 2.68 percent and a premium of \$29.8 million. Proceeds of \$227.3 million are being used to fund new facilities and improvements, as follows (in millions):

County facilities:

Transportation Improvements.....	\$ 10.7
Public safety facilities.....	17.7
Other purposes	1.8
Park facilities	19.5
Transportation facilities	23.0
Public Schools facilities.....	<u>154.6</u>
Total bonds issued for new projects.....	<u>\$227.3</u>

In March 2015, the County also issued \$57.1 million of Series 2015B General Obligation Refunding Bonds to advance refund multiple outstanding series of bonds, thereby taking advantage of lower interest rates to

reduce the County's debt service payments by \$4.4 million over the next twelve years with a \$3.4 million net present value.

In March 2015, the County received an additional \$10 million from TD Bank, N.A., pursuant to a loan agreement with TD Bank, N.A. dated December 2013, to finance additional County building improvements.

The following is a summary of the County's gross outstanding long-term debt as of June 30, 2015 and 2014:

Outstanding Long-term Debt As of June 30 (\$ in millions)						
	Governmental Activities		Business-type Activities		Total Primary Government	
	2015	2014	2015	2014	2015	2014
General obligation bonds issued for:						
County facilities	\$ 795.4	787.3	\$ -	-	\$ 795.4	787.3
Public Schools facilities	1,363.4	1,347.1	-	-	1,363.4	1,347.1
Revenue bonds	846.5	874.0	-	-	846.5	874.0
Sewer revenue bonds	-	-	592.1	616.5	592.1	616.5
Capital leases and other	-	53.5	-	-	-	53.5
Total County outstanding debt	\$ 3,005.3	3,061.9	\$ 592.1	616.5	\$ 3,597.4	3,678.4

Additional information related to the County's long-term debt can be found in Note K to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The following economic factors are reflected in the General Fund budget for fiscal year 2016:

- The assessed value of all real property increased by \$7.6 billion, or 3.46 percent, over the fiscal year 2015 value. This resulted from a moderate increase in existing residential property values and new construction in the County.
- Equalized residential property assessments increased to 3.39 percent and non-residential equalization decreased to 0.6 percent for fiscal year 2016. Existing residential property values have remained positive in each of the last five years indicating the continued stabilization of the residential housing market.
- Personal property tax revenue is projected to increase 1.1 percent in fiscal year 2016. The total vehicle volume is forecast to increase 0.3 percent in fiscal year 2016.

The fiscal year 2016 Adopted Budget includes revenues of \$3.81 billion, or a 2.9 percent increase over the fiscal year 2015 Revised Budget Plan. Real and personal property taxes represent the majority of budgeted revenues, comprising approximately 79.1 percent of the fiscal year 2016 General Fund revenues. Revenue from real property taxes alone makes up 63.9 percent of total revenues, as compared with approximately 63.5 percent in the fiscal year 2015 Adopted Budget.

Budgeted disbursements, which include expenditures and transfers out, are \$3.82 billion, a 0.63 percent increase from the fiscal year 2015 Revised Budget Plan. County funding for Public Schools is \$2.01 billion – approximately 52.7 percent of the County's total General Fund budget. This funding supports operating costs, school construction, and debt service. Total direct expenditure funding increased by \$15.7 million, or 1.13 percent, over fiscal year 2015.

The following tax rates and fees were approved for fiscal year 2016:

- Real estate tax rate remains at \$1.090 per \$100 of assessed value.
- Commercial real estate tax rate for County transportation projects remains at \$0.125 per \$100 of assessed value, levied on commercial and industrial properties.
- Special tax rate for the Dulles Rail Phase 1 Transportation Improvement District decreased from \$0.21 to \$0.19 per \$100 of assessed value, levied on commercial and industrial properties in the district.
- Special real estate tax rate collected on all properties within Small District 1, Dranesville, for the McLean Community Center remains at \$0.023 per \$100 of assessed value, and the rate collected on all properties within Small District 5, Hunter Mill, for the Reston Community Center remains at \$0.047 per \$100 assessed value.
- The sewer service rate increases from \$6.62 to \$6.65 per 1,000 gallons of water consumption and the Sewer Availability Charge for new single family homes remains at \$7,750 per unit. The Sewer Base Charge increases from \$15.86 to \$20.15 per quarter.
- Refuse collection rate for County collection sanitation districts remains at \$345 per household and the refuse disposal rate remains at \$62 per ton.
- The Stormwater Services rate increases from \$0.0225 to \$0.0250 per \$100 of assessed value.
- Special real estate tax rate collected on all properties within the Tysons Service District increases from \$0.04 to \$0.05 per \$100 of assessed value.

The Board has maintained the dedication of one-half penny of the real estate tax rate for the preservation of Affordable Housing. Funding adjustments and strategies have been incorporated in the fiscal year 2016 Adopted Budget Plan to continue to address the County's commitment to achieving the strategic priorities of a strong investment in education, public safety and gang prevention, affordable housing, environmental protection, transportation improvements, and revenue diversification to reduce the burden on the homeowner.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our residents, taxpayers, customers, and investors and creditors with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the County of Fairfax, Virginia, Department of Finance, 12000 Government Center Parkway, Fairfax, Virginia, 22035. This report can also be found on the County's web site at www.fairfaxcounty.gov.

Basic Financial Statements

The Basic Financial Statements subsection includes the government-wide statements, which incorporate governmental and business-type activities of the County of Fairfax and activities of component units in order to provide an overview of the financial position and results of operations for the reporting entity. This subsection also includes the fund financial statements of the County and the accompanying notes to the financial statements.

COUNTY OF FAIRFAX, VIRGINIA
Reconciliation of the Balance Sheet to the Statement of Net Position
Governmental Funds
June 30, 2015

EXHIBIT A-2
concluded

Fund balances - Total governmental funds \$ 1,294,066,491

Amounts reported for governmental activities in the statement of net position (Exhibit A) are different because:

Capital assets used in governmental fund activities are not financial resources and, therefore, are not reported in the funds:

Non-depreciable/non-amortizable assets:		
Land and Easements	\$ 416,292,134	
Construction in progress	216,875,447	
Equipment under construction	2,043,928	
Software in development	8,454,299	
Depreciable/amortizable assets:		
Equipment	298,509,985	
Software	94,102,084	
Library collections	94,976,037	
Buildings and improvements	1,659,134,240	
Infrastructure	<u>802,003,907</u>	
Total capital assets	3,592,392,061	
Less accumulated depreciation/amortization	<u>(1,045,347,343)</u>	2,547,044,718

Some of the County's receivables will not be collected soon enough to pay for the current period's expenditures and, therefore, are reported as unearned revenue in the funds:

Delinquent taxes (net of allowances):		
Property	\$ 17,106,052	
Business license	3,356,153	
Sales and use and other taxes	638,597	
Lease to component unit	<u>44,000,000</u>	65,100,802

When an asset is recorded in governmental fund financial statements, but the revenue is not available, it is reported as deferred inflow of resources in the funds:

Sales and use and other taxes	\$ 22,148,397	
EMS transport and other charges for services	<u>3,691,125</u>	25,839,522

For debt refundings resulting in defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt should be reported as a deferred outflow of resources or a deferred inflow of resources:

Deferred loss on refunding of debt	\$ 49,781,492	
Deferred gain on refunding of debt	<u>(1,298,916)</u>	48,482,576

Certain results experienced by pension plans are required to be reported as a deferred outflow or inflow of resources:

Deferred outflow for contributions subsequent to the measurement date	\$ 187,884,445	
Deferred recognition of pension investments	(288,499,298)	
Deferred inflow for change in proportion	<u>(911,191)</u>	(101,526,044)

Certain other receivables are accrued only in the government-wide statements 737,496

OPEB costs are recognized as expenditures in the fund statements, but are deferred in the government-wide 19,021,000

Internal service funds are used by management to provide certain goods and services to governmental funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

Assets:		
Current assets	\$ 228,328,293	
Capital assets	189,538,406	
Less accumulated depreciation/amortization	(101,025,714)	
Liabilities	<u>(74,778,490)</u>	242,062,495

Long-term liabilities related to governmental fund activities are not due and payable in the current period and, therefore, are not reported in the funds:

General obligation bonds payable, net	\$ (2,367,800,510)	
Revenue bonds payable, net	(901,545,630)	
Notes payable	(75,735,948)	
Compensated absences payable	(109,611,631)	
Landfill closure and postclosure obligation	(70,178,594)	
Obligations under capital leases and installment purchase	(20,098,800)	
Insurance and benefit claims payable	-	
Net pension liability	(1,121,637,099)	
Other long-term liabilities	(45,743,804)	
Accrued interest on long-term debt	<u>(36,611,247)</u>	(4,748,963,263)

Net position of governmental activities \$ (608,134,207)

COUNTY OF FAIRFAX, VIRGINIA

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities

Governmental Funds

For the fiscal year ended June 30, 2015

EXHIBIT A-3

concluded

Net change in fund balances - Total governmental funds		\$	60,280,036
Amounts reported for governmental activities in the statement of activities (Exhibit A-1) are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives and reported as depreciation/amortization expense.			
Capital outlays	\$	160,667,922	
Less depreciation/amortization expense		(98,962,080)	61,705,842
In the statement of activities, the gain or loss on the disposition of capital assets is reported. However, in the governmental funds, only the proceeds from sales are reported, which increase fund balance. Thus, the difference is the net book value (i.e., depreciated cost) of the capital asset dispositions.			
			(495,911)
Certain transactions such as donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.			
			20,624,025
Build America Bonds interest subsidy accrual is not recognized as revenue in the fund statements			
			(796)
Some of the County's receivables will not be collected soon enough to pay for the current period's expenditures and, therefore, are reported as unearned revenue in the funds:			
Delinquent property taxes	\$	(2,598,102)	
Delinquent business license taxes		(2,310,618)	
Other charges for services		(48,679)	(4,957,399)
Some revenues will not be collected for several months after the fiscal year ends, hence, they are not considered "available" revenues and are deferred inflow of resources in the governmental funds:			
Sales and use and other taxes	\$	1,212,014	
EMS transport and other charges for services		1,322,692	2,534,706
The receipt of principal payments for the lease to the component unit does not result in a revenue in the statement of activities.			
			(1,470,000)
The issuance of long-term debt, including premiums, is reported as other financing sources in the governmental funds and thus, increases fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. The following were issued:			
Series 2015A General Obligation Bonds	\$	(257,188,745)	
Series 2014B and 2015B General Obligation Refunding Bonds		(311,478,707)	
Capital Renewal Note		(10,000,000)	
TIFIA Note		(20,691,647)	
Crescent Note		(18,260,000)	(617,619,099)
OPEB costs are recognized as expenditures in the fund statements, but are deferred and amortized in the government-wide statements, resulting in a net difference.			
			9,191,391
Certain other long-term liabilities are recognized only in the government-wide statements, resulting in a net difference.			
			841,764
The repayment of the principal amounts of long-term debt is reported as an expenditure or as an other financing use when debt is refunded in governmental funds and thus, reduces fund balance. However, the principal payments reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities.			
Principal repayments of matured bonds, notes, and loans	\$	276,618,502	
Payment to escrow agent to refund bonds		270,710,041	
Principal payments of capital leases and installment purchases		3,490,967	550,819,510
Interest on long-term debt is reported as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is affected as this interest accrues and as bond-related items are amortized. This difference in interest reporting is as follows:			
Accrued interest on bonds, loans, and capital leases	\$	(1,254,976)	
Amortization of bond premiums and discounts		38,409,196	
Amortization of deferred gains on bond refundings		1,794,602	
Amortization of deferred losses on bond refundings		(2,886,489)	36,062,333
Under the modified accrual basis of accounting used in the governmental funds, expenditures for the following are not recognized until they mature. In the statement of activities, however, they are reported as expenses and liabilities as they accrue. The timing differences are as follows:			
Landfill closure and postclosure costs	\$	(1,042,372)	
Compensated absences		(5,479,152)	
Net pension liability		69,345,863	
Other		(6,052,856)	56,771,483
Internal service funds are used by management to provide certain goods and services to governmental funds. The change in net position is reported with governmental activities.			
			30,601,280
Change in net position of governmental activities		\$	204,889,165

COUNTY OF FAIRFAX, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Fairfax, Virginia, (the County) is organized under the Urban County Executive form of government (as defined under Virginia law). The governing body of the County is the Board of Supervisors (the Board), which makes policies for the administration of the County. The Board is comprised of ten members: the Chairman, elected at large for a four-year term, and one member from each of nine supervisor districts, elected for a four-year term by the voters of the district in which the member resides. The Board appoints a County Executive to act as the administrative head of the County. The County Executive serves at the pleasure of the Board, carries out the policies established by the Board, directs business and administrative procedures, and recommends officers and personnel to be appointed by the Board.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted primary standard-setting body for establishing governmental accounting and financial reporting principles. The County's significant accounting policies are described below.

1. Reporting Entity

As required by GAAP, the accompanying financial statements present the financial data of the County (the primary government) and its component units. The financial data of the component units are included in the County's basic financial statements because of the significance of their operational or financial relationships with the County. The County and its component units are together referred to herein as the reporting entity.

Blended Component Units

Blended component units are entities that are legally separate from the County but that are so closely related to the County that they are, in essence, extensions of the County. The blended component units that are reported as part of the primary government are:

Solid Waste Authority of Fairfax County (SWA) - The SWA is considered a blended component unit because the Board of Supervisors comprises the Board of Directors of the SWA and has the ability to impose its will on the SWA. The SWA is authorized under the Virginia Water and Waste Authorities Act and was created by the Board of Supervisors on June 29, 1987. The SWA has financed the construction of a solid waste to energy facility, which is contractually owned and operated by a commercial entity in accordance with agreements between the County, the SWA, and the commercial entity. The County has assumed the responsibility for the management of the arrangement between the SWA and the commercial entity and for providing sufficient solid waste to result in a financially viable operation; this activity is reported in a special revenue fund of the County, the Energy Resource Recovery Facility Fund. Separate financial statements are not prepared for the SWA.

Small District One - The Board of Supervisors created Small District One, which is located within the Dranesville Magisterial District, in 1970 to provide for the construction of a community center and the operation of its social, cultural, educational, and recreational facilities. This small district is reported as a separate special revenue fund of the County, the

McLean Community Center Fund, it is governed by the Board, and the County maintains operational and management responsibility for the district. Separate financial statements are not prepared for Small District One.

Small District Five - The Board of Supervisors created Small District Five, which was located within the Sully, Dranesville and Hunter Mill Magisterial Districts, in 1975 to provide for the construction of a community center and the operation of its social, cultural, educational, and recreational facilities. In March 2006, the Board of Supervisors voted to change the boundaries, placing all boarders within the Hunter Mill Magisterial District. This change became effective January 1, 2007. This small district is reported as a separate special revenue fund of the County, the Reston Community Center Fund, it is governed by the Board, and the County maintains operational and management responsibility for the district. Separate financial statements are not prepared for Small District Five.

Dulles Rail Phase I Transportation Improvement District - The Board of Supervisors created the Dulles Rail Phase I Transportation Improvement District in 2004 to provide funds for the construction of certain transportation improvements in the district. This district is reported as a separate special revenue fund of the County. The District is governed by the members of the Board of Supervisors representing the property owners within the district, and the County management oversees its operation. Separate financial statements are not prepared for the Dulles Rail Phase I Transportation Improvement District.

Dulles Rail Phase II Transportation Improvement District - The Board of Supervisors created the Dulles Rail Phase II Transportation Improvement District in 2009 to provide funds for the construction of certain transportation improvements in the district. This district is reported as a separate special revenue fund of the County. The District is governed by the members of the Board of Supervisors representing the property owners within the district, and the County management oversees its operation. Separate financial statements are not prepared for the Dulles Rail Phase II Transportation Improvement District.

Mosaic District Community Development Authority (CDA) - The CDA is an independent authority legally authorized by an act of the Virginia General Assembly and was formally created by the Board of Supervisors in April 2009. The CDA's purpose is to assist in the development of infrastructure improvements within the district. This authority presentation consists of a special revenue, a debt service fund, and a capital projects fund. This authority provides services that exclusively benefit the County and was established with a tax increment financing agreement. Separate financial statements are not prepared for the CDA.

Discretely Presented Component Units

The columns for the component units in the financial statements include the financial data of the County's other component units. They are presented in separate columns to emphasize that they are legally separate from the County. Separate financial statements of the component units can be obtained by writing to the Financial Reporting Division, Department of Finance, 12000 Government Center Parkway, Suite 214, Fairfax, Virginia 22035. All of the component units have a fiscal year end of June 30. The discretely presented component units are:

Fairfax County Public Schools (Public Schools) - Public Schools is responsible for elementary and secondary education within the County. The School Board is elected by County voters. Public School systems do not have taxing authority under Virginia Code; Public Schools is fiscally dependent on the County. Public Schools operations are funded primarily by the County's General Fund, and the County issues general obligation debt for Public Schools' capital projects.

Fairfax County Redevelopment and Housing Authority (FCRHA) - FCRHA plans, coordinates, and directs the low income housing programs within the County under the Virginia Housing Authorities Law. FCRHA was approved by a voter referendum in November 1965 and was activated by the Board of Supervisors in February 1966. FCRHA is a political subdivision of and reports to the Commonwealth of Virginia. The Board appoints FCRHA's Board of Commissioners, and the County provides certain managerial and related financial assistance to FCRHA.

Fairfax County Park Authority (Park Authority) - The Park Authority was created by the Board of Supervisors of the County on December 6, 1950, to maintain and operate the public parks and recreational facilities located in the County. The Board appoints the Park Authority's governing board, and the County provides funding for the Park Authority's General Fund and one of its capital projects funds. A memorandum of understanding currently in effect between the County and the Park Authority defines the roles of the County and the Park Authority.

Fairfax County Economic Development Authority (EDA) - The EDA is an independent authority legally authorized by an act of the Virginia General Assembly and was formally created by resolutions of the Board of Supervisors. The EDA's mission is to create demand for the new commercial construction that expands the tax base and contributes to the quality of life and overall prosperity of the County. The Board appoints the seven members of the EDA's commission which appoints the EDA's President. The Board appropriates funds annually to the EDA for operating expenditures incurred in carrying out its mission.

Related Organizations

The Board of Supervisors is also responsible for appointing the members of the boards of Fairfax Water, and the Industrial Development Authority of Fairfax County (IDAFIC). The IDAFIC does not have a significant operational or financial relationship with the County. Fairfax Water bills and collects for the sales of sewer services on behalf of the County's sewer system. During fiscal year 2015, Fairfax Water collected approximately \$174.7 million on behalf of the County, and as of June 30, 2015, the County has receivables of approximately \$42.0 million due from Fairfax Water.

Joint Ventures

The County is a participant in the Upper Occoquan Sewage Authority (UOSA). UOSA is a joint venture created under the provisions of the Virginia Water and Waste Authorities Act to construct, finance, and operate the regional sewage treatment facility in the upper portion of the Occoquan Watershed. UOSA was formed on March 3, 1971, by a concurrent resolution of the governing bodies of Fairfax and Prince William Counties and the Cities of Manassas and Manassas Park. The governing body of UOSA is an eight-member board of directors consisting of two members from each participating jurisdiction appointed to four-year terms. The UOSA Board of Directors adopts an annual operating budget based on projected sewage flows. The County has no explicit and measurable financial interest in UOSA but does have an ongoing financial responsibility for its share of UOSA's operating costs, construction costs and annual debt service. Complete financial statements of UOSA can be obtained by writing to UOSA, 14631 Compton Road, Centreville, Virginia 20121.

The County is a participant in the Northern Virginia Regional Park Authority (NVRPA). NVRPA is a joint venture created under the Virginia Park Authorities Act of 1959 to protect and preserve Northern Virginia's rich heritage of woods, meadows, lakes, and streams. The governing body of NVRPA is comprised of two members from each of the 6 member jurisdictions: Fairfax, Arlington, and Loudoun Counties, and the Cities of Alexandria, Falls Church, and Fairfax. Each member jurisdiction provides contributions in direct proportion to its share of the region's population. The County's contributions are accounted for in the County Construction capital projects fund. The County has no

explicit and measurable financial interest in NVRPA. Complete financial statements of NVRPA can be obtained by writing to NVRPA, 5400 Ox Road, Fairfax Station, Virginia 22039.

Jointly Governed Organization

The State Route 28 Highway Transportation Improvement District (District) was created in 1987 under the provisions of the Transportation Improvements District Act by the County and Loudoun County, Virginia, in conjunction with the Commonwealth of Virginia Transportation Board (CVTB), for the purpose of undertaking various improvements to State Route 28. The District is governed by a nine-member Commission comprised of four members from each of the Boards of Supervisors of the County and Loudoun County and the Chairman of the CVTB or his designee. The County has no financial interest in the District. See Note K-8 for additional information related to the District.

2. Basis of Presentation

Government-wide Statements

The statement of net position and the statement of activities display information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to avoid the double-counting of interfund activities. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed primarily by fees charged to external parties. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each activity of the County. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular activity. Program revenues include: (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and, (b) grants and contributions that are restricted to meet the operations or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The accounts of the reporting entity are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for in a separate set of self-balancing accounts comprised of assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The County reports the following major fund types:

General Fund - The General Fund is the County's primary operating fund, and it is used to account for all revenue sources and expenditures which are not accounted for in other funds.

Enterprise Fund - The Fairfax County Integrated Sewer System (Sewer System) is the only enterprise fund of the County. This fund is used to account for the financing, construction, and operations of the countywide sewer system.

The County reports the following nonmajor governmental fund types:

Special Revenue Funds - The special revenue funds are used to account for the proceeds of specific revenue sources (other than debt service and major capital projects) that are legally restricted or committed to expenditure for specified purposes.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, the general obligation debt service of the County and for the debt service of the lease revenue bonds and special assessment debt. This includes the general obligation debt the County has issued to fund Public Schools capital projects.

Capital Projects Funds - The capital projects funds are used to account for financial resources used for all general construction projects other than enterprise fund construction.

The County reports the following additional fund types:

Internal Service Funds - These funds are proprietary funds used to account for the provision of general liability, malpractice, and workers' compensation insurance, health benefits for employees and retirees, vehicle services, document services, and technology infrastructure support that are provided to County departments on a cost reimbursement basis.

Pension and Other Post-Employment Benefits (OPEB) Trust funds - These are fiduciary funds used to account for the assets held in trust by the County for the employees and beneficiaries of its defined benefit pension and OPEB plans – the Employees' Retirement System, the Police Officers Retirement System, the Uniformed Retirement System, and the Other Post-Employment Benefits (OPEB) Trust Fund.

Agency Funds - These are fiduciary funds used to account for monies received, held, and disbursed on behalf of developers, welfare recipients, the Commonwealth of Virginia, the recipients of certain bond proceeds, and certain other local governments.

3. Measurement Focus and Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Statements

The government-wide, proprietary, and trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds also use the accrual basis of accounting to recognize assets and liabilities. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and entitlements. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. For the trust funds, member and employer contributions as applicable are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. For the Sewer System, principal operating revenues include sales to existing customers for continuing sewer service. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues

and expenses. Also, unbilled Sewer System receivables, net of an allowance for uncollectible accounts, are recorded at year end to the extent they can be estimated.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's Sewer System and various other functions of the government; elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenue from the use of money and property and from intergovernmental reimbursement grants is recorded as earned. Other revenues are considered available to be used to pay liabilities of the current period if they are collectible within the current period or within 45 days thereafter. The primary revenues susceptible to accrual include property, business license, and other local taxes and intergovernmental revenues. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the individual programs are used as guidance. Expenditures are recorded when the related fund liability is incurred, except that principal and interest on general long-term debt and certain other general long-term obligations, such as compensated absences and landfill closure and postclosure care costs, are recognized only to the extent they have matured. General capital asset acquisitions are reported as capital outlays in governmental funds. The issuance of general long-term debt and acquisitions under capital leases are reported as other financing sources. The effect of interfund activity has not been eliminated from the governmental fund financial statements.

4. Pooled Cash and Temporary Investments

The County maintains cash and temporary investments for all funds and component units in a single pooled account, except for certain cash and investments required to be maintained with fiscal agents or in separate pools or accounts in order to comply with the provisions of bond indentures. As of June 30, 2015, the pooled cash and temporary investments have been allocated between the County and the respective component units based upon their respective ownership percentages. Temporary investments consist of money market investments that have a remaining maturity at the time of purchase of one year or less and are reported at amortized cost, which approximates fair value.

Interest earned, less an administrative charge, is allocated generally to the respective funds and component units based on each fund's or unit's equity in the pooled account. In accordance with the County's legally adopted operating budget, interest earned by certain funds is assigned directly to the General Fund. For the year ended June 30, 2015, interest earned by these funds and assigned directly to the County's General Fund is as shown on the right.

Total reporting entity	\$ 2,749,337

5. Cash and Cash Equivalents

For purposes of the statements of cash flows, the amounts reported as cash and cash equivalents for the proprietary fund types represent amounts maintained in the reporting entity's

investment pool, as they are considered to be demand deposits for the purpose of complying with GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting."

6. Investments

Money market investments that have a remaining maturity at the time of purchase of one year or less are reported at amortized cost, which approximates fair value. Other investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Asset-backed securities are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar investments. Investment ownership is recorded as of the trade date. Transactions are finalized and money movement occurs on the settlement date. Investments are held as pooled assets and not individually attributed to funds. For presentation purposes, these have been allocated proportionally between the County General Fund and Nonmajor Governmental Funds. For the retirement system, cash received as collateral on securities lending transactions and investments made with such cash are reported as assets and as related liabilities for collateral received.

7. Investments in Derivatives

The County Retirement Systems (the Systems), which include the Employees' (ERS), Police Officers (PORS), and Uniformed (URS) Retirement Systems, as well as the Educational Retirement System (ERFC) of the Public Schools component unit, invest in derivatives as permitted by the Code of Virginia and in accordance with policies set by their respective Board of Trustees. Derivative instruments are financial contracts with valuations dependent on the values of one or more underlying assets, reference rates or financial indices. Detailed information on derivative investments is found in Note B.

8. Inventories

The consumption method of accounting for inventories is used. Under this method, inventories are expensed as they are consumed as operating supplies and spare parts in the period to which they apply.

9. Restricted Assets

Restricted assets are liquid assets which have third-party limitations on their use. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Unspent amounts from the issuance of general obligation bonds are reported as restricted assets in the County's capital projects funds. The County also holds certificates of deposit purchased by developers and cash deposits under the terms of performance agreements. The County may require a developer to enter into these agreements in order to ensure that certain structures and improvements are completed according to approved site plans. The certificates, issued by various financial institutions, and cash deposits are released to the developer when the terms of the agreement have been satisfied. If the terms of the agreement are not satisfied, the County uses the cash deposits and proceeds from the certificates to correct or complete the project as necessary. The amount of the certificates and cash deposits held is reported as restricted assets in the General Fund.

In accordance with the provisions of the 1985 General Bond Resolution as modified through July 2009, certain assets of the Sewer System are restricted for specific future uses, such as repayment of debt obligations, payments on construction projects, and extensions and improvements. Certain

assets are restricted to fund the construction of nitrogen removal facilities. As of June 30, 2015, the Sewer System has cash and investments that are restricted for the following uses:

Restricted Assets of the Sewer System	
Extensions and improvements	\$ 59,478,878
Long-term debt service requirements	27,300,335
Current debt service requirements	14,580,855
Total restricted assets	<u>\$ 101,360,068</u>

In accordance with requirements of the U. S. Department of Housing and Urban Development and the Virginia Housing Development Authority, the FCRHA is required to maintain certain restricted deposits and funded reserves for repairs and replacements.

The Park Authority has restricted assets representing the amount of the debt service reserve requirement pertaining to its outstanding revenue bonds and unspent amounts from general obligation bonds issued by the County.

10. Capital Assets

Capital assets, including land, permanent easements, buildings, improvements, equipment, library collections, purchased capacity, and infrastructure, that individually cost \$5,000 or more and software with a cost of \$100,000 or more, with useful lives greater than one year, are reported in the proprietary funds and applicable governmental or business-type activities columns in the government-wide financial statements. The County has capitalized general infrastructure assets, including solid waste disposal facilities, storm water management facilities, public drainage systems, mass transportation facilities, commercial revitalization improvements, and public trails and walkways that were acquired or substantially improved subsequent to July 1, 1980. The County does not capitalize roads and bridges as these belong to the Commonwealth of Virginia.

Purchased capacity consists of payments made by the Sewer System under intermunicipal agreements with the District of Columbia Water and Sewer Authority (Blue Plains), UOSA, Alexandria Sanitation Authority (ASA), Arlington County, Loudoun Water, and Prince William County Service Authority (PWSA) for the Sewer System's allocated share of improvements to certain specified treatment facilities owned and operated by these jurisdictions.

Purchased capital assets are stated at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value as of the date of donation. Capital assets are depreciated/amortized over their estimated useful lives using the straight-line method. The estimated useful lives are shown in the table on the right.

No depreciation is taken in the year of acquisition for library collections; depreciation/amortization on other capital assets commences when the assets are purchased or are substantially complete and ready for use. For constructed assets, all associated costs necessary to bring such assets to the condition and location necessary for their intended use, including interest on related debt with respect to the Sewer System, are initially capitalized as construction in progress and are transferred to buildings, improvements, and equipment when the assets are substantially complete and ready for use.

Capital Assets	Useful Lives
Infrastructure	10 - 50 years
Sewer lines	50 years
Buildings	20 - 50 years
Purchased capacity	30 - 99 years
Improvements	10 - 25 years
Equipment	5 - 20 years
Library collections	5 years
Software	5 - 20 years

11. Compensated Absences

All reporting entity employees earn annual leave based on a prescribed formula which allows employees with less than ten years of service to accumulate a maximum of 240 hours and employees with ten years or more of service to accumulate a maximum of 320 hours of annual leave as of the end of each year. In addition, employees, except for Public Schools employees, may accrue compensatory leave for hours worked in excess of their scheduled hours. Compensatory leave in excess of 240 hours at the end of the calendar year is forfeited.

The current pay rate, including certain additional employer-related fringe benefits, is used to calculate compensated absences accruals at June 30. The entire liability for compensated absences is reported in the government-wide and proprietary fund statements; whereas, only the matured portion resulting from employee resignations and retirements is reported in the governmental fund statements.

12. Net Position

Net position is comprised of three categories: Net investment in capital assets; Restricted net position; and Unrestricted net position. The first category of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds that are attributable to these capital assets. Restricted net position is restricted assets reduced by liabilities and deferred inflows of resources related to those assets. As of June 30, 2015, the primary government had \$385.0 million restricted net position, of which \$279.3 million was restricted by enabling legislation. Net position which is neither restricted nor related to net investment in capital assets, is reported as unrestricted net position.

The County issues debt to finance the construction of school facilities for the Public Schools and park facilities for the Park Authority component units because Public Schools does not have borrowing or taxing authority and the Park Authority does not have taxing authority. The County reports this debt, whereas the Public Schools and Park Authority report the related capital assets and unspent bond proceeds. As a result, in the Statement of Net Position (Exhibit A), the debt reduces unrestricted net position for the primary government, while the capital assets are reported in net investment in capital assets and the unspent bond proceeds are reported in restricted net position for Public Schools and the Park Authority.

Because this debt is related to capital assets and restricted assets of the reporting entity as a whole, the debt amount of \$1,569.1 million should be reclassified as shown below to present the total reporting entity column of Exhibit A. Reclassification as presented on Exhibit A consumes restricted in the amount of \$47.0 million for capital projects with the balance of \$41.9 million to unrestricted.

Net Position (summarized)	Primary Government	Component Units	Reclassification of Debt Issued for:			Total Reporting Entity
			Public Schools Facilities	Park Authority Facilities	Total Reclassification of Debt Issued	
Investment in capital assets, net of related	\$ 2,767,622,431	2,897,162,437	(1,403,881,161)	(165,201,562)	(1,569,082,723)	4,095,702,145
Restricted	385,005,244	91,781,745	(88,615,271)	(307,648)	(88,922,919)	387,864,070
Unrestricted	(2,735,657,361)	(2,977,095,125)	1,492,496,432	165,509,210	1,658,005,642	(4,054,746,844)
Net position	\$ 416,970,314	11,849,057	-	-	-	428,819,371

13. Fund Balance Classification

The Board of Supervisors, as the highest level of authority within the County, establishes the commitment of fund balance to purposes through the approval of the annual budget plan by resolution, in conjunction with the resolutions associated with the establishment of fee and tax rates, and acceptance or appropriation of funds. All subsequent changes to the budget plan to add, reduce, or redirect resources to other purposes are also accomplished by board resolution. As a result, all unrestricted amounts directed toward a purpose are shown as committed. Balances shown as assigned in the general fund represent encumbrances which would otherwise be unassigned.

The County considers restricted balances to be expended first in cases where both restricted and unrestricted amounts are available. When utilizing unrestricted balances, committed balances are applied first, followed by assigned then unassigned balances.

14. Encumbrances

The County uses encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation. Encumbrances represent the estimated amount of expenditures ultimately to result if unperformed contracts and open purchase orders are completed. Encumbrances for the capital projects funds do not lapse until the completion of the projects and are reported as reservations of fund balance at year end. Funding for all other encumbrances lapses at year end and requires reappropriation by the Board. Funds with significant encumbrance balances are as follows:

	Encumbrance Balance
Primary Government	
General Fund	
Public safety, courts, and judicial	\$ 11,575,060
General public works	3,169,124
Social services, health and welfare	7,633,703
Housing and community development	3,115,491
Parks, recreation, and cultural	2,568,300
Other purposes	11,733,048
Total General Fund	39,794,726
Capital Projects Funds	
Capital Project	\$ 148,492,834

15. Stabilization and Managed Reserve

In 1983, through resolution the Board of Supervisors established a policy to maintain a managed reserve in the general fund at a level sufficient for temporary financing of unforeseen emergency needs or to permit orderly adjustment to changes resulting from the termination of revenue sources through actions of other governmental bodies. The reserve is maintained at a level of not less than 2.0 percent of total general fund disbursements. The balance is adjusted as a part of the quarterly budget review process. The Board increased the target to 4.0 percent in April of 2015.

In 1999, the Board of Supervisors passed a resolution establishing the revenue stabilization fund. The revenue stabilization fund is included in the general fund for reporting purposes. The purpose of the revenue stabilization fund is to provide a mechanism for maintaining a balanced budget without

resorting to tax increases and expenditure reductions that aggravate the stresses imposed by the cyclical nature of the economy. Three specific criteria must be met to draw from this fund. Projected revenues must reflect a decrease greater than 1.5 percent from the current year estimate, withdrawals must not exceed one-half of the fund balance in any fiscal year, and withdrawals must be used in conjunction with spending cuts or other measures.

16. Recovered Costs

Reimbursements from another government, organization, or private company for utilities, tuition fees, vehicle insurance, and services rendered or provided to citizens are recorded as recovered costs in the fund financial statements.

17. Intermunicipal Agreements

The Sewer System has entered into several intermunicipal agreements for the purpose of sharing sewage flow and treatment facility costs (see Note L). The payments made to reimburse operating costs and debt service requirements are recorded as expenses in the year due. Payments made to fund the Sewer System's portion of facility expansion and upgrade costs are capitalized as purchased capacity (see Note F). The Sewer System amortizes these costs over the period in which benefits are expected to be derived, which is generally 30 years.

The City of Fairfax (the City) makes payments to the County for the City's share of certain governmental services and debt service costs. Payments for governmental services such as court, jail, custody, health, library, and County agent services are recorded as revenue in the General Fund. Debt service payments represent the City's share of principal and interest and are recorded as revenue in the County Debt Service Fund. In addition, the City pays the County a share of the local portion of all public assistance payments and services including related administrative costs, which is recorded as revenue in the General Fund. The City of Falls Church makes payments to the County for the full cost of the local portion of public assistance payments (including allocated administrative costs) and for the use of special County health facilities by Falls Church residents. These payments are recorded as revenue in the General Fund.

The County and the cities of Fairfax and Falls Church comprise the Fairfax-Falls Church Community Services Board (CSB), established under State mandate in 1969, to provide mental health, intellectual disability and drug and alcohol abuse treatment services to residents of the three jurisdictions. The CSB uses the County as its fiscal agent. The operations of the CSB, including payments received from these cities for services performed by the County, are reported in a special revenue fund.

18. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

B. DEPOSITS AND INVESTMENTS**1. Deposit and Investment Policies**

The reporting entity maintains an investment policy, the overall objectives of which are the preservation of capital and the protection of investment principal; maintenance of sufficient liquidity to meet operating requirements; conformance with federal, state, and other legal requirements; diversification to avoid incurring unreasonable risks regarding specific security types or individual financial institutions; and attainment of a market rate of return. Oversight of investment activity is the responsibility of the Investment Committee, which is comprised of the chief financial officer and certain key management and investment staff.

It is the reporting entity's policy to pool for investing purposes all available funds of the County and its component units that aren't otherwise required to be kept separate. The investment policy, therefore, applies to the activities of the reporting entity with regard to investing the financial assets of its pooled investment funds.

The primary government is a participant in the Virginia Investment Pool Trust Fund (VIP Trust). VIP Trust is a Section 115 governmental trust fund created under the Joint Exercise of Powers statute of the Commonwealth of Virginia to provide political subdivisions with an investment vehicle to pool surplus funds and to invest such funds into one or more investment portfolios under the direction and daily supervision of a professional fund manager. The VIP Trust is governed by a Board of Trustees. The VIP Trust seeks to maintain a bond fund rating on the Portfolio of AA/S1 or better from S&P.

The primary government's pension trust funds have adopted investment policies to provide a well-managed investment program to meet the long-term goals of the pension trust funds, provide a high degree of diversification, maintain appropriate asset coverage of fund liabilities, and also optimize investment return without introducing higher volatility to contribution levels. Investment decisions for the funds' assets are made by the Boards of Trustees or investment managers selected by the Boards of Trustees. The Boards of Trustees believe that risks can be managed, but not eliminated, by establishing constraints on the investment portfolio and by properly monitoring the investment markets, the pension trust funds' asset allocation, and investment managers. Furthermore, investment portfolios have specific benchmarks and investment guidelines.

The component unit's pension trust fund's investment decisions are made by its Board of Trustees or the investment advisors selected by the Board of Trustees. The Board of Trustees manages the fund's investments under the umbrella of an approved set of investment objectives, guidelines, and performance standards. The objectives are formulated in response to the fund's anticipated financial needs, risk tolerance, and the need to document and communicate objectives, guidelines, and standards to the fund's investment managers. The Board of Trustees may grant exceptions to the investment guidelines based on written requests and appropriate justification. All exceptions that are approved are included in an appendix to the written guidelines.

The primary government's OPEB trust fund and its component unit's OPEB trust fund are participants in the Virginia Pooled OPEB Trust. Funds of participating jurisdictions are pooled and are invested in the name of the Virginia Pooled OPEB Trust sponsored by the Virginia Municipal League and the Virginia Association of Counties (VML/VACo). The primary government's and component unit's respective shares in this pool are reported on the face of the corresponding OPEB trust fund statements as found in the other supplementary information section of the CAFR. The Board of Trustees of the Virginia Pooled OPEB Trust has adopted an investment policy to achieve a compound annualized total rate of return over a market cycle, including current income and capital appreciation, in excess of 5.0 percent after inflation, in a manner consistent with prudent risk-taking. Investment decisions for the funds' assets are made by the Board of Trustees. The Board of Trustees establishes investment objectives, risk tolerance and asset allocation policies in light of the investment policy,

market and economic conditions, and generally prevailing prudent investment practices. The Board of Trustees also monitors the investments to ensure adherence to the adopted policies and guidelines. In addition, the Trustees review, monitor, and evaluate the performance of the investments and its investment advisors in light of available investment opportunities, market conditions, and publicly available indices for the generally accepted evaluation and measurement of such performance. Specific investment information for the Virginia Pooled OPEB Trust can be obtained by writing to VML/VACo Finance Program, 919 East Main Street, Suite 1100, Richmond, Virginia 23219.

The Code of Virginia (Code) authorizes the reporting entity to purchase the following types of investments:

- Commercial paper
- U.S. Treasury and agency securities
- U.S. Treasury strips
- Certificates of deposits and bank notes
- Insured Deposits
- Demand Deposit Accounts
- Money market funds
- Bankers acceptances
- Repurchase agreements
- Medium term corporate notes
- Local government investment pool
- Asset-backed securities
- Hedged debt obligations of sovereign governments
- Securities lending programs
- Obligations of the Asian Development Bank
- Obligations of the African Development Bank
- Obligations of the International Bank for Reconstruction and Development
- Obligations of the Commonwealth of Virginia and its instrumentalities
- Obligations of counties, cities, towns, and other public bodies located within the Commonwealth of Virginia
- Obligations of state and local government units located within other states
- Savings accounts or time deposits in any bank or savings institution within the Commonwealth that complies with the Code

However, the investment policy precludes the investment of pooled funds in derivative securities, reverse repurchase agreements, security lending programs, asset-backed securities, hedged debt, obligations of sovereign governments, obligations of the Commonwealth of Virginia and its instrumentalities, obligations of counties, cities, towns, and other public bodies located within the Commonwealth of Virginia and obligations of state and local government units located within other states.

The Code also authorizes the reporting entity to purchase other investments for its pension trust funds and OPEB trust funds, including common and preferred stocks and corporate bonds that meet the standard of judgment and care set forth in the Code. The pension trust funds' Boards of Trustees' investment policies permit these funds to lend their securities to broker-dealers and other entities (borrowers) for collateral that will be returned for the same securities in the future.

2. Interest Rate Risk

The reporting entity's policy is to minimize the risk that the fair market value of securities in its portfolio will fall due to changes in market interest rates. To achieve this minimization of risk, the reporting entity structures the pooled investment portfolio so that sufficient securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. Pooled investments that are purchased to meet liquidity needs shall have a target weighted average maturity of 90 days or less. All other pooled funds are invested primarily in shorter-term securities, with a maximum maturity of two years. The reporting entity's pooled investments as of June 30, 2015, are summarized at fair value as shown below:

Investment Type	Fair Value	Weighted Average Maturity (Days)
Primary Government - Pooled Investments:		
Pooled Investments:		
Agency Notes	\$ 257,836,745	575
Commercial Paper	249,780,088	226
Corporate Notes	146,005,053	186
Money Market Funds	75,978,795	1
Negotiable Certificates of Deposit	743,720,949	77
VA Investment Pool	39,877,464	14
Total fair value	<u>\$ 1,513,199,094</u>	
Portfolio weighted average maturity		191
Component Units - Pooled Investments:		
Agency Notes	\$ 68,400,332	575
Commercial Paper	66,263,018	226
Corporate Notes	38,733,013	186
Money Market Funds	20,156,067	1
Negotiable Certificates of Deposit	197,298,331	77
VA Investment Pool	10,578,910	14
Total fair value	<u>\$ 401,429,671</u>	
Portfolio weighted average maturity		191

The primary government's pension trust funds manage interest rate risk for fixed income accounts by limiting the credit quality of the securities held as well as the duration of the portfolio against the duration of the benchmark. The component unit's pension trust fund's fixed income managers utilize the modified duration method to manage interest rate risk. In addition, the fund's investment policy states that the average effective duration of each manager's portfolio should be within 30 percent of the portfolio's benchmark duration.

The investments in debt securities of the pension trust funds of the reporting entity as of June 30, 2015, are summarized at fair value is shown as follows:

Investment Type	Fair Value	Duration (Years)
Primary Government - Pension Trust Funds:		
U.S. Government securities		
Employees' Retirement System	\$ 111,393,309	7.6
Police Officers Retirement System	53,758,847	7.3
Uniformed Retirement System	35,625,703	13.5
Corporate and other bonds		
Employees' Retirement System	441,530,101	4.5
Police Officers Retirement System	50,064,788	4.9
Uniformed Retirement System	85,713,162	3.7
Asset-backed securities *		
Employees' Retirement System	204,539,081	3.1
Police Officers Retirement System	78,818,452	4.2
Uniformed Retirement System	101,143,099	3.7
Short-term investments		
Employees' Retirement System	189,194,157	0.1
Police Officers Retirement System	44,075,294	0.1
Uniformed Retirement System	127,338,284	0.1
Total fair value	<u>\$ 1,523,194,277</u>	
Component Unit - Pension Trust Fund:		
U.S. Government Obligations	\$ 102,759,104	5.7
Agencies	9,062,097	5.3
Credit	72,321,391	6.7
Cash and Cash equivalents	16,954,446	-1.4

Inflation linked bond	2,327,148	0.4
Other	10,215,398	0.0
Total fair value	<u>\$ 598,368,486</u>	

* The underlying assets of the asset-backed securities are predominantly mortgages.

3. Credit Risk

The reporting entity's policy is to minimize the risk of loss due to the failure of an issuer or other counterparty to an investment to fulfill its obligations. The reporting entity pre-qualifies financial institutions, broker-dealers, intermediaries, and advisers with which the County does business. In addition, the reporting entity limits its pooled investments to the safest types of securities and diversifies its pooled investment portfolio so that potential losses on individual securities will be minimized. Also, new investments shall not be made in securities that are listed on Moody's

Investors Service, Inc. (Moody's) Watchlist or Standard & Poor's, Inc. (S&P) Credit Watch with a negative short term rating. The policy specifies the following acceptable credit ratings for specific types of investments in the pooled portfolio:

- U.S. government sponsored enterprise instruments shall be rated by both Moody's and S&P with a minimum rating of Prime 1 and A-1, respectively.
- Prime quality commercial paper shall be rated by at least two of the following: Moody's, with a rating of P-1; S&P, A-1; Fitch Investor's Services, Inc. (Fitch), F-1; or by Duff and Phelps, Inc., D-1.
- Mutual funds must have a rating of AAA or better by S&P, Moody's, or another nationally recognized rating agency.
- Bank deposit notes must have a rating of at least A-1 by S&P and P-1 by Moody's.
- Banker's acceptances shall be rated by at least two of the following: Moody's, with a rating of P-1; S&P, A-1; Fitch, F-1; or by Duff and Phelps, Inc., D-1.
- Corporate notes must have a rating of at least Aa by Moody's and a rating of at least AA by S&P.

While the overall investment guidelines for the primary government's pension trust funds do not specifically address credit risk, investment managers have specific quality limits appropriate for the type of mandate they are managing and that fit within the total risk tolerance of the fund. The component unit's pension trust fund's investment policy states that the average credit quality of a fixed income portfolio must be at least A. The policy also permits up to 20 percent of the portfolio to be invested in Moody's or S&P's quality rating below Baa or BBB, respectively. If a security is downgraded below the minimum rating, the investment manager must notify the Board of Trustees and an exception to the guidelines must be granted in order for the security to remain in the portfolio.

The VIP Trust Fund's policy is to maintain a bond fund rating on the Portfolio of AA/S1 or better from S&P. Moody's, S&P and Fitch are nationally recognized statistical rating organizations (NRSRO) serving investors, regulators and issuers.

As of June 30, 2015, the primary government and component units of the reporting entity had pooled investments in the following issuers with credit quality ratings as a percent of total investments in debt securities as follows:

Credit Quality Rating *					
AA		A-1		AAA-m	
Aaf/S1		Unrated			
U.S. Treasury and Agencies**	15.0%	Commercial paper	14.5%	Money Market Funds	4.4%
Corporate Notes	8.6%	Negotiable CD	43.2%	-	-
-	-	-	-	-	-
23.6%		57.7%		4.4%	
				2.3%	
				12.0%	

* Credit quality ratings are determined using S&P's short term and long-term ratings, which approximates the greatest degree of risk as of June 30, 2015.

** U.S. Treasury and Agencies AA+

As of June 30, 2015, the primary government and component units' pension trust funds of the reporting entity had pooled investments in the following issuers with credit quality ratings as a percent of total investments in debt securities as shown below:

Investment Type	Credit Quality Rating *							
	AAA	AA	A	BBB	BB	B	Below B	Unrated
Primary Government								
Pension Trust Funds:								
U.S. Government securities	- %	12.9 %	- %	- %	- %	- %	0.2 %	- %
Corporate and other bonds	0.6	3.4	5.6	3.5	8.4	9.0	2.6	4.8
Asset-backed securities	0.1	9.4	0.4	0.8	0.3	0.4	7.2	6.7
Short-term investments	-	-	-	-	-	-	-	23.7
Component Units								
Pension Trust Fund:								
U.S. Government obligations	3.8 %	13.4 %	- %	- %	- %	- %	- %	- %
Mortgage-backed securities	1.8	13.6	0.8	0.6	0.3	0.2	0.2	1.7
Domestic bonds	3.9	3.0	6.9	9.6	5.4	2.9	1.0	0.2

International bonds	2.0	0.6	4.2	6.8	1.3	0.6	-	0.4
Cash and cash equivalents	0.7	-	-	-	-	-	-	2.2
Bank loans	-	-	-	0.1	0.5	0.4	-	-
Fixed income securities	1.9	0.8	0.3	1.6	0.9	0.6	0.3	0.2
Preferred securities	-	-	-	-	-	-	-	0.2

* Credit quality ratings are determined using S&P's long-term rating schema, which approximates the greatest degree of risk as of June 30, 2015.

4. Concentration of Credit Risk

The reporting entity's investment policy sets the following limits for the types of securities held in its pooled investment portfolio:

U.S. Treasury securities and agencies	100%	maximum
Banker's acceptances	40%	maximum
Negotiable certificates of deposit and bank deposit notes	40%	maximum
Non-negotiable certificates of deposit	40%	maximum
Insured certificates of deposit	40%	maximum
Commercial paper	35%	maximum
Repurchase agreements	30%	maximum
Mutual funds	30%	maximum
Collateralized deposit account	30%	maximum
Insured deposit account	30%	maximum
Corporate notes	25%	maximum
Virginia investment pool	10%	maximum

In addition, not more than 5 percent of the total pooled funds available for investment at the time of purchase may be invested in any one issuing or guaranteeing corporation for commercial paper, banker's acceptances, corporate notes, and bank notes. The County shall seek to maintain 5 percent of the investment portfolio in a combination of mutual funds, demand deposit accounts or open repurchase agreements to meet liquidity requirements.

While the overall investment guidelines for the primary government's pension trust funds do not specifically address concentration of credit risk, investment managers have specific concentration limits appropriate for the type of mandate they are managing and that fit within the total risk tolerance of the fund. The pension trust funds do not have investments (other than U.S. Government and U.S. Government-guaranteed obligations) in any one organization that represents 5 percent or more of net position available for benefits.

The component unit's pension trust fund's policy limits the securities of any one issue to 10 percent at cost and 15 percent at market of each fixed income portfolio. The policy allows an exception for government securities and its agencies. As of June 30, 2015, ERFC had four active fixed income managers and one passive fixed income manager. The active manager portfolios had values of \$201.0 million, \$83.4 million, \$174.7 million and \$53.5 million. The indexed portfolio had a value of \$85.7 million. The market value of the largest issue other than the U.S. Government in the portfolios of the active managers was only 8.62 percent of that portfolio. Since the passive manager's portfolio is an indexed mutual fund, it is excluded from the concentration of credit risk measurement.

5. Custodial Credit Risk

For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the reporting entity may not recover its deposits. In accordance with the Virginia Security for Public Deposits Act (Act), all of the reporting entity's deposits are covered by federal depository insurance or collateralized in accordance with the Act, which provides for the pooling of collateral pledged by financial institutions with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for one public depositor, and public depositors are prohibited from holding collateral in their name as security for deposits. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral is inadequate to cover a loss, additional amounts are assessed on a pro rata basis to the members of the pool. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by participating financial institutions. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance, therefore, funds deposited in accordance with the requirements of the Act are considered to be fully insured.

For investments, custodial credit risk is the risk that, in the event of the failure of a counterparty, the reporting entity will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Per policy, all of the investments purchased by the reporting entity are insured or registered or are securities held by the reporting entity or its agent in the reporting entity's name.

The Boards of Trustees of the pension trust funds permit the funds to participate in a securities lending program, which is administered by a custodian. Under this program, certain securities are loaned to approved broker/dealers who borrow the securities and provide collateral in the form of cash, U.S. Treasury or government agency securities, letters of credit, and other securities as specified in the securities lending agreement. The value of the collateral for domestic securities must equal 102 percent of the market value of the security and 105 percent of the market value of the foreign security. The custodian monitors the market value of the collateral on a daily basis. Cash collateral is invested in a fund which is maintained by the custodian or its affiliate. The pension trust funds did not impose any restrictions during the period on the amounts of loans security lending agents made on their behalf, and the agents have agreed to indemnify the pension trust funds by purchasing replacement securities, or returning the cash collateral thereof, in the event a borrower fails to return loaned securities or pay distributions thereon. There were no such failures by any borrower during the fiscal year, nor were there any losses during the period resulting from the default of a borrower or lending agent. At year end, the pension trust funds had no custodial credit risk exposure to borrowers because

the amounts the pension trust funds owed the borrower exceeded the amounts the borrowers owed the pension trust funds. Information pertaining to the securities lending transactions as of June 30, 2015, is presented as follows:

Securities Lent	Underlying Securities	Cash Collateral Investment Value	Securities Collateral Investment Value
Primary Government - Pension Trust Funds:			
Lent for cash collateral:			
U.S. Government securities	\$ 4,229,888	4,318,778	-

6. Foreign Currency Risk

Per the reporting entity's policy, pooled investments are limited to U.S. dollar denominated instruments. The pension trust funds are allowed to invest in foreign currency denominated instruments. The component unit's pension trust fund's policy allows investment managers to invest up to 25 percent of the portfolio in securities issued by non-U.S. guarantors with up to 10 percent in emerging markets. As of June 30, 2015, the fair value in U.S. dollars of the pension trust funds' foreign currency investments follows on the next page:

International Securities	Cash and Cash Equivalents	Equity	Convertible and Fixed Income	Total U.S. Dollars
Primary Government - Pension Trust Funds:

*Includes preferred securities investments in Fixed income balance.

7. Derivatives

In order to enhance investment returns and manage risk exposure, the Primary government's pension trust funds (Pension trust funds) regularly invest in derivative financial instruments with off-balance-sheet risk. The Pension trust funds also entered into derivative transactions to gain exposure to currencies and markets where derivatives are the most cost-effective instrument. During fiscal year 2015, the Pension trust funds invested directly in various derivatives including asset-backed securities, collateralized mortgage obligations, exchange-traded futures contracts, forward currency contracts, options, swaps, and floating rate securities. Some traditional on balance sheet securities, such as structured notes, can have derivative-like characteristics where the return may be linked to one or more indices. Asset-backed securities, such as collateralized mortgage obligations (CMOs), are sensitive to changes in interest rates and pre-payments. Futures, forwards, options, and swaps generally are not recorded on the financial statements, whereas floating rate securities, structured notes, and asset-backed securities are recorded. The pension trust funds also have exposure to derivatives indirectly through its ownership interests in certain hedge funds, mutual funds and commingled funds which may use, hold or write derivative financial instruments.

Derivative investments may involve credit and market risk in excess of amounts recognized on the financial statements. The pension trust funds could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. Holders of futures contracts look to the exchange for performance under the contract and not to the other party holding the offsetting futures position; therefore, the amount at risk due to nonperformance of counterparties to futures contracts is minimal. For counterparties involving over the counter derivatives, the Boards of Trustees of the pension trust funds seek to control such risk through counterparty credit evaluations, counterparty credit limits, and exposure monitoring procedures conducted by investment managers and staff. To address counterparty risk, the pension trust funds instruct the investment managers who use swaps, forwards, and options to only enter into contracts with counterparties rated at investment grade of BBB or better by at least one nationally recognized rating agency.

The Pension trust funds held four types of derivative financial instruments with notional values carried off-balance sheet: futures, swaps, currency forwards, and options. Those financial instruments provide the Pension trust funds with the opportunity to build passive benchmark positions, manage portfolio duration in relation to various benchmarks, adjust portfolio yield curve exposure, enhance returns, and gain market exposure to various indices in a more efficient way and at lower transaction costs. Risk is inherent to most investments.

Futures contracts are contracts to deliver or receive securities at a specified future date and at a specified price or yield. Futures contracts are traded on organized exchanges (exchange-traded) and typically require an initial margin (collateral) in the form of cash or marketable securities. The net change in the futures contract value is settled daily with the exchanges in cash and the net gains or losses are included in the Pension trust funds' financial statements. Holders of futures contracts look to the exchange for performance under the contract and not to the entity holding the offsetting futures position. Accordingly, the amount at risk posed by nonperformance of counterparties to futures contracts is minimal. The notional value of the Pension trust funds' investment in futures contracts at June 30, 2015 is shown in the table on the following page:

Future Contract Types	Amount
Primary Government - Pension Trust Funds:	
Cash & Cash Equivalent Futures:	
Long	\$ (101,616,775)
Short	-
Equity Futures:	
Long	290,874,330
Short	-
Fixed Income Futures:	
Long	335,007,447
Short	(1,746,953)
Commodity Futures	
Long	23,189,653
Short	(13,224,472)
Total	<u>\$ 532,483,230</u>

The Pension trust funds enter into several types of swap contracts in which two counterparties agree to exchange one stream of payments for another over some agreed to period of time. Swaps are used to manage risk and enhance returns. All counterparties are rated A or better. The Pension trust funds' swap contracts outstanding at June 30, 2015 is summarized as follows:

Swap Types	Base Exposure	Fair Market Value
Primary Government - Pension Trust Funds:		
Equity Swaps:		
Total Return Swaps	\$ -	3,122,671
Variance Swaps	9,969	9,969
Fixed Income Swaps:		
Credit Default Swaps	26,816	27,388
Inflation Swaps	(77,587)	(77,587)
Interest Rate Swaps	(142,312)	(115,856)
Total Return Swaps	-	(926,235)
Commodity Swaps:		
Commodity Swaps	36,125	36,125
Total	<u>\$ (146,989)</u>	<u>2,076,475</u>

Option contracts may be exchanged traded or negotiated directly in over the counter transactions between two counterparties. Options holders have the right, but not the obligation, to purchase or sell a financial instrument at a future price and date. The Pension trust funds can both purchase and write options. Exchange traded options rely on the exchange for performance and the risk to non-performance of counterparties is minimal. All counterparties for over the counter options are rated A or better. The Pension trust funds option contracts at June 30, 2015 are presented on the facing page.

	Proceeds	Fair Market Value	Unrealized Gain/(loss)
Primary Government - Pension Trust Funds:

Put	-	-	-
Total	<u>\$ (174,664)</u>	<u>(177,662)</u>	<u>(2,998)</u>

Currency forwards represent foreign exchange contracts and are used to effect settlements and to protect the base currency value of portfolio assets denominated in foreign currencies against fluctuations in the exchange rates of those currencies or to gain exposure to the change in market value of a specific currency. A forward foreign currency exchange contract is a commitment to purchase or sell a foreign currency at a future date and at a negotiated price. The credit risk of currency contracts that are exchange-traded lies with the clearinghouse of the exchange where the contracts are traded. The credit risk of currency contracts traded over-the counter lies with the counterparty, and exposure usually is equal to the unrealized profit on in-the money contracts. All counterparties are rated A or better. The market risk in foreign currency contracts is related to adverse movements in currency exchange rates. The net unrealized gain on foreign currency spot and forward contract at June 30, 2015 was \$725,473, and the Pension trust funds' currency forwards contracts are summarized as follows:

Foreign Currency Contracts Purchased	Notional (Local Currency)	Fair Value of Foreign Currency Contract Payable in U.S. Dollars
Primary Government - Pension Trust Funds:		
Australian Dollar	424,000	\$ (2,643)

As permitted by the Board's policies, the Pension trust funds hold off balance sheet derivatives in a small number of separately managed accounts. Investment managers are prohibited from purchasing securities on margin or using leverage unless specifically permitted within the investment manager's guidelines. Derivative instruments covered under the scope of GASB 53 are reported at fair value. The changes in fair value of derivative instruments that are used for investment purposes are reported within the investment revenue classification. Gains and losses on derivative securities are determined based upon fair market values as determined by our custodian and recorded in the Statement of Changes in Plan Net Position of the pension trust funds.

As permitted by the Code, ERFC invests in derivative instruments on a limited basis in accordance with the ERFC Board's investment policy. Derivatives provide a means for ERFC to increase earnings and/or hedge against potential losses. During the fiscal year, ERFC invested in collateralized mortgage obligation (CMO) derivatives. These derivatives are securities created using the underlying cash flows from mortgage backed securities as collateral. As of June 30, 2015, the fair value of the CMOs was \$512,304. In addition, ERFC had indirect investments in derivatives through its ownership interest in the Better Beta fund, one Private Equity manager, two of the Real Estate managers, three of the fixed income managers, and one of the Global Asset Allocation managers. These portfolios are commingled funds in which ERFC has a percentage ownership. Derivatives in these portfolios consisted of interest rate swaps and caps, which reduce the effect of interest rate fluctuations by converting floating rate (F/X) financing into fixed rate loans for real estate investments. Futures, because they are more liquid than over the counter derivatives, have among the lowest transaction costs available, carry minimal counterparty risk and are de facto currency hedged. Non Deliverable Forward's (NDF's) obtain exposure to a currency and its interest rate where the actual purchase of onshore debt is difficult. The interest rate exposure comes through the difference between the spot F/X rate and the forward F/X rate, and through investing the USD cash used as collateral in short dated US bonds. Forward commodity contracts hedge changes in cash flows due to market price fluctuations related to the expected purchase of a commodity. Currency forwards are used for hedging non-USD denominated physical instruments back to the base currency. Options are contracts that give the buyer the right, but not the obligation, to buy or sell an underlying asset at a specific price on or before a certain date. At June 30, 2015, exposure to interest rate swaps was \$(2,618,836), exposure to interest rate caps was \$1,252,599, exposure to futures contracts was (\$199,397), exposure to options was \$737,331, exposure to swap options was \$40,987, and exposure to CDSs was (\$52,891).

C. Property Taxes

Real estate is assessed on January 1 each year at the estimated fair market value of all land and improvements. Real estate taxes are due in equal installments, on July 28 and December 5. Unpaid taxes automatically constitute liens on real property which must be satisfied prior to sale or transfer, and after three years, foreclosure proceedings can be initiated.

Personal property taxes on vehicles and business property are based on the estimated fair market value at January 1 each year. The tax on a vehicle may be prorated for the length of time the vehicle has situs in the County. A declaration form is required to be filed, and there is a ten percent penalty for late filing. Personal property taxes are due on October 5, with certain exceptions. Delinquency notices are sent before statutory measures, such as the seizure of property and the placing of liens on bank accounts and/or wages, are initiated.

Real estate and personal property taxes not paid by the due dates are assessed a ten percent late payment penalty on the tax amount. Furthermore, interest accrues from the first day following the due date at an annual rate of ten percent for the first year and thereafter at the rate set by the Internal Revenue Service. The net delinquent taxes receivable, including interest and penalties, as of June 30, 2015, after allowances for uncollectible amounts, is \$20,084,181 of which \$2,978,129 has been included in tax revenue for fiscal year 2015 because it was collected within 45 days after June 30.

As required by GAAP, the County reports real estate and personal property taxes (net of allowances) assessed for calendar year 2015 as receivables (net of payments totaling \$113,162,536 received in advance of the due date) and deferred tax revenue because the County has an enforceable legal claim to these resources at June 30, 2015; however, these resources, which amount to \$3,039,021,582, will not be available to the County until fiscal year 2016.

The 1998 Virginia General Assembly enacted the Personal Property Tax Relief Act to provide property tax relief on the first \$20,000 of value of motor vehicles not used for business purposes. Due to budget constraints, the 2003 Virginia General Assembly froze the tax reduction at 70 percent. The 2005 Virginia General Assembly revised this measure further to limit its tax relief payments to all localities to a total of \$950 million per tax year beginning with 2006 (fiscal year 2007). The County's fixed share of the \$950 million is \$211,313,944, as determined by its share of the total payments made to all localities by the Commonwealth during calendar years 2004 and 2005 for tax year 2004 (fiscal year 2005). The County's fixed share from the Commonwealth is reported as intergovernmental revenue in the General Fund.

D. Receivables

Receivables and allowances for uncollectible receivables of the primary government, excluding fiduciary funds, at June 30, 2015, consist of the following:

	General Fund	Nonmajor Governmental Funds	Enterprise Fund	Internal Service Funds	Total Primary Government (Exhibit A)
Receivables:					
Accounts	\$ 19,194,485	12,248,914	3,209,181	136,260	34,788,840

E. INTERFUND BALANCES AND TRANSFERS

Interfund receivables and payables are recorded when funds overdraw their share of pooled cash. All amounts are expected to be paid within one year. Interfund balances as of June 30, 2015, is as follows:

	Interfund Receivables	Interfund Payables
Primary Government		
General Fund	\$ 700,000	1,138,613
Nonmajor Governmental Funds	1,772,633	2,472,633
Internal Service Funds	1,138,613	-
Total primary government	\$ 3,611,246	3,611,246
Component Unit		
Public Schools:		
General Fund	\$ 37,700	-
Fiduciary Funds	-	37,700
Total component units	\$ 37,700	37,700

Due to/from primary government and component units represent amounts paid by one entity on behalf of the other entity. Due to/from primary government and component units as of June 30, 2015, are as follows:

Receivable Entity	Payable Entity	Amount
<u>Component Units</u>	<u>Primary Government</u>	
Public Schools	General Fund	\$ 169,149
Park Authority	General Fund	1,670,685
Park Authority	Nonmajor Governmental Fund	602,757
EDA	General Fund	195,136
Total		\$ 2,637,727
<u>Primary Government</u>	<u>Component Unit</u>	
General Fund	FCCA	\$ 2,000,000
Total		\$ 2,000,000

The primary purpose of interfund transfers is to provide funding for operations, including those of the Fairfax-Falls Church Community Services Board, debt service, and capital projects. Interfund transfers for the year ended June 30, 2015, are as follows:

	Transfers In	Transfers Out
<u>Primary Government</u>		
General Fund	\$ 12,473,516	515,632,051
Nonmajor Governmental Funds	542,823,654	65,634,123
Internal Service Funds	25,969,004	-
Total primary government	\$ 581,266,174	581,266,174
<u>Component Unit</u>		
<u>Public Schools:</u>		
General Fund	\$ -	30,490,872
Capital Projects Fund	12,469,898	-
Nonmajor Governmental Funds	18,020,974	-
Total component units	\$ 30,490,872	30,490,872

G. RETIREMENT PLANS

The reporting entity administers the following four separate public employee retirement systems that provide pension benefits for various classes of employees. In addition, professional employees of Public Schools participate in a plan sponsored and administered by the Virginia Retirement System (VRS).

1. County Administered Plan Descriptions

Fairfax County Employees' Retirement System

The Fairfax County Employees' Retirement System (ERS) is a legally separate single-employer defined benefit pension plan established under the Code of Virginia which covers only employees of the reporting entity. The plan covers full-time and certain part-time employees of the reporting entity who are not covered by other plans of the reporting entity or the VRS. This is the only plan that provides pension benefits to both the primary government and component units. The balances have been allocated in the financial statements as follows: County 65.9 percent including business type activities, FCPS 28.2 percent, EDA 0.5 percent, FCRHA 1.7 percent, FCPA 3.7 percent of all totals. More information is shown in section 6 of this note.

The ERS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Employees' Retirement System, 10680 Main Street, Suite 280, Fairfax, VA 22030, or by calling (703) 279-8200. It may be accessed online for additional information including details of the plan fiduciary net position, the information presented in this report follows the same accounting basis as the plan. http://www.fairfaxcounty.gov/retirement/retired_employees/publications.htm.

Fairfax County Police Officers Retirement System

The Fairfax County Police Officers Retirement System (PORS) is a legally separate single-employer defined benefit pension plan established under the Code of Virginia. The plan covers County police

officers who are not covered by other plans of the reporting entity or the VRS and former Park Police officers who elected to transfer to the PORS from the Uniformed Retirement System effective January 22, 1983.

The PORS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Police Officers Retirement System, 10680 Main Street, Suite 280, Fairfax, VA 22030, or by calling (703) 279-8200. It may be accessed online for additional information including details of the plan fiduciary net position, the information presented in this report follows the same accounting basis as the plan. http://www.fairfaxcounty.gov/retirement/retired_employees/publications.htm.

Fairfax County Uniformed Retirement System

The Fairfax County Uniformed Retirement System (URS) is a legally separate single-employer defined benefit pension plan established under the Code of Virginia. The plan covers uniformed or sworn employees of the Fire and Rescue Department, Office of Sheriff, Park Police, Helicopter Pilots, and Animal Control Officers as well as non-administrative positions of the Department of Public Safety Communications who are not covered by other plans of the reporting entity or the VRS.

The URS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Uniformed Retirement System, 10680 Main Street, Suite 280, Fairfax, VA 22030, or by calling (703) 279-8200. It may be accessed online for additional information including details of the plan fiduciary net position, the information presented in this report follows the same accounting basis as the plan. http://www.fairfaxcounty.gov/retirement/retired_employees/publications.htm.

The Educational Employees' Supplementary Retirement System

The Educational Employees' Supplementary Retirement System of Fairfax County (ERFC) is a legally separate single-employer retirement system established under the Code of Virginia. The ERFC covers all full-time educational and civil service employees who are employed by the Public Schools and who are not covered by other plans of the reporting entity.

The ERFC issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Educational Employees' Supplementary Retirement System, 8001 Forbes Place, Springfield, VA 22151. It may be accessed online for additional information including details of the plan fiduciary net position, the information presented in this report follows the same accounting basis as the plan. www.fcps.edu/erfc/publications.shtml.

2. Benefit Provisions and Requirements

Fairfax County Employees' Retirement System

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. Members who were hired before January 1, 2013 had the option to elect to join Plan A or Plan B, and members who were hired on or after January 1, 2013 may elect to join Plan C or Plan D. To be eligible for normal retirement, an individual must meet the following criteria: (a) attain the age of 65 with five years of service, (b) for Plans A and B, attain the age of 50 with age plus years of service being greater than or equal to 80, or (c) for Plans C and D, attain the age of 55 with age plus years of service being greater than or equal to 85. The normal retirement benefit is calculated using average final compensation (i.e., the highest 78 consecutive two week pay periods or the highest 36 consecutive monthly pay periods) and years (or partial years) of creditable service at date of termination. In addition, if normal retirement occurs before Social Security benefits

are scheduled to begin, an additional monthly benefit is paid to retirees. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. Those who commenced employment on or after January 1, 2013, may not use more than 2,080 hours of accrued sick leave toward service credit for retirement or entry into the Deferred Retirement Option Program (DROP). The benefit for early retirement is actuarially reduced and payable at early termination.

Effective July 1, 2005, a DROP was established for eligible members of the ERS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0 percent per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

Fairfax County Police Officers Retirement System

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. To be eligible for normal retirement, an individual must meet the following criteria: (a) if employed before July 1, 1981; attain the age of 55 or have completed 20 years of creditable service, or (b) if employed on or after July 1, 1981; attain the age of 55 or have completed 25 years of creditable service. The normal retirement benefit is calculated using average final compensation and years (or partial years) of creditable service at date of termination. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. Those sworn in on or after January 1, 2013, may not use more than 2,080 hours of accrued sick leave toward service credit for retirement or DROP entry. To be eligible for early retirement, the employee must have 20 years of creditable service (does not apply if hired before July 1, 1981). The benefit for early retirement is actuarially reduced and payable at early termination.

Effective October 1, 2003, a DROP was established for eligible members of the PORS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0 percent per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

Fairfax County Uniformed Retirement System

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. To be eligible for normal retirement an individual must meet the following criteria: (a) attain the age of 55 with six years of creditable service, or (b) complete 25 years of creditable service. The normal retirement benefit is calculated using average final compensation and years (or partial years) of creditable service at date of termination. Annual cost-of-living adjustments are provided to retirees and beneficiaries equal to the lesser of 4.0 percent or the percentage increase in the Consumer Price Index for the Washington Consolidated Metropolitan Statistical Area. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. Those who commenced employment on or after January 1, 2013, may not use more than 2,080 hours of accrued sick leave toward service credit for retirement or DROP entry. To be eligible for early

retirement, employees must have 20 years of creditable service. The benefit for early retirement is actuarially reduced and payable at early termination.

Effective October 1, 2003, a DROP was established for eligible members of the URS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0 percent per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

The Educational Employees' Supplementary Retirement System

Benefit provisions for ERFC and ERFC 2001 are established and may be amended by ERFC's Board of Trustees (ERFC Board) subject to approval by the School Board. All members are vested for benefits after five years of service. The ERFC benefit formula was revised effective July 1, 1988, following changes to VRS, which ERFC has historically supplemented. The benefit structure is designed to supplement VRS and Social Security benefits to provide a level retirement benefit throughout retirement.

ERFC 2001 has a stand-alone structure. Member contributions for ERFC and ERFC 2001 are made through an arrangement that results in a deferral of taxes on the contributions. Further details of member contributions may be found in Article III of the ERFC and ERFC 2001 Plan Documents.

ERFC and ERFC 2001 provide for a variety of benefit payment types. ERFC's payment types include Service Retirement, Reduced Service, Disability, Death-in-Service, and Deferred Retirement. ERFC 2001's payment types include Service Retirement, Death-in-Service, and Deferred Retirement. ERFC's minimum eligibility requirements for receipt of full benefits range from members attaining the age of 55 with 25 years of service to completing five years of service prior to age 65. The minimum eligibility requirements for full benefits for ERFC 2001 members are age 60 with five years of service or any age with 30 years of service. Annual post-retirement cost-of-living increases of 3 percent are effective each March 31. Participants in their first full year of retirement receive a 1.49 percent increase. Participants who retire on or after January 1 receive no cost-of-living increase that first March. Additional details regarding benefit payment types can be found in the actuarial valuation and the Plan Documents.

3. Funding Policy

Fairfax County Employees' Retirement System

All contribution requirements for ERS are established and may be amended by County ordinances, including member contribution rates. Plan A and Plan C require member contributions of 4.0 percent of compensation up to the maximum Social Security wage base and 5.33 percent of compensation in excess of the wage base. Plan B and Plan D require member contributions of 5.33 percent of compensation.

The County is required to contribute at an actuarially determined rate; the rate for the year ended as of the June 30, 2014 was 19.3 percent of annual covered payroll. Since the ERS's adjusted funded ratio (the ratio of the sum of the actuarial value of assets and commitments already made to fund changes to the actuarial accrued liability) fell below 90 percent, the contribution rate includes a margin to amortize this shortfall back to the 90 percent level. For fiscal year 2015, the amortization target was increased to 93 percent, and for fiscal year 2016, it will be increased to a 95 percent level. Per the County's pension funding policy as approved by the Board of Supervisors as part of

the FY 2016 Adopted Budget Plan and incorporated in the Fairfax County Code, the County will continue increasing the amortization target so that, at or before fiscal year 2020, 100 percent of the unfunded actuarial accrued liability is amortized and included in the contribution rate. The employer contribution made for the measurement period was \$129,618,309.

Fairfax County Police Officers Retirement System

All contribution requirements for PORS are established and may be amended by County ordinances, including member contribution rates. Member contributions were 10.0 percent of compensation at June 30, 2014. For 2015 this has been adjusted to 8.65 percent of compensation.

The County is required to contribute at an actuarially determined rate; the rate for the year ended June 30, 2014 was 33.9 percent of annual covered payroll. Since the PORS's adjusted funded ratio (the ratio of the sum of the actuarial value of assets and commitments already made to fund changes to the actuarial accrued liability) fell below 90 percent, the contribution rate includes a margin to amortize this shortfall back to the 90 percent level. For fiscal year 2015, the amortization target was to a 93 percent level, and for fiscal year 2016, it will be increased to a 95 percent level. Per the County's pension funding policy as approved by the Board of Supervisors as part of the FY 2016 Adopted Budget Plan and incorporated in the Fairfax County Code, the County will continue increasing the amortization target so that, at or before fiscal year 2020, 100 percent of the unfunded actuarial accrued liability is amortized and included in the contribution rate. The employer contribution made for the measurement period is \$34,178,960.

Fairfax County Uniformed Retirement System

All contribution requirements for URS are established and may be amended by County ordinances, including member contribution rates. Employees hired before July 1, 1981 were enrolled in Plan A. Plan A members were given the opportunity to enroll in Plan B as of July 1, 1981 and to enroll in Plan C as of April 1, 1997. From July 1, 1981 through March 31, 1997, all new hires were enrolled in Plan B. Plan B members were given the opportunity to enroll in Plan D as of April 1, 1997. From April 1, 1997 through December 31, 2012, all new hires were enrolled in Plan D. From January 1, 2013 forward all new hires are enrolled in Plan E. Plan A requires member contributions of 4.0 percent of compensation up to the Social Security wage base and 5.75 percent of compensation in excess of the wage base. Plan B requires member contributions of 7.08 percent of compensation up to the Social Security wage base and 8.83 percent of compensation in excess of the wage base. Plan C requires member contributions of 4.0 percent of compensation. Plan D and Plan E require contributions of 7.08 percent of compensation.

The County is required to contribute at an actuarially determined rate; the rate for the year ended June 30, 2014 was 36.4 percent of annual covered payroll. Since the URS's adjusted funded ratio (the ratio of the sum of the actuarial value of assets and commitments already made to fund changes to the actuarial accrued liability) fell below 90 percent, the contribution rate includes a margin to amortize this shortfall back to the 90 percent level. For fiscal year 2015, the amortization target was increased to a 93 percent level, and for fiscal year 2016, it will be increased to a 95 percent level. Per the County's pension funding policy as approved by the Board of Supervisors as part of the FY 2016 Adopted Budget Plan and incorporated in the Fairfax County Code, the County will continue increasing the amortization target so that, at or before fiscal year 2020, 100 percent of the unfunded actuarial accrued liability is amortized and included in the contribution rate. The employer contribution made for the measurement period is \$56,094,960.

The Educational Employees' Supplementary Retirement System

All contribution requirements for ERFC plans are established and may be amended by the ERFC Board with the approval of the School Board. The requirements are based upon a fundamental

financial objective of having rates of contribution that remain relatively level from generation to generation of employees. To determine the appropriate employer contribution rates and to assess the extent to which the fundamental financial objective is being achieved, ERFC has actuarial valuations prepared annually. The contribution requirements of members and the employer are established and may be amended by the ERFC Board, subject to School Board approval. Members are required to contribute 3 percent of annual salary. The employer is required to contribute at an actuarially determined rate which presently is 5.6 percent.

The actuarial valuations are used to set the employer contribution rate for the two-year period beginning 18 months after the valuation date. As such, the December 31, 2011 valuation recommended that the contribution rate for the two-year period beginning July 1, 2013 to June 30, 2015 be increased to 5.6 percent. Restructuring of the VRS employee contribution rate caused the School Board to decrease the ERFC member contribution rate to 3 percent beginning in fiscal year 2013.

4. Actuarial Methods and Assumptions

The reported total pension liability (TPL) was determined as part of the July 1, 2013, actuarial valuation using the entry age actuarial cost method and rolled forward to the measurement date of June 30, 2014. Significant actuarial assumptions used in the valuation for ERS, PORS, and URS include:

Discount rate, net of plan investment expenses	7.5%
Inflation	3.0%
Salary increases, including inflation	3.0% + merit
Investment rate of return, net of plan investment expenses	7.5%
Municipal bond rate	N/A
Projected period of unfunded benefit payments	None

ERFC assumptions deviate from the chart for salary increases, using a range of 3.75% - 9.05%.

The actuarial assumptions used have been recommended by the actuary and adopted by the Board of Trustees of ERS, PORS and URS based on the most recent review of the experience associated with their respective plans, completed in 2011.

The rate of employer contributions to the ERS, PORS and URS is composed of normal cost, amortization of the unfunded actuarial accrued liability and an allowance for administrative expenses. The normal cost is a level percent of payroll cost which, along with the member contributions, will pay for projected benefits at retirement for each plan participant. The actuarial accrued liability is that portion of the present value of projected benefits that will not be paid by future normal employer costs or member contributions. The difference between this liability and the funds accumulated as of the same date is the unfunded actuarial accrued liability. The allowance for administrative costs is based upon the actual administrative expenses of the plans.

Mortality rates with adjustments for mortality improvements were based on the RP 2000 Mortality tables projected to 2015 using Scale AA.

The actuary recommended and the Board of Trustees adopted refinements to the termination assumption and recognition of unused sick leave balances in the development of the TPL.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2005 to June 30, 2010. ERFC valuation date December 31, 2013 based on experience study from January 1 2005 to December 31, 2009.

Expected Returns and Changes in Discount Rate

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation for the plans as of June 30, 2014, are summarized below:

Long Term Expected Real Rate of Return/Target Allocation*

Asset Class	ERS*	PORS*	URS*	ERFC	Asset Class
U.S. Equities	4.5%/20.0%	4.5%/17.0%	4.5%/13.0%	4.5%/16.0%	Domestic Large Cap Equity
International Equities	5.1%/10.0%	5.1%/12.0%	5.1%/14.0%	4.75%/6.0%	Domestic Small Cap Equity
Private Equities	-	-	8.1%/3.0%	5.0%/14.0%	International Equity
Core Fixed Income	2%/73.0%	2%/30.0%	2%/25.0%	6.25%/3.0%	Emerging Market Equity
High Yield	3.2%/7.5%	-	-	3.25%/7.5%	Real Estate
Absolute Return	6%/20.0%	-	-	1.21%/18.0%	Core Fixed Income
Real Estate	5.3%/7.5%	5.3%/5.0%	5.3%/8.0%	2.0%/8.0%	Investment Grade Credit
Alternatives	-	6%/37.0%	6%/22.0%	4.0%/3.0%	Emerging Market Debt (Local)
Risk Parity	-	6%/30.0%	6%/20.0%	4.01%/15.0%	Global Asset Allocation
Commodity	4.5%/5.0%	-	-	3.75%/8.0%	Absolute rate of return
				6.5%/1.5%	Private Equity

* Target Total may exceed 100% due to futures and other derivatives

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that County contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL. The TPL and NPL resulting from the plans fiduciary net position are as follows:

	ERS	PORS	URS	ERFC
Total pension liability	\$ 4,807,873,661	\$ 1,453,060,383	\$ 1,781,130,985	\$ 2,697,688,622
Pension plan's fiduciary net position	(3,766,059,665)	(1,260,757,215)	(1,516,720,045)	(2,204,927,191)
Net pension liability	<u>\$ 1,041,813,996</u>	<u>\$ 192,303,168</u>	<u>\$ 264,410,940</u>	<u>\$ 492,761,431</u>
Plan fiduciary net position as a percentage of the total pension liability	78.3%	86.8%	85.2%	81.7%

Items that have resulted in a change in the NPL for the current reporting period are as follows:

	Increases (Decreases) in (000)		
	Total Pension Liability (A)	Plan Fiduciary Net Position (b)	Net Pension Liability (a-b)
Balances 6/30/2014	<u>\$ 10,313,457</u>	<u>7,732,041</u>	<u>2,581,416</u>
Changes for Year:			
Service cost	230,370	-	230,370
Interest	761,796	-	761,796
Differences between expected and actual experience	(19,052)	-	(19,052)
Benefit payments, including refunds of member contributions	(546,818)	(546,815)	(3)

Plan fiduciary net position - 6/30/2015	<u>\$ 3,766,060</u>	<u>1,260,757</u>	<u>1,516,720</u>	<u>2,204,927</u>	<u>8,748,464</u>
Net pension liability - 6/30/2015	<u>\$ 1,041,813</u>	<u>192,303</u>	<u>264,411</u>	<u>492,762</u>	<u>1,991,289</u>

Changes in the discount rate affect the measurement of the TPL. The discount rate does not affect the measurement of assets; hence the percentage change in the NPL can be very significant for a relatively small change in the discount rate. To illustrate this, the tables reflect the impact of a one percent increase or decrease of the discount rate would have on the NPL for each of the Plans:

Sensitivity of Net Pension Liability to Changes in Discount Rate-ERS

	1% Decrease 6.5%	Current Discount Rate 7.5%	1% Increase 8.5%
Total Pension Liability	\$ 5,480,533,135	\$ 4,807,873,661	\$ 4,259,269,552
Plan Fiduciary Net Position	(3,766,059,665)	(3,766,059,665)	(3,766,059,665)
Net Pension Liability	<u>\$ 1,714,473,470</u>	<u>\$ 1,041,813,996</u>	<u>\$ 493,209,887</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	68.7%	78.3%	88.4%

Sensitivity of Net Pension Liability to Changes in Discount Rate -PORS

	1% Decrease 6.5%	Current Discount Rate 7.5%	1% Increase 8.5%
Total Pension Liability	\$ 1,705,162,383	\$ 1,453,060,383	\$ 1,255,039,056
Plan Fiduciary Net Position	(1,260,757,215)	(1,260,757,215)	(1,260,757,215)
Net Pension Liability	<u>\$ 444,405,168</u>	<u>\$ 192,303,168</u>	<u>\$ (5,718,159)</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	73.9%	86.8%	100.5%

Sensitivity of Net Pension Liability to Changes in Discount Rate -URS

	1% Decrease 6.5%	Current Discount Rate 7.5%	1% Increase 8.5%
Total Pension Liability	\$ 2,066,236,723	\$ 1,781,130,985	\$ 1,554,084,893
Plan Fiduciary Net Position	(1,516,720,045)	(1,516,720,045)	(1,516,720,045)
Net Pension Liability	<u>\$ 549,516,678</u>	<u>\$ 264,410,940</u>	<u>\$ 37,364,848</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	73.4%	85.2%	97.6%

Sensitivity of Net Pension Liability to Changes in Discount Rate -ERFC

	1% Decrease 6.5%	Current Discount Rate 7.5%	1% Increase 8.5%
Net Pension Liability	<u>\$ 813,126,598</u>	<u>\$ 492,761,431</u>	<u>\$ 226,956,209</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	72.8%	78.1%	90.6%

5. Plan Membership

As of the measurement date(s), membership in the reporting entity's plans consisted of the following:

	Primary Government			Component Unit - Public Schools
	ERS	PORS	URS	ERFC
Retirees and beneficiaries receiving benefits	7,263	907	1,155	10,156
Terminated employees entitled to, but not yet receiving, benefits	1,576	33	47	3,509
DROP participants	670	89	126	N/A
Active plan members	14,011	1,237	1,862	21,643
Total number of plan members	23,520	2,266	3,190	35,308

6. Pension Expense, Deferred Outflows and Deferred Inflows of Resources, Net Pension Liability, and Component Allocation

The reported deferred outflows and inflows of resources and recognized pension expense associated with ERS, PORS, URS, and ERFC is presented below:

	ERS		PORS	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	-	\$ -	-
Net difference between projected and actual earning on pension plan investments	-	193,220,907	-	75,739,012
Contributions subsequent to the measurement date	138,493,099	-	37,867,181	-
Total	<u>\$ 138,493,099</u>	<u>193,220,907</u>	<u>\$ 37,867,181</u>	<u>75,739,012</u>
Pension Expense Recognized 2015	<u>\$ 97,145,111</u>		<u>\$ 22,746,234</u>	
Net Pension Liability June 30, 2015	<u>\$ 1,041,813,996</u>		<u>\$ 192,303,168</u>	
	URS		ERFC	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	-	\$ -	16,127,403
Net difference between projected and actual earning on pension plan investments	-	89,439,786	-	128,000,865
Contributions subsequent to the measurement date	60,928,766	-	74,324,396	-
Total	<u>\$ 60,928,766</u>	<u>89,439,786</u>	<u>\$ 74,324,396</u>	<u>144,128,268</u>
Pension Expense Recognized 2015	<u>\$ 34,018,658</u>		<u>\$ 52,557,894</u>	
Net Pension Liability June 30, 2015	<u>\$ 264,410,940</u>		<u>\$ 492,761,431</u>	

Deferred outflows associated with contributions made subsequent to the measurement date will be recognized as a reduction to the net pension liability in 2016. The remaining deferred outflows and inflows will impact pension expense in subsequent years as follows:

Year ended June 30:				
	ERS	PORS	URS	ERFC
2016 \$	(48,305,227)	(18,934,753)	(22,359,946)	(34,924,443)
2017 \$	(48,305,227)	(18,934,753)	(22,359,947)	(34,924,443)
2018 \$	(48,305,227)	(18,934,753)	(22,359,946)	(34,924,443)
2019 \$	(48,305,226)	(18,934,753)	(22,359,947)	(34,924,443)
2020 \$	-	-	-	(4,430,496)

ERS balances have been allocated between the primary government and discretely presented component units as follows:

	Total	Primary Government	FCPS	EDA	FCRHA	FCPA
Total pension liability	\$ 4,807,873,661	3,169,715,716	1,356,166,539	22,284,494	80,767,470	178,939,442
Pension plan's fiduciary net position	(3,766,059,665)	(2,482,872,916)	(1,062,299,528)	(17,456,063)	(63,266,036)	(140,165,122)

7. Virginia Retirement System (VRS)

Plan Description

FCPS contributes to VRS on behalf of its covered professional employees. VRS is a cost-sharing, multiple-employer retirement system, which administers two defined benefit plans and a hybrid plan that combines the features of a defined benefit plan and a defined contribution plan. These plans are administered by the State and provide coverage for State employees, public school board employees, employees of participating political subdivisions, and other qualifying employees. All full-time, salaried, permanent employees of VRS-participating employers are automatically covered under VRS. All employees hired after January 1, 2014 are automatically enrolled in the Hybrid Plan. Contributions made by members and participating VRS employers are invested to provide future retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries.

Benefit Provisions and Requirements

Benefit provisions are established and governed by Section 51.1 of the Code. Changes to the Code can be made only by an act of the General Assembly. All benefits vest at five years of creditable service. Benefits under the Defined Contribution component of the Hybrid Plan are always 100% vested. To be eligible for unreduced retirement benefits, an individual must meet the following criteria: (a) attain the age of 65 with five years of service or age 50 with 30 years of service for Plan 1, (b) for Plan 2 and the Defined Benefit component of the Hybrid Plan, attain normal social security retirement age with five years of service or combination of age and service equals 90 or (c) for the Defined Contribution component of the Hybrid Plan, terminate employment.

To be eligible for reduced retirement benefits, an individual must meet the following criteria: (a) attain the age of 55 with five years of service or age 50 with 10 years of service for Plan 1, (b) for Plan 2 and the Defined Benefit component of the Hybrid Plan, attain the age of 60 with five years of service or (c) for the Defined Contribution component of the Hybrid Plan, terminate employment. Annual retirement benefits are payable monthly for life in an amount equal to (a) 1.7 percent of eligible members' average final compensation for each year of credited service under Plan 1, (b) 1.65 percent of eligible members' average final compensation for each year of creditable service on or after January 1, 2013 and 1.7 percent on creditable service before January 1, 2013 for Plan 2, or (c) 1.0 percent of eligible members' average final compensation for each year of creditable service for the Defined Benefit component of the Hybrid Plan. The health insurance credit provides retirees who have 15 or more years of creditable service with reimbursement to assist with the cost of health insurance premiums. The credit is a dollar amount set by the General Assembly for each year of service.

Funding Policy

The contribution requirement for active employees is governed by Section 51.1-145 of the Code, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.0 percent of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.0 percent member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5.0 percent member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.0 percent member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. Each school division's contractually required contribution rate for the year ended June 30, 2015 was 14.50 percent of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013. The actuarial rate for the Teacher Retirement Plan was 18.20 percent. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of Section 51.1-145 of the Code, as amended, the contributions were funded at 79.69 percent of the actuarial rate for the year ended June 30, 2015. Employer contributions to the pension plan were \$192,934,971 and \$154,954,000 for the years ended June 30, 2015 and June 30, 2014, respectively.

Actuarial Methods and Assumptions

The total pension liability for VRS was based on an actuarial valuation as of June 30, 2013, using the entry age normal actuarial cost method, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014. The assumptions used were as follows:

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25 percent per year

Inflation	2.5%
Salary increases, including inflation	3.5% to 5.95%
Investment rate of return, net of pension plan investment expense, including inflation (a)	7.0%

(a) Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Pre-Retirement	Mortality Rates	
	Post-Retirement	Post-Disablement
RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and females are set back 5 years	RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females were set back 3 years	RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 1 year and no provision for future mortality improvement

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, FCPS reported a liability of \$2,193,660,000 for its proportionate share of the net pension liability. The net pension liability was determined based on an actuarial valuation as of June 30, 2013, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014. At June 30, 2014, FCPS's proportion was 18.15 percent, an increase of 0.36 percent from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, FCPS recognized pension expense of \$182,516,000. At June 30, 2015, FCPS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 325,556,000
Changes in proportion and differences between contributions and proportionate share of contributions	40,774,000	-
Contributions subsequent to the measurement date	192,934,971	-
Total	<u>\$ 233,708,971</u>	<u>\$ 325,556,000</u>

\$192,934,971 reported as deferred outflows of resources related to pensions resulting from FCPS contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as shown to the right:

Year ended June 30:

2016	\$ (72,395,000)
2017	(72,393,000)
2018	(72,393,000)
2019	(72,393,000)
2020	4,792,000
	<u>\$ (284,782,000)</u>

The long term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S. Equity	19.50 %	6.46 %	1.26 %
Developed Non U.S. Equity	16.50	6.28	1.04
Emerging Market Equity	6.00	10.00	0.60
Fixed Income	15.00	0.09	0.01
Emerging Debt	3.00	3.51	0.11
Rate Sensitive Credit	4.50	3.51	0.16
Non Rate Sensitive Credit	4.50	5.00	0.23
Convertibles	3.00	4.81	0.14
Public Real Estate	2.25	6.12	0.14
Private Real Estate	12.75	7.10	0.91
Private Equity	12.00	10.41	1.25
Cash	1.00	(1.50)	(0.02)
Total	<u>100.00 %</u>		<u>5.83 %</u>
		Inflation	<u>2.50</u>
		Expected arithmetic nominal return (a)	<u>8.33 %</u>

(a) Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by FCPS for VRS will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, school divisions are assumed to contribute 100.0 percent of the actuarially determined contribution rates. Based on those assumptions, VRS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents FCPS' proportionate share of the net pension liability using the discount rate of 7.0 percent, as well as what FCPS' proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.0) percent or one percentage point higher (8.0) percent than the current rate:

	1% Decrease 6.0%	Current Discount Rate 7.0%	1% Increase 8.0%
Net Pension Liability	\$ 3,221,170,000	\$ 2,193,660,000	\$ 1,347,678,000

Plan Fiduciary Net Position

Detailed information about the VRS net position is available in the separately issued VRS 2014 Comprehensive Annual Financial Report (CAFR). A copy of the 2014 VRS CAFR may be obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500. It is also available online through the VRS website. <http://www.varetire.org/Pdf/Publications/2014-annual-report.pdf>.

H. OTHER POST-EMPLOYMENT BENEFITS

The reporting entity administers two separate other post-employment benefits (OPEB) plans and has established trust funds to account for the cost of OPEB.

1. Fairfax County OPEB Plan

Plan Description

The Fairfax County OPEB Trust Fund is a single-employer defined benefit plan administered by Fairfax County. The County provides medical/dental, vision, and life insurance benefits to eligible retirees and their spouses. In order to participate, retirees must have reached the age of 55 or be on disability retirement and must have health benefit coverage in a plan provided by the County. Retirees must have five years of service in order to participate in this program. Beginning in fiscal year 2004, the amount of monthly subsidy provided by the County is based on years of service and ranges from \$30 per month to \$220 per month. Retirees receiving the subsidy prior to fiscal year 2004 are grandfathered at \$100 per month unless their years of service entitle them to receive a higher monthly subsidy.

In addition, the Board of Supervisors has established a program to subsidize the continuation of term life insurance, at reduced coverage amounts, for retirees. Retirees generally pay for 50 percent of their coverage amounts at age-banded premium rates, with the County incurring the balance of the cost. Benefit provisions are established and may be amended by the Board of Supervisors.

Funding Policy

The contributions to the OPEB Trust Fund are established and may be amended by the Board of Supervisors. The contributions are typically based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits. GASB Statement No. 45 requires recognition of the current expense of OPEB based on each governing body's annual required contribution, but does not require funding of the related liability.

Fairfax County is one of the founding participants in the Virginia Pooled OPEB Trust Fund sponsored by VML/VACo. The Virginia Pooled OPEB Trust Fund is established as an investment vehicle for

participating employers to accumulate assets to fund OPEB. Plan assets for purposes of GASB Statement No. 45 are usually in the form of stocks, bonds, and other classes of investments, that have been segregated and restricted in a trust, in which (a) contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employer or plan administrator, for the payment of benefits in accordance with the terms of the plan. Further information, including financial statements, can be obtained by writing to VML/VACo Finance Program, 919 East Main Street, Suite 1100, Richmond, Virginia 23219.

Annual OPEB Cost

The County's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB asset for 2015, 2014, and 2013 are as follows:

	2015	2014	2013
ARC, for the year ended June 30	\$ 31,033,000	30,452,000	38,858,000
Interest on net OPEB asset from prior year	(739,000)	(114,000)	(153,000)
Actuarial adjustment	613,000	94,000	127,000
Annual OPEB cost	30,907,000	30,432,000	38,832,000
Actual contributions	(40,076,000)	(38,768,000)	(38,306,000)
(Increase) decrease in net OPEB asset, for the year ended June 30	(9,169,000)	(8,336,000)	526,000
Net OPEB asset, beginning of year	(9,851,610)	(1,515,610)	(2,041,610)
Net OPEB (asset) obligation, end of year	\$ (19,020,610)	(9,851,610)	(1,515,610)
Percentage of annual OPEB cost contributed	129.67%	127.39%	98.65%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, also presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

For the fiscal years 2013 through 2015 the County's OPEB funding progress is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
7/1/2012	\$ 103,270	\$ 503,786	\$ 400,516	20.50 %	\$ 824,504	48.58 %
7/1/2013	148,543	455,386	306,843	32.62	825,441	37.17
7/1/2014	192,951	486,131	293,180	39.69	856,566	34.23

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The ARC for fiscal year 2015 was determined as part of the July 1, 2014, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include:

- a. A rate of return on the investment of present and future assets of 7.5 percent per year compounded annually.
- b. Projected annual salary increases of 3.0 percent.
- c. An annual healthcare cost trend rate of 6.34 percent initial Pre 65 and 6.71 percent Post 65, reduced by decrements to an ultimate rate of 5.0 percent.

The actuarial value of the OPEB assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. Any excess of these assets over actuarial accrued liability is amortized as a level percentage of projected payroll over an open 30 year period. The remaining amortization period is 30 years.

The Fairfax County OPEB Trust Fund does not issue a stand-alone financial report and is not included in the report of a public employee retirement system or of another entity.

Concentrations

The Fairfax County OPEB Trust Fund does not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net position held in trust for OPEB benefits.

2. Public Schools OPEB Plan

Plan Description

The Fairfax County Public Schools OPEB Trust Fund is a single-employer defined benefit plan administered by the Fairfax County Public Schools (Public Schools). Public Schools provides health benefits to eligible retirees and their spouses. In order to participate, retirees must have reached the age of 55 or be on disability retirement and must have health benefit coverage in a plan provided by Public Schools. There is no minimum number of years of service required to participate in this plan. Plan participants may continue medical coverage by paying the appropriate subsidized premiums. The amount of monthly subsidy is based on years of service and ranges from \$15 per month to \$175 per month. Benefit provisions may be amended by the School Board.

Funding Policy

The contributions to the Public Schools OPEB Trust Fund are established and may be amended by the School Board. The contributions are typically based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits. The costs of administering the plan are paid for by the Public Schools OPEB Trust Fund through the use of investment income and employer contributions. GASB Statement No. 45 requires recognition of the current expense of the plan based on each annual required contribution, but it does not require funding of the related liability.

Public Schools is a participant in the Virginia Pooled OPEB Trust Fund sponsored by the Virginia Municipal League and the Virginia Association of Counties (VML/VACo). The Virginia Pooled OPEB Trust Fund is established as an investment vehicle for participating employers to accumulate assets to fund OPEB. Plan assets for purposes of GASB Statement No. 45 are usually in the form of stocks, bonds, and other classes of investments, that have been segregated and restricted in a trust, in which (a) contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employer or plan administrator, for the payment of benefits in accordance with the terms of the plan. Further information, including financial statements, can be obtained by writing to VML/VACo Finance Program, 919 East Main Street, Suite 1100, Richmond, Virginia 23219.

Annual OPEB Cost

Public Schools' annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over an open period not to exceed thirty years.

For the year ended June 30, 2015, 2014, and 2013, Public Schools' OPEB funding progress is presented as follows:

	2015	2014	2013
ARC, for the year ended June 30	\$ 17,384,000	17,003,000	31,142,000
Interest on net OPEB asset from prior year	(1,024,000)	(1,004,000)	-
Actuarial adjustment	759,001	745,000	(9,000)
Annual OPEB cost	17,119,001	16,744,000	31,133,000
Actual contributions	(26,097,000)	(25,524,938)	(34,471,108)
(Increase) decrease in net OPEB asset, for the year ended June 30	(8,977,999)	(8,780,938)	(3,338,108)
Net OPEB obligation (asset), beginning of year	(22,173,923)	(13,392,985)	(10,054,877)
Net OPEB obligation (asset), end of year	\$ (31,151,922)	(22,173,923)	(13,392,985)
Percentage of annual OPEB cost contributed	152.44%	152.44%	110.72%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, also presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

For the fiscal years 2013 through 2015, Public Schools' OPEB funding progress is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (000) (a)	Actuarial Accrued Liability (AAL) - Entry Age (000) (b)	Unfunded AAL (UAAL) (Funding Excess) (000) (b-a)	Funded Ratio (a/b)	Covered Payroll (000) (c)	UAAL (Funding Excess) as a Percentage of Covered Payroll ((b-a) / c)
7/1/2012	\$ 53,423	\$ 448,849	\$ 395,426	11.90 %	\$ 1,045,000	37.84 %
7/1/2013	64,925	273,983	209,058	23.70	1,109,000	18.85
7/1/2014	71,192	283,680	212,488	25.03	1,153,000	18.45

Projections of benefits for financial reporting purposes are based on Public Schools' substantive plan (the plan as understood by Public Schools and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between Public Schools and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The ARC for fiscal year 2015 was determined as part of the July 1, 2013, actuarial valuation using the entry age actuarial cost method. Significant actuarial assumptions used in the valuation include certain annual health care cost trends, and a rate of return on the investment of present and future assets of 7.5 percent per year compounded annually, including an inflation component of 4.0 percent.

The actuarial value of OPEB assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. Any excess of these assets over actuarial accrued liability is amortized as a level percentage of projected payroll over an open 30 year period. The remaining amortization period is 30 years.

The Public Schools OPEB Trust Fund does not issue a stand-alone financial report and is not included in the report of a public employee retirement system or of another entity.

Concentrations

The Fairfax County Public Schools OPEB Trust Fund does not have investments (other than U.S. Government and U.S. Government guaranteed obligations) in any one organization that represent 5.0 percent or more of net position held in trust for OPEB benefits.

3. Current Plan Membership

The latest actuarial valuations for Fairfax County and Fairfax County Public Schools were July 1, 2014 and July 1, 2013, respectively. At that time membership in the reporting entity's plans is presented as follows:

	Primary Government	Component Unit - Public Schools
	OPEB	OPEB
Retirees and beneficiaries receiving benefits	4,679	9,137
Active employees	13,156	19,757
Total number of plan members	17,835	28,894

I. RISK MANAGEMENT

The reporting entity is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The County and Public Schools maintain self-insurance internal service funds for workers' compensation claims and certain property and casualty risks and for health insurance benefits. The County and Public Schools believe that it is more cost effective to manage certain risks internally rather than purchase commercial insurance. The FCRHA, Park Authority, and EDA participate in the County's self-insurance program. Participating funds and agencies are charged "premiums" which are computed based on relevant data coupled with actual loss experience applied on a retrospective basis.

Liabilities are reported in the self-insurance funds when it is probable that losses have occurred and the amounts of the losses can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported to date. Because actual claims liabilities depend on such complex factors as inflation, changes in governing laws and standards, and court awards, the process used in computing claims liabilities is reevaluated periodically, to include an annual actuarial study, to take into consideration the history, frequency and severity of recent claims and other economic and social factors. These liabilities are computed using a combination of actual claims experience and actuarially determined amounts and include any specific, incremental claim adjustment expenses and estimated recoveries. The liabilities do not include nonincremental claim adjustment expenses.

The claims liabilities in the self-insurance funds are discounted at 0.75 percent and 0.50 percent at June 30, 2015 and 2014, respectively, to reflect anticipated investment income. Changes in the balances of claims liabilities during fiscal years 2015 and 2014 are presented as follows:

	Internal Service Funds			
	Primary Government		Component Unit - Public Schools	
	Self-Insurance	Health Benefits	Insurance	Health Benefits Trust
Liability balances, June 30, 2013	\$ 47,157,000	11,522,843	34,291,320	18,894,000
Claims and changes in estimates	18,253,832	148,147,974	12,032,499	327,515,454
Claims payments	(17,337,832)	(148,607,399)	(10,318,266)	(323,085,454)
Liability balances, June 30, 2014	48,073,000	11,063,418	36,005,553	23,324,000
Claims and changes in estimates	23,153,169	157,607,523	11,832,649	343,229,129
Claims payments	(20,612,169)	(157,870,941)	(10,307,342)	(343,845,129)
Liability balances, June 30, 2015	\$ 50,614,000	10,800,000	37,530,860	22,708,000

In addition to the self-insurance program, commercial property insurance is carried for buildings and contents plus certain large and costly items, such as fire apparatus and helicopters. Excess liability and workers' compensation insurance policies are maintained for exposures above a \$1,000,000 self-insured retention (SIR) for liability and \$2,000,000 for workers' compensation. There has been one automobile liability claim settled which exceeded the liability SIR in the past three fiscal years.

J. SHORT-TERM OBLIGATIONS

In December 2013, EDA and the County entered into a master credit agreement with Bank of America, N.A., pursuant to which a revolving line of credit in an amount of up to \$100,000,000 is made available to the County to provide interim financing for projects within the County's Capital Improvement Program or other similar projects. On January 30, 2014, the County drew on the revolving line of credit in the amount of \$30,000,000 to finance the leasehold acquisition of the Lorton Workhouse Arts Center located in Lorton, Virginia. The \$30 million draw from the revolving line of credit was paid on July 29, 2014 through the issuance of Series 2014 B Bonds to permanently finance the leasehold acquisition from LAF, LLC of the Workhouse Arts Center.

The following is a summary of changes in the short-term obligations of the primary government for the year ended June 30, 2015 (in thousands):

	Balance July 1, 2014	Additions	Reductions	Balance June 30, 2015
Primary Government				
Nonmajor Governmental Funds:				
Short-term notes payable	\$ 30,000	-	(30,000)	-

K. LONG-TERM OBLIGATIONS

The following is a summary of changes in the government-wide long-term obligations of the primary government and component units for the year ended June 30, 2015 (in thousands):

	Balance June 30, 2014	Additions	Reductions	Balance June 30, 2015	Due Within One Year
Primary Government					
Governmental activities:					
General obligation bonds payable:

Park Authority					
Revenue bonds payable:					
Principal amount of bonds payable	4,800	-	(615)	4,185	630
Premium on bonds payable	571	-	(138)	433	124
Loan from primary government	12,589	-	(284)	12,305	328
Compensated absences payable	4,562	2,267	(2,374)	4,455	2,436
Total Park Authority	22,522	2,267	(3,411)	21,378	3,518
EDA					
Compensated absences payable	290	242	(224)	308	207
Unearned rent	888	-	(121)	767	141
Total EDA	1,178	242	(345)	1,075	348
Total long-term liabilities - Component units	\$ 282,217	46,141	(47,790)	280,568	68,223

Compensated absences payable, obligations under capital leases, obligation to component unit, and obligations for claims and judgments for the primary government are liquidated by the General Fund and other governmental funds. The landfill closure and postclosure obligation will be liquidated by the I-95 Refuse Disposal Fund, a special revenue fund. In addition, the County, FCRHA, Park Authority, and EDA are required to adhere to and be in compliance with the rebate and reporting requirements of the federal regulations pertaining to arbitrage investment earnings on certain bond proceeds. Trust funds have been established for the liquidation of obligations associated with pensions and other post employment benefits.

1. General Obligation Bonds

General obligation bonds are issued to provide funding for long-term capital improvements. In addition, they are issued to refund outstanding general obligation bonds when market conditions enable the County to achieve significant reductions in its debt service payments. Such bonds are direct obligations of the County, and the full faith and credit of the County are pledged as security. The County is required to submit to public referendum for authority to issue general obligation bonds.

At June 30, 2015, the amount of general obligation bonds authorized and unissued is summarized to the right (in thousands).

Bond Purpose	Amount
School improvements	\$ 391,118
Transportation improvements	157,435
Parks and park facilities	64,285
Public safety facilities	69,537
Public library facilities	25,000
Flood control	28,225
Total authorized but unissued bonds	<u>\$ 735,600</u>

The Commonwealth of Virginia does not impose a legal limit on the amount of general obligation indebtedness that the County can incur or have outstanding. The Board of Supervisors, however, has self-imposed bond limits to provide that the County's net debt may not exceed three percent of the total market value of taxable real and personal property in the County. In addition, the annual debt service may not exceed ten percent of the annual General Fund disbursements. As a financial guideline, the Board of Supervisors also follows a self-imposed limitation in total general obligation bond sales of \$1.375 billion over a five-year period or an average of \$275 million annually, with a maximum of \$300 million in any given year. All self-imposed bond limits have been complied with at June 30, 2015.

In November 2014, the County issued \$202,190,000 of Series 2014B General Obligation Public Improvement Refunding Bonds with average interest rate of 4.78 percent. The Refunding Bonds, totaling \$202,190,000 of par and \$40,845,806 of premium, were issued to current refund \$39,580,000 of outstanding Series 2004B bonds, and advance refund \$6,350,000 of outstanding Series 2005A bonds, \$23,460,000 of outstanding Series 2007A bonds, \$58,605,000 of outstanding Series 2008A bonds, \$49,875,000 of outstanding Series 2009A bonds, \$17,260,000 of outstanding Series 2011A bonds, \$5,425,000 of outstanding Series 2012A bonds, and \$20,630,000 of outstanding Series 2013A bonds. Proceeds of \$39,761,456 were used to redeem the Series 2004B bonds on November 4, 2014 and \$202,501,552 were used to purchase U.S. Government securities which were deposited in an irrevocable escrow account to provide for the resources to redeem the Series 2005A bonds on October 1, 2015, the Series 2007A bonds on April 1, 2015, the Series 2008A bonds on April 1, 2018, the Series 2009A bonds on April 1, 2019, the Series 2011A bonds on April 1, 2021, the Series 2012A bonds on April 1, 2020, and the Series 2013A on October 1, 2021. The County refunded these bonds to reduce its total debt service payments over the next twelve years by approximately \$17.3 million and to obtain an economic gain of approximately \$15.5 million.

In March 2015, the County issued \$227,340,000 of Series 2015A General Obligation Public Improvement Bonds with an average interest rate of 4.18 percent. The bonds were issued to finance projects related to school improvements, public safety, park facilities, and other purposes.

In March, 2015, the County issued \$57,070,000 of Series 2015B General Obligation Public Improvement Refunding Bonds with average interest rate of 4.40 percent interest rate. The Refunding Bonds, totaling \$57,070,000 of par and \$11,372,901 premium, were issued to advance refund \$11,720,000 of outstanding Series 2008A bonds, \$19,950,000 of outstanding Series 2009A bonds, \$17,260,000 of outstanding Series 2011A bonds, and \$10,315,000. Proceeds of \$68,204,889 were used to purchase U.S. Government securities which were deposited in an irrevocable escrow account to provide for the resources to redeem the Series 2008A on April 1, 2018, the Series 2009A on April 1, 2019, the Series 2011 on April 1, 2021, and the Series 2013A on October 1, 2021. The County refunded these bonds to reduce its total debt service payments over the next twelve years by approximately \$4.4 million and to obtain an economic gain of approximately \$3.4 million.

Detailed information regarding the general obligation bonds outstanding as of June 30, 2015, is contained in Section 5 of this note.

2. Revenue Bonds

In March 1994, the EDA issued \$116,965,000 of lease revenue bonds (Series 1994) to finance the County's acquisition of certain land and office buildings adjacent to its main government center. In October 2003, the EDA issued \$85,650,000 of lease revenue refunding bonds to advance refund \$88,405,000 of outstanding Series 1994 lease revenue bonds.

In June 2003, the EDA issued \$70,830,000 of revenue bonds to finance the development and construction of a public high school and a public golf course and related structures, facilities, and equipment in the Laurel Hill area of the southern part of the County. In April 2012, the Authority issued \$47,745,000 to advance refund a portion of the outstanding Series 2003 Laurel Hill revenue bonds.

In January 2005, the EDA issued \$60,690,000 of facilities revenue bonds to finance the acquisition of land and an existing office building to enable the Fairfax County Public Schools to consolidate numerous Public Schools administrative offices. In June 2014, the Authority issued \$44,000,000 to advance refund certain outstanding maturities of the Series 2005 facilities revenue bonds.

In March 2010, the EDA issued \$43,390,000 of lease revenue bonds to current refund the FCRHA \$3,365,000 of outstanding Series 1996 lease revenue bonds, \$2,960,000 of outstanding Series 1998 lease revenue bonds, \$835,000 of outstanding Series 1999 lease revenue bonds, and to advance refund the FCRHA \$7,245,000 of outstanding Series 2004 lease revenue bonds, and the County's \$25,580,000 of outstanding Series 2000 certificate of participation bonds.

In May 2011, the EDA issued \$205,705,000 of transportation district improvement revenue bonds (Silver Line Phase 1 Project) Series 2011 and in September 2012, the EDA issued \$42,390,000 of transportation district improvement revenue bonds (Silver Line Phase 1 Project) Series 2012 to finance a portion of the costs of the construction of the first phase of an extension of the Washington Metropolitan Area Transit Authority's mass transit system in Fairfax County.

In July 2011, the EDA issued \$99,430,000 of revenue bonds Series 2011 to finance a portion of the costs of the construction of a public parking facility on public lands within Fairfax County, Virginia, to serve the Wiehle Avenue Metrorail Station.

In May 2012, the EDA issued \$65,965,000 of revenue bonds Series 2012 to finance the improvement of certain properties to be used by Fairfax County as mental health facilities and as a neighborhood community center.

In June 2014, the EDA issued \$126,690,000 of facilities revenue bonds to finance the costs of the construction of a building to serve as a public safety facility for Fairfax County. Also in June 2014,

EDA issued \$30,175,000 of facilities revenue bonds to finance the leasehold acquisition from LAF, LLC of the Workhouse Arts Center located in Lorton, Virginia. As the County is responsible, under the related documents and subject to annual appropriation, to make payments to a trustee sufficient to pay principal and interest on these bonds, the related transactions, including the liability for the bonds, have been recorded in the County's financial statements and not in those of EDA.

In July 2003, the FCRHA issued \$2,530,000 of lease revenue bonds for the purpose of financing the construction of one Head Start facility.

In November 2007, the FCRHA issued a \$105,485,000 bond anticipation note (Series 2007B) to finance a portion of the purchase price of a multi-family rental housing property as part of the County's affordable housing initiative. In October 2008, the FCRHA issued a \$104,105,000 bond anticipation notes (Series 2008B) to repay the outstanding \$105,485,000 bond anticipation notes (Series 2007B). In August 2009, the FCRHA issued a \$94,950,000 of revenue bonds to provide funds, together with other funds, sufficient to pay the outstanding \$104,105,000 short-term bond anticipation notes (Series 2008B) that matured on October 1, 2009. The bonds bear an average interest rate of 4.53 percent and mature on October 1, 2039. As the County is responsible, under the related documents and subject to annual appropriation, to make payments to a trustee sufficient to pay principal and interest on these bonds, the related transactions, including the liability for these bonds, have been recorded in the County's financial statements and not in those of the FCRHA.

In June 2011, Community Development Authority (the "Authority") issued \$46,980,000 Revenue Bonds (Mosaic District Project) Series 2011A. In July 2011, the Authority issued \$18,670,000 Revenue Bonds (Taxable) Series 2011A-T. The bonds were issued to finance certain public infrastructure improvements within or serving the Authority district. The 2011 Bonds are limited obligations of the Authority, payable solely from and secured by a pledge of certain County Advanced Revenues and certain Special Assessment Revenues.

In November 2013, the County issued a \$11,085,000 special subfund revenue bond (the "2013 VRA Bond") to Virginia Resources Authority ("VRA"). In return for issuing the 2013 VRA Bond, VRA provided the County with a portion of the proceeds realized from its autumn 2013 pooled financing bond transaction. The 2013 VRA Bond was issued to finance renovations to a complex that serves as a senior housing and assisted living facility, a senior center, and an adult day health care center in the County. The County is obligated by a contract with VRA to pay amounts equal to the debt service on the 2013 VRA Bond.

None of these revenue bonds nor the related payment responsibilities of the County are general obligation debt of the County, and the full faith and credit of the County is not pledged to these bonds for such payment responsibility.

Detailed information regarding the revenue bonds outstanding as of June 30, 2015 is contained in Section 5 of this note.

3. Sewer Revenue Bonds

In October 2004, the Sewer System issued \$94,005,000 of Series 2004 Sewer Revenue Refunding Bonds with an average interest rate of 4.61 percent to advance refund \$91,430,000 of the outstanding Series 1996 Sewer Revenue Bonds with an average interest rate of 5.82 percent. Net proceeds of the Refunding Bond were used mostly to redeem the Series 1996 Bonds on July 15, 2006.

In June 2009, the Sewer System issued \$152,255,000 of Series 2009 Sewer Revenue Bonds with an average interest rate of 4.72 percent to fund the System's portion of upgrade costs at certain wastewater treatment facilities that are owned by, or that provide service to, the County, the purchase of additional capacity, and the costs for other system improvements.

In August 2012, the System issued \$90,710,000 of Series 2012 Sewer Revenue Bonds with an average interest rate 4.54 percent to fund upgrade costs allocable to the System at certain treatment facilities that are owned by, or that provide service to, the County, the purchase of additional capacity, and the costs for other system improvements.

In April 2014, the System issued \$61,755,000 of Series 2014 Sewer Revenue Refunding Bonds with an average interest rate of 4.14 percent to refund \$69,745,000 of the outstanding Series 2004 Sewer Revenue Refunding Bonds with an average interest rate of 4.61 percent. Net proceeds of the Refunding Bond were used mostly to redeem the Series 2004 Bonds on July 15, 2014. This refinancing resulted in the net deferred loss of \$4,045,945, which will be amortized over the next 15 periods. This refunding resulted in the aggregate decrease in the overall debt service of \$15,461,166.

As of June 30, 2015, the outstanding bonds consist of \$61,755,000 of Series 2014 Revenue Refunding Bonds, \$87,795,000 of Series 2012 Revenue Bonds, and \$139,415,000 of Series 2009 Revenue Bonds.

The aforementioned sewer revenue bonds were issued in accordance with the General Bond Resolution adopted by the Board of Supervisors on July 29, 1985, and are payable from and secured by the net revenue generated through the Sewer System's operations. Accordingly, the Master Bond Resolution includes a rate covenant under which the Sewer System agreed that it will charge reasonable rates for the use of and services rendered by the Sewer System. Furthermore, the Sewer System will adjust the rates from time to time to generate net revenues sufficient to provide an amount equal to 100 percent of its annual principal and interest requirements and the Sewer System's annual commitments to fund its proportionate share of other jurisdictions' debt service requirements. In addition, payment of the principal and interest on all bonds is insured by municipal bond insurance policies.

In January 1995, UOSA, a joint venture, issued \$288,600,000 of Regional Sewer System Revenue Bonds to finance the cost of expanding the capacity of its wastewater treatment facilities and \$42,260,000 of Regional Sewer System Revenue Refunding Bonds to refund certain outstanding bonds that had been issued to finance a prior expansion.

In December 2003, UOSA issued \$58,150,000 of Regional Sewer System Revenue Refunding Bonds to advance refund its outstanding Series 1993 bonds. In November 2004, UOSA issued \$49,395,000 of Regional Sewer System Revenue Refunding Bonds to advance refund a portion of the outstanding Series 1995 bonds.

On July 1, 2005, UOSA issued \$82,465,000 of Regional Sewer System Revenue Refunding Bonds, of which the Sewer System's share is \$53,201,198, to advance refund another portion of the outstanding Series 1995 bonds, resulting in a \$1,909,604 accounting gain, which is being amortized over the life of the Series 2005 Bonds.

In February 2007, UOSA issued \$90,315,000 of Regional Sewer System Revenue Refunding bonds, of which the Sewer System's share is \$58,265,521, to advance refund another portion of the outstanding Series 1995 Bonds, resulting in an \$83,868 accounting loss, which is amortized over the life of the Series 2007 Bonds.

In December 2007, UOSA issued \$119,715,000 of Regional Sewer System Revenue Bonds, of which the System's share is \$53,925,458, to finance the cost of expanding its wastewater treatment and conveyance facilities.

In December 2010, UOSA issued \$85,180,000 of Regional Sewer System Revenue Bonds, of which the System's share is \$34,113,615, to finance the cost of certain capital improvements.

In July 2011, UOSA entered into VRA loan 2011A to fund costs related to the Energy Service (ESCO) project. In December 2011, UOSA entered into VRA loan 2011B to fund Phase 1 of the Nutrient Compliance Improvement Project (P1NR).

In May 2013, UOSA issued \$101,615,000 of Regional Sewer System Revenue Refunding Bonds of which the System's share is \$65,555,566, to refund Series 2005 Bonds. Although the refunding resulted in an accounting loss of \$12,354,368 which is being amortized over the life of the Series 2013A Bonds, the System reduced total debt service payments over future years by approximately \$4.9 million.

In November 2013, UOSA issued \$37,735,000 of Regional Sewer System Revenue Refunding Bonds of which the System's share is \$23,911,671 to refund the outstanding Series 2003 Bonds. Although the refunding resulted in an accounting loss of \$2,520,436 which is being amortized over the life of the Series 2013B Bonds, the System reduced total interest payments over future years by approximately \$2.1 million.

In fiscal year 2015, UOSA refinanced a portion of Bond Series 2007. Of the \$112,190,980 balance, \$93,175,291 was refunded into Bond Series 2014. This resulted in a gain of \$2,029,198 which will be amortized over the next 24 years. This refunding resulted in an aggregate decrease in the overall debt service of \$6,359,189. The System's share of UOSA's total outstanding debt as of June 30, 2015, is \$265,680,629 and it is subordinate to the Sewer Revenue Bonds issued by the System.

In June 2001 and June 2002, the Sewer System issued 20-year subordinated sewer revenue bonds in the amounts of \$40,000,000 and \$50,000,000, respectively, to the Virginia Water Facilities Revolving Fund, acting by and through the Virginia Resources Authority. The proceeds have been used to finance a portion of the Sewer System's share of incurred expansion and upgrade costs of the Alexandria Sanitation Authority's wastewater treatment facilities, which provide service to certain County residents. In September 2012, the System executed a rate reduction agreement with VRA reducing the interest rates on these bonds from 4.10 percent per annum and 3.75 percent per annum, respectively, to 2.35 percent per annum and the collectively required semi-annual debt service payments from \$3,318,536 to \$3,101,638. The bonds are subordinated to all outstanding prior bond issues of the Sewer System and payments for operation and maintenance expenses. As of June 30, 2015, the outstanding principal for the 2001 and 2002 subordinated revenue bonds is \$15,534,615 and \$21,906,079 respectively.

Detailed information regarding the sewer revenue bonds outstanding as of June 30, 2015 is contained in Section 5 of this note.

4. Bond Anticipation Notes

In February 2008, the FCRHA issued a \$37,615,000 refunding bond anticipation notes to repay a portion of a 2007 short-term note that matured on February 12, 2008. The original short-term note was issued to partially finance the purchase of a multi-family rental housing complex as part of the County's affordable housing initiative. In May 2011, the FCRHA issued \$28,905,000 of bond anticipation notes to current refund \$30,215,000 of outstanding Series 2008A bond anticipation notes. In February 2013, the FCRHA issued \$24,650,000 of bond anticipations notes to current refund \$26,725,000 of outstanding Series 2011 bond anticipation notes. The note matures on

March 1, 2015. In February 2015, the County and FCRHA entered into a direct loan agreement with Bank of America, N.A. in a principal amount of \$18,260,000, which together with other County funds refinanced the 2013A bond anticipation notes. As the County is responsible, under the related documents and subject to appropriation, to pay timely the principal of and interest on the note, the related transactions, including the liability for the note, have been recorded in the County's financial

statements and not in those of the FCRHA. The note is not a general obligation debt of the County, and the full faith and credit of the County is not pledged to the note.

In December 2013, EDA and the County entered into a loan agreement with TD Bank, N.A., pursuant to which the proceeds of the loan in the amount of \$25,000,000 are made available to the County to provide financing for the costs of the planned replacement of the County-owned building subsystems such as roofs, electrical systems, HVAC, plumbing systems, carpet replacement, parking lot and garage repairs, fire alarm replacement and emergency generator replacement that have reached the end of their useful life. In March 2015, the County received an additional \$10,000,000 from TD Bank, N.A. pursuant to the loan agreement to finance additional County building improvements. The County is obligated by a contract with EDA to pay amounts equal to the debt service on the loan.

On December 17, 2014, the Economic Development Authority (EDA) utilized its revenue bond structure (Silver Line Phase II) Series 2014 to enter into a loan agreement with the United States Department of Transportation for a Transportation Infrastructure Financing and Innovation Act (TIFIA) loan in the principal amount up to \$403,274,894 (plus capitalized interest). Proceeds from the TIFIA Loan will be used to finance the County's share of Phase II of the Silver Line Metrorail expansion. The County is obligated by a contract with the EDA to pay amounts equal to debt service on the TIFIA loan. The County's obligation to make such payments is subject to the annual appropriation by the Board of Supervisors of sufficient funds for such purpose. The terms of the TIFIA Bond provide for repayment of the loan to begin October 1, 2023 and end April 1, 2046. At June 30, 2015, the outstanding principal of the TIFIA Loan was \$20,703,448.

Detailed information regarding the bond anticipation notes and notes payable outstanding as of June 30, 2015, is contained in Section 5 of this note.

5. County Debt and Related Interest to Maturity

The County's outstanding general obligation bonds, revenue bonds, notes payable, HUD Section 108 loans, Sewer System revenue bonds, and the related interest to maturity as of June 30, 2015, are comprised of the issues presented on the following pages:

Series		Interest Rate (%)	Issue Date	Final Maturity Date	Annual Principal Payments (000)	Original Issue (000)	Principal Outstanding (000)	Interest Payable to Maturity (000)	Total Principal Outstanding & Interest Payable to Maturity (000)

6. FCRHA Bonds, Notes, and Loans Payable

The FCRHA issues various debt instruments, including bonds, notes and mortgages, to finance the cost of acquisition, construction, and equipping of its workforce, senior, disabled, low income, transient, and homeless affordable housing projects. These debt instruments are usually secured by the properties being financed. Sources of permanent financing include the Federal Department of Housing and Urban Development (HUD), the Virginia Housing Development Authority (VHDA),

commercial lenders, and the County. In addition, the FCRHA maintains unsecured \$1 million tax-exempt and \$5.0 million taxable lines of credit with a commercial bank to provide interim (bridge) financing.

The table details all FCRHA bonds, notes (including a loan from the County), and loans payable as of June 30, 2015, excluding FCRHA's component units is presented as follows:

Series	Secured By	Interest Rate (%)	Issue Date	Final Maturity Date	Annual Principal Payments (000)	Original Issue (000)	Total Principal Outstanding (000)

7. Park Authority Bonds, Loans, and Notes Payable

In February 1995, the Park Authority issued \$13,870,000 of Park Facilities Revenue Bonds, Series 1995, to fund the construction of additional golf facilities for County residents and patrons. In September 2001, the Park Authority issued \$13,015,000 of Park Facilities Revenue Refunding Bonds, Series 2001, to advance refund \$11,670,000 of the outstanding Series 1995 bonds. The outstanding \$7.02 million of Revenue Bonds Series 2001 was refunded on June 5, 2013 through the Virginia Resources Authority bond sale of Series 2013, which resulted in a total debt service savings of \$1.92 million. The bonds are solely the obligation of the Park Authority and are payable from the Park Revenue Fund's revenues from operations, earnings on investments, and certain fund balance reserves.

In June 2003, the Park Authority received a \$15,530,000 loan from the County to fund the development and construction of a public golf course and related structures, facilities, and equipment to be located in the Laurel Hill area of the southern part of the County. The loan is solely the obligation of the Park Authority and is payable from the Park Revenue Fund's revenues from operations, earnings on investments, and certain fund balance reserves.

The debt service requirements to maturity for the outstanding bonds and loan at June 30, 2015, are as follows:

Fiscal Year	Revenue Bonds			Loan from Primary Government			Total	
	Int. Rate	Principal	Interest	Int. Rate	Principal	Interest	Principal	Interest
2016	4.12	\$ 630,000	171,088	5.00	327,900	473,094	957,900	644,182

8. Conduit Debt Obligations

The FCRHA is empowered by the Commonwealth of Virginia to issue tax-exempt bonds on behalf of qualified businesses to develop or rehabilitate low income housing within the County. Principal and interest on the tax-exempt bonds are paid entirely by the owners of the properties, who have entered into binding contracts to develop or rehabilitate the subject properties. The terms of the tax-exempt bonds stipulate that neither the FCRHA nor the County guarantees the repayment of principal and interest to the bondholders. A bondholder's sole recourse in the event of default on the tax-exempt bonds is to the subject property and third-party beneficiaries. Accordingly, these bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2015, approximately \$27.1 million of such tax-exempt bonds that are still outstanding.

The EDA is empowered by the Commonwealth of Virginia to issue Industrial Revenue Bonds (IRBs) on behalf of businesses relocating and/or expanding their operations within the County. Principal and interest on the IRBs are paid entirely by the businesses. The terms of the IRBs stipulate that neither the EDA nor the County guarantees the repayment of principal and interest to the bondholders. Accordingly, these bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2015, the cumulative amount of all IRBs outstanding was \$573,060,099.

In October 2003, August 2004, March 2007, and July 2008, EDA issued \$33,375,000, \$57,410,000, \$41,505,000, and \$51,505,000, respectively, of transportation contract revenue bonds on behalf of the State Route 28 Transportation Improvement District for the purpose of financing a portion of the costs of constructing certain improvements to State Route 28 in the County and in Loudoun County, Virginia. In May 2012, the EDA issued \$86,275,000 of transportation contract revenue refunding bonds on behalf of the State Route 28 Transportation Improvement District to advance refund \$29,285,000 of outstanding Series 2003 bonds and \$52,755,000 of outstanding Series 2004 bonds. These bonds are payable primarily from a limited ad valorem real property tax levied by the counties on property owners in the District. The bonds are secured by a reserve subfund, and each County has agreed to cure one-half of any deficiency in the reserve subfund. As neither the EDA nor the Counties are responsible to make principal or interest payments on the bonds, neither reports the liability for the bonds. Rather, this liability for debt service payments on the bonds rests with the State Route 28 Highway Transportation Improvement District. At June 30, 2015, the total outstanding principal amount of these transportation contract revenue bonds outstanding was \$173,855,000.

In December 2005, the Park Authority issued two notes totaling \$12.9 million to finance the acquisition of a permanent conservation easement. As the County is responsible, under the related documents and subject to appropriation, to pay the principal and interest on the notes, the related transactions, including the liability for the notes, have been recorded in the County's financial statements and not in those of the Park Authority. The notes are not general obligation debt of the County, and the full faith and credit of the County is not pledged to the notes. As of June 30, 2015, \$6.8 million of these notes are outstanding.

9. Debt Guarantee

In 1989 and 1990, EDA issued \$26,765,000 of parking revenue bonds to finance construction of parking structures near the Vienna Metrorail Station and the Huntington Metrorail Station in the County. All obligations relating to the construction of such parking structures have now been paid. EDA issued \$25,735,000 in bonds on November 10, 1999, to finance a second parking structure at the Vienna Metrorail Station. In August 2005, EDA issued \$18,695,000 in bonds to refund all of the callable 1999 parking revenue bonds. The parking revenue bonds are payable under a lease with the WMATA from revenues to be derived by WMATA from parking surcharges at these and other parking facilities in the County. In the event such revenues are not sufficient to pay debt service on the

parking revenue bonds and under certain other conditions, the County is, in effect, obligated, subject to annual appropriation by its Board of Supervisors, to make payments to EDA sufficient to pay such debt service. As of June 30, 2015, \$10,920,000 of such bonds remain outstanding.

10. Defeasance of Debt

During the fiscal year, the County has defeased certain outstanding bonds by placing the proceeds of newly issued bonds in an irrevocable escrow fund to provide for all future debt service payments on the old bonds. Accordingly, the escrow fund assets and the liabilities for the defeased bonds are not included in the financial statements. As of June 30, 2015, the outstanding bonds considered defeased but not yet redeemed are \$327.1 million in general obligation bonds.

11. Sanitary Landfill Closure and Postclosure Obligation

State and federal laws require the County to place a final cover on its I-95 Sanitary Landfill when it stops accepting solid waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. The existing Municipal Solid Waste unit stopped accepting waste on December 31, 1995 and the placement of the final closure cap was completed during 2008. The ash disposal unit continues to accept incinerator ash from the waste to energy facilities and the Norman Cole Pollution Prevention Plant. Closure expenditures have been incurred for approximately 70 percent of the total area involved. The County holds permits that allow it to continue using the landfill until approximately 2042.

The \$70.2 million reported as the landfill closure and post closure obligation at June 30, 2015, represents the total estimated cost remaining to be incurred based on landfill capacity used to date. The actual cost may vary due to inflation, changes in technology, or changes in regulations. It is expected that the landfill closure and post closure care costs will be funded from existing resources in the I-95 Refuse Disposal Fund.

12. Obligations Under Capital Leases and Installment Purchases

The reporting entity has financed the acquisition of certain capital assets, including a satellite government center, buses, computer equipment, copier machines, and trailers, by entering into capital lease and installment purchase agreements. The balance of capital assets, net, and the minimum obligations under these capital lease and installment purchase agreements as of June 30, 2015, are presented on the following page.

Asset Class	Primary Government - Governmental Activities	Component Unit - Public Schools
Land	\$ -	6,000,000

Portion representing interest	(2,161,190)	(27,071,138)
Present value of minimum obligations	\$ 23,218,230	79,528,945

The County is the lessor in a direct financing lease with Public Schools for an administrative office building and related land. The lease is structured so that Public Schools will make annual lease payments over 30 years equal to the County's required debt service payments on the Series 2005 Facilities Revenue Bonds (see Note K-2). The County will transfer ownership of the building to Public Schools once all the lease obligations are satisfied. The total future minimum lease payments receivable is \$44.0 million and unearned revenue in the amount of \$44.0 million is reported. Minimum lease payments for each of the five succeeding fiscal years are \$1,375,000; \$1,415,000; \$1,470,000; \$1,530,000 and \$1,600,000 respectively.

L. LONG-TERM COMMITMENTS

1. Washington Metropolitan Area Transit Authority (WMATA)

The County's commitments to WMATA are comprised of agreements to make capital contributions for the construction of rail lines and for the acquisition, replacement, and renovation of transit equipment and facilities and to provide operating subsidies for its rail, bus, and paratransit systems. The County's commitments in each of these areas are summarized as follows:

Capital Contributions – Transit Equipment and Facilities

Each fiscal year, the County and other local jurisdictions make contributions for WMATA's acquisition, replacement, and rehabilitation of transit equipment and facilities and for the debt service on federally guaranteed transit revenue bonds issued by WMATA. The County's obligation of approximately \$41.9 million for fiscal year 2015 was funded with \$26.8 million of County general

obligation bond proceeds, and \$15.1 million of state aid provided through the Northern Virginia Transportation Commission (NVTC). It is anticipated that the County's obligation for fiscal year 2016 will amount to \$26.8 million and be funded with \$9.4 million of state aid provided through the NVTC, and \$17.4 million of County general obligation bond proceeds.

Operating Subsidies

The County and other local jurisdictions contribute annually toward WMATA's deficits resulting from the operation of its rail, bus, and paratransit systems. For fiscal year 2015, the County's obligation of approximately \$103.9 million for operating subsidies was funded with \$9.4 million from the County's Metro Operations and Construction Fund, \$94.6 million from state aid and regional gasoline tax receipts provided through the NVTC. It is anticipated that the County's obligation for fiscal year 2015 will amount to \$118.1 million and be funded with \$102.6 million of state aid and regional gasoline tax receipts provided through the NVTC and \$15.5 million of County funds.

The state aid discussed in both Capital Contributions and Operating subsidies is shown passing through the County and Regional Transportation Projects Fund., but is transmitted to NVTC directly from the Commonwealth.

2. Virginia Railway Express (VRE)

The County, as a member of the NVTC and in cooperation with the Potomac and Rappahannock Transportation Commission (PRTC), is a participating jurisdiction in the operation of the VRE commuter rail service. The service primarily consists of rush hour trips originating from Manassas, Virginia and from Fredericksburg, Virginia to Union Station in Washington, DC. There are five stations in Fairfax County.

In October 1989, the Board of Supervisors of Fairfax County approved the Commuter Rail Master Agreement and financial plans. These have subsequently been amended to reflect voting criteria for member jurisdictions, new member requirements, and fairness in the subsidy allocation formula which took effect for fiscal year 2008. The Board approved this Amended Master Agreement on September 10, 2007. The Amended Master Agreement requires the County to contribute to capital, operating, and debt service costs of the VRE on a pro rata basis according to its share of ridership. The County's fiscal year 2015 contribution to the VRE was \$4.9 million.

3. Operating Lease Commitments

The County, Public Schools, and the EDA have entered into various long-term lease agreements for real estate and equipment. Certain real estate leases contain provisions which allow for increased rentals based upon increases in real estate taxes and the Consumer Price Index. All lease obligations are contingent upon the Board

Fiscal Year	Primary Government	Component Units	
	Governmental Activities	Public Schools	EDA
2016	\$ 17,436,018	5,269,757	754,273
2017	15,846,447	4,797,862	775,047
2018	15,219,067	4,940,772	796,263
2019	12,984,845	5,085,898	818,142
2020	5,577,000	5,237,176	280,228
2021-2025	7,340,881	5,393,261	-
2026-2030	3,555,481	-	-
2031-2035	1,234,422	-	-
2036-2040	1,012,029	-	-
Total	\$ 80,206,190	30,724,726	3,423,953

of Supervisors appropriating funds for each fiscal year's payments. For fiscal year 2015, the County's, Public Schools', and EDA's total expenditures for these operating leases were \$18.4 million, \$4.7 million, and \$0.7 million, respectively. At June 30, 2015, the minimum long-term lease commitments accounted for as operating leases were as shown:

4. Intermunicipal Agreements

City of Alexandria, Virginia, Renew Enterprises

The Sewer System is obligated under an agreement with the City of Alexandria, Virginia, Renew Enterprises (ARE) to share the construction and operating costs and debt service requirements for its sewage treatment facility. Currently, the Sewer System has a capacity entitlement of 32.4 MGD, which is 60 percent of the facility's total capacity of 54 MGD. The Sewer System is allowed only one non-voting representative at the meetings of the ARE and has no significant influence in the management of the treatment facility. In addition, the Sewer System has no direct ongoing equity interest in the assets or liabilities of the ARE.

The ARE facility is currently undergoing major improvements to meet new water quality standards. The Sewer System paid ARE \$23.5 million for purchase capacity in fiscal year 2015, to fund its share of construction costs, and it estimates its share of the remaining construction costs to be \$110.1 million of which \$23.5 million, is expected to be incurred in fiscal year 2016 and the balance over fiscal years 2017 to 2025. In addition, the Sewer System made payments of \$13.4 million to the ARE during fiscal year 2015 for its share of the ARE's operating costs.

District of Columbia Water and Sewer Authority

The Sewer System is obligated under an intermunicipal agreement between the County; the District of Columbia (District); District of Columbia Water and Sewer Authority (DC Water); Montgomery County, Maryland; Prince George's County, Maryland; and the Washington Suburban Sanitary Commission to share the construction and operating costs of the Blue Plains Wastewater Treatment Plant, which is operated by DC Water. Currently, the Sewer System has a capacity entitlement of 31 MGD, which is approximately 8.4 percent of the Plant's total capacity of 370 MGD. DC Water has a Board of Directors comprised of six members from the District, two each from Montgomery and Prince George's Counties, and one from the County. The County has no significant control over plant operations and construction and no ownership interest in the assets of DC Water.

The Blue Plains Plant is currently undergoing a major renovation of its chemical additions and sludge disposal systems. The Sewer System paid DC Water \$26.2 million for purchase capacity during fiscal year 2015 to fund its share of construction costs, and it estimates its share of the remaining construction costs to be \$93.1 million, of which \$15.7 million is expected to be incurred in fiscal year 2016 and the balance over fiscal years 2017 to 2025. In addition, the Sewer System made payments of \$15.0 million for contractual services to DC Water during fiscal year 2015 for its share of the Plant's operating costs.

Upper Occoquan Sewage Authority

As described in Note A, UOSA is a joint venture created under the provisions of the Virginia Water and Waste Authorities Act to be the single regional entity to construct, finance, and operate the regional sewage treatment facility for the upper portion of the Occoquan Watershed. The Sewer System's allocated share of the UOSA plant's total capacity of 54.0 MGD is 22.6 MGD, or approximately 42 percent.

UOSA's current operating expenses, construction costs, and annual debt service payments are funded by each of the participating jurisdictions based on their allocated capacity, with certain modifications. The Sewer System made contractual service payments to UOSA in fiscal year 2015 of \$12.7 million to pay its share of UOSA's operating costs.

Summarized UOSA financial information as of and for the years ended June 30, 2014, and 2013 (the most recent audited financial information available), is shown below:

	2014	2013
Total assets	\$ 616,213,701	627,740,768
Deferred outflows of resources	8,642,846	10,636,054
Total liabilities	(539,636,065)	(548,166,869)
Net position	\$ 85,220,482	90,209,953
Operating revenues	\$ 28,140,951	26,918,771
Operating expenses	(52,692,746)	(49,846,103)
Nonoperating revenues, net	4,722,304	4,011,892
Capital contributions	14,840,020	12,369,757
Increase (decrease) in net position	\$ (4,989,471)	(6,545,683)

Arlington County, Virginia

The Sewer System is obligated under an agreement with Arlington County, Virginia, to share the construction and operating costs of the sewage treatment facility owned and operated by Arlington County. Currently, the Sewer System has a capacity entitlement of 3 MGD, which is 7.5 percent of the facility's total capacity of 40 MGD. The Sewer System has no significant influence over the management of the treatment facility. In addition, the Sewer System has no direct on-going equity interest in the facility's assets and liabilities.

The Arlington facility is currently undergoing a major upgrade to meet new water quality standards. The Sewer System paid Arlington \$34,227 in fiscal year 2015 to fund its share of the construction costs, and it estimates its share of the remaining construction costs to be \$6.5 million, of which \$1.5 million is expected to be incurred in fiscal year 2016 and the balance over fiscal years 2017 to 2025. In addition, the Sewer System made payments of \$2.7 million for contractual services to Arlington during fiscal year 2015 for its share of Arlington's operating costs.

Loudoun County, Virginia

The Sewer System is obligated under an agreement with Loudoun County, Virginia, to share the construction and operating costs and debt service requirements for the sewage treatment facility owned and operated by Loudoun Water. Currently, the Sewer System has a capacity entitlement of 1.0 MGD, which is 9.0 percent of the facility's total capacity of 11 MGD. The Sewer System has no significant influence over the management of the treatment facility. Furthermore, the Sewer System has no direct on-going equity interest in the facility's assets and liabilities.

The System did not pay any operating cost to Loudoun Water in fiscal year 2015. The System will incur operating costs once it starts to deliver flows to Loudoun Water's facilities which is not expected to start in fiscal year 2016.

5. Long-term Contracts

At June 30, 2015, the primary government had contractual commitments of \$152,416,159 in the capital projects funds and \$20,183,000 in the Sewer System for construction of various sewer projects. At June 30, 2015, the component units had contractual commitments of \$170,564,459 and

\$7,516,010 in the capital projects funds of the Public Schools and the Park Authority, respectively, for construction of various projects.

M. CONTINGENT LIABILITIES

The County is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operations. Although the outcome of these matters is not presently determinable, in the opinion of County management, the resolution of these matters will not have a material adverse effect on the County's financial condition.

The County receives grant funds, principally from the federal government, which benefit programs across many functional areas. Certain expenditures of these funds are subject to audit by the grantor, and the County is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of County management, no material refunds will be required as a result of expenditures disallowed by the grantors.

N. IMPLEMENTATION OF NEW ACCOUNTING PRONOUNCEMENTS

In Fiscal Year 2015, the County implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*, and GASB Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date*. Statement No. 68 establishes the standards for accounting and reporting regarding employee pension plans including the recognition and measurement of liabilities, deferred inflows and outflows, expenses and expenditures. Statement No. 71 specifies the treatment of contributions made subsequent to the liability measurement date in the year of implementation.

Statement 68 represents a significant change in reporting and disclosure requirements for pension plans. Information previously discussed in the note disclosures will now be shown on the face of the financial statements. Under GASB 27, the information regarding pension assets or obligations was based on funding information. This has been replaced with the Net Pension Liability information, which represents the actuarially calculated amount of liability associated with the pension benefits accrued by current and former Employees of the County and component units of the County. The liability is presented net of the fiduciary net position of the pension trust funds.

Certain estimates and assumption are involved with the calculation and actual results may differ. The impact of the differences between the estimates and actual results are presented as deferred inflows or deferred outflows of resources. These will be applied in the calculation of pension expense and impact the liability over time, to reduce the volatility created from items such as investment performance.

As a result of this change in accounting standards, net position as of July 1, 2014 has been restated to remove the net pension obligation, and to establish a net pension liability and a deferred outflow of resources associated with contributions made after the measurement date. Measurement date for the 2014 balances was June 30, 2013.

To facilitate the implementation of this change in accounting requirements, adjusted July 1, 2014 Statement of Net position balances are presented on the following page:

	2014 Total net position	Eliminate Net Pension Obligation	Include Net Pension Liability	Deferred Outflow-Contributions made after the measurement date	2014 net position, as adjusted
Governmental Activities	\$ 344,516,235	134,969,399	(1,465,509,701)	173,000,695	(813,023,372)

COUNTY OF FAIRFAX, VIRGINIA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2015

A. BUDGETARY DATA

The Board of Supervisors adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- a. By March 1, the County Executive submits to the Board of Supervisors a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them. During April, public hearings are conducted to obtain taxpayer comments. By May 1, the budget is legally enacted through passage of an appropriation resolution.
- b. The operating budget includes all County appropriated funds and certain non-appropriated funds. The non-appropriated funds include certain funds of the Park Authority and the FCRHA that are not financed by the County.
- c. Budget reviews are held during the fiscal year. Public hearings are held if the recommended increase in the appropriated budget is greater than one percent of expenditures.
- d. The budget is controlled at certain legal and administrative levels. The Code of Virginia requires that the County annually adopt a balanced budget. The adopted Fiscal Planning Resolution places legal restrictions on expenditures at the agency (e.g., County organizations in the General Fund) or fund level and identifies administrative controls at the character (i.e., personnel services, operating expenses, recovered costs, and capital equipment) or project level. The County's Department of Management and Budget is authorized to transfer budgeted amounts between characters or projects within any agency or fund as a management function. Any revisions that alter the total expenditures of any agency or fund must be approved by the Board of Supervisors.
- e. Annual operating budgets are adopted for all appropriated governmental funds, except for the capital projects funds in which budgetary control is achieved on a project-by-project basis. The budgets are on a basis consistent with GAAP for the General Fund, except that:
 - Certain purchase order transactions that qualify as current expenditures under GAAP, are not recognized as expenditures in the current budget due to the timing of the receipt of goods or services.
 - Offsetting revenues and expenditures related to donated food are not budgeted.
 - Capital lease transactions when initiated are not budgeted as offsetting expenditures and other financing sources.
 - Certain capital outlays are budgeted as functional expenditures.
 - Payments from or to component units are budgeted as transfers rather than functional revenues and expenditures.
 - Inventories of supplies are not included in the fund balance for budget purposes.
 - Nondepartmental expenditures are reported for budgeting purposes, but are included in functional expenditures for reporting purposes.

- The Gift Fund, which is included in the County's General Fund for reporting purposes, is treated as an agency fund for budgeting purposes.
- The Information Technology Fund, Consolidated Community Funding Pool Fund and the Contributory Fund, which are included in the County's General Fund for reporting purposes, are budgeted as separate funds.

The following schedule reconciles the amounts on the Budgetary Comparison Schedule – General Fund (Budget Basis) to the amounts on the Statement of Revenues, Expenditures, and Changes in Fund Balances (Exhibit A-3):

	Primary Government General Fund
Net change in fund balance (Budget basis)	\$ 19,090,622
Timing difference - Purchase expenditures	73,337
Interfund differences - Fringe benefits	(173,562)
Perspective differences:	
The Gift Fund and NOVARIS are treated as a separate fund for budget purposes	(316,459)
The Consolidated Community Funding Pool Fund is treated as a separate fund for budget purposes	76,050
The Contributory Fund is treated as a separate fund for budget purposes	(23,070)
The Information Technology Fund is treated as a separate fund for budget purposes	4,390,800
Net change in fund balance (GAAP basis)	\$ 23,117,718

- f. Original and final budgeted amounts are shown on the Budgetary Comparison Schedule; amendments were not significant in relation to the original budget.
- g. Appropriations lapse at June 30 unless the Board of Supervisors approves carrying them forward to the next fiscal year.

B. PENSION TREND DATA

Ten-year historical trend information of the retirement systems administered by the reporting entity is presented as required supplementary information. This information is intended to help users assess each system's funding status on a going concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employee retirement systems.

Analysis of the dollar amounts of plan fiduciary net position, total pension liability, and net pension liability in isolation can be misleading. Expressing plan net position as a percentage of the total pension liability provides one indication of each system's funding status. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage is, the stronger the system. Trends in the net pension liability and covered employee payroll are both affected by inflation. Expressing the net pension liability as a percentage of covered employee payroll approximately adjusts for the effects of inflation and aids in the analysis of the system's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller the percentage is, the stronger the system.

The Schedule of Changes in Net Pension Liability and Related Ratios illustrates whether each plan's net position is increasing or decreasing over time relative to the total pension liability, and the net pension liability as it relates to covered employee payroll.

The Schedule of Employer Contributions provides historical context for the amount of contributions in the current period. The actuarially determined contribution rates are calculated as of June 30, one year prior to the beginning of the fiscal year in which contributions are reported. Significant methods and assumptions used to determine the contributions for County administered systems include:

Actuarial cost method	Entry Age Normal
Asset valuation method	3-year smoothed market
Amortization method	Corridor method, amortize liability outside of 90 % corridor over an open 15 year period with level percentage of payroll. In fiscal year 2011 through 2014, the target was increased to a 91 % level.
Discount rate	7.5%
Amortization growth rate	3.0%
Price inflation	3.0%
Salary increases	3.0% plus merit component based on employee's years of service
Mortality	Sex distinct RP-2000 combined mortality projected to 2015 using Scale AA

Information pertaining to the retirement systems administered by the reporting entity can be found in Note G to the financial statements.

C. OTHER POST-EMPLOYMENT BENEFITS (OPEB) TREND DATA

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Information pertaining to the OPEB plans administered by the reporting entity can be found in Note H to the financial statements.

Other

Supplementary Information

The Other Supplementary Information subsection includes the combining and individual fund statements and schedules for the following:

- Governmental Funds
- Internal Service Funds
- Fiduciary Funds
- Capital Assets
- Component Units:
 - Fairfax County Public Schools
 - Fairfax County Redevelopment and Housing Authority
 - Fairfax County Park Authority
 - Fairfax County Economic Development Authority

The **General Fund** is used to account for all revenues and expenditures of the County, which are not required to be accounted for in other funds.

Revenues are derived primarily from real estate and personal property taxes, local sales taxes, utility taxes, business, professional and occupational license taxes, the use of money and property, license and permit fees, and state shared taxes.

Expenditures and transfers out include the costs of the general County government and transfers to component units and other funds, principally made to fund the operations of the Public Schools, and the debt service requirements of the County and Public Schools.

The General Fund Group contains funds which are included in the General Fund for GAAP reporting purposes, but are budgeted separately. Prior to fiscal year 2015, these funds were included in the budget as special revenue funds:

Consolidated Community Funding Pool Fund is used to account for money awarded to community-based nonprofit organizations on a competitive basis to provide certain services to County citizens.

Contributory Fund is used to account for money awarded to certain contributory organizations to provide human services to County citizens.

Northern Virginia Regional Identification System (NOVARIS) is used to account for contributions received from the County and six other participating Northern Virginia jurisdictions to enhance the Northern Virginia Regional Identification System. Program operations are decentralized among the participating Northern Virginia jurisdictions.

Information Technology Fund is used to account for the acquisition of computer hardware and software for information technology projects which are designed to improve the County's management information system, its operational efficiency, and customer service.

The **Special Revenue Funds** are used to account for the proceeds of specific revenue sources (other than bond proceeds for major capital projects) that are legally restricted to expenditures for specified purposes.

County Transit Systems Fund is used to account for the operation of a bus service, known as the Fairfax Connector, to transport citizens in certain parts of the County to and from WMATA's rail stations and for the County's contributions to the Virginia Railway Express commuter rail service.

Dulles Rail Phase I Transportation Improvement District Fund is used to account for the charges to property owners within the Phase I District to support the debt service payments for bonds issued to fund the County's share of certain transportation improvements in the District.

Dulles Rail Phase II Transportation Improvement District Fund is used to account for the charges to property owners within the Phase II District to support the debt service payments for bonds to be issued. These bonds fund the County's share of certain transportation improvements in the District.

County and Regional Transportation Projects is used to account for the special tax assessed on commercial and industrial real estate in Fairfax County to support opportunities to improve transportation and pedestrian access. The tax revenues support roadway, pedestrian, and transit projects.

Tysons Service District Fund is used to account for the special tax assessed on commercial and residential real estate in Fairfax County Tysons Service District. These revenues provide the District's share of funding for transportation infrastructure improvements in Tysons.

Metrorail Parking System Pledged Revenue Fund is used to collect and disburse funds related to revenue-generating activities at Metrorail parking facilities owned by and located within the County. These funds will be earned from fees paid at these parking facilities and used to pay operating, maintenance and debt expenses of the facilities.

Federal/State Grant Fund is used to account for the utilization of federal and state funds to assist County citizens.

Cable Communications Fund is used to account for costs associated with monitoring the County's Cable Communications Ordinance and Franchise Agreement as well as providing programming for the County's Governmental Access Channel. Its primary source of revenue is franchise fees.

Fairfax-Falls Church Community Services Board Fund is used to account for mental health, intellectual disability, and alcohol and drug services to individuals and families in Fairfax County, and the Cities of Fairfax and Falls Church.

Reston Community Center Fund is used to account for the operation of a community center serving the residents of Small District Five, located within the Hunter Mill Magisterial Districts. The district's residents support the fund by payment of a special assessment.

Mosaic Community Development Authority (CDA) Fund is the general fund of the CDA. The CDA was established as a separate corporate entity and all operational aspects are handled by administrators and trustees outside the County. This fund is not an appropriated fund within the operating budget. Thus, there is no budgetary comparison schedule for this fund. The Authority is funded through a special assessment on property located within the district.

McLean Community Center Fund is used to account for the operation of a community center serving the residents of Small District One, located within the Dranesville Magisterial District. The district's residents support the fund by payment of a special assessment.

Burgundy Village Community Center Fund is used to account for the operation of a community center serving the residents of Service District 1A, located within the Lee Magisterial District. The district's residents support the fund by payment of a special assessment.

E-911 Fund is used to account for the operation of a 911 emergency response service for the citizens of the County, including related information technology projects.

Integrated Pest Management Program Fund is used to account for detection, abatement, and public information programs to suppress gypsy moth and cankerworm insect populations in the County.

Stormwater Services Fund is used to account for the operation of the Stormwater Management Program. The operating requirements and stormwater capital projects are supported by the stormwater service district levy.

Leaf Collection Fund is used to account for the collection and disposal of leaves from residences and businesses located within designated districts. These districts' residents and businesses support the fund by payment of a special assessment.

Refuse Collection and Recycling Operations Fund is used to account for the collection of refuse in designated districts and from all County departments and also accounts for the operation of the County's solid waste reduction and recycling centers.

Refuse Disposal Fund is used to account for the operation of a transfer station to receive refuse collected throughout the County and channel it to either the Energy Resource Recovery Facility (incinerator) or a landfill.

Energy Resource Recovery Facility Fund is used to account for the operation of a mass burn waste to energy facility, by a private contractor, used to burn refuse collected throughout the County and received from certain other local jurisdictions. The sale of electricity generated by the facility is a source of revenue for this fund.

I-95 Refuse Disposal Fund is used to account for the operation of a landfill which is now only used for disposal of ash generated by certain local incinerators.

Community Development Block Grant Fund is used to account for programs to upgrade low and moderate income neighborhoods through the provision of public facilities, home improvements, and public services.

Housing Trust Fund is used to account for the promotion of housing for low and moderate income individuals in the County by providing low cost debt and equity capital in the form of loans, grants, and equity contributions.

HOME Investment Partnership Grant Fund is used to account for affordable housing programs involving acquisition, rehabilitation, new construction, and tenant-based rental assistance.

Alcohol Safety Action Program Fund is used to account for programs to reduce the incidence of driving under the influence (DUI) of alcohol through rehabilitative alcohol/drug education, case management of DUI defendants, referral to alcohol/drug treatment programs and public information. This fund is solely fee supported and is not an appropriated fund within the operating budget. Thus, there is no budgetary comparison schedule for this fund.

The **Capital Projects Funds** are used to account for financial resources used for all general County construction projects other than enterprise fund construction.

Contributed Roadway Improvement Fund is used to account for contributions received from developers to fund specific projects in various growth areas of the County.

Library Construction Fund is used to account for design and construction of new County libraries, renovations of existing facilities, and capital equipment expenditures authorized by voter referendum. Projects are funded from the sale of bonds.

County Construction Fund is used to account for renovations, maintenance, and on-going initiatives involving County, FCPA, and FCPS properties. Projects are funded from a variety of sources including, but not limited to the General Fund, aid from the State, and the sale of bonds.

Capital Renewal Construction Fund is used to account for the planned replacement of County government building subsystems such as roofs, electrical systems, HVAC systems, and plumbing systems that have reached the end of their useful life cycle. Projects are funded by the General Fund.

Transportation Improvements Fund is used to account for road construction and repair authorized by voter referendum. Projects are funded primarily from the sale of bonds. Other sources of funding are developers' contributions and transfers from other funds.

Pedestrian Walkway Improvements Fund is used to account for the design and construction of sidewalks to provide safe walking conditions for public school students. The program is undertaken in cooperation with the Public School system and generally involves projects which link residential areas and public schools. Projects are funded by the General Fund.

Metro Operations and Construction Fund is used to account for subsidies to the Washington Metropolitan Area Transit Authority for Metrobus/Metrorail operations and Metrorail construction. The cost of the operations and construction is shared by all local jurisdictions in the Washington, D.C. metropolitan area.

Public Safety Construction Fund is used to account for the funding of public safety projects, including the design and construction of fire stations, police stations, and the Public Safety Academy. Projects are funded by the sale of bonds.

Commercial Revitalization Program Fund is used to account for the development and revitalization of commercial centers. The improvements financed through the program include moving utilities underground, sidewalk construction, street lighting, tree planting, and other pedestrian amenities. Projects are funded by the sale of bonds.

Pro Rata Drainage Construction Fund is used to account for storm drainage projects in accordance with the Pro Rata Share Program approved by the Board of Supervisors on December 16, 1991. Under this program, funding is obtained from land developers who pay a pro rata share of the total estimated cost of necessary storm drainage improvements.

Housing Assistance Program Fund is used to account for the development of low and moderate income housing and the support of public improvement projects in low and moderate income neighborhoods.

The Penny for Affordable Housing Fund is used to account for the planned allocation of funding by the Board of Supervisors to prioritize and monitor affordable housing preservation initiatives. Projects are funded by the amount dedicated by the Board; original method to determine the amount of dedication was the value of one penny of the real estate tax rate.

The **Internal Service Funds** are used to account for the financing of goods or services provided by a department to another department on a cost reimbursement basis.

Vehicle Services Fund is used to account for the acquisition of certain motor vehicles and the costs associated with the operation thereof by various departments of the reporting entity.

Self-Insurance Fund is used to account for the costs associated with providing coverage to the County for losses related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and citizens, and natural disasters; with managing claims pertaining thereto; and with operating various loss-prevention, safety, and rehabilitation programs.

Document Services Fund is used to account for the costs associated with providing printing, copying, and micrographic services to various departments of the reporting entity.

Technology Infrastructure Services Fund is used to account for the costs associated with providing data center and network services to County departments through the operation and maintenance of a mainframe computer, data communications equipment, and radio networks.

Health Benefits Fund is used to account for the provision of a comprehensive health insurance benefits program to County employees.

The **Fiduciary Funds** are used to account for assets held by the County in a trustee or agency capacity and include the pension trust funds and agency funds. Pension trust funds account for assets held by the County under terms of a formal trust agreement. Agency funds are custodial in nature and are maintained to account for funds received and disbursed by the County on behalf of various organizations.

Pension Trust Funds are used to account for employee retirement systems that provide pension benefits for various classes of County employees. The County maintains three employee retirement funds: the Uniformed Retirement Fund, the Employees' Retirement Fund, and the Police Officers Retirement Fund.

OPEB Trust Fund is used to account for the costs of other post-employment benefits, including health care, life insurance, and other non-pension benefits offered to retirees. The establishment of a trust fund allows the County to capture long-term investment returns, make progress towards reducing the unfunded actuarial liability, and pre-fund the cost of post-employment health care and other non-pension benefits.

Sanitary Reimbursement Fund is an agency fund used to account for the collection of contributions from beneficiary developers toward the construction of major sewer lines and the reimbursement of these funds to the primary developers.

Special Welfare Fund is an agency fund used to account for regular assistance payments to recipients in the Aid to Dependent Children Program. These funds include money from the State, individuals, organizations, and churches.

State Taxes Fund is an agency fund used to account for the collection of sheriff's fees and the subsequent remittances to the Commonwealth of Virginia.

Route 28 Fund is an agency fund used to account for the collection of assessments on certain industrial and commercial properties for transportation improvements to Route 28 and the subsequent remittances of these funds to the Commonwealth of Virginia.

Lake Barcroft Fund is an agency fund used to account for the collection of special assessments from certain property owners for the maintenance of Lake Barcroft and the subsequent remittances of these funds to the Commonwealth of Virginia.

Friends of Library Fund is an agency fund used to account for the collection and reimbursement of Friends of Library's portion of book sale proceeds.

Fairfax County Public Schools (Public Schools) is responsible for elementary and secondary education within the County. The School Board is elected by County voters. Public Schools is fiscally dependent on the County in that its operations are funded primarily by payments from the County's General Fund, and the County issues general obligation debt to fund Public Schools capital projects.

General Fund is used to account for expenditures to operate, maintain, and support Public Schools' programs. Its primary sources of revenues are Federal and State Aid and payments from the County's General Fund.

Capital Projects Fund is used to account for the renovation, expansion, and new construction of school facilities as authorized by voter referendum and for other capital expenditures. Projects are funded primarily by proceeds from the sale of County general obligation bonds.

Food and Nutrition Services Fund is a special revenue fund used to account for the provision of student breakfasts, snacks, and lunches. Primary sources of revenues are Federal and State Aid and receipts from food sales.

Grants and Self-Supporting Programs Fund is a special revenue fund used to account for federal, state, non-profit, and private industry grants that support the Instructional Services, Student Services, Special Education, and Information Technology programs.

Adult and Community Education Fund is a special revenue fund used to account for programs pertaining to basic skills education, high school completion, English as a second language, apprenticeship and occupation skills instruction, family literacy, driver education, SAT preparation, and business contracts.

Central Procurement Fund is an internal service fund used to account for the centrally procured orders of textbooks, supplies, and equipment and their issuance to individual schools and offices.

Health Benefits Trust Fund is an internal service fund used to account for the provision of a comprehensive health insurance benefits program to Public Schools' employees.

Insurance Fund is an internal service fund that is used to account for the Public Schools' casualty liability obligations, including the provision of worker's compensation benefits in the form of medical and disability payments to Public Schools' employees who sustain occupational injuries.

Pension Trust Fund is used to account for the Educational Employees' Supplementary Retirement System, which provides pension benefits for Public Schools' employees.

OPEB Trust Fund is used to account for a single-employer other post-employment defined benefit plan.

Student Activity Fund is an agency fund that is used to account for the funds derived from various extracurricular school activities.

Reconciliation of the Balance Sheet to the Statement of Net Position

Fund balances - Total governmental funds	\$ 209,910,111
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental fund activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$3,996,268,450 and accumulated depreciation/amortization is \$1,698,391,571.	2,297,876,880
The net OPEB asset, resulting from contributions for other post-employment benefits in excess of the annual required contribution, is not considered a financial asset and, therefore, is not reported in the governmental funds.	31,151,922
Intangible assets used in governmental fund activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$12,668,600 and accumulated amortization is \$4,325,385.	8,343,215
Internal service funds are used by management to provide certain goods and services to governmental funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	52,922,994
Compensated absences and accrued interests on long-term debt related to governmental fund activities are not due and payable in the current period, and therefore, are not reported in the funds.	(32,936,152)
Capital leases are not due and payable in the current period and, therefore, are not reported in the funds.	(79,528,945)
Accrued interest on long-term debt	(778,731)
Unearned rent	(384,936)
Revisions of capital lease agreement resulting in a reduction of capital lease obligation are reported as deferred inflows in the statement of net position.	(4,616,693)
Pension liabilities are not due and payable in the current period and, therefore, are not reported in governmental funds. The deferred outflow related to pensions is \$348,840,125, and the Net pension liability is \$2,980,288,442. The deferred inflow related to pension liability is \$524,186,560.	(3,155,634,877)
Net position of governmental activities	<u>\$ (673,675,212)</u>

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities
For the fiscal year ended June 30, 2015

EXHIBIT I-1
concluded

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

Net change in fund balances - Total governmental funds	\$ (53,815,163)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which capital outlays exceed depreciation/amortization expense in the current period:	
Capital outlay	\$ 229,851,992
Capital lease expenditures	-
Capitalized interest on School Administration Building	-
Less depreciation/amortization expense	<u>(128,823,805)</u>
	101,028,187
Donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.	2,134,157
Gain or loss on the disposition of capital assets is reported in the statement of activities. However, in the governmental funds, only the proceeds from sales are reported. The difference is the net depreciated value of the disposed capital assets.	(322,840)
Capital lease obligation is reported as expenditure in governmental funds when they are due. In the government-wide statements, the effects of deferred inflows relating to capital lease obligation reductions is amortized over the life of each lease and expensed.	659,124
Principal payments on capital leases and installment purchases are reported as expenditures in governmental funds. However, the principal payments reduce the liabilities in the statement of net position and do not result in an expense in the statement of activities.	15,237,487
Under the modified accrual basis of accounting used in the governmental funds, expenditures for compensated absences are not recognized until they mature. In the statement of activities, however, they are reported as expenses and liabilities as they accrue.	835,183
Internal service funds are used by management to provide certain goods and services to governmental funds. The change in net position of these funds is reported within governmental activities in the statement of activities.	(5,260,389)
Interest on capital leases and installment purchases is reported as expenditures in the governmental funds when it is due. However, in the statement of activities, interest is expensed as it accrues. This amount represents the net change in accrued interest on long-term debt.	(113,646)
Proceeds from the issuance of long-term debt are reported as other financing sources in the governmental funds, increasing fund balance. In the government-wide statements, new debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. This amount represents principal amounts of new capital leases and installment purchases.	(18,339,546)
Rent abatement charges reduce deferred rent in government-wide statements, but do not use current resources so are not reported in governmental funds.	160,212
Inventory changes impact net position in government-wide statements, but are recorded as expenditures when purchase in governmental fund statements.	43,063
OPEB costs are recognized as expenditures in the fund statements, but are deferred and amortized in the government-wide statements, resulting in a net difference.	8,977,999
Pension expense is reported as expenditure in governmental funds when they are due. In the government-wide statements, the effects of net pensions liability, deferred outflows and inflows relating to new pension accounting standards is expensed.	<u>43,164,389</u>
Change in net position of governmental activities	<u>\$ 94,388,217</u>

The **Fairfax County Redevelopment and Housing Authority** (FCRHA) is responsible for low income housing and community development programs within the County. FCRHA was approved by a voter referendum in November 1965 and was activated by the County Board of Supervisors in February 1966. FCRHA is a political subdivision of and reports to the Commonwealth of Virginia. The County Board of Supervisors appoints the FCRHA Board of Commissioners and the County provides certain managerial and other related assistance to FCRHA.

Primary Government represents FCRHA's use of an enterprise fund to report its activities. FCRHA activities are funded by federal grants from the U.S. Department of Housing and Urban Development (HUD), rents, and other user charges resulting from operations of subsidized housing, development and financing fees, investment income, and loan proceeds. These funds provide rental housing, housing for the elderly/group homes, loans for home ownership and home improvement, tenant assistance, community development, and administration of these programs.

Component Units are real estate limited partnerships of FCRHA. FCRHA is the managing general partner and has certain rights which enable it to impose its will on the limited partnerships. FCRHA is legally obligated to fund operating deficits, making FCRHA financially accountable for the partnerships.

The **Fairfax County Park Authority** (Park Authority) was created by the Board of Supervisors of the County on December 6, 1950, to maintain and operate the public parks and recreational facilities located in the County. The Board appoints the Park Authority's Board members, and a substantial portion of the cost of the Park Authority's operations are funded by the County.

General Fund (Financed from County General Fund) is used to account for the operations of the park facilities that are funded by the County.

Park Revenue Fund is a special revenue fund used to account for the operations of the park facilities that are funded from park operating revenues.

Financed from County Construction Fund is a capital projects fund used to account for specific maintenance projects for park facilities that are funded by the County's Construction Fund.

Park Construction Bond Fund is a capital projects fund used to account for all construction projects and capital improvements of the Park Authority financed by County general obligation bonds.

Park Capital Improvement Fund is a capital projects fund used to account for all Park Authority construction projects and capital improvements financed through interest earned and transfers from the Park Revenue and Operating Fund.

COUNTY OF FAIRFAX, VIRGINIA

Fairfax County Park Authority

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the fiscal year ended June 30, 2015

EXHIBIT K-1

concluded

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

Net change in fund balances - Total governmental funds \$ (7,566,241)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeds depreciation expense in the current period.

Capital outlays	\$ 26,285,077	
Depreciation expense	<u>(11,703,424)</u>	14,581,653

Donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.

7,528,404

In the statement of activities, the gain or loss on the disposition of capital assets is reported.

However, in the governmental funds only the proceeds from sales are reported, which increases fund balance. Thus, the difference is the depreciated cost of the capital assets dispositions. (1,919,769)

Certain costs reported in prior year construction in progress balances were determined not to be capital (9,940)

Repayment of the principal amount of long-term debt is reported as an expenditure or as an other financing use when debt is refunded in governmental funds and thus, reduces fund balance. However, the principal payment reduces the liabilities in the statement of net position and do not result in the statement of activities.

Principal payments of bonds and notes	898,100
---------------------------------------	---------

Interest on long-term debt is reported as an expenditure in the governmental funds when it is due.

In the statement of activities, however, interest expense is affected as this interest accrues and as bond-related items are amortized. This difference in interest reporting is as follows:

Interest expense	\$ 3,709	
Amortized premium and deferred loss	<u>60,463</u>	64,172

Under the modified accrual basis of accounting used in the governmental funds, expenditures for the following are not recognized until they mature. In the statement of activities, however, they are reported as expenses and liabilities as they accrue. The timing differences are as follows:

Compensated absences	106,729
----------------------	---------

Pension liability does not require the use of current financial resources and, therefore is not reported in governmental funds:

Pension expense	1,134,505
-----------------	-----------

Change in net position of governmental activities	<u>\$ 14,817,613</u>
---------------------------------------------------	----------------------

The **Fairfax County Economic Development Authority (EDA)** provides direct assistance to firms which intend to establish their operations within the County. The EDA's mission is to attract businesses to Fairfax County and to work with the existing businesses to retain them as they expand and create new jobs. The EDA is an independent authority, legally authorized by an enactment of the Virginia General Assembly and formally created by resolution of the County Board of Supervisors. The County Board of Supervisors appoints the seven members of EDA's Commission. The Board also appropriates funds annually for operating expenditures incurred in carrying out EDA's mission.

General Fund (Financed from County General Fund)
is used to account for the operations of the EDA, all of which are funded by the County.

Statistical Section

The Statistical Section provides financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, including the accompanying notes, and required supplementary information to understand and assess the County's economic condition. Information is presented in the following five categories:

- 1.0 Financial trends information
- 2.0 Revenue capacity information
- 3.0 Debt capacity information
- 4.0 Demographic and economic information
- 5.0 Operating information

1.0 - Financial trends information is intended to assist users in understanding and assessing how the County's financial position has changed over time. There are four tables presented in this section.

Source: Fairfax County Department of Finance

Notes:

- (1) The County issues debt for the construction of Public Schools and Park Authority facilities. The County reports this debt; whereas, the Public Schools and Park Authority report the related capital assets and unspent bond proceeds. As a result, the debt reduces unrestricted net assets for the primary government. The amount of this debt related to investments in capital assets and unspent bond proceeds for these component units that is outstanding for each fiscal year is as follows:

	Fiscal Year				
	2015	2014	2013	2012	2011
\$	1,616,079,489	1,625,585,624	1,596,333,283	1,453,383,980	1,431,198,421

- (2) Fiscal Year 2012 net position restated in Fiscal Year 2013 due to the implementation of GASB statement 65.
- (3) Fiscal Year 2014 net position restated in Fiscal Year 2015 due to the implementation of GASB statement 68.

Notes:

- (1) In FY2007, Public Schools transferred 12 properties totaling 188.9 acres to the County valued at \$10,874,069. As part of this transfer, Public Schools is able to make an annual request of \$25 million in capital bond funding through fiscal year 2012.
- (2) In January 2008, the Sewer System sold purchased capacity to Prince William County Service Authority (2 MPG) and the City of Manassas (1 MPG) for \$50.6 million. As a result, a special item - Gain from sale of Purchased Capacity of \$10,954,572 was recognized.
- (3) In September 2010, Inova Health Systems transferred approximately 15 acres of land to the County. In exchange for this land, Inova will provide the County with an approximate 5 acre parcel, a \$15 million cash payment, and a 10 year lease of 40,000 square feet within the new Mid County Center building. The special items in the governmental activities, represent the installments on the \$15 million cash payment.
- (4) In April 2011, the Sewer System completed a sale of 2.0 MGD purchase capacity of its 17.68 MGD share of UOSA expansion (from 27 to 54 MGD) to Prince William Service Authority for \$39,807,586. As a result, a special item - Gain from sale of purchase capacity - of \$16,787,885 was recognized.

Notes:

- (1) Assessed value is the estimated actual value of taxable property and is shown for each period for which taxes are levied. Residential and Commercial properties are assessed as of January 1 and the properties of Public Service Corporations are assessed in October each year at the estimated fair market value of all land and improvements, with the resulting taxes being payable in the subsequent fiscal year.
- (2) Rates are per \$100 of assessed value, which is determined as of January 1 of the prior calendar year.

COUNTY OF FAIRFAX, VA

**TABLE 2.2 - Direct and Overlapping Real Property Tax Rates (1)
Last Ten Fiscal Years**

Fiscal Year	County Direct Rate (2)	Overlapping Rates (3)	
		Town of Herndon	Town of Vienna
2015	1.090	0.265	0.2288
2014	1.085	0.265	0.2288
2013	1.075	0.265	0.2421
2012	1.07	0.27	0.242
2011	1.09	0.28	0.245
2010	1.04	0.26	0.228
2009	0.92	0.24	0.209
2008	0.89	0.24	0.197
2007	0.89	0.24	0.186
2006	1.00	0.25	0.220

Sources: Fairfax County Department of Tax Administration; Town of Herndon; Town of Vienna

Notes:

- (1) Rates are per \$100 of assessed value, which is determined as of January 1 of the prior calendar year.
- (2) Virginia law limits the annual tax increase to 2% unless public hearings are held. The County Board of Supervisors holds public hearings annually in conjunction with the budget process.
- (3) These overlapping rates only apply to property owners within these Towns, which lie entirely within the County.

Notes:

- (1) Amounts for bonds are reported net of premiums and/or discounts starting in fiscal year 2013. Prior to fiscal year 2013, amounts for bonds are reported gross, excluding premiums and/or discounts and deferred amounts on refundings. See Note K in Notes to the Financial Statements for additional information regarding the County's outstanding debt.
- (2) Lease revenue bonds have been issued by county component units, using receipt of lease payments as the revenue source. All outstanding lease revenue bonds have been identified as conduit debt of the county and the associated lease payments are made using general government resources.
- (3) The Certificates of Participation relate to the County's acquisition of the South County Government Center, which is reported as a capital lease in the financial statements. The lease was signed on November 1, 2000, and the first payment was due on October 15, 2002. The Certificates of Participation bonds were refunded on March 10, 2010 by EDA Series 2010 Revenue Bonds.
- (4) See Table 4.1 for personal income data. The percentage is calculated using personal income data for the prior calendar year.
- (5) See Table 4.1 for population data. The ratio is calculated using population data for the prior calendar year.
- (6) In fiscal years 2011 and 2012, the revenue-backed and lease revenue bonds were consolidated in lease revenue bonds. The outstanding debt for revenue-backed bonds in fiscal years 2011 and 2012 are \$252,685 and \$364,595, respectively. The two types of bonds are reported separately starting in fiscal year 2013.

State Literary Fund Loans (000s)	Business-type Activities (1) Revenue Bonds (000s)	Total Primary Government (000s)	Pct. of Personal Income (4)	Debt Per Capita (5)

Notes:

- (1) Amounts for bonds are reported net of premiums and/or discounts starting in fiscal year 2013. Prior to fiscal year 2013, amounts for bonds are reported gross, excluding premiums and/or discounts and deferred amounts on refundings. See Note J in Notes to the Financial Statements for additional information regarding the County's outstanding debt.
- (2) Lease revenue bonds have been issued by county component units, using receipt of lease payments as the revenue source. All outstanding lease revenue bonds have been identified as conduit debt of the county and the associated lease payments are made using general government resources.
- (3) See Table 2.1 for actual taxable value of real property data. This percentage is calculated using values for each fiscal year for which levied.
- (4) See Table 4.1 for population data. This ratio is calculated using population for the prior calendar year.
- (5) In fiscal years 2011 and 2012, the revenue-backed and lease revenue bonds were consolidated in lease revenue bonds. The outstanding debt for revenue-backed bonds in fiscal years 2011 and 2012 are \$252,685 and \$364,595, respectively. The two types of bonds are reported separately starting in fiscal year 2013.

Revenue-Backed bonds			406,207
Lease Revenue bonds			495,338
Notes			75,736
Capital leases			23,218
HUD Section 108 loans			10,152
Total direct debt			3,378,451
Total direct and overlapping debt			\$ 3,412,754

Sources: Fairfax County Department of Finance; Town of Herndon; Town of Vienna

Notes:

- (1) Amounts for bonds are reported net of premiums and/or discounts.
- (2) The percentage of overlapping debt applicable is determined using taxable assessed property values. The Towns of Herndon and Vienna are situated entirely within the geographic boundaries of the County, and their residents and businesses bear the governmental activities debt burdens of both the County and their respective Towns.
- (3) The County's direct debt is also presented in Table 3.1.

COUNTY OF FAIRFAX, VA
TABLE 3.4 - Self-Imposed Debt Margin Information
Last Ten Fiscal Years

The Commonwealth of Virginia does not impose a legal limit on the amount of long-term indebtedness that the County can at any time incur or have outstanding. The Board of Supervisors, however, has imposed limits which provide that the County's (a) long-term general bonded debt should not exceed three percent of the total assessed value of taxable real and personal property in the County and (b) the annual debt service should not exceed ten percent of the annual general fund expenditures and transfers out, excluding capital leases and installment purchases in the year initiated. Relevant information pertaining to these self-imposed debt margins is provided below.

		Fiscal Year (000s)				
		2015	2014	2013	2012	2011
(a) Debt limit (2)	\$	7,092,110	6,731,089	6,513,757	6,320,578	6,108,656

Notes:

- (1) Population data includes the Cities of Fairfax and Falls Church and is obtained from U.S. Census Bureau's American Fact Finder.
- (2) Personal income data is obtained from the Bureau of Economic Analysis, U.S. Department of Commerce and includes the Cities of Fairfax and Falls Church. Data for only Fairfax County is not available, however, it is believed that the inclusion of these Cities does not significantly affect the County's data. Fairfax County data for 2014 is estimated using percent change in per capita personal income from 2013.
- (3) Median age and educational attainment information are obtained from the U.S. Census Bureau's American Fact Finder and Virginia Economic Development Partnership.
- (4) Public school enrollment is obtained from Fairfax County Public Schools.
- (5) Unemployment rates are obtained from the Virginia Employment Commission, Annual Unemployment Statistics for the calendar year, not seasonally adjusted.

Notes:

- (1) Employment information for fiscal year 2015 excluding data for Fairfax County Government and Fairfax County Public Schools, is from the 1st quarter of calendar year 2015 VEC. Employment information for fiscal year 2006 is as was presented 2006 Fairfax County CAFR.
- (2) Employment estimates for separate facilities of the same firm have been combined to create company totals. Employment ranges for the private sector are given to ensure confidentiality.
- (3) Percentages are based on the midpoint of the employment range. Average total County employment for fiscal year 2015 is estimated at 634,272, based on Business Vital Statistics of the Fairfax Economic Development Authority. Average total County employment for fiscal year 2006 was estimated at 571,401.
- (4) Science Applications International Corporation employment reported prior to the September 2013 split into two independent companies (SAIC and Leidos).

5.0 - Operating information is intended to provide contextual information about a government's operations and resources to assist readers in using financial statement information to understand and assess a government's economic condition. There are three tables presented in this section.

Sources: Fairfax County Department of Management and Budget, Fairfax County Public Schools, Fairfax County Redevelopment and Housing Authority, Fairfax County Park Authority

Notes:

- (1) In FY2012, the Virginia Department of Behavioral Health and Developmental Services revised reporting requirements related to individuals served. Prior to FY2012, individuals who received emergency and ancillary services were primarily reported as being served in mental health, substance abuse or developmental services. Individuals served reflects duplicated count as individuals may be served in more than one program area.
- (2) Prior to FY2007, the numbers for the Fairfax County Rental Program included only properties managed by the FCRHA.
- (3) Prior to FY2014, the visitor numbers included only counted attendance for program visitation and outreach.
- (4) The increase in recruits graduating in FY2015 is due to increased academy class size and number of classes.
- (5) Prior to 2010, police case data reflected only those cases handled by the Major Crimes Division.

Fiscal Year					Function/Program
2010	2009	2008	2007	2006
