

Fairfax County AED Locations 2019

Automated External Defibrillators (AEDs) for public use have been installed in most Fairfax County worksites.

The Risk Management Division, Department of Finance, oversees the County program, which includes both equipment and training.

If a person collapses, will not wake up when gently shaken and is not breathing normally,

- Send someone **IMMEDIATELY** to **call 911** and **get the AED**.
- While you are waiting, begin CPR.
- Once the AED arrives, open the case, push the green on/off button and follow the instructions.

When you turn on the AED, pressing the Blue Info button will guide you through each step of the rescue. The Philips FRx AED in County government buildings will detect where you are in each step of the rescue and prompt you with instructions, including CPR coaching.

If you use the AED, please log into the StatPads AED Online Management System and click the Report Event button at the top of the page and enter all information required or the County program manager 703-324-3108.
