SCYPT Retreat:

The SCYPT participated in a full-day retreat, focused on making data-informed decisions to identify key SCYPT priorities for the future. Materials from the data walk and associated presentations are included in the meeting agenda and materials. By the end of the retreat, the SCYPT had identified five issue areas for further consideration: school readiness, behavioral health, access to services, safety, and prenatal health. In future meetings, the Executive Committee and full SCYPT will further study these issues before moving on a course of action.
