

COVID-19 vaccines for children under 5 are now available

Protect ALL eligible children by keeping their vaccinations up to date.

Two COVID-19 vaccines are now available for children **6 months and older**.

HELP your child stay in daycare, preschool, and activities.

PROTECT your child from severe sickness. COVID-19 can cause severe illness, even in children.

Do you have questions? Need help finding an appointment?

Call us 703-324-7404

COVID-19 vaccines for children under 5 are:

SAFE: Thoroughly tested, reviewed and monitored for safety and effectiveness.

CHILD-SIZED: Same ingredients as those given to older children and adults, but in smaller doses.

EFFECTIVE: Protects your child from getting very sick if they do get COVID-19

***Your child should get vaccinated even if they've had COVID-19!**

How to find a vaccine.

- 1 Call your child's pediatrician.
- 2 Get vaccinated at a Health Department vaccine clinic.
- 3 Visit [vaccines.gov](https://www.vaccines.gov).
