

SLOW THE SPREAD OF COVID-19

COVID-19 Testing is Available in **Fairfax** & surrounding jurisdictions

1 Who should get tested

Anyone with any signs or symptoms of COVID-19, regardless of vaccination status or prior infection should get tested.

The most common symptoms of COVID-19 are fever of >100.4F cough, shortness of breath or difficulty breathing.

Other symptoms may include chills, repeated shaking with chills, muscle pain, headache, sore throat or new loss of taste or smell.

If you get tested because you have symptoms or were exposed to the virus, you should stay away from others when waiting for your test results and follow the advice of our health care provider.

Fully vaccinated people who have come into close contact with someone with suspected or confirmed COVID-19 should be tested 3-5 days after exposure, and should wear a mask in public indoor settings for 14 days or until they receive a negative test result.

Most people who get COVID-19 recover on their own at home. Anyone with symptoms of respiratory illness should stay home and avoid contact with others; wear a mask when around others; wash hands frequently; disinfect surfaces regularly; and inform close contacts you are sick.

2 How to get tested

Contact your health care provider or visit one of the testing sites listed in this document. The type of COVID-19 tests may vary by location.

Call ahead. Information in this document may have changed.

3 Waiting for results

You will be notified when the results are available.

While waiting for results, it's important that you stay home and stay away from others and wear a mask.

If you have COVID-19, you will receive further guidance to help protect yourself and others and to identify your close contacts. Visit:

fairfaxcounty.gov/health/novel-coronavirus/coronavirus-covid-19-testing

fairfaxcounty.gov/health/novel-coronavirus

For questions about COVID-19, call the Health Department call center at 703-267-3511.

This document is provided to help inform Fairfax Health District residents about their testing options and is updated frequently. These facilities are known to offer COVID-19 testing, but this does not constitute as an endorsement by Fairfax County Health Department. This may not include every site currently offering testing in Fairfax Health District.

Services offered and wait times are subject to change. **Patients with insurance may pay a co-pay or other costs may be applicable, please contact location for details.**
