Draft CATEGORIES FOR THE CONSOLIDATED COMMUNITY FUNDING POOL (CCFP)

for Fiscal Years 2021-2022

This document presents the Consolidated Community Funding Advisory Committee's (CCFAC) recommendations on categories for the Consolidated Community Funding Pool (CCFP) for the two-year funding cycle beginning in Fiscal Year 2021 (July 1, 2020). The recommendations were developed by the CCFAC, the citizen group established by the Fairfax County Board of Supervisors and charged with the responsibility to recommend CCFP categories based on community input, data and existing human services efforts. Members of the CCFAC are appointed by the County Executive and represent various public and private citizen advisory or administrative boards, councils, and committees within the county.

Throughout the CCFP's history, the CCFAC have strategically adjusted the categories to meet the county's changing needs and to recognize the changing nature of community-based providers. For FY2021-2022, the CCFAC utilized the feedback from the Board of Supervisors and the community as a method of validating and adjusting the current category areas and their respective service examples. This feedback also prompted CCFAC to develop a new category "Food and Nutrition" that encompasses a more holistic view of needs within our food system. CCFAC recommends that applicants give full and careful consideration to these categories.

Helping people reach their highest level of personal achievement is vital to our county's success and ensures that all residents are able to have opportunities for economic prosperity. Linking our residents and families to opportunities helps ensure lifelong learning, better health, resilience and economic success.

These categories were identified as needs and are aligned with health and human services determinants. Each outcome statement focuses on a broad community definition and specifically includes all individuals and families, income levels, abilities, and ages. ***Where appropriate, providing transportation, high quality and affordable childcare, linguistically and culturally appropriate services and/or other resources that remove barriers and allow participation, may be included in all seven categories.***
