**FY 2019-2020 CCFP Priority Setting Process**

**VALIDATE**

Human Services Focus Areas Reflect Focus of CCFP

Fairfax County's Human Services System is focused on the persons it serves; services are designed to reach all residents in the county based on their level of need.

The goal will be to determine if the priorities should include the four outcome focus areas outlined in the Needs Assessment with the populations woven in or if all six focus areas should be included.

**SELECT**

Key Determinants that Result in Positive Outcomes

Since many of the determinants overlap within the six focus areas, the chart below outlines a consolidated listing.

The goal will be to select key determinants within their respective focus areas that will result in positive outcomes.

**ENGAGE**

Residents  
Clients  
Boards, Authorities, & Commissions  
Nonprofits  
County Service Providers  
Board of Supervisors

We will organize engagement sessions with residents, clients, Boards, Authorities, and Commissions, nonprofits, County service providers, and the Board of Supervisors to gather input about the priorities. These sessions will also provide us with an opportunity to gather feedback about emerging needs.

**DEVELOP**

Priorities

Developed priorities will be reviewed, confirmed, and approved for the next funding cycle.
