Report of Independent Auditor

The Board of Supervisors
County of Fairfax, Virginia

The Board of Commissioners
Fairfax County Redevelopment and Housing Authority

Report on the Financial Statements
We have audited the accompanying financial statements of the business-type activities and the aggregate discreetly presented component units of the Fairfax County Redevelopment and Housing Authority (the “Authority”), a component unit of the County of Fairfax, Virginia, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Authority’s basic financial statements as listed in the table of contents.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility
Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of six blended component units (Herndon Harbor House I, FCRHA HCDC One (Stonegate), FCRHA HCDC Two (Murraygate), The Green, Castellani Meadows, and Tavenner Lane), which represent 14.0%, 5.3%, and 6.2%, respectively, of the assets, net position, and revenues of the business-type activities. We did not audit the financial statements of the discreetly presented component units, which represent 100%, respectively, of the assets, net position, and revenues of the discreetly presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the six blended component units and discreetly presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in Government Auditing Standards, issued by the Comptroller General of the United States. The financial statements of Herndon Harbor House I, FCRHA HCDC One (Stonegate), FCRHA HCDC Two (Murraygate), The Green, Castellani Meadows, Tavenner Lane and four of the discreetly presented component units (Gum Springs Glen, Herndon Harbor House II, Morris Glen and Olley Glen) were not audited in accordance with Government Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**
In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, and the aggregate discretely presented component units of the Authority as of June 30, 2017, and the respective changes in financial position and, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

*Change in the Reporting Entity*
As described in Note 14 to the financial statements, the Authority previously reported one real estate partnership as a discretely presented component unit. The Authority now also controls the partnership interest for this partnership and has therefore considered it a blended component unit. Our auditor’s opinion is not modified with respect to this matter.

*Change in Accounting Principle*
As described in Note 14 to the financial statements, three of the Authority’s blended component units (Herndon Harbor House I, FCRHA HCDC One (Stonegate), and Castellani Meadows) and four of the Authority’s discretely presented component units (Gum Springs Glen, Herndon Harbor House II, Olley Glen, and Cedar Ridge) implemented Accounting Standards Update 2015-03, Interest-Imputation of Interest; Simplifying the Presentation of Debt Issuance Costs. Our auditor’s opinion is not modified with respect to this matter.

**OTHER MATTERS**

*Required Supplementary Information*
Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 4 through 12, the Schedule of Authority’s Proportionate Share of Net Pension Liability – ERS Pension Plan – Last Ten Years on page 53, and the Schedule of the Authority’s Contributions – ERS Pension Plan – Last Ten Years on page 54, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*
Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority’s basic financial statements. The Statement of Certification of Program Costs – Capital Fund Program Grant is presented for purposes of additional analysis and is not a required part of the basic financial statements.
The Statement of Certification of Program Costs – Capital Fund Program Grant is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards
In accordance with Government Auditing Standards, we have also issued our report dated November 17, 2017 on our consideration of the Authority’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority’s internal control over financial reporting and compliance.

Cherry Bekaert LLP
Tysons Corner, Virginia
November 17, 2017
Introduction

The Fairfax County Redevelopment and Housing Authority (the Authority or FCRHA) is a political subdivision of the Commonwealth of Virginia and is empowered to implement housing, community development, redevelopment and revitalization programs within Fairfax County (the County), as well as towns, cities, and counties with which it has cooperation agreements. The Fairfax County Board of Supervisors (the Board) created the Department of Housing and Community Development (HCD) to act as the development and administrative agency for the FCRHA and the Board in meeting the housing and community development needs of the County’s low and moderate income residents.

The FCRHA’s fiscal year (FY) 2017 annual financial report consists of two parts – the management’s discussion and analysis (MD&A) and the basic financial statements, which include notes to those financial statements.

The FCRHA presents this MD&A of its financial performance as of and for the fiscal year ended June 30, 2017, to assist the reader in focusing on significant financial issues and concerns. This year’s MD&A presents a comparative analysis of financial data to help the reader ascertain the reasons for changes in assets, deferred outflows, liabilities, deferred inflows, expenses, revenues, and net position balances from the previous year.

This MD&A is focused on the activities of the FCRHA’s Enterprise Fund as a primary government. The Authority is the general partner in seven real estate partnerships and also controls the limited partnership interest in these entities. One entity, Little River Glen, has a June 30 fiscal year end and the other six (Herndon Harbor I, Stonegate, Murraygate, The Green, Tavenner and Castellani Meadows) have December 31 fiscal year ends. The financial balances of those entities for the fiscal year end that falls within the year ended June 30, 2017 are included in the balances of the enterprise fund.

Financial Highlights for FY 2017

The FCRHA’s FY 2017 financial highlights included the following:

- Total assets, deferred outflows of resources, liabilities and deferred inflows of resources of the FCRHA were approximately $198.7 million, 8.3 million, $80.7 million and $2.4 million respectively; thus total net position was approximately $123.9 million at June 30, 2017. Of this amount, approximately $30.9 million (unrestricted net position) may be used to meet the FCRHA’s future operational needs.

- Total revenues and expenses were approximately $106.0 million and $100.6 million, respectively, resulting in an increase in net position of approximately $5.4 million during the fiscal year compared with an increase in net position of approximately $3.5 million during the prior year, or an increase of 54.3% over the prior year. Prior period adjustments related to a change in reporting entity (the inclusion of an additional blended component unit) resulted in a decrease in net position of approximately $1.4 million. See note 14 for additional details on the restatement.

- Cash and cash equivalents increased by approximately $1.2 million.
FCRHA Financial Statements

The FCRHA presents its financial results in three basic financial statements – the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. The statement of net position reports all financial and capital resources of the FCRHA and is presented in a format where assets plus deferred outflows of resources, minus liabilities minus deferred inflows of resources equals net position. Net position is broken down into the following three categories:

- **Net investment in capital assets** consist of all capital assets net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of these assets.

- **Restricted net position** consists of assets on which constraints are placed by creditors (such as debt covenants), grantors, contributors, laws, or regulations.

- **Unrestricted net position** consists of net position that does not meet the definition of net position that fall in either one of the two categories discussed above – net investment in capital assets or restricted net position.

The statement of revenues, expenses, and changes in net position includes operating revenues, such as rental income; operating expenses, such as administrative, utilities, maintenance, and depreciation expense; and non-operating revenues and expenses, such as grant revenue, investment income, interest expense, and gain on disposition of assets. The statement’s focus is the change in net position.

Finally, a statement of cash flows is included, which discloses net cash flows from operating activities, noncapital financing activities, capital and related financing activities, and investing activities.

These financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.
Summary of Net Position

The following table presents a summary of FCRHA’s net position as of June 30, 2017 and 2016.

</table>

As of June 30, 2017, the FCRHA’s net position totaled approximately $123.9 million, an increase of approximately $5.4 million, or 4.6%, over the restated net position as of June 30, 2016. This change was due to an increase in deferred outflows of resources and an increase in deferred inflows of resources.
The FCRHA’s total net position also consisted of restricted net position of $20.4 million at June 30, 2017 and $13.4 million at June 30, 2016, and unrestricted net position of $30.9 million and $32.8 million at June 30, 2017 and 2016, respectively. Restricted net position of $20.4 million represents 16.5% of the FCRHA’s FY 2017 net position and unrestricted represents $30.9 million or 24.9%. Restricted net position includes cash and investments consisting of restricted deposits and funded reserves for repairs and replacements required by HUD and Virginia Housing Development Authority (the VHDA) guidelines, as well as cash balances in accordance with certain bond indentures. The following pie chart illustrates the relative percentage of the FCRHA’s net position invested in capital assets and the remaining restricted and unrestricted net position at June 30, 2017.

Composition of FCRHA’s Net Position ($123.9M)

- Net investment in capital assets: 58.6% ($72.6M)
- Restricted: 16.5% ($20.4M)
- Unrestricted: 24.9% ($30.9M)
Revenues, Expenses, and Changes in Net Position

The results of the FCRHA’s operations are reported in the statement of revenues, expenses, and changes in net position. In FY 2017, the FCRHA’s enterprise programs realized an increase in net position of approximately $5.4 million. Table 2 presents a summary of data from the FCRHA’s statement of revenues, expenses, and changes in net position for FY 2017 and FY 2016 and a comparative analysis of activities in these years.

</table>

Total FCRHA revenues in FY 2017 were $106.0 million, comprised of operating and non-operating revenues. Operating revenues contributed $37.5 million or 35.4% derived from rents and other user charges, and developer and financing fees. The FCRHA’s total overall revenues during the year were up by approximately $3.1 million or 3.0%. Overall, operating revenues were up slightly by approximately $0.3 million or 0.8%. Non-operating revenues made up $68.5 million or 64.6% coming from federal grants from HUD, County contributions, and interest revenue. Non-operating revenues reflected an increase over the prior year by approximately $2.8 million or 4.3%. The total net position for FY 2017 was $123.9 as compared to $118.5 in the prior year, an overall increase over the prior year of $5.4 million or 4.6%.
The FCRHA’s operating expenses in FY 2017 increased by approximately $1.1 million, or 1.1% primarily due to the expansion of the Housing Assistance Payments (HAP) in the Housing Choice Voucher (HCV) program. Personnel services also grew resulting from filling of positions that were previously held vacant, as well as from the increased costs of salaries and fringe benefits.
In FY 2017, the FCRHA incurred total expenses in its enterprise programs totaling approximately $100.6 million. The following pie chart illustrates major operating expense groups and their relative percentage of the total.

**FCRHA’s Enterprise Programs**
Total Expenses ($100.6M)

- **Personnel services**: 18.4% ($18.6M)
- **Utilities**: 4.9% ($4.9M)
- **Repairs, maintenance and contractual services**: 8.6% ($8.7M)
- **Depreciation and amortization**: 4.6% ($4.6M)
- **Interest**: 1.1% ($1.1M)
- **Housing assistance payments (HAP)**: 56.1% ($56.4M)
- **Other supplies and expenses**: 6.3% ($6.3M)

**Capital Assets and Debt Administration**

**Capital Assets.** The FCRHA’s capital assets at June 30, 2017 and 2016, included land, buildings and improvements, equipment, and construction in progress, which totaled $93.4 million and $96.2 million, respectively, net of accumulated depreciation of approximately $126.8 million and $122.2 million at June 30, 2017 and 2016, respectively. For further details see note 5, Capital Assets.

**Short-term and Long-term Debt.** The FCRHA’s June 30, 2017 and 2016 statement of net position includes debt – consisting of housing loans, notes, and bonds payable – of approximately $41.5 million and $43.0 million, respectively.

Public bond issues are project specific and have been rated by Standard and Poor’s at either “AA” or “AAA” depending upon the collateral securing the debt. The FCRHA also has debt created by direct placement with institutional lenders without the need for a credit rating. For further details, see note 6, Short-Term and Long-Term Obligations – Loans, Notes Payable and Bonds Payable.
Economic Factors
The FCRHA’s mission in the County focuses on the planning, development, preservation, rehabilitation, financing, and management of housing, primarily for low- and moderate-income households in Fairfax County. The FCRHA, as of June 30, 2017, owned and/or operated a total of 3,032 units of multifamily housing, and 818 units/beds of specialized housing that were leased to families and individuals with low- and moderate-incomes. The specialized housing is comprised of 482 units of independent senior housing, 112 beds of assisted living, and 39 units of other specialized housing; the FCRHA owns group homes and shelter facilities with 70 beds of supportive housing and a mobile home park with 115 pads.

In FY 2007, the County’s Board of Supervisors set a goal and tasked the FCRHA to preserve 1,000 units of affordable housing. The preservation of affordable rental housing has long been a concern of the County’s Board of Supervisors and the FCRHA. The stock of privately-owned subsidized units and non-subsidized rental housing with modest rents in the County has been declining as owners reposition their properties in the market. The centerpiece of the initiative is the Penny for Affordable Housing Fund, which is the dedication of a “half penny” of the real estate tax rate for affordable housing initiatives. The value of the “half penny” in FY 2017 was $11,700,000. A total of 3,001 affordable units have been preserved as of the end of FY 2017 for both homeownership and rental purposes in a variety of large and small projects. Of that number, 252 units are preserved as affordable housing for periods of five years or less, and 2,749 units are preserved for 20 years or longer.

In FY 2014, the FCRHA was designated as a Moving to Work (MTW) agency. This designation includes the majority of the HCV program funding. One of the goals of the MTW program is to provide participants with the necessary tools through supportive services that will help them move along the housing continuum to self-sufficiency. The FCRHA implements the MTW program through the THRIVE initiative (Total Housing Reinvention for Individual Success, Vital Services, and Economic Empowerment), allowing families to not only find an affordable and safe place to call home, but also be connected to services and supports that will help families succeed and become self-sufficient. In addition to providing housing options made available by the FCRHA, the THRIVE initiative will link families to services and programs offered by other County agencies or nonprofit organizations. These programs are designed to help families better manage their money, train for a new job, pursue college or other training, learn English, and perhaps even purchase a home.

The FCRHA continues to receive Housing Choice Voucher (HCV) renewal funding allocations from the United States Department of Housing and Urban Development (HUD). For the HCV program, HUD provides housing assistance subsidies to pay a portion of the family’s rent to a private sector landlord. In most cases, the housing assistance subsidy provided for each tenant is the difference between 35% of the eligible family’s adjusted monthly income and the gross rent (contract rent plus any tenant-paid utilities) charged by an owner for a housing unit.

In FY 2017, the FCRHA continued to promote the production of Affordable Dwelling Units (ADU) and Workforce Dwelling Units (WDUs). The Affordable Dwelling Unit (ADU) Ordinance requires developers to set aside between 5% and 6.25% of new residential units as ADUs in multifamily developments up to four stories and 12.5% in single family detached and townhouse developments that include 50 or more units in return for additional density. The FCRHA has the right to acquire one-third of the ADUs offered for sale and lease up to one-third of the rental units. The remaining units are sold or rented to moderate income households. As of June 30, 2017, a total of 2,709 units (1,319 rentals and 1,390 for-sale units) have been produced under the ADU program; the FCRHA has acquired 147 of the for-sale units, which are maintained as permanent affordable rental housing.
The WDU policy is a proffer-based incentive system adopted by the Board in October 2007 as a part of the Comprehensive Plan. This policy is designed to foster the construction of housing affordable to moderate-income households in high-rise, high-density projects that are otherwise exempt from the ADU requirement. As of FY 2017, approximately 6,778 Workforce Development Units (WDU) have been committed by private developers in rezoning actions approved by the Board of Supervisors and a total of 900 WDUs have been constructed as rental units.

The FCRHA began converting its Public Housing portfolio under the HUD Rental Assistance Demonstration (RAD) program. RAD allows housing authorities to convert traditional Public Housing units to a new, project-based Section 8 subsidy model. Conversion to RAD has a number of advantages, including providing more mobility for residents that is not currently available under Public Housing. For housing authorities like the FCRHA, a major advantage of converting to RAD is that the subsidies are “bankable”, meaning they can be used to leverage private equity to make capital improvements on aging Public Housing properties. In FY 2017, Phase I of the included conversion of 299 units from Public Housing subsidized units to Fairfax County Redevelopment and Housing Authority (FCRHA) units that have been designated as Project-Based Vouchers where the subsidy funds are attached to the unit for Project Based Vouchers. The FCRHA will convert the remaining 766 units under the RAD program anticipated to occur in FY 2018. A total loss of 1,065 units will be RAD Project Based Voucher units by December 2017.

Contacting FCRHA Management

This financial report is designed to provide the citizens of Fairfax County, taxpayers, customers, investors, and creditors with a general overview of the FCRHA’s operations and finances and to demonstrate the FCRHA’s accountability for the money it receives. Questions concerning this report, any of the component unit financial reports, or requests for additional financial information should be directed to the Director of Financial Management, Department of Housing and Community Development, 3700 Pender Drive, Suite 300, Fairfax, Virginia 22030.

The accompanying notes to the financial statements are an integral part of this statement.
Note 1—Summary of significant accounting policies

Organization Profile - These financial statements include the activities of the Fairfax County Redevelopment and Housing Authority (the “Authority” or “FCRHA”). The Authority administers various housing and community development programs within the County of Fairfax, Virginia (the “County”). The Authority is a political subdivision of the Commonwealth of Virginia created pursuant to Chapter 1 of Title 36 of the Code of Virginia of 1950, as amended, by resolution of the Board of Supervisors of Fairfax County and approved in a referendum of voters in the County on November 2, 1965. On February 23, 1966, the Board of Supervisors declared the Authority an activated entity. The powers, duties, and responsibilities of the Authority are set forth in Title 36 of the Code of Virginia of 1950, as amended. The Authority is established as a component unit of the County.

The accounting policies of the Authority conform to U.S. generally accepted accounting principles (GAAP) as applicable to proprietary funds of governmental units. The following is a summary of the Authority’s significant accounting policies.

Reporting Entity - As required by GAAP, the accompanying financial statements present the financial position and result of operations of the Authority (the primary government) and its component units. The financial results of the component units are included in the Authority’s basic financial statements because of the significance of their operational or financial relationships with the Authority. The Authority and its component units are together referred to as the Reporting Entity.

Blended Component Units - The Authority is the general partner of seven real estate partnerships (Little River Glen; Herndon Harbor House I L.P.; Fairfax County Redevelopment and Housing Authority/HCDC One, L.P.–(Stonegate); Fairfax County Redevelopment and Housing Authority/HCDC Two, L.P. (Murraygate); The Green, L.P.; Tavenner Lane L.P.; and Castellani Meadows L.P.) that are considered component units of the Authority for the same reasons discussed in the following paragraph. However, because the Authority is not only the general partner, but also controls the limited partnership interests, they are considered blended component units. Little River Glen has a June 30 fiscal year-end. Herndon Harbor House I, Stonegate, Murraygate, The Green, Tavenner Lane and Castellani Meadows have December 31 year-ends, therefore the amounts included for these entities are as of and for the year end that falls within the year ended June 30, 2017. Separate financial statements for the blended component units can be obtained from the Authority.

Discretely Presented Component Units - Additionally, the Authority is also the general partner in five other real estate limited partnerships (Herndon Harbor House II L.P.; Morris Glen L.P.; Gum Springs Glen L.P.; Cedar Ridge, L.P.; and FCRHA Olley Glen, L.P.). However, the limited partnership interests are held by third parties unrelated to the Authority. As the general partner, the Authority has certain rights and responsibilities, which enable it to impose its will on the limited partnerships. Additionally, the Authority is financially accountable for the limited partnerships as the Authority is legally obligated to fund operating deficits up to a maximum limit per partnership, in accordance with the terms of the partnership agreements.

All discretely presented component units have a December 31 calendar year-end. Accordingly, the amounts included for each component unit are as of and for the year-end that falls within the year ended June 30, 2017. Separate financial statements for the individual limited partnerships can be obtained from the Authority. All limited partnerships follow Financial Accounting Standards Board (FASB) pronouncements and have not been converted for purposes of these financial statements. All limited partnership financial statements are prepared in accordance with Generally Accepted Accounting Principles.
Note 1—Summary of significant accounting policies (continued)

Basis of Presentation - The accounts of the Authority are presented in single proprietary fund financial statements consisting of various programs. This financial statement presentation provides an indication of the financial performance of the Authority as a whole. The operations of the Authority are accounted for in the three basic financial statements: the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. These statements report information on all activities of the Authority and its component units. Likewise, the Authority is reported separately from legally separate component units for which the Authority is financially accountable.

The Authority’s activities include the following programs:

The following two programs include programs provided by the County through its Department of Housing and Community Development (HCD). The HCD was established by the Board of Supervisors on December 12, 1973, to assume the administrative functions of the Authority and to function as the County’s agency for administration of all housing and community development programs. In this action, the Board of Supervisors also established that the County Executive would be the Executive Director and the Secretary of the Authority.

- **Elderly Housing Programs** are used to account for the affordable rental housing owned by the Authority and occupied by the elderly.

- **Homeowners and Business Loan Program** is used to account for funds used to assist low and moderate income families to become homeowners in the County or to improve their current living space through repair or rehabilitation.

The Authority’s other programs, described below, are financed primarily by federal grants from the U.S. Department of Housing and Urban Development (HUD), rents, and other user charges resulting from the operations of subsidized housing, development and financing fees, investment income, and loan proceeds. These funds provide rental housing, housing for the elderly/group homes, loans for home ownership and home improvement, tenant rental assistance, community development, and the development and administration of these programs. A description of each of these programs follows:

- **Public Housing Program** is used to account for operating and capital costs of rental housing owned and operated by the Authority and subsidized by the HUD public housing program. Other funding sources include rental income and other user charges. During FY 2017 and FY 2018, the agency converted its 1,065 Public Housing units to HCV Public Based Voucher based units under the Rental Assistance Demonstration (RAD) program.

- **Housing Choice Voucher Program** is a federal housing assistance program for lower income families seeking housing in the private market place. HUD provides funds to pay a portion of the family’s rent.

- **FCRHA Operating Program** is used to account for projects and for real property that is not accounted for in other Authority programs. The primary source of revenues is management fees earned from partnership properties, monitoring and service fees charged to developers.

- **Revolving Development Program** is used to provide funds for initial project costs, such as new site investigations, architectural and engineering plans, studies, and fees. This funding ensures that adequate plans and proposals are completed prior to application for project financing from federal, state, or private sources. These initial costs are anticipated to be recovered from permanent project financing.
Note 1—Summary of significant accounting policies (continued)

- **Rental Assistance Demonstration (RAD) Program** is used to manage affordable rental housing acquired by the Authority and to maintain and preserve the units for long-term rental availability. RAD units convert from Public Housing subsidy based units to Project Based Voucher units funded from annual Housing Choice Voucher contributions.

- **Private Finance Program** is used to budget and report costs for capital projects that are supported wholly or partially by funds borrowed by the Authority or through the Authority’s sale of notes or bonds. Housing development and improvement projects may be financed with funds borrowed from private lenders, the Virginia Housing Development Authority (VHDA), or the federal government.

- **Rehabilitation Loan Program** is used to account for the Authority’s portion of the funding for the Home Improvement Loan Program (HILP). The HILP provides financial and technical assistance to low- and moderate-income homeowners for rehabilitation of their properties. Funding for this program has been provided by the federal Community Development Block Grant (CDBG), County appropriation and commercial banks.

- **Fairfax County Rental Program** (FCRP) is used to provide affordable rental housing (other than federal public housing) in the County for low- and moderate-income families.

- **Grants and Projects Program** is used to account for the HUD Resident Opportunities and Self Sufficiency grant and the State Rental Assistance Program contract (SRAP).

**Measurement Focus and Basis of Accounting** - The proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the Authority’s enterprise fund are rental charges and other charges related to the use of property. The Authority also recognizes as operating revenues management and development fees, excess utility charges, and other tenant charges. Operating expenses include personnel services, contractual services, administrative expenses, utility expenses, ordinary repair and maintenance expenses, housing assistance payments, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as either non-operating revenues or expenses or contributions.

**Use of Estimates in Preparing Financial Statements** - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
Note 1—Summary of significant accounting policies (continued)

Cash - Cash in bank is maintained by the County’s Investment and Cash Management Division (ICM) in a separate bank account in order to comply with the provisions of bond indentures. Cash on deposit with the County of Fairfax, Virginia, is also maintained by ICM in a single pooled account. Deposits held in trust reflect amounts collected as security deposits from tenants, as well as accrued interest on these deposits. Cash reserves primarily consist of restricted deposits and funded reserves for repairs and replacements required to be maintained under HUD and VHDA guidelines, as well as cash balances in accordance with certain bond indentures. All of the primary government’s cash deposits are covered by federal depository insurance and have been fully insured or collateralized. Temporary investments consist of money market investments that have a remaining maturity at the time of purchase of one year or less and are reported at amortized cost, which approximates fair values. The County allocates, on a monthly basis, any temporary investment earnings, less an administrative charge, based on the Authority’s average balance pooled cash and temporary investments.

Investments - The Authority maintains an investment policy, the overall objectives of which are the preservation of capital and the protection of investment principal; maintenance of sufficient liquidity to meet operating requirements; conformance with federal, state and other legal requirements and attainment of a market rate of return. Oversight of the investment activity is the responsibility of the Investment Committee, which is comprised of the Deputy Directors, HCD, Director of Financial Management Division (FMD), Director of Real Estate Finance and Grants Management Division (REFGM), Associate Director, REFGM and Fiscal Administrators, FMD.

Authorized investments for public funds are set forth in the “Investment of Public Funds Act” of the Code of Virginia. Within the permitted statutory framework, the Authority limits the investment of assets to the money market accounts, certificates of deposit and U.S. Treasury securities. Temporary investments consist of money market investments that have a remaining maturity at the time of purchase of one year or less and are reported at amortized cost, which approximates fair value. Certificates of deposit are reported at cost. This investment policy applies to all financial assets of the Authority, all General Obligation bond funds, all funds deposited in the Authority’s bank accounts, and the County’s pooled cash. Bond proceeds shall be invested in accordance with the requirements and restrictions outlined in bond documents. All Authority investments are held by the financial institution’s trust department in its name and are collateralized by United States Government securities.

Cash and Cash Equivalents - For purposes of preparing the statement of cash flows, cash and cash equivalents include unrestricted cash in bank, cash on deposit with the County of Fairfax, Virginia, deposits held in trust and restricted and unrestricted cash reserves. In addition, only the changes in the operating portion of assets and liabilities are accounted for in this statement’s reconciliation of operating income (loss) to net cash provided by (used in) operating activities.

Capital Assets - Capital assets, which include land, buildings and improvements, equipment, and construction in progress are reported in the financial statements at cost when purchased and at acquisition value when donated. Capital assets are defined by the Authority as assets with an initial individual cost of more than $5,000 and an estimated useful life of more than one year. Depreciation has been provided for in amounts sufficient to relate the cost of the depreciable assets to operations over their estimated useful lives using the straight line method. The estimated useful lives range from 15 to 28 years for buildings and improvements and from 5 to 15 years for equipment. With respect to the Capital Grant program, the Authority capitalizes assets in accordance with HUD guidance.
Deferred Outflows/Inflows of Resources - A deferred outflow of resources represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditure) until the future period. The Authority recognizes deferred outflows for contributions made subsequent to the measurement date related to pensions, changes of assumptions, and net differences between the projected and actual earnings on pension plan investments.

A deferred inflow of resources represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until the future period. The Authority recognizes deferred inflows for the difference between expected and actual experience as well as the changes in the proportion of pension related to the Authority.

Accounts Receivable and Allowance for Doubtful Accounts - Receivables are reported net of an allowance for doubtful accounts. Management’s estimate of the allowance is based on historical collection experience and a review of the current status of accounts receivable and the probability of collection.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System (ERS) and additions to/deductions from the ERS’s fiduciary net position have been determined on the same basis as they are reported by ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Compensated Absences - Employees are granted vacation and sick leave based on their length of service. Unused vacation leave is payable to employees upon termination based on the employees’ current rate of pay, up to certain limits. Sick leave does not vest with the employees; however, it is converted to years of service upon retirement. In addition, employees may accrue compensatory leave for hours worked in excess of their scheduled hours.

Compensatory leave in excess of 240 hours at the end of the calendar year is forfeited. The current pay rate, including certain additional employer-related fringe benefits, is used to calculate compensated absences accruals at June 30.

Property Held for Sale - Property held for sale are First-Time Homebuyers (FTHB) program properties the Authority purchased for the purpose of resale to first-time homebuyers. The FTHB is designed to provide affordable homeownership opportunities for low- to moderate-income families who otherwise could not afford to purchase a home, and includes the Moderate Income Direct Sales Program, the Affordable Dwelling Unit Program, the First-Time Homebuyer Direct Sales Program and the Founders Ridge Program. Properties are recorded and valued at cost when acquired.

Applicants in the FTHB Program are required to participate in homeownership education classes, obtain a pre-conditional approval from a lender, and meet other program eligibility criteria to participate in drawings to receive the opportunity to purchase these homes.

The repurchased properties generally undergo minor repairs and are put on the market for re-sale to first-time homebuyers within a year. New 30-year covenants are recorded on the properties at the time of resale to maintain affordable housing resources in Fairfax County for future residents.
Note 1—Summary of significant accounting policies (continued)

Notes, Mortgages, and Other Receivables - Notes, mortgages, and other receivables are carried at amounts advanced, net of a reserve for uncollectible accounts, if any.

Restricted Assets and Net Position - Restricted assets are liquid assets which have third-party limitations on their use. When both restricted and unrestricted resources are available for capital use, it is the Authority’s policy to use restricted resources first, then unrestricted resources as they are needed. In regard to operating reserves, it is the Authority’s policy to use unrestricted resources first, and then restricted resources. In accordance with requirements of HUD and VHDA, the Authority is required to maintain certain restricted deposits and funded reserves for repairs and replacements.

Net position is displayed in three components:

- **Net Investment in Capital Assets** - This component of net position consists of all capital assets, reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- **Restricted Net Position** - This component of net position consists of restricted assets when constraints are placed on the asset by creditors (such as debt covenants), grantors, contributors, laws, regulations, etc.

- **Unrestricted Net Position** - This component of net position consists of net position that does not meet the definition of “Net Investment in Capital Assets” or “Restricted Net Position.”

Revenue Recognition - The Authority has entered into Annual Contributions Contracts with HUD to develop, manage, and own public housing projects and to administer the Housing Choice Voucher Program, whereby monthly housing assistance payments are made to landlords on behalf of eligible lower income individuals and families. HUD makes monthly operating subsidy contributions within the Public Housing Program and monthly contributions for housing assistance payments and administration fees for the Housing Choice Voucher Program. In addition, the County makes annual contributions to various programs (e.g., Elderly Housing program) to support operational costs. Such contributions are reflected as intergovernmental revenue in the accompanying financial statements. Other intergovernmental revenues are reported under the legal contractual requirements of the individual programs.

Intergovernmental revenues are recognized in the period in which all grant requirements are satisfied, which is typically when the Authority has expended the funds on allowable costs. Grant funds received in advance of satisfying all requirements are recorded as deferred revenue. Effective in FY 2006, HUD mandated that authorities who administer the Housing Choice Voucher (HCV) program should recognize revenue for Housing Assistance Payments (HAP) based on the current year’s budget received, rather than the methodology used in previous years of recognizing revenue based on expenditures incurred.

Dwelling rental revenues are recorded as rentals become due. Rental payments received in advance are deferred until earned. The allowance method is used for write offs. Delinquent tenant receivables that have reached the Code of Virginia Statute of Limitations for five years of collection effort are written off and all collection activities are discontinued unless a court judgment is obtained that extends this period of collection.
Note 2—Cash and cash equivalents

Cash deposits maintained in banks are covered by U.S. Federal Deposit Insurance and by collateral held by custodial banks in the Authority’s name based upon the average daily funds available as determined by the banks.

Collateral is required for demand and time deposits and certificates of deposit not covered by Federal Deposit Insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the state and its municipalities.

Custodial credit risk for deposits is the risk that in the event of a bank failure the Authority’s deposits may not be returned to it. For the fiscal year ended June 30, 2017, the carrying amount of the Authority’s cash and cash equivalents was $63,782,816. All deposits were entirely insured or collateralized with securities held by the Authority’s agent in the Authority’s name as of June 30, 2017.

Note 3—Investments

As of June 30, 2017, the Authority had the following investment type:

<table>
<thead>
<tr>
<th>Investment Type</th>
<th>Amount</th>
<th>Weighted Average Maturity (Days)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Investment GIC</td>
<td>$432,400</td>
<td></td>
</tr>
<tr>
<td>Certificates of deposit</td>
<td>7,595,000</td>
<td></td>
</tr>
<tr>
<td>Total fair value</td>
<td>$8,027,400</td>
<td></td>
</tr>
</tbody>
</table>

Portfolio weighted average maturity 181.61

Interest Rate Risk - The Authority’s policy is to minimize the risk that the market value of securities in its portfolio will fall due to changes in market interest rates. To achieve this minimization of risk, the County structures the pooled investment portfolio so that sufficient securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. Pooled investments that are purchased to meet liquidity needs shall have a target weighted average maturity of 90 days. All other pooled funds are invested primarily in shorter-term securities, with a maximum maturity of one year.

Credit Risk - The Authority’s policy is to minimize the risk of loss due to the failure of an issuer or other counterparty to an investment to fulfill its obligations. The Authority limits its investments to the safest types of securities.

Concentration of Credit Risk - The Authority’s investment policy limits the investment of assets to Money Market Accounts, Certificates of Deposit, and U.S. Treasury Securities.
Note 3—Investments (continued)

**Custodial Credit Risk** - For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the Authority may not recover its deposits. In accordance with the Virginia Security for Public Deposits Act (Act), all of the Authority’s deposits are covered by federal depository insurance or collateralized in accordance with the Act, which provides for the pooling of collateral pledged by financial institutions with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for one public depositor, and public depositors are prohibited from holding collateral in their name as security for deposits. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool’s collateral is inadequate to cover a loss, additional amounts are assessed on a pro rata basis to the members of the pool. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by participating financial institutions. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance, therefore, funds deposited in accordance with the requirements of the Act are considered to be fully insured.

For investments, custodial credit risk is the risk that, in the event of the failure of a counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Per policy, all of the investments purchased by the Authority are insured or registered or are securities held by the Authority or its agent in the Authority’s name.

**Foreign Currency Risk** - Per the Authority’s policy, investments are limited to U.S. dollar denominated instruments.

The Authority categorizes its fair value measurements within the fair value hierarchy established by the generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Authority has the following recurring fair value measurements as of June 30, 2017:

- Other equity securities of $432,400 are valued using quoted market prices (Level 1 inputs).

Note 4—Receivables

**Accounts Receivable** - Accounts receivable at June 30, 2017, consisted of the following:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tenant receivable (net of allowances of $555,785)</td>
<td>$492,873</td>

</tr>
<tr>
<td>FCRHA Olley Glen LP</td>
<td>Secured note bearing interest at 5% beginning on August 1, 2011 (0% until that date) and maturing August 1, 2051. Beginning May 1, 2012, interest and principal payments of $118,620 are due annually. Payment will be based on net cash flow and any amount not paid will be deferred and either paid with the next installment or deferred until sufficient net cash flow allows for payment or until maturity.</td>
<td>2,050,000</td>
</tr>
</tbody>
</table>

Less current notes
Noncurrent notes receivable

Mortgages Receivable - Under the Authority’s Home Improvement Loan Program, qualified County residents who are unable to obtain financing from commercial sources may be loaned funds by the Authority. At June 30, 2017, long-term home improvement loans receivable under this program were $26,440 bearing interest at varying rates up to 3%.

Other Receivables - Other receivables are funds provided for initial project costs, such as new site investigations, architectural and engineering plans, studies, etc. The initial costs are anticipated to be recovered from permanent project financing upon completion.
Note 4—Receivables (continued)

The following table provides a reconciliation of the notes, mortgages and other receivables to the statement of net position at June 30, 2017:

<table>
<thead>

On August 29, 1996, on behalf of the Little River Glen project, the Authority issued Federal Housing Authority insured mortgage revenue bonds with an original principal amount of $6,340,000, and interest rates, which vary between 4.65% and 6.10%, with final payment due September 1, 2026, to advance refund the Elderly Bonds, Series 1989A, with an original principal amount of $6,120,000 and interest rate of 8.95%. The land, buildings, and equipment of the Little River Glen project are pledged as security for the bonds. The old bonds were fully redeemed in fiscal year 1999.

In August 1997, on behalf of Herndon Harbor House I Limited Partnership, the Authority issued tax-exempt revenue bonds with a principal amount totaling $2,875,000 and interest rate of 6.35% with final payment due July 1, 2027. The land, building, and equipment of the Herndon Harbor House I Limited Partnership are pledged as security for the bonds. Proceeds from the bonds were loaned to the Herndon Harbor House I Limited Partnership to finance a portion of the cost for the acquisition, construction, and equipping of the rental facility.

In May 1999, on behalf of Herndon Harbor House II Limited Partnership, the Authority issued Series 1999A Multifamily Housing Revenue Bonds with a principal amount totaling $2,000,000. The Series A, 1999 term bonds have an original principal amount of $225,000 with an interest rate of 4.875% with final payment due May 1, 2009. The Series A, 1999 term bond has an original principal payment amount of $1,775,000 with an interest rate of 6% with final payment due May 1, 2029. The land, building, and equipment of the Herndon Harbor House II Limited Partnership are pledged as security for the bonds. Proceeds from the bonds were loaned to the Herndon Harbor House II Limited Partnership to finance a portion of the cost for the acquisition, construction, and equipping of the rental facility.

In April 1998, on behalf of Castellani Meadows Limited Partnership, the Authority issued tax-exempt revenue bonds with a principal amount totaling $1,700,000 and an interest rate of 5.25% with final payment due March 1, 2028. Prior to March 1, 2001, a principal payment in the amount of $825,000 was due, at which time the interest rate changed to 6.15% per annum. The land, building, and equipment of the Castellani Meadows Limited Partnership are pledged as security for the bonds. Proceeds from the bonds were loaned to the Castellani Meadows Limited Partnership to finance a portion of the cost for the acquisition, construction, and equipping of the rental facility.

In March 2007, on behalf of Cedar Ridge Limited Partnership, the Authority issued a tax-exempt multi-family housing revenue bond with a principal amount totaling $13,200,000 and an interest rate of 5.984% with final payment due October 1, 2048. Interest only is payable monthly through November 1, 2008. Beginning on December 1, 2008, monthly payments of principal and interest of $72,481 are payable until the maturity date of the note. The note is collateralized by a first deed of trust on the rental property of the Cedar Ridge Limited Partnership. Proceeds from the bonds were loaned to the Cedar Ridge Limited Partnership to finance a portion of the cost for the acquisition, construction, and equipping of the rental facility.

In August 2008, on behalf of the FCRHA Olley Glen Limited Partnership, the Authority issued a tax-exempt multi-family housing revenue bond with a principal amount totaling $12,220,000 and an average coupon rate of 5.37% with final payment due August 1, 2051. Interest only is payable monthly through July 1, 2011. Beginning August 1, 2011, monthly payments of principal and interest of $28,455 are payable until the maturity date of the note. The note is collateralized by a first deed of trust on the senior rental property of the FCRHA Olley Glen Limited Partnership. Proceeds from the bonds were loaned to the FCRHA Olley Glen Limited Partnership to finance a portion of the cost for acquisition, construction, and equipping of the senior facility.

Note 8—Tax credit limited partnerships

The tax credit program is the result of Federal legislation that allows investors certain incentives for investing in low-income housing. Under terms of the federal tax code and extended use agreements with the State of Virginia, the buildings must continue to serve the targeted population for 30 years; after 15 years the Authority has the option to purchase the property from the partnership.

Tax Credit Limited Partnerships are created to finance and own affordable housing. The Authority acts as Managing General Partner of each partnership. Although each tax credit limited partnership is structured differently, they are generally financed via loans to the partnership, contributions of equity by the general and limited partners, and other sources. In some transactions, the Authority issues bonds and loans the proceeds to the tax credit limited partnership. Tax-exempt bond issuances are secured by the underlying partnership real estate and, in some cases, by the general revenues of the Authority. The Authority may receive grant funds or other loans to assist in purchasing the properties and in preserving affordability within the projects.
The Authority is empowered by the Commonwealth of Virginia to issue tax-exempt bonds on behalf of qualified businesses to develop or rehabilitate low income housing within the County. Principal and interest on the tax-exempt bonds is paid entirely by the owners of the properties, which have entered into binding contracts to develop or rehabilitate the subject property. The terms of the tax-exempt bonds stipulate that neither the Authority nor the County guarantee the repayment of principal and interest to the bondholders. The bondholders’ sole remedy in the event of default on the tax-exempt bonds is the subject property and third-party beneficiaries. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2017, the cumulative total of bonds outstanding under the Authority’s name was $21,324,146.

From 1996 through 2004, the FCRHA issued a total of $26,290,000 of lease revenue bonds for the purpose of financing the construction, renovation, and expansion of Mott Community Center, and Gum Springs Community Center, Baileys Community Center, the construction of Herndon Harbor II Adult Day Care Center, and Gum Springs Glen Head Start facility for child care and James Lee Community Center. In March 2010, the Economic Development Authority issued $43,390,000 of lease revenue bonds to current refund and advance refund for Mott Community Center, Gum Springs Community Center, Baileys Community Center, and Herndon Harbor II Adult Day Care Center. As of June 30, 2017, the balance of the Gum Springs Glen Head Start facility for child care was $986,555. As the County is responsible, under the related documents and subject to annual appropriation, to make payments to a trustee sufficient to pay principal and interest on these bonds, the related transactions, including the liability for these bonds, have been recorded in the County’s financial statements and not on those of the FCRHA.

On February 16, 2006, the FCRHA issued a $40,600,000 bond anticipation note (BAN) to partially finance the purchase of a multi-family rental housing complex as part of the County’s affordable housing initiative. The note matured on February 15, 2007, and was repaid through the issuance of another note and funding available in the County’s Penny for Affordable Housing capital projects fund. On February 13, 2007, the FCRHA issued the $40,465,000 refunding BAN. The note matured on February 12, 2008, and was repaid through the issuance of a long-term note and funding available in the County’s Penny for Affordable Housing capital projects fund. In February 2008, the FCRHA issued a $37,615,000 refunding BAN. The long-term note matured on March 1, 2013. In May 2011, the FCRHA issued $28,905,000 of bond anticipation notes to current refund $30,215,000 of outstanding Series 2008A bond anticipation notes. In February 2013, the FCRHA issued $24,650,000 of bond anticipation notes to current refund $26,725,000 of outstanding Series 2011 bond anticipation notes. In February 2015, the FCRHA authorized securing a taxable direct bank loan of $18.5 million to current refund of $21.47 million of current outstanding Series 2013 bond anticipation notes. The loan matures on March 1, 2018.

On November 28, 2007, the FCRHA issued a $105,485,000 bond anticipation note to finance a portion of the purchase price of a multi-family rental housing property as part of the County’s affordable housing initiative. On October 6, 2008, the FCRHA issued the $104,105,000 refunding bond anticipation note. The note bore interest at 2.44% and matured on October 1, 2009 and was repaid through the issuance of revenue bonds and refunding available in the County’s Penny for Affordable Housing capital project fund. On August 20, 2009, the FCHRA issued $94,950,000 of lease revenue bonds to repay a portion of an outstanding series 2008B bond anticipation note. The Bond bears an average interest rate of 4.53% and matures on October 1, 2039. As the County is responsible, under the related documents and subject to appropriation, to pay the principal and interest on the note at maturity, the related transactions, including the liability for the note, have been recorded in the County’s financial statements and not in those of the FCRHA. The note is not a general obligation debt of the County, and the full faith and credit of the County is not pledged to the note.
Note 9—Conduit debt (continued)

On March 26, 2015, the FCRHA issued $13,000,000 of Multifamily Housing Revenue Bonds. The tax-exempt bonds have provided funding for construction of 120 unit project known as Residences at Government Center. The project is owned by Fairfax Corner Partners. FCRHA is a conduit issuer for these bonds and the bondholders will be paid solely from the project’s revenues.

Note 10—Contingencies

The Authority, as the general partner of the tax credit limited partnerships reported as discretely presented component units, is responsible for ensuring that the partnerships maintain the properties as qualified low income housing projects for a period of 15 years (the tax credit compliance period). In the event that the qualified status of the properties is not maintained for the full period of 15 years, the Authority is contingently liable for the payment of certain special distributions to the limited partners. The amount of these distributions, if any, is to be determined using a formula based on the amount of tax credits that are disallowed. The maximum amount of this distribution is not to exceed the amount contributed by the limited partners to the partnership, plus any penalties and interest costs incurred as a result of the disqualification.

The Authority originated various deferred loans to the limited partnerships to help build, acquire or rehabilitate properties. The funding source for these loans include the Federal Community Development Block Grant program, HOME program, and other County or FCRHA funds. The loans, along with accrued interest, are due and payable to the FCRHA well beyond the tax compliance period, year sixteen, of the partnerships. As a result, the loans are anticipated to be defeased at the end of the tax compliance period, as the partnership conveys to the Authority, as General Partner, the non-cash fair value of the property for the Authority’s use.

The Authority receives grant funds, principally from the federal government, for various programs. Certain expenses of these funds are subject to audit by the grantor and the reporting entity is contingently liable to refund amounts received in excess of allowable expenses. The management of the Authority believes that any possible disallowed expenses arising from such an audit, if any, would not have a material adverse impact on the Authority’s net position as of June 30, 2017.

Note 11—Risk management

The FCRHA is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and citizens; and natural disasters. For all of these risks, the FCRHA participates in the County’s insurance program, which includes self-insurance and the purchase of certain commercial insurance policies, the costs of which are borne by the County. There were no claim settlements in excess of insurance coverage in any of the past three fiscal years. Information regarding the County’s insurance program is available in the County’s Comprehensive Annual Financial Report for the fiscal year ended June 30, 2017.

Note 12—Retirement plans

Plan Description - Employees of the Authority are provided with pensions through the Fairfax County Employees’ Retirement System (ERS), a single-employer defined benefit pension plan which covers full-time and certain part-time employees of Fairfax County and component units of the County, who are not covered by other plans of the County or the Virginia Retirement System.
Note 12—Retirement plans (continued)

Benefits Provided - Benefit provisions are established and may be amended by County ordinances, including member contribution rates. All benefits vest at five years of creditable service. Members who were hired before January 1, 2013 may elect to join Plan A or Plan B, and members who were hired on or after January 1, 2013 may elect to join Plan C or Plan D. To be eligible for normal retirement, an individual must meet the following criteria: (a) attain the age of 65 with five years of creditable service, (b) for Plans A and B, attain the age of 50 with age plus years of creditable service being greater than or equal to 80, or (c) for Plans C and D, attain the age of 55 with age plus years of service being greater than or equal to 85. The normal retirement benefit is calculated using average final compensation (i.e., the highest 78 consecutive two week pay periods or the highest 36 consecutive monthly pay periods) and years (or partial years) of creditable service at date of termination. In addition, if normal retirement occurs before Social Security benefits are scheduled to begin, an additional monthly benefit is paid to retirees. The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. Those who commenced employment on or after January 1, 2013, may not use more than 2,080 hours of accrued sick leave toward service credit for retirement or DROP entry. The benefit for early retirement is actuarially reduced and payable at early termination.

Effective July 1, 2005, a Deferred Retirement Option Program (DROP) was established for eligible members of the ERS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0% per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual cost-of-living adjustment provided for retirees.

Contributions - All contribution requirements for ERS are established and may be amended by County ordinances, including member contribution rates. Plan A and Plan C require member contributions of 4.0% of compensation up to the Social Security wage base and 5.33% of compensation in excess of the wage base. Plan B and Plan D require member contributions of 5.33% of compensation. The County establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The County is required to contribute at an actuarially determined rate; the rate for the year ended June 30, 2017 was 22.90%. Since the ERS’s adjusted funded ratio (the ratio of the sum of the actuarial value of assets and commitments already made to fund change to the actuarial accrued liability) fell below 90%, the contribution rate includes a margin to amortize this shortfall back to the 90% level. For fiscal year 2017 the amortization target was increased to 97%. Per the County’s pension funding policy as approved by the Board of Supervisors as part of the FY 2017 Adopted Budget Plan and incorporated in the Fairfax County Code, the County will continue increasing the amortization target so that, at or before fiscal year 2020, 100% of the unfunded actuarial accrued liability is amortized and included in the contribution rate. The employer contribution made during the measurement period of the liability was $2,515,234. The 2017 employer contribution totaled $2,781,412.

Net Pension Liability - The ERS calculated Total Pension Liability based on participant data collected as of December 31, 2015 and an actuarial valuation as of June 30, 2016, using the entry age actuarial cost method, with a measurement date of June 30, 2016. The proportionate share for the Authority is 1.6146%. At June 30, 2017, the Authority reported a liability of $24,644,244 for its proportionate share of the net pension liability.
Note 12—Retirement plans (continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions -
For the year ended June 30, 2017, the Authority recognized pension expense of $2,938,076. At June 30, 2017, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<table>
<thead>
<tr>
<th>Description</th>
<th>Deferred Outflows of Resources</th>
<th>Deferred Inflows of Resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>Differences between expected and actual experience</td>
<td>$</td>
<td>$ 1,486,301</td>
</tr>
<tr>

<td>(110,123)</td>
</tr>
</tbody>
</table>

Actuarial Assumptions - The ERS calculated Total Pension Liability based on participant data collected as of December 31, 2015 and an actuarial valuation as of June 30, 2016, using the entry age actuarial cost method, with a measurement date of June 30, 2016. Significant actuarial assumptions used in the valuation included:

- Inflation: 3.0%
- Salary increases, including inflation: 3.0% + merit
- Investment rate of return, net of plan investment expenses: 7.25%
- Projected period of unfunded benefit payments: None
- Municipal bond rate: N/A
Note 12—Retirement plans (continued)

Mortality rates with adjustments for mortality improvements were based on the RP 2000 Mortality tables projected to 2015 using Scale AA.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic long-term real rates of return for each major asset class included in the ERS’s target asset allocation as of June 30, 2017, are summarized below.

<table>

</tbody>
</table>

*Discount Rate* - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that County contributions will be made according to the County’s stated policy. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. A schedule of funding progress can be found in the required supplementary information section of the report.

*Sensitivity of the Authority’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate* - The following presents the Authority’s proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the authority share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

- 62.1% 
- 70.2% 
- 77.5%

Pension Plan Fiduciary Net Position - The retirement system is considered a part of the County’s reporting entity and the system’s financial statements are included in the County’s basic financial statements as a trust fund.

Information concerning ERS as a whole, including pension plan’s fiduciary net position, is available in the County CAFR for the fiscal year ended June 30, 2017. Additionally, the ERS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Employees’ Retirement System, 12015 Lee Jackson Memorial Highway, Suite 350, Fairfax, Virginia 22033, or by calling (703) 279-8200. The reports are also available online:

Fairfax County CAFR: [http://www.fairfaxcounty.gov/finance/transparencyresources.htm](http://www.fairfaxcounty.gov/finance/transparencyresources.htm)

Note 13—Other postemployment benefits

The Fairfax County OPEB Trust Fund is a single-employer defined benefit plan administered by Fairfax County. The County provides medical/dental, vision, and life insurance benefits to eligible retirees and their spouses. In order to participate, retirees must have reached the age of 55 or be on disability retirement and must have health benefit coverage in a plan provided by the County. Retirees must have five years of service in order to participate in this program. Beginning in fiscal year 2004, the amount of monthly subsidy provided by the County is based on years of service and ranges from $30 per month to $220 per month.

Retirees receiving the subsidy prior to fiscal year 2004 are grandfathered at $100 per month unless their years of service entitle them to receive a higher monthly subsidy.

In addition, the Board of Supervisors has established a program to subsidize the continuation of term life insurance, at reduced coverage amounts, for retirees. Retirees generally pay for 50% of their coverage amounts at age-banded premium rates, with the County incurring the balance of the cost. Benefit provisions are established and may be amended by the Board of Supervisors.
Note 13—Other postemployment benefits (continued)

The contributions to the OPEB Trust Fund are established and may be amended by the Board of Supervisors. The contributions are typically based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits. GASB Statement No. 45 requires recognition of the current expense of OPEB based on each governing body’s annual required contribution, but does not require funding of the related liability. Expenditures for postretirement health care benefits are recognized when the County charges the Authority. The OPEB expense charged to the Authority in FY 2017 was $137,374.

Costs and related liability, if any, are recorded by the County. The County’s annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. Data concerning the ARC specifically applicable to employees of the Authority are not available. Information concerning the County’s OPEB Trust Fund as a whole is available in the County’s June 30, 2017 Comprehensive Annual Financial Report.

Note 14—Change in accounting principle, change in reporting entity

Change in Reporting Entity - The Authority previously reported Tavenner Lane L.P. real estate partnership as a discretely presented component unit in which it was the general partner. Due to the expiration of the initial fifteen year tax credit compliance period for the Limited Partnership in December 2011, the investor Limited Partner expressed a desire to assign their interests to the Authority. The Authority now controls the entire partnership interest for this partnership and has therefore considered it to be a blended component unit in accordance with GASB 61 guidance. The partnership has a December 31 year-end, so amounts included for the entity are as of and for the year end that falls within the year ended June 30, 2017. Beginning net position has been restated to include equity of $1,412,840 for this partnership.

</tr>
</tbody>
</table>
Note 14—Change in accounting principle, change in reporting entity (continued)

Change in Accounting Principle - During 2017, three of the Authority’s blended component units (Herndon Harbor House I, FCRHA HCDC One (Stonegate), and Castellani Meadows) and four of the Authority’s discretely presented component units (Gum Springs Glen, Herndon Harbor House II, Olley Glen, and Cedar Ridge) adopted the provisions of Accounting Standards Update 2015-03, Interest-Imputation of Interest, Simplifying the Presentation of Debt Issuance Costs (“ASU 2015-03”), which modifies the presentation of debt issuance costs and the related amortization. The change in accounting under ASU 2015-03 improves the reporting of debt issuance costs by no longer reporting them as assets. It also improves the reporting of the related amortization by including it as a component of the interest expense. ASU 2015-03 has been adopted by the Authority on a retrospective basis.

Report of Independent Auditor on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Supervisors
County of Fairfax, Virginia

The Board of Commissioners
Fairfax County Redevelopment and Housing Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the business-type activities, and the aggregate discretely presented component units of the Fairfax County Redevelopment and Housing Authority (the “Authority”), a component unit of the County of Fairfax, Virginia as of and for the year ended June 30, 2017, and the related notes to the financial statements and have issued our report thereon dated November 17, 2017. Our report includes a reference to other auditors who audited the financial statements of six blended component units and the discretely presented component units, as described in our audit report on the Authority’s financial statements. This report does not include the results of the other auditor’s testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of six of the blended component units (Herndon Harbor House I, FCRHA HCDC One (Stonegate), FCRHA HCDC Two (Murraygate), The Green, Castellani Meadows, Tavenner Lane), and four of the discretely presented component units (Gum Springs Glen, Herndon Harbor House II, Morris Glen and Olley Glen) were not audited in accordance with Government Auditing Standards.

Internal Control over Financial Reporting
In planning and performing our audit of the financial statements, we considered the County’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.
Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control that we consider to be significant deficiencies:

**Capital Asset – Significant Deficiency**

**Criteria:** When a property is purchased it should be recorded as an asset if the intended use is to either use the property internally or conduct resale of the property in the future.

**Condition:** For the year ended June 30, 2017, the Authority purchased two properties, which were improperly expensed rather than recorded as an asset, which resulted in an understatement of assets and an overstatement of expenses of $559,520.

**Cause:** During the year the Authority purchased two separate properties and did not know whether the properties would meet the requirements of the FCRP program and be capitalized or if they did not meet the requirements would be recorded instead as property held for resale. The properties were expensed until the Authority determined whether or not the requirements for the FCRP program were met; the determination was not made before year end, so the assets were not recorded as an asset at year end.

**Effect:** At June 30, 2017, assets were understated and expenses were overstated by $559,520 which resulted in net position being understated by $559,520.

**Recommendation:** We recommend that the Authority put in a place a policy surrounding the purchase of property to ensure that the properties that are purchased are recorded as an asset, and then when the determination is made as to the use of the property the asset either be transferred to property held for resale or capitalized.

**Management's Response:** Housing and Community Development will initiate a policy on capital assets that complies with Fairfax County’s Capital Asset Policy and strengthens the technical review of asset acquisitions, capitalization of assets, and will adhere to the County TECO process for substantially completed projects.

**FCRP/3rd Party Oversight – Significant Deficiency**

**Criteria:** The Authority should have appropriate oversight over the third party managed properties and the Fairfax County Rental Program (“FCRP”) that includes those properties to ensure that all entries are appropriately recorded on the properties before they are consolidated into FCRP.

**Condition:** For the year ended June 30, 2017, the Authority had the following three adjustments where entries were not properly recorded on the third party managed properties:

- Depreciation expense was not recorded for the year by the third party management company for Mount Vernon Gardens, a privately managed property, which is included in the Rental Program Fund. This resulted in an overstatement of assets and an understatement of expenses of $72,542.
- A note payable was improperly recorded on a privately managed property’s trial balance for a note payable that did not exist based on the financial statements received by the third party management company. This resulted in an overstatement of liabilities and expenses of $90,500.
- Bank reconciliations were not properly performed for Wedgewood, a privately managed property within the Rental Program fund. Revenue was deposited into the bank and was erroneously excluded from the Wedgewood financial statements. This resulted in an understatement of cash and deferred revenues of $55,749.
**Cause:** There are multiple properties included in the Fairfax County Rental Program that are managed by third parties. Those third parties submit their financial information at year end to the Authority for inclusion in FCRP, and the third party financial statements do not conform with the correct accounting or format needed for producing the FCRP financial statements. There is no prescribed template from the Authority for the way that the information should be submitted to ensure that the data received is entered appropriately, which resulted in the information being entered incorrectly. The third party financial statements are also not audited, and thus need greater technical oversight for the information being provided.

**Effect:** At June 30, 2017, assets were overstated by $72,542, liabilities were overstated by $139,422, and expenses were overstated by $66,880, which resulted in net position being understated by $66,880.

**Recommendation:** We recommend that the Authority allocate greater resources for the technical review of FCRP and the information from third party managed properties. We further recommend that the Authority put a procedure in place for third party managed properties for how they want the financial information to be received and that it be reviewed regularly to ensure that all appropriate entries have been made and that balances agree to supporting documentation.

**Management’s Response:** Housing and Community Development will strengthen the financial review process for third party managed properties. Appropriate resources will be deployed to assure the proper technical oversight and review of the accounting activities performed by these third party managed properties to include ongoing financial review of their trial balances and statements. In addition, procedures will be developed and a template will be created to assure financial information received from third party managed properties is presented correctly for financial reporting purposes and overall compliance of accounting policies and GAAP are performed.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under Government Auditing Standards:

**State and Local Statement of Economic Interest**

**Criteria:** Section 2.2-3115(A) of the Code of Virginia requires persons holding positions of trust appointed or employed by the governing body, if the governing body has passed an ordinance requiring them to file, must file a State and Local Statement of Economic Interest (“SOEI”) with the office of the Virginia Conflict of Interest and Ethics Advisory Council (the “Council”) annually by January 15th.

Further, Section 2.2-3115(A) and (B) of the Code of Virginia specifies that certain members, listed below, of local entities must file a Financial Disclosure Statement with the Council annually by January 15th:

- Members of the governing body of any authority established in a county or city with the power to issue bonds or expend funds in excess of $10,000 in any fiscal year, unless required to file the SOEI by the governing body of the appointing jurisdiction.

- Non-salaried citizen members of local boards, commissions and councils if the governing body has designated them to file.
Condition: We noted the following instance of incomplete submissions:

- SOEI – Of eleven (11) forms selected for testing, one (1) form was incomplete.

Cause: Completed statements not filed in accordance with the regulations.

Effect: Non-compliance may result in action by the Commonwealth.

Recommendation: Local government officials should complete the required filings in accordance with prescribed requirements.

Management’s Response: Management concurs with this finding. As a result of the controls adopted last year, there has been significant improvement in forms submission and the completeness of the submitted forms. As identified in the prior year, additional controls were added to improve compliance with the filing requirements, and we continue to strive to obtain 100% compliance with these requirements.

The Authority’s Response to Findings
The Authority’s response to the findings identified in our audit is described above. The Authority’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report
The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
