<div align="center">

2019 COMMUNICATIONS VEHICLE RALLY
SCHEDULE OF EVENTS

</div>

The primary communications channel for Rally Control will be 8TAC93D.

The gates to the Fairfax County Police Driver Training facility will open @ 0530 for rally staff only. Rally staff will be at the gates directing personnel to their assigned locations.

SCHEDULE:

0530   Fairfax Team will arrive on 8TAC93 and begin Rally operations

0545   Security personnel take position at the entrance to the Driver Training Facility (communications between entry gates and Rally Control should take place on 8TAC93D)

0600   Logistics resources arrive to finalize setup of tables, chairs, ice, food, etc. Logistics communications are assigned to FX COORD D6.

0600 – 0830   **Rally gates open for rally participants. Participants and participant vehicles arrive at Fairfax County Police Driver Training Facility and are directed to parking locations. <u>Drivers shall check in with Rally Control utilizing 8TAC93D</u>**

     NOTE: Participant vehicles can proceed onto the track to staging; POVs are to park on the grass to the left or right of the entrance gate but are not allowed near the event unless the driver is handicapped. If they are dropping off food or supplies, they can proceed to the even and drop off the food or supplies, and then move vehicles back to the POV parking. POVs cannot stay parked on the track at the event.

0745   Fairfax County Vehicle Rally officially starts and the webpage: http://www.fairfaxcounty.gov/rally goes live. If you have access to the Internet, you will see live streaming video of the rally as it unfolds. There will actually be two links on the web page. One link will take you to the ground based camera. The second link will take you to the helicopter feed. That second feed will only be active when the helicopter is airborne and streaming video. Currently, the helicopter's schedule is to fly over the track at 0900 for approximately 15 minutes.

0800   Opening Remarks – Mr. Charlie Locke Fairfax County Radio/Wireless Service Center Manager.

0800   Set up NCR radio cache static display to demonstrate the capabilities of the cache

0800	Fairfax County OEM has created a WEB EOC event! The incident name is: "**Comms Rally 6-28-2019**"
0800	Set up VIDEO / WiFi for viewing on various command vehicles - DIT
0900	Fairfax One Demonstration of Video Downlink Capabilities
0930	Communications Exercise; Roll Call- Task Force 1 and Task Force 2
On Going	Inter Device Demonstration – between iPhone/iPad/or Android device to trunked radio system- EPTT
1100	Lunch begins
1100-1400	Open House/Networking
1400	Rally event closes. Participant vehicles are encouraged to remain in place and not begin teardown until 1330 at the earliest.

The following activities will be set up and personnel will be standing by to answer any/all questions about how each aspect of communications interoperability works. If there is a specific time that an event is scheduled, there will be a time next to the event. Otherwise, the event will be continuously available to observe and ask questions.

- Static displays of participant vehicles and equipment

- NCR radio cache demonstrating the capabilities of the cache

- VIDEO / WiFi will be displayed on numerous command vehicle monitors. Video provided by camera mounted on one vehicle and controlled by Fairfax County DIT.

- Ongoing Inter Device Demonstration – between iPhone/iPad/or Android device to trunked radio system
