AUDIT FINDINGS

NARRATIVE

The PREA audit of the Fairfax County Juvenile Detention Center (FCJDC) was conducted on March 16-17, 2016. This audit was conducted by certified PREA Auditor, Bryan Henry. Prior to the on-site portion of the audit, the Pre-Audit Questionnaire, FCJDC PREA policies, memorandums of understanding, training procedures and other PREA related documentation were sent via priority mail. A thorough review of all documentation provided occurred prior to the on-site portion of the audit.

This Auditor wishes to extend his deepest appreciation to all of the staff at FCJDC for their professionalism, hospitality and kindness during the onsite audit process.

On March 16, 2016, an entrance meeting was held with Mr. Jamaine Arvin, PREA compliance manager, Mr. Jason Houtz, Superintendent and myself to discuss what I would need to complete during my visit. During this meeting the Auditor was given a most recent population report, and list of staff who would be working for the next two days. The Auditor's schedule was discussed in regard to a necessary facility tour followed by staff, and resident interviews. Based on the current population of the facility on March 16, 2016 (33), it was determined by the Auditor that a random sample of 10 residents would be interviewed. One of the randomly selected residents was Limited English Proficient and an interpreter was utilized to complete this interview. No residents currently at FCJDC openly identified themselves as lesbian, gay, bi-sexual, transgender or intersex.

A tour of the facility was conducted by Mr. Arvin and Mr. Houtz for the Auditor. During the audit, the Auditor noticed numerous signage posted throughout the facility announcing that a PREA audit would be conducted in the facility on March 16-17, 2016. This tour included all areas the residents could occupy including housing units, administrative areas, educational areas, recreation areas, admissions area, medical area and community dining area. Throughout the facility were signage and posters stating the Zero Tolerance policy regarding sexual abuse and sexual harassment. All signage was posted in both English and Spanish. The camera surveillance room was also observed during the tour. FCJDC does not have any video surveillance in resident cells or any shower areas. Review of the surveillance system to identify potential blind spots was conducted, however the Auditor was unable to determine any blind spots or camera deficiencies. Throughout the tour the Auditor asked staff questions to ensure compliance.

As previously mentioned, 10 random sample resident interviews were conducted. Five direct care staff interviews were conducted, three supervisory staff interviews were conducted and, three contractor interviews were conducted. In addition to these interviews, also selected for interviews were the Agency Head, the Superintendent, the PREA Coordinator, facility PREA Compliance Manager, Assistant Superintendent responsible for monitoring retaliation, Nurse, and a human resources staff.

At the conclusion of the Auditor’s on site visit a exit meeting was held with the Superintendent to discuss the findings.
DESCRIPTION OF FACILITY CHARACTERISTICS

The Fairfax County Juvenile Detention Center (FCJDC) is a 121 bed secure juvenile detention center housing 33 residents on March 16, 2016. The building is comprised of a lobby, administrative offices, conference room, admissions area, camera monitoring area, resident’s property storage, dining area, gymnasium, classrooms, two outside courtyards, and housing units.

FCJDC has a total of eleven housing units to which female and male residents are separated; only five of the housing units are currently occupied. Each housing unit is comprised of eleven individual cells, a common area, a bathing area, and a private meeting area. Each resident is provided their own individual cell. The bathing area has two shower stalls where each is blocked by a curtain which provides the residents with the opportunity to bathe without being viewed. Meals are provided for all residents in the community dining area. Opportunity for large muscle exercise is afforded to each resident through the gymnasium or one of the two outside courtyard areas, weather permitting.

FCJDC conducts all administrative investigations by facility staff, which includes supervisory staff, PREA compliance manager, Assistant Superintendent and Superintendent. All criminal investigations are referred to Fairfax County Police Department for investigation. At the time of the visit a memorandum of agreement (MOU), between Fairfax County Juvenile and Domestic Relations District, Court Services Unit and the Fairfax County Police Department was in the process of final approval but had not yet been finalized.
SUMMARY OF AUDIT FINDINGS

The Pre-Audit Questionnaire was received by the Auditor on March 8, 2016. The supporting policies and other necessary documentation was received by the Auditor on March 11, 2016. All documentation was reviewed prior the on-site portion of the audit. Review of the Pre-Audit Questionnaire revealed that all policies and procedures were in order. Review of the policies, procedures and related documentation required some revision but otherwise was complete and in order. Upon arrival, notification signs of an audit being conducted were posted in the lobby and all housing areas.

The on-site audit was conducted on March 16-17, 2016, with a resident population of 33 on the day of arrival. Following a meeting with the Superintendent and PREA Compliance Manager, a facility tour was conducted. Throughout the tour, residents in the program were observed to be under constant supervision of direct care staff. All resident housing areas had PREA related information posted in multiple languages. While the third party reporting was not as clearly posted, this information was given to residents through resident orientation manuals. While on-site it was recommended by the Auditor to clearly post this information on the housing units in a more observable manner. This suggestion was taken and rectified by day two of the on-site audit. Review of the living units showed that the residents have reasonable privacy during shower times and are out of view of other residents. Review of the security room showed cameras being monitored. FCJDC does not have any cameras in resident cells therefore staff can’t observe residents using the facilities. The camera system did not show any blatant blind spots or deficiencies.

During the two day on-site audit, 10 residents were randomly selected to be interviewed. Of these ten, one was limited English proficient and required a translator which was provided by FCJDC. A total of 18 staff members were selected for interviews. The majority of the resident interviews revealed that residents were knowledgeable of PREA, the facilities zero tolerance policy regarding sexual abuse and sexual harassment, and methods of reporting allegations of sexual abuse and sexual harassment. In regard to the staff interviews, they were knowledgeable of PREA, the facilities policies and procedures regarding sexual abuse and sexual harassment. The staff was able to verbalize their responsibilities regarding reporting PREA related incidents. Training records of direct care staff, supervisory staff and contractors, showed an indication of that staff receiving PREA training and ongoing annual PREA training. Supervisory staff records indicated training regarding investigations of sexual abuse, sexual harassment and appropriate responses to these allegations.

FCJDC was found to be in full compliance with regard to all applicable PREA standards.

FCJDC currently utilizes a staffing policy and procedure that adheres to all elements of this standard. FCJDC currently utilizes a 1:8 staffing ratio during waking hours and a 1:16 ratio during sleeping hours. Policy and procedure requires that any deviation to this policy require documentation and explanation. FCJDC had not deviated from this staffing plan at the time of the audit. These staffing ratios currently exceed the minimum requirements set forth in the standard based on the fact that it is not yet mandated to implement these ratios until October 1, 2017. Documentation of annual reviews regarding discussion of the staffing plan in coordination with the Superintendent and PREA Coordinator was reviewed. This annual review is done as part of the annual self-audit required of the Virginia Department of Juvenile Justice Regulatory Standards. In addition to these annual reviews, bi-monthly meetings are held with the PREA Compliance Manager and all Supervisors to discuss the staffing plan.

FCJDC also utilizes a video monitoring system in addition to direct staff supervision to deter sexual abuse and sexual harassment of residents. All cameras were in working order and provided adequate coverage within and outside of the facility on the date of the on-site visit.

Documentation and numerous interviews of direct care staff indicated that unannounced rounds are being conducted by intermediate and upper level staff at a minimum of once per shift.

Staff and residents indicated during interviews that cross-gender searches, viewing and searches to determine genital status do not occur.

FCJDC employs a procedure for staff of opposite gender than is indicated for the housing unit to knock before entering that unit. Once on the unit, staff is to announce that a male/female is on the unit. Prior to entering any housing unit a sign is posted instructing staff to knock and announce the presence of staff of the opposite gender.

FCJDC conducts training in how to conduct cross gender pat down searches and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible during their annual Handle With Care training. This training certification was observed throughout staff training records.

During random interviews, staff members were able to explain facility protocols and procedures regarding the report of alleged sexual abuse or sexual harassment.

Fairfax County Police Department will conduct all criminal investigations alleged to occur within the facility. FCJDC also has attempted to enter into an MOU with County Victim Services to provide resident access to outside support services and victim advocacy. These services include confidential, emotional support related to sexual abuse and/or harassment to victims as well as residents who fear retaliation for reporting. Residents at the FCJDC receive comprehensive age appropriate orientation of the facilities zero tolerance policy and how to report sexual abuse and sexual harassment at the time of intake. Residents are given on going PREA education in the form of a video which is shown on the housing units weekly. Residents are provided a PREA brochure which also outlines to whom and how to report allegations of sexual abuse and sexual harassment. In addition, resident handbooks are available for review on all housing units. Following orientation residents sign acknowledgement of receipt of the outlined training which is then maintained in the resident’s case file.

Review of resident’s files and resident interviews verified residents are receiving adequate orientation of the facility PREA procedures and zero tolerance policy. Some resident interviews revealed some limited knowledge of outside victim’s advocacy services. This limited knowledge prompted this Auditor to inform the PREA Compliance Manager of such limited knowledge.
