Fairfax, Virginia 22035-5504
703-222-0801, TTY 711

The Uniform Statewide Building Code requires that all buildings to be renovated or demolished shall be inspected for the presence of asbestos containing materials. The asbestos inspection must be performed by a licensed Asbestos Inspector. This form is to be completed by the owner of the building or an authorized agent before issuance of any building permit. This is required for all buildings built prior to 1985. Copies of this form are unacceptable and original signatures are required.

Certification:

(Please print with black or blue ink only)

I, _____, am the owner/authorized agent of the building listed below and I certify that the building has been inspected for the presence of asbestos in accordance with the Uniform Statewide Building Code.

Address: _____ Floor: _____ Suite: _____

- No asbestos containing material found in affected portion of building.
- Asbestos containing material found in affected portion of building. I further certify that the abatement area will not be reoccupied until all required response actions have been completed and final clearances have been measured and found to be within regulated tolerances.

Signature: _____ Date: _____

Printed Name: _____ Title: _____

The asbestos inspection requirement does not apply to single-family dwellings, or to residential housing with four or fewer units, unless the renovation or demolition of such buildings is for commercial or public development purposes.
