

RECYCLING RIGHT IN FAIRFAX COUNTY

The curbside recycling bin program is designed to collect specific materials. The list below includes recyclable items you should always place in the bin. Keep them *loose, clean, and dry* – never in plastic bags. Placing unaccepted material or wet, dirty, sticky items in the bin reduces the recyclability of other material. You may leave lids and labels on containers. If you are unsure if something is recyclable in the bin, remember, “When in doubt, throw it out.” To avoid creating litter, use a lidded container. Private collection companies who serve our community take recyclables to sorting facilities. These facilities often have different lists of acceptable items for recycling. The items below are universally accepted and should ALWAYS be placed in the recycling bin.

ALWAYS PLACE IN THE CURBSIDE RECYCLING BIN

PLASTIC BOTTLES

AND CARDBOARD

**For specialty items such as food containers like tubs, clamshells and other plastics, please contact your hauler.*

Glass bottles and jars placed in the curbside bin currently pass through the sorting process as waste. That is anticipated to change as recycling companies upgrade their sorting equipment. For now the best option for recycling glass bottles and jars is to bring them to purple, glass-only containers located in Fairfax County, Alexandria, Arlington, and Prince William County.

Reduce waste by purchasing fewer single-use products.

The *I-66 transfer station* in Fairfax and the *I-95 landfill complex* in Lorton accept phones and electronics, paint, batteries, household hazardous waste, scrap metal, cooking oil, motor oil, and much more. Proper disposal of this material protects collection workers and the environment.
