

# Step Up 4 Kids

**Make a Difference for Children  
Who Witness Domestic Violence**

**Did you know children who live with  
domestic violence can face significant  
challenges in life?**

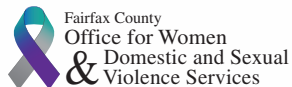

They are at increased risk of experiencing other forms of abuse, are more likely than their peers to be violent or to become victims of domestic violence themselves, and are prone to depression and substance abuse issues. But you can make a difference, and you don't even need any special skills.

Wear these purple shoelaces as a symbol of your willingness to promote healing, safety, and resiliency in a child victim of domestic violence.

## Thanks for Stepping Up!
